28. **Retention of Records:** Records for non-expendable property purchased totally or partially with grantor funds must be retained for three years after its final disposition. All other pertinent grant records including financial records, supporting documents and statistical records shall be retained for a minimum of three years after the final expenditure report. However, if any litigation, claim or audit is started before the expiration of the three year period, then records must be retained for three years after the litigation, claim or audit is resolved.
29. **Suspension or Termination of Funding:** DOS may suspend, in whole or in part, and/or terminate funding for or impose another sanction on a subrecipient for any of the following reasons:
- Failure to comply substantially with requirements or statutory objectives of the 2003 Omnibus Appropriations Act issued there under, or other provisions of Federal Law;
 - Failure to adhere to the requirements, standard conditions or special conditions;
 - Proposing or implementing substantial program changes to the extent that, if originally submitted, the application would not have been approved for funding;
 - Failure to submit reports;
 - Filing a false certification in this application or other report or document;
 - Other good cause shown.
30. **Utilization and Payment of Grant Funds:** Funds awarded are to be expended only for purposes and activities covered by the subrecipient's approved project plan and budget. Items must be in the subrecipient's approved grant budget in order to be eligible for reimbursement.
31. **Utilization of Minority Businesses:** Subrecipients are encouraged to utilize qualified minority firms where cost and performance of major contract work will not conflict with funding or time schedules.
32. **Written Approval of Changes:** Any mutually agreed upon changes to this sub grant must be approved, in writing, by DOS prior to implementation or obligation and shall be incorporated in written amendments to this grant. This procedure

for changes to the approved sub grant is not limited to budgetary changes, but also includes changes of substance in project activities and changes in the project director or key professional personnel identified in the approved application.

Reporting Requirement: Typing of Equipment and Training:

Ongoing HSGP Guidance, FOA, and NOFAs require that all where applicable grantees report equipment purchases and the typed capability the equipment supports (where such typing guidance exists); the number of people trained in a given capability to support a reported number of defined resource typed teams (e.g., 63 responders were trained in structural collapse to support 23 Type 2 USAR Teams); and the total number of a defined type of resource and capabilities built utilizing the resources of this grant. Grantees will specify the number of resources, capability supported, whether it is a NIMS or State/local typed resource, the cost, and whether the resource sustains current capabilities or adds new capabilities. The resources should be reported only after equipment is delivered or after training has occurred and the corresponding grant funds have been expended. GMU will advise further on format for reporting upon grant award.

As a condition of the receipt of these funds:

Funding may be suspended or terminated for filing a false certification in this application or other reports or document as part of this program.

Tracking of Equipment:

Upkeep, maintenance, and training of and for equipment procured as part of the Homeland Security grant program is a local and/or grantee responsibility. The inventory of this equipment is a local responsibility and the recipient of such understands that inspections, auditing, and inventory accounting of this equipment may occur as a condition of this grant either from Federal, State or other appropriate level agency and agent.

Equipment valued over \$5,000:

To comply with OMB 2 CFR 200 equipment valued at this level must inventoried and tracked locally and be reported to the State Department of Safety (DOS) – Grants Management Unit for 2 years or until the item carries a depreciated value of less than \$250. The disposition of the equipment must be reported. DOS recommends consulting with local auditor's compliance and disposition rules governing equipment procured with Federal funds.

Certification by Official Authorized to Sign

I certify that I understand and agree to comply with the general and fiscal provisions of this grant application including the terms and conditions; to comply with provisions of the regulations governing these funds and all other federal and state laws; that all information presented is correct; that there has been appropriate coordination with affected agencies; that I am duly authorized by the Applicant to perform the tasks of the Official Authorized to Sign as they relate to the requirements of this grant application; that costs incurred prior to Grantee approval may result in the expenditures being absorbed by the subrecipient; and, that the receipt of these grant funds through the Grantee will not supplant state or local funds. CERTIFICATION: I CERTIFY THAT I AM DULY AUTHORIZED UNDER THE STATUTES OF THE STATE OF NH TO APPLY FOR, AUTHORIZE, OR ACCEPT THE HOMELAND SECURITY GRANT FUNDS / EQUIPMENT HEREIN. *THE AUTHORIZING OFFICIAL MUST BE STATUTORILY ALLOWED TO SIGN A CONTRACT FOR THE MUNICIPALITY (i.e. Mayor, City Manager, Town Manager, Chairperson BOS, etc.) PER RSA 31:95b or RSA 37:6**

Non-Supplanting Certification: This certification, which is a required component of the New Hampshire application, affirms that federal Homeland Security grant funds will be used to **supplement** (add to) existing funds, and will not **supplant** (replace) funds that have been locally appropriated for the same purpose. Potential supplanting will be addressed in the application review as well as in the pre-award review, post award monitoring, and the audit. DHS/FEMA I.B. 379 allows as well as FP-205-402-125-1 which apply to maintenance and sustainment of grant or in some cases non- grant acquired capabilities with specific definitions. Applicants and/or grantees will be/may be required to supply documentation certifying that a reduction in non-federal resources occurred for reasons OTHER than the receipt or expected receipt of federal Homeland Security grant funds. Supplanting funds is loosely defined (for these purposes) as using federal grant money to “replace” or “take the place of” existing local funding for equipment or programs. The funds are intended to provide local entities with **increased or in 2016 sustained capabilities** or to build capacity to address CBRNE/WMD terrorist incidents.
