EXPLANATION

Doppelmayr USA, Inc. (Doppelmayr) is our sole source aerial tramway major system repair contractor, is one of just two primary lift contractors with offices in North America, and runs the only known aerial tramway repair division within all of the Americas. Doppelmayr has built and installed the majority of Cannon's aerial lifts and has performed of the major aerial tramway system work over the last two decades. Additionally, Doppelmayr owns Frey Stan electrical, which comprises all of the Tramway's primary electrical and safety systems. Doppelmayr is very aware of our on-site systems and topography, and works seamlessly with our existing team.

When the Cannon Mountain Aerial Tramway was constructed in 1980, it was advised that a carriage system overhaul be completed every 12 years. The State obtained an updated engineering report from Ross Stevens, P.E. and based upon the results of the report, and the recommendations of Doppelmayr, it was determined that a carriage teardown project be completed every 10 years. The last carriage teardown project was completed in 2009. With the guidance of Doppelmayr and the concurrence of the NH Tramway Safety Board (May 27, 2020), we are instead contracting for the carriage teardown project this fall. A conflict with Doppelmayr's schedule bumped this project from 2019 to 2020.

Utilization of the Cannon Mountain Capital Improvement fund for this project as well as others was recommended by the Cannon Mountain Advisory Commission on April 5 2019, concurred by the

Director of Parks and Recreation and the Commissioner of Natural and Cultural Resources, and approved by the Capital Budget Overview Committee on April 22, 2019 and the Governor and Executive Council on June 5, 2019, Item #90-A.

The Attorney General's Office has reviewed and approved this contact as to form, substance and execution.

Respectfully submitted,

ryce Philip A. Director

Concurred,
