

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

CHRISTOPHER D. CLEMENT, SR.
COMMISSIONER

JEFF BRILLHART, P.E.
ASSISTANT COMMISSIONER

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

October 1, 2013
Bureau of Aeronautics

REQUESTED ACTION

Authorize the Department of Transportation to provide funding to the Pease Development Authority (Vendor Code 156846) for SBG-16-03-2013, Phase II efforts to restore airfield pavement and drainage systems that have been damaged by Alkali-Silica Reaction (ASR), conduct Runway 16-34 pavement repairs (5-year life extension), and perimeter roadway relocation at the Portsmouth International Airport at Pease. State and Federal participation in the amount of \$1,244,395.50 is effective upon Governor and Council approval through November 30, 2017. 94.74% Federal Funds, 5.26% General Funds.

Table with 2 columns: Funding description and FY 2014 amount. Rows include FAA Projects and Bonded Expenses for two different project codes, and a Total row.

EXPLANATION

The following is one Federal Aviation Administration (FAA) State Block Grant that has been awarded to the State of New Hampshire:

Table with 2 columns: FAA Grant Number and FAA Grant Amount. Row: 3-33-SBGP-019-2013, \$3,955,960.00

A total of \$1,178,901.00 (or 90% of the project cost) is proposed from the grant listed above for this airport development project (SBG-16-03-2013 copy attached), Phase II efforts to restore airfield pavement and drainage systems that have been damaged by Alkali-Silica Reaction (ASR), conduct Runway 16-34 pavement repairs (5-year life extension), and perimeter roadway relocation at the Portsmouth International Airport at Pease. This project will repair bituminous pavements and repair and seal drainage structures heaved and damaged by the action of ASR in the Portland Cement Concrete (PCC) pavements. In addition the project will relocate a portion of the airport perimeter road to a location outside the Taxiway Object Free Area (TOFA). The project will also repair runway edge joints

JOHN O. MORTON BUILDING • 7 HAZEN DRIVE • P.O. BOX 483 • CONCORD, NEW HAMPSHIRE 03302-0483
TELEPHONE: 603-271-3734 • FAX: 603-271-3914 • TDD: RELAY NH 1-800-735-2964 • INTERNET: WWW.NHDOT.COM

to extend the runway useful life an additional 5 years. This project is necessary to meet FAA rules and regulations to improve the operational safety at the airport. Phase I (base bid plus additive alternative #1), for \$2,043,402.50, was granted and approved by Governor and Council on September 4, 2013, Item # 104 (copy attached).

The cost breakdown for this project is as follows:

Sponsor Administration	\$ 11,835.50
Engineering	\$ 89,400.00
Resident Engineering	\$ 62,600.00
Construction (Continental Paving)	<u>\$1,146,054.50</u> (Additive Alternatives 2, 3 and 4)
Total	\$1,309,890.00

The Department of Transportation accepts the Federal Funds for this project as a pass through to the Pease Development Authority in accordance with RSA 422:15. The Pease Development Authority will participate in the amount of \$65,494.50 (5 % of this project). State participation in the amount of \$65,494.50 (5 % of this project) is also requested. The total cost of this phase of the airport development project is \$1,309,890.00.

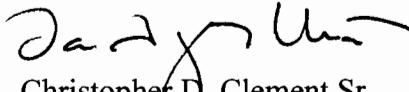

As a State agency, the Pease Development Authority is not obligated to procure insurance. Similarly, the indemnification requirement has been waived for this contract.

The Contract has been approved by the Attorney General as to form and execution, and the Department has verified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Please note that the state funds are from the General Fund and have been previously approved in HB25, 2011 253:1 XIV-A and 2009 145:1, XII- A, Capital Budget.

Sincerely,

Christopher D. Clement Sr.
Commissioner

Burlington, Massachusetts 01803

GRANT AGREEMENT
Part 1 - Offer

Date of Offer: SEP 10 2013

State of New Hampshire Block Grant

Project No.: 3-33-SBGP-019-2013

DUNS No.: 80-859-1697

TO: State of New Hampshire
(herein called the "Sponsor")

FROM: The United States of America (acting through the Federal Aviation Administration,
herein called the "FAA")

WHEREAS, the Sponsor has submitted to the FAA a Project Application dated August 13, 2013, for a grant of Federal funds for a project at or associated with the State of New Hampshire Block Grant which Project Application, as approved by the FAA, is hereby incorporated herein and made a part hereof; and

WHEREAS, the FAA has approved a project for the Airport (herein called the "Project") consisting of the following:

New Hampshire Block Grant Program (FY2013) includes:

- Discretionary funding for Laconia Municipal Airport to install a wildlife perimeter fence in the amount of \$282,631;
- Discretionary funding for Concord Municipal Airport to construct a parallel taxiway in the amount of \$2,494,428;
- Discretionary funding for Portsmouth International at Pease Airport to rehabilitate apron pavement in the amount of \$1,178,901;

all as more particularly shown in the project application.

NOW THEREFORE, pursuant to and for the purpose of carrying out the provisions of the Title 49, United States Code, herein called Title 49 U.S. C., and in consideration of (a) the Sponsor's adoption and ratification of the representations and assurances contained in said Project Application and its acceptance of this Offer as hereinafter provided, and (b) the benefits to accrue to the United States and the public from the accomplishment of the Project and compliance with the assurances and conditions as herein provided, THE FEDERAL AVIATION ADMINISTRATION, FOR AND ON BEHALF OF THE UNITED STATES, HEREBY OFFERS AND AGREES to pay, as the United States share of the allowable costs incurred in accomplishing the Project, 90 percent of such costs.

The Offer is made on and subject to the following terms and conditions:

Conditions

1. The maximum obligation of the United States payable under this offer shall be \$3,955,960.00. For the purposes of any future grant amendments which may increase the foregoing maximum obligation of the United States under the provisions of Section 47108(b) of the Title 49 U.S.C., the following amounts are being specified for this purpose.

\$00.00	for planning
\$3,955,960.00	for airport development or noise program implementation.

2. The allowable costs of the project shall not include any costs determined by the FAA to be ineligible for consideration as to allowability under Title 49 U.S.C.

3. Payment of the United States share of the allowable project costs will be made pursuant to and in accordance with the provisions of such regulations and procedures as the Secretary shall prescribe. Final determination of the United States share will be based upon the final audit of the total amount of allowable project costs and settlement will be made for any upward or downward adjustments to the Federal share of costs.

4. The sponsor shall carry out and complete the Project without undue delays and in accordance with the terms hereof, and such regulations and procedures as the Secretary shall prescribe, and agrees to comply with the assurances which were made part of the project application.

5. The FAA reserves the right to amend or withdraw this offer at any time prior to its acceptance by the sponsor.

6. This offer shall expire and the United States shall not be obligated to pay any part of the costs of the project unless this offer has been accepted by the sponsor on or before September 17, 2013, or such subsequent date as may be prescribed in writing by the FAA.

7. The sponsor shall take all steps, including litigation if necessary, to recover Federal funds spent fraudulently, wastefully, or in violation of Federal antitrust statutes, or misused in any other manner in any project upon which Federal funds have been expended. For the purposes of this grant agreement, the term "Federal funds" means funds however used or disbursed by the sponsor that were originally paid pursuant to this or any other Federal grant agreement. It shall obtain the approval of the Secretary as to any determination of the amount of the Federal share of such funds. It shall return the recovered Federal share, including funds recovered by settlement, order or judgment, to the Secretary. It shall furnish to the Secretary, upon request, all documents and records pertaining to the determination of the amount of the Federal share or to any settlement, litigation, negotiation, or other efforts taken to recover such funds. All settlements or other final positions of the sponsor, in court or otherwise, involving the recovery of such Federal share shall be approved in advance by the Secretary.

8. The United States shall not be responsible or liable for damage to property or injury to persons which may arise from, or be incident to, compliance with this grant agreement.

9. Buy American Requirement: Unless otherwise approved by the FAA, the sponsor will not acquire or permit any contractor or subcontractor to acquire any steel or manufactured products produced outside the United States to be used for any project for airport development or noise compatibility for which funds are provided under this grant. The Sponsor will include in every contract a provision implementing this special condition.

10. Central Contractor Registration and Universal Identifier Requirements:

A. Requirement for Central Contractor Registration (CCR)

Unless you are exempted from this requirement under 2 CFR 25.110, you as the recipient must maintain the currency of your information in the CCR until you submit the final financial report required under this award or receive the final payment, whichever is later. This requires that you review and update the information at least annually after the initial registration, and more frequently if required by changes in your information or another award term.

B. Requirement for Data Universal Numbering System (DUNS) Numbers

If you are authorized to make subawards under this award, you:

1. Must notify potential subrecipients that no entity (see definition in paragraph C of this award term) may receive a subaward from you unless the entity has provided its DUNS number to you.
2. May not make a subaward to an entity unless the entity has provided its DUNS number to you.

C. Definitions

For purposes of this award term:

1. Central Contractor Registration (CCR means the Federal repository into which an entity must provide information required for the conduct of business as a recipient. Additional information about registration procedures may be found at the CCR Internet site (currently at <http://www.ccr.gov>).

2. Data Universal Numbering System

(DUNS) number means the nine-digit number established and assigned by Dun and Bradstreet, Inc. (D&B) to uniquely identify business entities. A DUNS number may be obtained from D&B by telephone (currently 866-705-5711) or the Internet (currently at <http://fedgov.dnb.com/webform>).

3. Entity, as it is used in this award term, means all of the following, as defined at 2 CFR part 25, subpart C:

- a. A Governmental organization, which is a State, local government, or Indian Tribe;
- b. A foreign public entity;
- c. A domestic or foreign nonprofit organization;
- d. A domestic or foreign for-profit organization; and
- e. A Federal agency, but only as a subrecipient under an award or subaward to a non-Federal entity.

4. Subaward:

a. This term means a legal instrument to provide support for the performance of any portion of the substantive project or program for which you received this award and that you as the recipient award to an eligible subrecipient.

b. The term does not include your procurement of property and services needed to carry out the project or program (for further explanation, see Sec. 210 of the attachment to OMB Circular A-133, 'Audits of States, Local Governments, and Non-Profit Organizations'). A subaward may be provided through any legal agreement, including an agreement that you consider a contract.

5. Subrecipient means an entity that:

- a. Receives a subaward from you under this award; and
- b. Is accountable to you for the use of the Federal funds provided by the subaward.
- c. A subaward may be provided through any legal agreement, including an agreement that you consider a contract.

11. It is mutually understood and agreed that if, during the life of the project, the FAA determines that the maximum grant obligation of the United States exceeds the expected needs of the Sponsor by \$25,000.00 or five percent (5%), whichever is greater, the maximum obligation of the United States can be unilaterally reduced by letter from the FAA advising of the budget change. Conversely, if there is an overrun in the total actual eligible and allowable project costs, FAA may increase the maximum grant obligation of the United States to cover the amount of the overrun not to exceed the statutory percent limitation and will advise the Sponsor by letter of the increase. It is further understood and agreed that if, during the life of the project, the FAA determines that a change in the grant description is advantageous and in the best interests of the United States, the change in grant description will be unilaterally amended by letter from the FAA. Upon issuance of the aforementioned letter, either the grant obligation of the United States is adjusted to the amount specified or the grant description is amended to the description specified.

12. In accordance with Section 47108(b) of the Act, as amended, the maximum obligation of the United States, as stated in Condition No. 1 of this Grant Offer:

- a. may not be increased for a planning project;
- b. may be increased by not more than 15 percent for development projects;
- c. may be increased by not more than 15 percent for land projects.

13. **ELECTRONIC GRANT PAYMENT(S):** The requirements set forth in these terms and conditions supersede previous financial invoicing requirements for FAA grantees. Each payment request under this grant agreement must be made electronically via the Delphi eInvoicing System for Department of Transportation (DOT) Financial Assistance Awardees. The following are the procedures for accessing and utilizing the Delphi eInvoicing System.

a. **Grant Recipient Requirements.**

- (1) Grantees must have Internet access to register and submit payment requests through the Delphi eInvoicing system unless, under limited circumstances, a waiver is granted by the FAA and DOT under section (c) below.
- (2) Grantees must submit payment requests electronically and the FAA will process payment requests electronically.

b. **System User Access.**

- (1) Grantees must contact the FAA Airports District/Regional Office and officially submit a written request to sign up for the system. The FAA Office of Airports will provide the grantee's name, email address and telephone number to the DOT Financial Management Office. The DOT will then invite the grantee via email to sign up for the system and require the grantee to complete two forms. The grantee will complete a web based DOT registration form and download the Proof of Identification form to verify the grantee's identity.
- (2) The grantee must complete the Proof of Identification form, and present it to a Notary Public for verification. The grantee will return the notarized form to:
DOT Enterprise Services Center
FAA Accounts Payable, AMZ-100
PO Box 25710
Oklahoma City, OK 73125
- (3) The DOT will validate the both forms and email a user ID and password to the grantee. Grantees should contact the FAA Airports District/Regional Office with any changes to their system information.

Note: Additional information, including access forms and training materials, can be found on the DOT eInvoicing website (<http://www.dot.gov/cfo/delphi-einvoicing-system.html>).

c. **Waivers.** DOT Financial Management officials may, on a case by case basis, waive the requirement to register and use the electronic grant payment system based on user requests and concurrence of the FAA. Waiver request forms can be obtained on the DOT eInvoicing website (<http://www.dot.gov/cfo/delphi-einvoicing-system.html>) or by contacting the FAA Airports District/Regional Office. Recipients must explain why they are unable to use or access the Internet to register and enter payment requests.

- (1) All waiver requests should be sent to the FAA Airports District/Regional Office for concurrence, prior to sending to the Director of the Office of Financial Management, US Department of Transportation, Office of Financial Management, B-30,

room W93-431, 1200 New Jersey Avenue SE, Washington DC 20590-0001,
DOTElectronicInvoicing@dot.gov. The Director of the DOT Office of Financial Management
will confirm or deny the request within approximately 30 days.

- (2) If a grantee is granted a waiver, the grantee should submit all hard-copy
invoices directly to:
- DOT/FAA
 - PO Box 25082
 - AMZ-110
 - Oklahoma City, OK 73125

14. Trafficking Persons:

a. Provisions applicable to a recipient that is a private entity.

1. You as the recipient, your employees, subrecipients under this award, and subrecipients' employees may not--
 - i. Engage in severe forms of trafficking in persons during the period of time that the award is in effect;
 - ii. Procure a commercial sex act during the period of time that the award is in effect; or
 - iii. Use forced labor in the performance of the award or subawards under the award.
2. We as the Federal awarding agency may unilaterally terminate this award, without penalty, if you or a subrecipient that is a private entity -
 - i. Is determined to have violated a prohibition in paragraph a.1 of this award term; or
 - ii. Has an employee who is determined by the agency official authorized to terminate the award to have violated a prohibition in paragraph a.1 of this award term through conduct that is either-- February 19, 2008.
3. A. Associated with performance under this award; or B. Imputed to you or the subrecipient using the standards and due process for imputing the conduct of an individual to an organization that are provided in 2 CFR part 180, "OMB Guidelines to Agencies on Governmentwide Debarment and Suspension (Nonprocurement)," as implemented by our agency at 49 CFR Part 29.

b. Provision applicable to a recipient other than a private entity. We as the Federal awarding agency may unilaterally terminate this award, without penalty, if a subrecipient that is a private entity--

1. Is determined to have violated an applicable prohibition in paragraph a.1 of this award term; or
2. Has an employee who is determined by the agency official authorized to terminate the award to have violated an applicable prohibition in paragraph a.1 of this award term through conduct that is either--
 - i. Associated with performance under this award; or
 - ii. Imputed to the subrecipient using the standards and due process for imputing the conduct of an individual to an organization that are provided in 2 CFR part 180, "OMB Guidelines to Agencies on Governmentwide Debarment and Suspension (Nonprocurement)," as implemented by our agency at 49 CFR Part 29.

c. Provisions applicable to any recipient.

1. You must inform us immediately of any information you receive from any source alleging a violation of a prohibition in paragraph a.1 of this award term.
2. Our right to terminate unilaterally that is described in paragraph a.2 or b of this section:
 - i. Implements section 106(g) of the Trafficking Victims Protection Act of 2000 (TVPA), as amended (22 U.S.C. 7104(g)), and
 - ii. Is in addition to all other remedies for noncompliance that are available to us under this award.
3. You must include the requirements of paragraph a.1 of this award term in any subaward you make to a private entity.

15. It is understood and agreed that all sub-grants issued under this block grant agreement will be in accordance with the federal participation rate of up to 90%.

The Sponsor's acceptance of this Offer and ratification and adoption of the Project Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and this Offer and Acceptance shall comprise a Grant Agreement, as provided by Title 49 U.S.C., constituting the contractual obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Project and compliance with the assurances and conditions as provided herein. Such Grant Agreement shall be effective upon the Sponsor's acceptance of this Offer.

CERTIFICATE OF SPONSOR'S ATTORNEY

I, Brian Buonamano, acting as Attorney for the Sponsor do hereby certify:
(Attorney's Name Printed)

That in my opinion the Sponsor is empowered to enter into the foregoing Grant Agreement under the laws of the State of New Hampshire. Further, I have examined the foregoing Grant Agreement and the actions taken by said Sponsor and Sponsor's official representative has been duly authorized and that the execution thereof is in all respects due and proper and in accordance with the laws of the said State and the Act. In addition, for grants involving projects to be carried out on property not owned by the Sponsor, there are no legal impediments that will prevent full performance by the Sponsor. Further, it is my opinion that the said Grant Agreement constitutes a legal and binding obligation of the Sponsor in accordance with the terms thereof.

Dated at Concord this 13 day of September, 2013.

GRANT AGREEMENT
PART I – OFFER

September 19, 2013

Date of Offer

Portsmouth International Airport at Pease

Airport Name/Planning Area

SBG-16-03-2013

Project No.

62-009-4771

DUNS No.

TO: Pease Development Authority
(herein called the "Sponsor")

FROM: The State of New Hampshire (acting through the New Hampshire Department of Transportation, herein called the "State")

WHEREAS, the Sponsor has submitted to the State a Project Application dated May 13, 2013 for a grant of federal and state funds for a project at or associated with the Portsmouth International Airport at Pease, which Project Application, as approved by the State, is hereby incorporated herein and made a part hereof; and

WHEREAS, the State has approved a project for the Portsmouth International Airport at Pease (herein called the "Project") consisting of the following:

Airfield Pavement and Drainage System Restoration from ASR Damage; Runway 16-34 Pavement Repairs (life extension); Perimeter Roadway Relocation from TOFA – Phase II

all as more particularly described in the Project Application.

NOW THEREFORE, pursuant to and for the purpose of carrying out the provisions of Title 49, United States Code, as amended, herein called "the Act," and in consideration of (a) the Sponsor's adoption and ratification of the representations and assurances contained in said Project Application and its acceptance of this Offer as hereinafter provided, and (b) the benefits to accrue to the United States, State of New Hampshire, and the public from the accomplishment of the Project and compliance with the assurances and conditions as herein provided, **THE NEW HAMPSHIRE DEPARTMENT OF TRANSPORTATION, FOR AND ON BEHALF OF THE UNITED STATES AND THE STATE, HEREBY OFFERS AND AGREES** to pay, as the United States' and State's shares of the allowable costs incurred in accomplishing the Project, 95 per centum thereof.

This Offer is made on and **SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:**

CONDITIONS

1. The maximum obligation of the United States and State payable under this Offer shall be \$1,244,395.50. For the purposes of any future grant amendments which may increase the foregoing maximum obligations of the United States and State under the provisions of Section 47108(b) of the Act, the following amounts are being specified for this purpose:

\$0.00 for planning

\$1,244,395.50 for airport development or noise program implementation.

2. The allowable costs of the project shall not include any costs determined by the State to be ineligible for consideration as to allowability under the Act.

3. Payment of the United States' and State's shares of the allowable project costs will be made pursuant to and in accordance with the provisions of such regulations and procedures as the State shall prescribe. Final determination of the United States' and State's shares will be based upon the final audit of the total amount of allowable project costs and settlement will be made for any upward or downward adjustments to the Federal and State shares of costs.

4. The Sponsor shall carry out and complete the Project without undue delays and in accordance with the terms hereof, and such regulations and procedures as the United States Secretary of Transportation shall prescribe, and agrees to comply with the assurances which were made part of the project application.

5. The State reserves the right to amend or withdraw this offer at any time prior to its acceptance by the Sponsor.

6. This offer shall expire and the United States and the State shall not be obligated to pay any part of the costs of the project unless this offer has been accepted by the Sponsor on or before October 19, 2013 or such subsequent date as may be prescribed in writing by the State.

7. The Sponsor shall take all steps, including litigation if necessary, to recover Federal and State funds spent fraudulently, wastefully, or in violation of Federal and State antitrust statutes, or misused in any other manner in any project upon which Federal and State funds have been expended. For the purposes of this grant agreement, the terms "Federal funds" and "State funds" mean funds however used or dispersed by the Sponsor that were originally paid pursuant to this or any other State grant agreement. It shall obtain the approval of the State as to any determination of the amount of the Federal and State shares of such funds. It shall return the recovered Federal and State shares, including funds recovered by settlement, order, or judgment, to the State. It shall furnish to the State, upon request, all documents and records pertaining to the determination of the amount of the Federal and State shares or to any settlement, litigation, negotiation, or other efforts taken to recover such funds. All settlements or other final positions of the Sponsor, in court or otherwise, involving the recovery of such Federal and State shares shall be approved in advance by the State.

8. Neither the United States nor the State shall be responsible or liable for damage to property or injury to person which may arise from, or be incident to, compliance with this grant agreement. Notwithstanding the foregoing,

nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant shall survive the termination of this Agreement.

9. Notwithstanding anything in this agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds, and in no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of those funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to terminate this agreement immediately upon giving the Sponsor notice of such termination. In any event neither the State or United States shall be required to transfer funds from any other grant, program or account in the event funds under this grant are reduced or become unavailable.

10. If the date for commencement precedes the Effective Date, all services performed by the Sponsor between the commencement date and the Effective Date shall be performed at the sole risk of the Sponsor and in the event that this Agreement does not become effective, the State shall be under no obligation to pay the Sponsor for any costs incurred or services performed; however that if this Agreement becomes effective all costs incurred prior to the effective date shall be paid under the terms of this Agreement.

11. The Sponsor shall not assign, or otherwise transfer any interest in this Agreement without the prior written consent of the State. None of the Services shall be delegated or subcontracted by the Sponsor without the prior written consent of the State.

12. This agreement, which may be executed in a number of counterparts, each of which shall be deemed an original, constitutes the entire agreement and understanding between the parties, and supersedes all prior agreements and understanding both written and verbal relating hereto.

13. By signing this form, the Sponsor certifies that the Sponsor has complied with any public meeting requirement for acceptance of this grant, including, if applicable, RSA 31:95-b.

14. Central Contractor Registration and Universal Identifier Requirements:

A. Requirement for Central Contractor Registration (CCR)

Unless you are exempted from this requirement under 2 CFR 25.110, you as the recipient must maintain the currency of your information in the CCR until you submit the final financial report required under this award or receive the final payment, whichever is later. This requires that you review and update the information at least annually after the initial registration, and more frequently if required by changes in your information or another award term.

B. Requirement for Data Universal Numbering System (DUNS) Numbers

If you are authorized to make subawards under this award, you:

1. Must notify potential subrecipients that no entity (see definition in paragraph C of this award term) may receive a subaward from you unless the entity has provided its DUNS number to you.
2. May not make a subaward to an entity unless the entity has provided its DUNS number to you.

C. Definitions

For purposes of this award term:

1. Central Contractor Registration (CCR means the Federal repository into which an entity must provide information required for the conduct of business as a recipient. Additional information about registration procedures may be found at the CCR Internet site (currently at <http://www.ccr.gov>).
2. Data Universal Numbering System (DUNS) number means the nine-digit number established and assigned by Dun and Bradstreet, Inc. (D&B) to uniquely identify business entities. A DUNS number may be obtained from D&B by telephone (currently 866-705-5711) or the Internet (currently at <http://fedgov.dnb.com/webform>).
3. Entity, as it is used in this award term, means all of the following, as defined at 2 CFR part 25, subpart C:
 - a. A Governmental organization, which is a State, local government, or Indian Tribe;
 - b. A foreign public entity;
 - c. A domestic or foreign nonprofit organization;
 - d. A domestic or foreign for-profit organization; and

- e. A Federal agency, but only as a subrecipient under an award or subaward to a non-Federal entity.
4. Subaward:
- a. This term means a legal instrument to provide support for the performance of any portion of the substantive project or program for which you received this award and that you as the recipient award to an eligible subrecipient.
 - b. The term does not include your procurement of property and services needed to carry out the project or program (for further explanation, see Sec. 210 of the attachment to OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations").
 - c. A subaward may be provided through any legal agreement, including an agreement that you consider a contract.
5. Subrecipient means an entity that:
- a. Receives a subaward from you under this award; and
 - b. Is accountable to you for the use of the Federal funds provided by the subaward.

15. **BUY AMERICAN REQUIREMENT:** Unless otherwise approved by the State, the Sponsor will not acquire or permit any contractor or subcontractor to acquire any steel or manufactured products produced outside the United States to be used for any project for airport development or noise compatibility for which funds are provided under this grant. The Sponsor will include in every contract a provision implementing this special condition.

16. **PAVEMENT MAINTENANCE MANAGEMENT PROGRAM:** For a project to replace or reconstruct pavement at the airport, the Sponsor shall implement an effective airport pavement maintenance management program as is required by Airport Sponsor Assurance Number C-11. The Sponsor shall use such program for the useful life of any pavement constructed, reconstructed, or repaired with federal financial assistance at the airport. As a minimum, the program must conform with the provisions outlined below:

PAVEMENT MAINTENANCE MANAGEMENT PROGRAM

An effective pavement maintenance management program is one that details the procedures to be followed to assure that proper pavement maintenance, both preventive and repair, is performed. An airport sponsor may use any form of inspection program it deems appropriate. The program must, as a minimum, include the following:

a. **Pavement Inventory.** The following must be depicted in an appropriate form and level of detail:

- (1) location of all runways, taxiways, and aprons;
- (2) dimensions;
- (3) type of pavement, and;
- (4) year of construction or most recent major rehabilitation.

For compliance with the Airport Improvement Program (AIP) assurances, pavements that have been constructed, reconstructed, or repaired with federal financial assistance shall be so depicted.

b. **Inspection Schedule.**

- (1) **Detailed Inspection.** A detailed inspection must be performed at least once a year. If a history of recorded pavement deterioration is available, i.e., Pavement Condition Index (PCI) survey as set forth in Advisory Circular 150/5380-6, "Guidelines and Procedures for Maintenance of Airport Pavements," the frequency of inspections may be extended to three years.
- (2) **Drive-By Inspection.** A drive-by inspection must be performed a minimum of once per month to detect unexpected changes in the pavement condition.

c. **Record Keeping.** Complete information on the findings of all detailed inspections and on the maintenance performed must be recorded and kept on file for a minimum of five years. The types of distress, their locations, and remedial action, scheduled or performed, must be documented. The minimum information to be recorded is listed below:

- (1) inspection date,
- (2) location,

- (3) distress types, and
- (4) maintenance scheduled or performed.

For drive-by inspections, the date of inspection and any maintenance performed must be recorded.

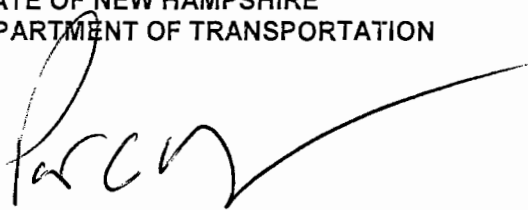

- d. **Information Retrieval.** An airport sponsor may use any form of record keeping it deems appropriate, so long as the information and records produced by the pavement survey can be retrieved to provide a report to the FAA as may be required.
- e. **Reference.** Refer to Advisory Circular 150/5380-6, "Guidelines and Procedures for Maintenance of Airport Pavements," for specific guidelines and procedures for maintaining airport pavements and establishing an effective maintenance program. Specific types of distress, their probable causes, inspection guidelines, and recommended methods of repair are presented.

17. **PROJECTS WHICH CONTAIN PAVING WORK IN EXCESS OF \$250,000:** The Sponsor agrees to perform the following:

- a. Furnish a construction management program to the State prior to the start of construction which shall detail the measures and procedures to be used to comply with the quality control provisions of the construction contract, including, but not limited to, all quality control provisions and tests required by the Federal specifications. The program shall include as a minimum:
 - (1) The name of the person representing the Sponsor who has overall responsibility for contract administration for the project and the authority to take necessary actions to comply with the contract.
 - (2) Names of testing laboratories and consulting engineer firms with quality control responsibilities on the project, together with a description of the services to be provided.
 - (3) Procedures for determining that testing laboratories meet the requirements of the American Society of Testing and Materials standards on laboratory evaluation, referenced in the contract specifications (D 3666, C 1077).
 - (4) Qualifications of engineering supervision and construction inspection personnel.
 - (5) A listing of all tests required by the contract specifications, including the type and frequency of tests to be taken, the method of sampling, the applicable test standard, and the acceptance criteria or tolerances permitted for each type of test.
 - (6) Procedures for ensuring that the tests are taken in accordance with the program, that they are documented daily, and that the proper corrective actions, where necessary, are undertaken.
- b. Submit at completion of the project, a final test and quality control report documenting the results of all tests performed, highlighting those tests that failed or that did not meet the applicable test standard. The report shall include the pay reductions applied and the reasons for accepting any out-of-tolerance material. An interim test and quality control report shall be submitted, if requested by the State.
- c. Failure to provide a complete report as described in paragraph b, or failure to perform such tests, shall, absent any compelling justification, result in a reduction in Federal participation for costs incurred in connection with construction of the applicable pavement. Such reduction shall be at the discretion of the State and will be based on the type or types of required tests not performed or not documented and will be commensurate with the proportion of applicable pavement with respect to the total pavement constructed under the grant agreement.
- d. The State, at its discretion, reserves the right to conduct independent tests and to reduce grant payments accordingly if such independent tests determine that sponsor test results are inaccurate.

The Sponsor's acceptance of this Offer and ratification and adoption of the Project Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and this Offer and Acceptance shall comprise a Grant Agreement, as provided by the Act, constituting the contractual obligations and rights of the State and the Sponsor with respect to the accomplishment of the Project and compliance with the assurances and conditions as provided herein. Such Grant Agreement shall become effective upon the Sponsor's and the New Hampshire Governor and Council's acceptance of this Offer.

CERTIFICATE OF SPONSOR'S ATTORNEY

I, LYNN MARIE BINDER, acting as Attorney for the Sponsor do hereby certify:

That in my opinion the Sponsor is empowered to enter into the foregoing Grant Agreement under the laws of the State of NEW HAMPSHIRE. Further, I have examined the foregoing Grant Agreement and the actions taken by said Sponsor and Sponsor's official representative has been duly authorized and that the execution thereof is in all respects due and proper and in accordance with the laws of the said State and the Act. In addition, for grants involving projects to be carried out on property not owned by the Sponsor, there are no legal impediments that will prevent full performance by the Sponsor. Further, it is my opinion that the said Grant Agreement constitutes a legal and binding obligation of the Sponsor in accordance with the terms thereof.

<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
Item 3. Does this assistance request require clearinghouse review in accordance with OMB Circular A-95?	(Attach Comments)
<input checked="" type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<i>WFO 5-20-2013</i>
Item 4. Does this assistance request require State, local, regional, or other planning approval?	Name of Approving Agency Date / /
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
Item 5. Is the proposed project covered by an approved comprehensive plan?	Check One: State <input type="checkbox"/> Local <input checked="" type="checkbox"/> Regional <input type="checkbox"/> Location of plan Update of AMP on file at the FAA
<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
Item 6. Will the assistance requested serve a Federal installation?	Name of Federal Installation Federal Population benefiting from Project
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
Item 7. Will the assistance requested be on Federal land or installation?	Name of Federal Installation Location of Federal Land Percent of Project
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
Item 8. Will the assistance requested have an impact or effect on the environment?	See instructions for additional information to be provided.
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
Item 9. Will the assistance requested cause the displacement of individuals, families, businesses, or farms?	Number of: Individuals Families Businesses Farms
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
Item 10. Is there other related Federal assistance on this project previous, pending, or anticipated?	See instructions for additional information to be provided.
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	

PART II – SECTION C

The Sponsor hereby represents and certifies as follows:

1. Compatible Land Use. – The Sponsor has taken the following actions to assure compatible usage of land adjacent to or in the vicinity of the airport:

N/A

2. Defaults. – The Sponsor is not in default on any obligation to the United States or any agency of the United States Government relative to the development, operation, or maintenance of any airport, except as stated herewith:

None.

3. Possible Disabilities. – There are no facts or circumstances (including the existence of effective or proposed leases, use agreements or other legal instruments affecting use of the Airport or the existence of pending litigation or other legal proceedings) which in reasonable probability might make it impossible for the Sponsor to carry out and complete the Project or carry out the provisions of Part V of this Application, either by limiting its legal or financial ability or otherwise, except as follows:

None.

4. Consistency with Local Plans. – The project is reasonably consistent with plans (existing at the time of submission of this application) of public agencies that are authorized by the State in which the project is located to plan for the development of the area surrounding the airport. Yes

5. Consideration of Local Interest. – It has given fair consideration to the interest of communities in or near where the project may be located. Yes

6. Consultation with Users. In making a decision to undertake any airport development project under Title 49, United States Code, it has undertaken reasonable consultations with affected parties using the airport at which project is proposed. Yes

7. Public Hearings. – In projects involving the location of an airport, an airport runway or a major runway extension, it has afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport or runway location and its consistency with goals and objectives of such planning as has been carried out by the community and it shall, when requested by the Secretary, submit a copy of the transcript of such hearings to the Secretary. Further, for such projects, it has on its management board either voting representation from the communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project. N/A, not required.

8. Air and Water Quality Standards. – In projects involving airport location, a major runway extension, or runway location it will provide for the Governor of the state in which the project is located to certify in writing to the Secretary that the project will be located, designed, constructed, and operated so as to comply with applicable and air and water quality standards. In any case where such standards have not been approved and where applicable air and water quality standards have been promulgated by the Administrator of the Environmental Protection Agency, certification shall be obtained from such Administrator. Notice of certification or refusal to certify shall be provided within sixty days after the project application has been received by the Secretary. N/A

PART II – SECTION C (CONTINUED)

9. Exclusive Rights. – There is no grant of an exclusive right for the conduct of any aeronautical activity at any airport owned or controlled by the Sponsor except as follows:

None

10. Land. – (a) The sponsor holds the following property interest in the following areas of land* which are to be developed or used as part of or in connection with the Airport subject to the following exceptions, encumbrances, and adverse interests, all of which areas are identified on the aforementioned property map designated as Exhibit "A":

N/A

The Sponsor further certifies that the above is based on a title examination by a qualified attorney or title company and that such attorney or title company has determined that the Sponsor holds the above property interests.

(b) The Sponsor will acquire within a reasonable time, but in any event prior to the start of any construction work under the Project, the following property interest in the following areas of land* on which such construction work is to be performed, all of which areas are identified on the aforementioned property map designated as Exhibit "A":

Exhibit A reflects the ownership of all former Pease AFB lands. The Sponsor continues to operate the former Pease AFB as a civilian airport.

(c) The Sponsor will acquire within a reasonable time, and if feasible prior to the completion of all construction work under the Project, the following property interest in the following areas of land* which are to be developed or used as part of or in connection with the Airport as it will be upon completion of the Project, all of which areas are identified on the aforementioned property map designated as Exhibit "A":

None

NOTE: The following statement is substituted for the "title examination" statement above: "The sponsor certifies that the above is based on the Quitclaim Deeds dated 11/18/99, 1/28/04, & 10/13/05, all noted on Exhibit A and on file at the Rockingham County Registry of Deeds.

**State character of property interest in each area and list and identify for each all exceptions, encumbrances, and adverse interests of every kind and nature, including liens, easements, leases, etc. The separate areas of land need only be identified here by the area numbers shown on the property map.*

PART III – BUDGET INFORMATION – CONSTRUCTION

SECTION A – GENERAL

1. Federal Domestic Assistance Catalog No. 20-106
2. Functional or Other Breakout Airport Improvement Program

SECTION B - CALCULATION OF FEDERAL GRANT

COST CLASSIFICATION	Use only for revisions		Total Amount Required
	Latest Approved amount	Adjustment + or (-)	
1. Administration expense	\$	\$	\$ 34,025.50
2. Preliminary expense			81,600.00
3. Land, structures, right-of-way			
4. Architectural engineering basic fees			147,600.00
5. Other architectural engineering fees			41,400.00
6. Project inspection fees			184,100.00
7. Land development			
8. Relocation expenses			
9. Relocation payments to individuals and businesses			
10. Demolition and removal			
11. Construction and project improvement			2,972,114.50
12. Equipment			
13. Miscellaneous			
14. Total (Lines 1 through 13)			3,460,840.00
15. Estimated Income (if applicable)			
16. Net Project Amount (Line 14 minus 15)			3,460,840.00
17. Less: Ineligible Exclusions			
18. Add: Contingencies			
19. Total Project Amt. (Excluding Rehabilitation Grants)			3,460,840.00
20. Federal Share requested of Line 19 (90%)			3,114,756.00
21. Add Rehabilitation Grants Requested (100 percent)			
22. Total Federal grant requested (Lines 20 & 21)			3,114,756.00
23. Grantee share (5%)			173,042.00
24. Other shares (State 5%)			173,042.00
25. Total project (Lines 22, 23, & 24)	\$	\$	\$3,460,840.00

SECTION C - EXCLUSIONS

26. Classification	Ineligible for Participation (1)	Excluded from Contingency Provision (2)
a.	\$	\$
b.		
c.		
d.		
e.

g. Totals	\$	\$

SECTION D - PROPOSED METHOD OF FINANCING NON-FEDERAL SHARE

27. Grantee Share	\$
a. Securities	
b. Mortgages	
c. Appropriations (By Applicant)	173,042.00
d. Bonds	
e. Tax Levies	
f. Non Cash	
g. Other (Explain)	
h. Total - Grantee Share	173,042.00
28. Other Shares	
a. State	173,042.00
b. Other	
c. Total Other Shares	173,042.00
29. TOTAL	\$ 346,084.00

SECTION E - REMARKS

PART IV - PROGRAM NARRATIVE (ATTACH - SEE INSTRUCTIONS)

PART IV
PROGRAM NARRATIVE

(Suggested Format)

DEPARTMENT OF TRANSPORTATION - FEDERAL AVIATION ADMINISTRATION

OMB NO. 2120-0569

PROJECT: Construction of Airfield Pavement and Drainage System Restoration from ASR Damage; Relocate Perimeter Road Outside of TOFA; Repair Runway Joints

AIRPORT: Portsmouth International Airport at Pease

1. Objective:

Repair bituminous pavements and drainage structures heaved and damaged by the action of alkali silica reaction (ASR) in PCC pavements; Relocate a portion of the airport perimeter road to a location outside of the Taxiway Object Free Area (TOFA); Repair delaminating runway edge joints; Sealing of underground drainage pipe joints.

2. Benefits Anticipated:

Improved operational safety on paved aircraft movement and operational areas where heaving has occurred; Improved operational safety in aircraft operational areas on and around drainage structures that are heaved, damaged or in imminent danger of becoming damaged by ASR pavement forces; Improved operational safety by relocating a portion of the airport perimeter road to a location outside of the taxiway movement area; By repairing runway edge joints, improved safety during runway operations by reduction in possibility of FOD from delaminating joint materials; By sealing drainage pipe joints, a reduction in the possibility of sinkholes and possible pavement failure in aircraft operational areas.

3. Approach: (See approved Scope of Work in final Application)

Environmental Statement, DBE Statement, Statement of Coordination with Airport Users, Statement Regarding Coordination with State Agencies, and Exhibit A Certification all included in attached SECTION IV NARRATIVE.

4. Geographic Location:

Portsmouth International Airport at Pease
Latitude: 43° 04' 40.64" N
Longitude: 70° 49' 23.60" W

5. If Applicable, Provide Additional Information:

6: Sponsor's Representative: (incl. address & tel. no.)

Hoyle, Tanner & Associates, Inc.
150 Dow Street
Manchester, NH 03101
Michael C. Rogerson, PE, LEED AP (603-669-5555)

PART IV PROGRAM NARRATIVE
GRANT APPLICATION FOR FEDERAL ASSISTANCE

PEASE DEVELOPMENT AUTHORITY
Portsmouth International Airport at Pease
Portsmouth, New Hampshire

NHDOT SBG No. 16-02-2013

SCOPE OF WORK
RUNWAY CRACK REPAIR DESIGN, ADDITIONAL BIDDING SERVICES AND CONSTRUCTION PHASE
SERVICES FOR AIRFIELD PAVEMENT AND DRAINAGE SYSTEM RESTORATION (ASR) (BASE BID)

ARTICLE I - PROJECT ADMINISTRATION

Narrative: This item is to provide general services related to project scoping, contract work, preparation of a grant application, applications for grant reimbursement requests, and general assistance to the owner for grant and project contract related matters. *This Project Administration Article applies to the BASE BID, and all four (4) Additive Alternates (total 180 calendar days construction).*

Hoyle, Tanner's work under this paragraph will include:

1. Develop project scope, fee estimate and contract, one (1) scoping meeting, phone calls to Sponsor and NHDOT. Provide 5 work scopes and fee estimates, assist with IFE work coordination.
2. Prepare Grant Application
3. Prepare periodic grant reimbursement requests
4. Assist the OWNER in updating the Capital Improvement Program (CIP)
5. Provide other project related administration assistance requested by the OWNER

ARTICLE II - DESIGN OF RUNWAY CRACK REPAIRS (BASE BID)

Narrative: Runway 16-34 is experiencing a delamination problem of joint material and paint along both edges of the runway. As part of this project to solve these problems, a majority of both edges of the 9,000 ft long bituminous section of the runway will be milled a depth of 2", width of 8'. A new 2" bituminous overlay will be added and the runway edge repainted. This work must be accomplished during nighttime hours when the runway is closed.

This scope of this work includes scoping, design and creation of plans, details, specifications, quantity estimates, cost estimates and bidding for crack repairs on Runway 16-34. This is in conjunction with all other items contained in the *base bid only*.

Hoyle, Tanner's work under this paragraph will include:

1. Meetings, Coordination and Scoping with OWNER, FAA, & NHDOT, including 2 meetings, travel and site walks.
2. Pre design work and coordination with Owner to gather GPS information on limits of runway crack repair area.

3. Develop design plan of runway milling work areas using GPS data and existing baseplan data. Single plan sheet depicting two views encompassing entire 11,321 ft. of runway.
4. Details (typical section) for runway crack repair mill and overlay, and runway edge stripe painting details.
5. QTO and cost estimating for runway crack repair milling, bituminous pavement, tack coat, paint.
6. Creation of Construction Safety and Phasing Plan (CSPP) graphic consisting of single sheet depicting two views encompassing entire 11,321 ft. of runway, work areas, access, visual aids, operational and contractor restrictions.
7. Incorporate phasing and safety documentation into existing CSPP (written document portion) for runway work and runway closure.

ARTICLE III – BREAKOUT OF BASE BID PLUS FOUR (4) ADDITIVE ALTERNATES (BASE BID)

Narrative: The estimated cost of all project construction components exceeded the known funding AIP rollover funding available in 2013. At the time of bidding, the AIP program funding for 2013 was also unknown. Because of this, it was decided to prioritize, analyze costs, and separate the project into a Base Bid and four (4) Additive Alternates to allow the Airport flexibility in the amount they could award based on funding available. The efforts included in this article include the work to break up the project into those bidding components. This affected, plans, specifications, proposals, bidding, quantity take offs and cost estimates. Efforts to accomplish this work are detailed as follows.

Hoyle, Tanner's work under this paragraph will include:

1. Coordination, emails, graphics, information exchanges, phone conversations with the Airport to prioritize separation of bulk and individual project bid items (approximately 30 out of approximately 105 line items) from base bid only, to break-out of base bid plus four (4) additive alternates. Includes 2 iterations.
2. Quantity take-offs, from base bid only, to breakout of base bid plus four (4) additive alternates. Includes 2 iterations.
3. Cost estimating, from base bid only, to breakout of base bid plus four (4) additive alternates. Includes 2 iterations.
4. Plan sheet work area reconfiguration and phasing plan, plus Construction Safety and Phasing Plan (CSPP) document reconfiguration of 16 work areas to 13 work areas, affecting approximately 20 plan sheets, from base bid only, to break-out of base bid plus four (4) additive alternates; tag and label project items distinguishing from for base bid and additive alternates.
5. Reconfigure specification proposal and additional specification sections from base bid only, to break-out of base bid plus four (4) additive alternates.

ARTICLE IV - CONSTRUCTION ADMINISTRATION (BASE BID)

Narrative: This article is for construction administration of the construction items contained in the ***base bid only***. The scope of this article is based administration for a 90 day contract time for construction. The majority of the construction work is paving, milling, painting of obliterated airfield markings, creation of ASR isolation joints, airfield drainage structure repairs, reconstruction and surrounding pavement slab work. The scope includes day to day construction administration tasks, and also includes a component for structural engineering review of methods, materials, equipment and work by the contractor for structural repair of drainage structures included in the Base Bid.

Hoyle, Tanner's, work under this paragraph will include:

1. Create, print and distribute plans and specifications "conformed" for construction to needed parties
2. Organize and pre-construction conference, prepare checklist, preparation and subsequent follow-up for RFI's etc.
3. Bi-weekly Job Meeting (assume 7), plus follow-up and documentation as needed
4. Unscheduled meetings and field visits (assume 7), plus follow-up and documentation as needed
5. General On-call and Ongoing Coordination
6. Consultation & Advice to Owner/NHDOT/FAA
7. Consultation & Advice to Resident Engineer
8. Consultation with Contractor
9. Shop Drawing & Submittal Review for non-structural portions of project; P-401 mix design review, PWL calculations, base course, joint fillers
10. Structural portion (drainage structures) of construction administration: Materials and products shop drawing review; rebar review; concrete mix designs; mill certificates; test reports; respond to RFI's
11. Structural on-site inspection to verify adequate preparation of substrates in accordance with contract documents; Periodic observation of mixing/installation of new repair mortars, epoxy sealants, new rebar, adhesive anchors, concrete, etc., for 8 drainage structures over portion of 90 day contract time
12. Review Contractors Certified Payrolls
13. Review & Approve Payment Requests
14. Prepare & Negotiate Change Orders, Including Graphics, additional documentation and justification as needed
15. Revise and Resubmit CSPP as needed
16. Review and Assist with Layout (primarily repainting, pavement slab work)
17. Final Inspection & Punch list. Assume 2 days of field visits with meetings, follow-up and documentation as needed.

ARTICLE V - RESIDENT ENGINEERING (BASE BID)

Narrative: This article is for full-time resident engineering and inspection for construction of items contained in the **base bid only**. The scope of this article is based a 90 day contract time for construction, as well as an assumed number of weekend days and overtime. In addition, there are 7 nights of work anticipated on Runway 16-34 requiring a full time resident engineer.

Hoyle, Tanner's, work under this paragraph will include:

1. Assist with pre construction setup activities including field office setup, staging area setup, haul route coordination with Airport and gate guards, assist with security and badging as needed.
2. Undertake a pre-field review of the plans and specifications in order to become familiarized with the Project documents and Project work site.
3. Assist, attend and participate in Pre-Construction conference
4. Enforce the Construction Safety and Phasing Plan safety plan procedures and rules.
5. Assist with construction management plan development, enforce QA/QC procedures, including facilitation sampling, random sampling calculations and layout, interpret QA results and initiate actions as required.
6. Attend all construction, Airport and Users scheduling and coordination meetings, daily, weekly, bi weekly and ad-hoc meetings.
7. Administer and/or assist with the layout of the construction by the contractor.

8. Review and approve requests for monthly and final payments to contractors.
9. Prepare daily observation reports covering the work in progress, delays to construction, unusual events, visitors to the work site, etc.
10. Coordinate the construction activity with the OWNER.
11. Record completed construction activities for use in producing "as-built" plans.
12. Arrange for, conduct, or witness field, laboratory, or shop tests for construction materials, as required by the plans and specifications.
13. Determine the suitability of materials brought to the site to be used in construction.
14. Ensure that any required permit conditions are met.
15. Interpret the contract plans and specifications and monitor the construction activities for compliance with the intent of the design.
16. Measure, compute or monitor quantities of work performed and quantities of materials in-place for partial and final payments to the contractors; and maintain diaries and other project records to document the work.
17. Undertake post-field work as necessary in order to close out the Project.

ARTICLE VI – MATERIALS TESTING (BASE BID)

Narrative: This article is for materials sampling and testing for construction of items contained in the *base bid only*. Materials to be tested include bituminous pavement mix, quality and compaction, select gravel material mix quality and compaction, subgrade compaction, as well as concrete and reinforcing used for underground structure repairs. The scope of this article is based the items requiring testing during the 90 day contract time for base bid construction, as well as an assumed number of weekend days. In addition, there are 7 nights of work anticipated on Runway 16-34 requiring sampling and testing of bituminous pavements.

Hoyle, Tanner's, work under this paragraph (through a qualified subconsultant) will include:

1. Review job mix formula for Bituminous Concrete to be furnished to the project. Acceptance testing of asphalt and aggregate.
2. Experienced bituminous plant inspector for in-plant control and testing.
3. Sampling and laboratory testing of excavation materials, aggregate subbase, and crushed aggregate base course.
4. Field density tests on backfills, subgrades, and base courses.
5. Determine in-place density of bituminous concrete pavement by laboratory testing of pavement cores
6. Concrete testing for drainage structure repairs, including slump testing, cylinder testing, mix temperatures, and other tests as required.
7. Pull testing of concrete anchors for drainage structure repairs
8. Direct Tensile Testing per ACI 503 R Appendix A

ARTICLE VII – PROJECT CLOSE OUT

Narrative: This article is efforts required for completion, acceptance and closeout of the project and closeout of the grant for this project. It includes creation of as-built drawings, compilation of construction reports, testing reports, daily inspection reports and production of a final project closeout report, including all necessary administration and closeout paperwork to complete the closeout. *This Project Close Out Article applies to the BASE BID, and all four (4) Additive Alternates (total 180 calendar days construction).*

Hoyle, Tanner's, work under this paragraph will include:

1. Coordination with The OWNER, FAA, & NHDOT
2. Compile and Prepare Project "As-Builts", Approximately 50 total sheets, Distribute Paper and Electronic to Sponsor, NHDOT and FAA
3. Prepare, Print, & Distribute FAA final project report
4. Provide assistance with other project closeout requirements, as necessary

SCOPE OF WORK

ADDITIVE ALTERNATE #1: - RELOCATE PERIMETER ROAD OUTSIDE OF TOFA

ARTICLE I - PROJECT ADMINISTRATION

N/A for Additive Alternate No. 1

ARTICLE II - DESIGN OF PERIMETER ROAD RELOCATION (ADDITIVE ALTERNATE #1)

Narrative: At the south end of the airport, a portion of the airport service road (approximately 300') is located within the Taxiway Object Free Area (TOFA) of Taxiway 'A'. This is a non-standard configuration, in violation of FAA Advisory Circular 150/5300-13A regarding wingtip clearances for aircraft on the taxiway. To remedy this problem, approximately 500' of the roadway will be shifted and realigned, so that it is outside of the TOFA. This shift requires regrading of approximately 65,000 SF of infield and turf areas, redesign of the new roadway profile, redesign of an intersecting access road profile, removing and shifting approximately 500' of airport perimeter fence, construction of a new airport perimeter gate. Also, removal of portions of a sound wall adjacent to the relocated fence in order to maintain proper Transportation Security Administration clearances to the new fence.

This scope of this work includes scoping, design and creation of plans, details, specifications, quantity estimates, cost estimates and bidding for the relocation of the perimeter road relocation. This is in conjunction with all other items contained in **Additive Alternate No. 1 only**.

Hoyle, Tanner's work under this paragraph will include:

1. Meetings, Coordination and Scoping with OWNER, FAA, & NHDOT, including 2 meetings, travel and site walks.
2. Develop preliminary sketches of road realignment, fence, gate and sound wall relocation, send, review and gain concurrence from stakeholders, OWNER, NHDOT and FAA, including two (2) iterations of geometric design.
3. "Pen and Ink Change" of Color Ultimate Airport Layout Plan (UALP), includes scan of existing signed UALP, incorporate planned color changes into scanned 22"x34" document, project narrative and justification, requests for review, incorporate concurrence by NHDOT into UALP, distribute color hard and email copies to NHDOT, OWNER and FAA
4. Coordinate GPS survey of work area with OWNER, utilizing RTK GPS equipment. Process observed GPS data to verify planimetrics, elevations and existing base data, generate Digital Terrain Model (DTM). Supplement digital terrain model and planimetrics with data from 2009 aerial survey, create and merge composite DTM and planimetric baseplan for design of geometry, grading, profiles and cross sections.
5. Plans: Creation of Geometry Plan, including establishing of baseline, edges of pavement, new fence

- and gate location, fillets and coordinate table of key points for layout.
6. Plans: Creation of Demolition Plan: including removal of existing pavement, fence and gate removal, clearing and grubbing, soundwall panel removal.
 7. Plans: Design and Creation of Grading Plan: Design and drafting of pavement and infield grading, swale, and match to existing, 1' contours, Meet TOFA and TSA grading restrictions, create digital terrain model of subgrade for earthwork volumes and sections. Grading is approximately 65,000 SF in area
 8. Plans: Creation of Erosion Control Plan: Based on grading plan, including silt fence, jute matting and check dams in accordance with NH DES Best Management Practices
 9. Plans: Profiles: 1 Sheet, 2 design profiles. Existing and proposed profile of perimeter road and; existing and proposed profile of access road from Grafton St to T/W 'A'
 10. Plans: Sections: 1 Sheet, 9 cross sections of existing, finished ground and subgrade. Labels for finished ground elevations and offsets
 11. Plans: Details, Fence: 1 Sheet, Wildlife fence (8 ft security) fence, 20' swing gate, 4 types of gate signs.
 12. Plans: Details, Erosion and Misc: 2 Sheets, erosion control details, typical section, vehicle sign relocation.
 13. Plans: Additional Construction Safety and Phasing Plan (CSPP) sheet for work area and phasing associated with road relocation
 14. Incorporate phasing and safety work requirements and restrictions into existing CSPP (written document portion) for perimeter road relocation, taxiway closure and TOFA restrictions
 15. Specifications and payment items for road mix, gravels, fence and gates, erosion control and misc items.
 16. QTO and cost estimates

ARTICLE III – BID WORK

N/A for Additive Alternate No. 1

ARTICLE IV - CONSTRUCTION ADMINISTRATION (ADDITIVE ALTERNATE #1)

Narrative: This article is for additional construction administration of the construction items contained in *Additive Alternate No. 1* only. The scope of this article is based on a 30 additional day contract time for construction, including any additional work not included in the base bid. The construction work is as described in Article II for Design. The scope includes day to day construction administration tasks, additional special tasks not in the base bid, including mix design review and QA for roadway bituminous pavement and roadway crushed aggregate.

Hoyle, Tanner's, work under this paragraph will include:

1. Create, print and distribute plans and specifications "conformed" for construction to needed parties
2. Organize and pre-construction conference, prepare checklist, preparation and subsequent follow-up for RFI's etc.
3. Bi-weekly Job Meeting (assume 2 additional), plus follow-up and documentation as needed
4. Unscheduled meetings and field visits (assume 2), plus follow-up and documentation as needed
5. General On-call and Ongoing Coordination
6. Consultation & Advice to Owner/NHDOT/FAA
7. Consultation & Advice to Resident Engineer

8. Consultation with Contractor
9. Shop Drawing & Submittal Review, QA: P-403 mix design review; P-603 base course; fence, gate and sign hardware and equipment; signs; erosion control
10. Review Contractors Certified Payrolls
11. Review & Approve Payment Requests
12. Prepare & Negotiate Change Orders, Including Graphics, additional documentation and justification as needed
13. Revise and Resubmit CSPP as needed
14. Review and Assist with Layout - TOFA, roadway geometry, fence and gate location, painting
15. Final Inspection & Punch list. Assume 1 day of field visits with meetings, follow-up and documentation as needed.

ARTICLE V - RESIDENT ENGINEERING (ADDITIVE ALTERNATE #1)

Narrative: This article is for full-time resident engineering and inspection for construction of items contained in the **Additive Alternate No. 1** only. The scope of this article is based on a 30 additional day contract time for construction, as well as an assumed number of weekend days and overtime, also including any additional work not included in the base bid.

Hoyle, Tanner's, work under this paragraph will include:

18. Assist with pre construction setup activities including field office setup, staging area setup, haul route coordination with Airport and gate guards, assist with security and badging as needed.
19. Undertake a pre-field review of the plans and specifications in order to become familiarized with the Project documents and Project work site.
20. Assist, attend and participate in Pre-Construction conference
21. Enforce the Construction Safety and Phasing Plan safety plan procedures and rules.
22. Assist with construction management plan development, enforce QA/QC procedures, including facilitation sampling, random sampling calculations and layout, interpret QA results and initiate actions as required.
23. Attend all construction, Airport and Users scheduling and coordination meetings, daily, weekly, bi weekly and ad-hoc meetings.
24. Administer and/or assist with the layout of the construction by the contractor.
25. Review and approve requests for monthly and final payments to contractors.
26. Prepare daily observation reports covering the work in progress, delays to construction, unusual events, visitors to the work site, etc.
27. Coordinate the construction activity with the OWNER.
28. Record completed construction activities for use in producing "as-built" plans.
29. Arrange for, conduct, or witness field, laboratory, or shop tests for construction materials, as required by the plans and specifications.
30. Determine the suitability of materials brought to the site to be used in construction.
31. Ensure that any required permit conditions are met.
32. Interpret the contract plans and specifications and monitor the construction activities for compliance with the intent of the design.
33. Measure, compute or monitor quantities of work performed and quantities of materials in-place for partial and final payments to the contractors; and maintain diaries and other project records to document the work.
34. Undertake post-field work as necessary in order to close out the Project.

ARTICLE VI – MATERIALS TESTING (ADDITIVE ALTERNATE #1)

Narrative: This article is for materials sampling and testing for construction of items contained in the *Additive Alternate No. 1* only. Materials to be tested include roadway bituminous pavement mix, quality and compaction, select gravel material mix quality and compaction and subgrade compaction. The scope of this article is based the items requiring testing during the additional 30 day contract time for Additive Alternate No. 1 construction, as well as an assumed number of weekend days.

Hoyle, Tanner's, work under this paragraph (through a qualified subconsultant) will include:

9. Review job mix formula for Roadway Bituminous Concrete to be furnished to the project. Acceptance testing of asphalt and aggregate. .
10. Experienced bituminous plant inspector for in-plant control and testing.
11. Sampling and laboratory testing of excavation materials, aggregate subbase, and crushed aggregate base course.
12. Field density tests on backfills, subgrades, and base courses.
13. Determine in-place density of bituminous concrete pavement by laboratory testing of pavement cores

ARTICLE VII – PROJECT CLOSE OUT

N/A for Additive Alternate No. 1

SCOPE OF WORK

ADDITIVE ALTERNATE No. 2: - RECONSTRUCT TERMINAL APRON SHOULDERS

ADDITIVE ALTERNATE No. 2 – GENERAL NARRATIVE

The existing commercial terminal apron is abutted on each side by a strip of 4" thick bituminous pavement, each being approximately 25' x 450' in dimension. The shoulders separate the terminal apron from the older, ASR affected concrete apron areas. Because of the ASR action, these shoulders have heaved, and been milled on several occasions to level the heaves. At the present time, these shoulders are in marginal condition because of the ASR action and wear. The airport often allows larger aircraft to use the shoulders to access the terminal from the adjacent taxiways and ramp areas, and has the need to continue doing so. To solve these problems and needs, construction work consists of removing the existing bituminous shoulders, and reconstruct in kind with full-strength bituminous pavement. This also includes milling on the adjacent, older overlaid concrete pavement to match grades.

For this work, the contractor is given an additional 20 calendar days to complete the project.

ARTICLE I - PROJECT ADMINISTRATION

N/A for Additive Alternate No. 2

ARTICLE II – DESIGN

N/A for Additive Alternate No. 2

ARTICLE III – BID WORK

N/A for Additive Alternate No. 2

ARTICLE IV - CONSTRUCTION ADMINISTRATION (ADDITIVE ALTERNATE No. 2)

Narrative: This article is for additional construction administration of the construction items contained in **Additive Alternate No. 2** only. The scope includes day to day construction administration tasks, any additional special tasks not in the base bid, and additional work associated within the construction scope of Additive Alternate No. 2. There are 20 additional construction days associated with this work.

Hoyle, Tanner's, work under this paragraph will include:

1. Create, print and distribute plans and specifications "conformed" for construction to needed parties
2. Organize and pre-construction conference, prepare checklist, preparation and subsequent follow-up for RFI's etc.
3. Bi-weekly Job Meeting (assume 2 additional), plus follow-up and documentation as needed
4. Unscheduled meetings and field visits (assume 2), plus follow-up and documentation as needed
5. General On-call and Ongoing Coordination
6. Consultation & Advice to Owner/NHDOT/FAA
7. Consultation & Advice to Resident Engineer
8. Consultation with Contractor
9. Shop Drawing & Submittal Review, QA: additional mix design review; base course
10. Review Contractors Certified Payrolls
11. Review & Approve Payment Requests
12. Prepare & Negotiate Change Orders, Including Graphics, additional documentation and justification as needed
13. Revise and Resubmit CSPP as needed
14. Review and Assist with Layout (primarily repainting, pavement work limits around apron)
15. Final Inspection & Punch list. Assume 1 day of field visits with meetings, follow-up and documentation as needed.

ARTICLE V - RESIDENT ENGINEERING (ADDITIVE ALTERNATE No. 2)

Narrative: This article is for full-time resident engineering and inspection for construction of items contained in the **Additive Alternate No. 2** only, which includes an **additional 20 calendar days** of construction to complete the project, as well as an assumed number of weekend days and overtime, also including any additional work not included in the base bid.

Hoyle, Tanner's, work under this paragraph will include:

35. Enforce the Construction Safety and Phasing Plan safety plan procedures and rules.
36. Assist with construction management plan development, enforce QA/QC procedures, including facilitation sampling, random sampling calculations and layout, interpret QA results and initiate actions as required.
37. Attend all construction, Airport and Users scheduling and coordination meetings, daily, weekly, bi weekly and ad-hoc meetings
38. Administer and/or assist with the layout of the construction by the contractor.

39. Review and approve requests for monthly and final payments to contractors.
40. Prepare daily observation reports covering the work in progress, delays to construction, unusual events, visitors to the work site, etc.
41. Coordinate the construction activity with the OWNER.
42. Record completed construction activities for use in producing "as-built" plans.
43. Arrange for, conduct, or witness field, laboratory, or shop tests for construction materials, as required by the plans and specifications.
44. Determine the suitability of materials brought to the site to be used in construction.
45. Ensure that any required permit conditions are met.
46. Interpret the contract plans and specifications and monitor the construction activities for compliance with the intent of the design.
47. Measure, compute or monitor quantities of work performed and quantities of materials in-place for partial and final payments to the contractors; and maintain diaries and other project records to document the work.
48. Undertake post-field work as necessary in order to close out the Project.

ARTICLE VI – MATERIALS TESTING (ADDITIVE ALTERNATE No. 2)

Narrative: This article is for materials sampling and testing for construction of items contained in the *Additive Alternate No. 2* only. Materials to be tested include additional airport bituminous pavement mix, quality and compaction, select gravel material mix quality and compaction and subgrade compaction. The scope of this article is based the items requiring testing during the additional 20 day contract time for Additive Alternate No. 2 construction, as well as an assumed number of weekend days and overtime, also including any additional work not included in the base bid.

Hoyle, Tanner's, work under this paragraph (through a qualified subconsultant) will include:

14. Acceptance testing of asphalt and aggregate.
15. Experienced bituminous plant inspector for in-plant control and testing.
16. Sampling and laboratory testing of excavation materials, aggregate subbase, and crushed aggregate base course.
17. Field density tests on backfills, subgrades, and base courses.
18. Determine in-place density of bituminous concrete pavement by laboratory testing of pavement cores

ARTICLE VII – PROJECT CLOSE OUT

N/A for Additive Alternate No. 2

SCOPE OF WORK

ADDITIVE ALTERNATE No. 3: REPAIR OF ADDITIONAL DRAINAGE STRUCTURES

ARTICLE I - PROJECT ADMINISTRATION

N/A for Additive Alternate No. 3

ARTICLE II-ADDITIONAL DRAINAGE STRUCTURE & SLAB REPAIR DESIGN (ADDITIVE ALTERNATE No. 3)

Portsmouth International Airport at Pease has a vast amount of Portland Concrete Pavement (PCC) infrastructure on its aprons, taxiways and runway that were constructed by the Air Force in the 1950's. The majority of this older PCC pavement still exists and now suffers from a chemical process known as Alkali Silica Reaction (ASR). A prominent symptom of ASR is that the PCC pavement swells gradually over time. This swelling produces massive forces at the edges of the PCC pavement areas, which affect adjacent pavements. It also produces forces that damage underground utility structures that are non-moveable, being fixed in the ground beneath the moving pavements. The majority of this project is to repair pavements and underground utility structures and pipes as the result of ASR. The damaged structures pose a potential risk to aircraft, ground vehicles and maintenance. In the winter of 2011/2012, a plow clearing the ramp struck a heaved drainage structure, causing approximately \$30K in damage to the plow and vehicle.

This article addresses the following: The original design scope assumed 10 slab and pavement repairs around underground structures, and 10 subsurface underground structural repairs, which are contained in the base bid construction. During field investigations for the repair of structures, it was found there are 30 additional structures that are in imminent danger of being damaged by ASR forces and require repair/replacement of surrounding pavement slabs, and reconstruction or addition of isolation joints. In addition, there were an additional 8 drainage structures found to be damaged by ASR forces and in need of underground structural repairs, as well as 3 electrical manholes also affected by ASR that will be removed and/or abandoned.

This scope of this work includes this additional work for scoping, design, structural design, creation of plans, details, specifications, quantity estimates, cost estimates and bidding for drainage structure and slab repairs of these additional structures, contained in Additive Alternate No. 3.

Hoyle, Tanner's work under this paragraph will include:

1. Additional site and drainage investigations, photo and videos for 8 additional drainage structures requiring structural repair and 30 additional structures needing pavement panel replacement (this including the 8 requiring structural repairs). Assume 1 day 2 people. Organize and review field notes, photos and video review and editing, preliminary assessment of repairs.
2. Creation of 30 additional structure pavement slab existing condition site plans (4 additional plan sheets) from the following sources: Field measurements of structures, slabs, cracks and patches; aerial photograph underlays (NHDOT orthorectified images), Bing aerial maps; field photographs; as-builts from project in late 90's. The 4 additional plan sheets of existing slab conditions for 30 structures contain structure locations, surrounding slab dimensions, pipe sizes and notes; additions of 30 structure repair areas to overview map.
3. Design and drafting of slab repairs for 30 additional drainage structures (4 sheets) based on plans created above
4. Additional structural engineering field assessment of 8 structures requiring approximately 1/2 day of field work, 3 people. Office review of field notes and review video footage for structural repair design.
5. Structural design to reconstruct 8 structures, partial to near full depth re-construction, including reinforcing steel and dowels, designed for for dual 727 and/or dual tandem 747-800.
6. Create structural details for 8 structures approximately 2 additional detail sheets. Research records for structure depths, incorporate into existing table.
7. Quantity take offs for 30 additional areas of slab work including pavement removal, new pavement,

- control joints, base courses
8. Cost estimates for 8 reconstructed structures. 3 abandoned electrical manholes, and estimates for slab work associated with 30 additional structures
 9. Additional work for Construction Safety and Phasing Plan (CSPP) , approximately 2 additional sheets in CSPP plans and additional phasing and safety work in written documentation portion.

ARTICLE III – BID WORK

N/A for Additive Alternate No. 3

ARTICLE IV - CONSTRUCTION ADMINISTRATION (ADDITIVE ALTERNATE No. 3)

Narrative: This article is for construction administration of the construction items contained in *Additive Alternate No. 3 only*. The scope of this article is based administration for a 30 day contract time for construction. The construction work is as described in the previous Article II – Design. The scope includes day to day construction administration tasks, and also includes a component for structural engineering review of methods, materials, equipment and work by the contractor for structural repair of drainage structures included in this additive alternate.

Hoyle, Tanner's, work under this paragraph will include:

1. Create, print and distribute plans and specifications "conformed" for construction to needed parties
2. Organize and pre-construction conference, prepare checklist, preparation and subsequent follow-up for RFI's etc.
3. Bi-weekly Job Meeting (assume 2 additional), plus follow-up and documentation as needed
4. Unscheduled meetings and field visits (assume 2), plus follow-up and documentation as needed
5. General On-call and Ongoing Coordination
6. Consultation & Advice to Owner/NHDOT/FAA
7. Consultation & Advice to Resident Engineer
8. Consultation with Contractor
9. Shop Drawing & Submittal Review, QA: P-401; P-209 base course; isolation joints; additional structural engineering review above base bid
10. Review Contractors Certified Payrolls
11. Review & Approve Payment Requests
12. Prepare & Negotiate Change Orders, Including Graphics, additional documentation and justification as needed
13. Revise and Resubmit CSPP as needed
14. Assist with layout of slab repairs and painting
15. Final Inspection & Punch list. Assume 1 day of field visits with meetings, follow-up and documentation as needed.

ARTICLE V - RESIDENT ENGINEERING (ADDITIVE ALTERNATE No. 3)

Narrative: This article is for full-time resident engineering and inspection for the construction items contained in *Additive Alternate No. 3 only*. The scope of this article is based administration for a 30 day contract time for construction, as well as an assumed number of weekend days and overtime.

Hoyle, Tanner's, work under this paragraph will include:

49. Assist with pre construction setup activities including field office setup, staging area setup, haul route coordination with Airport and gate guards, assist with security and badging as needed.
50. Undertake a pre-field review of the plans and specifications in order to become familiarized with the Project documents and Project work site.
51. Assist, attend and participate in Pre-Construction conference
52. Enforce the Construction Safety and Phasing Plan safety plan procedures and rules.
53. Assist with construction management plan development, enforce QA/QC procedures, including facilitation sampling, random sampling calculations and layout, interpret QA results and initiate actions as required.
54. Attend all construction, Airport and Users scheduling and coordination meetings, daily, weekly, bi weekly and ad-hoc meetings.
55. Administer and/or assist with the layout of the construction by the contractor.
56. Review and approve requests for monthly and final payments to contractors.
57. Prepare daily observation reports covering the work in progress, delays to construction, unusual events, visitors to the work site, etc.
58. Coordinate the construction activity with the OWNER.
59. Record completed construction activities for use in producing "as-built" plans.
60. Arrange for, conduct, or witness field, laboratory, or shop tests for construction materials, as required by the plans and specifications.
61. Determine the suitability of materials brought to the site to be used in construction.
62. Ensure that any required permit conditions are met.
63. Interpret the contract plans and specifications and monitor the construction activities for compliance with the intent of the design.
64. Measure, compute or monitor quantities of work performed and quantities of materials in-place for partial and final payments to the contractors; and maintain diaries and other project records to document the work.
65. Undertake post-field work as necessary in order to close out the Project.

ARTICLE VI – MATERIALS TESTING (ADDITIVE ALTERNATE No. 3)

Narrative: This article is for materials sampling and testing for construction of items contained in the **Additive Alternate No. 3 only**. Materials to be tested include bituminous pavement mix, quality and compaction, select gravel material mix quality and compaction, subgrade compaction, as well as concrete and reinforcing used for underground structure repairs. The scope of this article is based the items requiring testing during the 30 day contract time for base bid construction, as well as an assumed number of weekend days.

Hoyle, Tanner's, work under this paragraph (through a qualified subconsultant) will include:

19. Acceptance testing of asphalt and aggregate.
20. Experienced bituminous plant inspector for in-plant control and testing.
21. Sampling and laboratory testing of excavation materials, aggregate subbase, and crushed aggregate base course.
22. Field density tests on backfills, subgrades, and base courses.
23. Determine in-place density of bituminous concrete pavement by laboratory testing of pavement cores
24. Concrete testing for drainage structure repairs, including slump testing, cylinder testing, mix temperatures, and other tests as required.
25. Pull testing of concrete anchors for drainage structure repairs

26. Direct Tensile Testing per ACI 503 R Appendix A

ARTICLE VII – PROJECT CLOSE OUT

N/A for Additive Alternate No. 3

SCOPE OF WORK

ADDITIVE ALTERNATE No. 4: AIRFIELD DRAINAGE PIPE VIDEO AND JOINT REPAIRS

ADDITIVE ALTERNATE No. 4 – GENERAL NARRATIVE

The majority of underground drainage pipes in the aircraft apron area were installed in the 1950's and used oakum joint sealer which has since degraded and failed, allowing groundwater infiltration into the piping system through the joints. This poses a risk of sinkholes and voids under the pavement, leading to a potential hazard to aircraft and vehicles travelling on the affected areas.

In 2007 and 2008, the airport conducted video investigation of pipes under two suspect areas on the airfield, the first one included two pipe runs under the General Aviation (GA) apron. The second included a pipe run from the North hold bay up to the north blast pad. In both cases, this video investigation identified numerous pipe joints requiring repair/sealing.

To remedy these problems, this construction work consists of first doing a secondary video inspection to verify the pipes and joints identified in 2007/2008, then sealing the joints identified as leaking, damaged or defective.

For this work, the contractor is given an additional 10 calendar days to complete the project. The majority of this work would be concurrent with other construction activities on the same project.

ARTICLE I - PROJECT ADMINISTRATION

N/A for Additive Alternate No. 4

ARTICLE II – DESIGN

N/A for Additive Alternate No. 4

ARTICLE III – BID WORK

N/A for Additive Alternate No. 4

ARTICLE IV - CONSTRUCTION ADMINISTRATION (ADDITIVE ALTERNATE No. 4)

Narrative: This article is for additional construction administration of the construction items contained in *Additive Alternate No. 4* only, listed in the general narrative above. The scope includes day to day construction administration tasks, any additional special tasks not in the base bid, and additional work associated within the construction scope of Additive Alternate No. 4. Although the work is anticipated to take longer (approx. 20-30 days), the majority will be done concurrently with other construction activities on the same project. There are 10 additional construction days associated with this work.

Hoyle, Tanner's, work under this paragraph will include:

1. Create, print and distribute plans and specifications "conformed" for construction to needed parties
2. Organize and pre-construction conference, prepare checklist, preparation and subsequent follow-up for RFI's etc.
3. Bi-weekly Job Meeting (assume 1 additional), plus follow-up and documentation as needed
4. Unscheduled meetings and field visits (assume 2), plus follow-up and documentation as needed
5. General On-call and Ongoing Coordination
6. Consultation & Advice to Owner/NHDOT/FAA
7. Consultation & Advice to Resident Engineer
8. Consultation with Contractor
9. Shop Drawing & Submittal Review, review methods, materials and equipment for pipe repair.
10. Assume 2 field days additional inspection (with resident) to verify any additional joint repair needed. Review of video inspection for all pipes (approximately 10-20 hours of footage). Verify cleaning, repairs and testing results (pressure tests on joints).
11. Review Contractors Certified Payrolls
12. Review & Approve Payment Requests
13. Prepare & Negotiate Change Orders, Including Graphics, additional documentation and justification as needed
14. Revise and Resubmit CSPP as needed
15. Final Inspection & Punch list. Assume 1 day of field visits with meetings with contractor & subcontractor, follow-up and documentation as needed.

ARTICLE V - RESIDENT ENGINEERING (ADDITIVE ALTERNATE No. 4)

Narrative: This article is for full-time resident engineering and inspection for construction of items contained in the ***Additive Alternate No. 4*** only, as listed in the general narrative above. This includes an **additional 10 calendar days** of construction to complete the project, as well as an assumed number of weekend days and overtime, also including any additional work not included in the base bid.

Hoyle, Tanner's, work under this paragraph will include:

66. Enforce the Construction Safety and Phasing Plan safety plan procedures and rules.
67. Assist with video collection and coordination of efforts with construction administration, the airport and users. Assist with coordination of joint sealing plans and execution.
68. Attend all construction, Airport and Users scheduling and coordination meetings, daily, weekly, bi weekly and ad-hoc meetings.
69. Administer and/or assist with the layout of the construction by the contractor.
70. Review and approve requests for monthly and final payments to contractors.
71. Prepare daily observation reports covering the work in progress, delays to construction, unusual events, visitors to the work site, etc.
72. Coordinate the construction activity with the OWNER.
73. Record completed construction activities for use in producing "as-built" plans.
74. Arrange for, conduct, or witness field, laboratory, or shop tests for construction materials, as required by the plans and specifications.
75. Determine the suitability of materials brought to the site to be used in construction.
76. Ensure that any required permit conditions are met.
77. Interpret the contract plans and specifications and monitor the construction activities for

- compliance with the intent of the design.
78. Measure, compute or monitor quantities of work performed and quantities of materials in-place for partial and final payments to the contractors; and maintain diaries and other project records to document the work.
79. Undertake post-field work as necessary in order to close out the Project.

ARTICLE VI – CONTROL AND TESTING OF MATERIALS

N/A for Additive Alternate No. 4

ARTICLE VII – PROJECT CLOSE OUT

N/A for Additive Alternate No. 4

COST BREAKDOWN:

SUMMARY:	Total Engineering Fees	\$454,700.00
	Sponsor Administration	34,025.50
	Construction Cost	<u>\$2,972,114.50</u>
	Total Project Cost	\$3,460,840.00
	Federal Share	\$3,114,756.00
	State of New Hampshire Share	\$173,042.00
	Sponsor Share	\$173,042.00

See “Summary of Grant Costs” appended to the end of this narrative for detailed cost breakdown, including breakdown by Base Bid and each Additive Alternate.

PROJECT SCHEDULE

The Consultant shall complete the services outlined in the above articles follows:

- Grant Application May 2013
- Grant Offer (Est.) July 2013
- Notice to Proceed August 2013
- Construction Completion June 2014
- Closeout September 2014

E.O. 12372 COORDINATION

As this project is wholly contained within airport boundaries and no request has been made by the NH Office of Energy and Planning for an E.O. 12372 review, this project is exempt from E.O. 12372 coordination.

ENVIRONMENTAL DECLARATION

FAA Order 1050.1E, paragraphs 310e and 310a identify this project to be categorically excluded from an environmental assessment. In addition, there are no extraordinary circumstances per paragraph 304.

STATE AGENCY PARTICIPATION

The project was coordinated through New Hampshire DOT. Coordination with New Hampshire DOT included CIP and project document review.

STATEMENT ON DISADVANTAGED BUSINESS ENTERPRISE STATUS

The Pease Development Authority has an overall goal for Disadvantaged Business Enterprise participation in any airport project of 6%. The anticipated participation for this project will be at least 6% of the total project amount.

STATEMENT OF COORDINATION WITH AIRPORT USERS

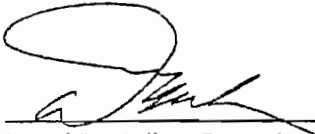

The Pease Development Authority has coordinated the project in this application through individual contact with airport users.

EXHIBIT "A" - PROPERTY MAP CERTIFICATION

I hereby certify that the Exhibit "A" Property Map, updated April 10, 2013, and attached to the Grant Application for SBG 16-01-2013 reflects the current information as of this date. The aforementioned Exhibit "A" is, therefore, incorporated into this project application and made a part hereof.

Date: 5/20/13

Pease Development Authority

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employees of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal loan, the entering into any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employees of Congress, or an employee of a Member of Congress in connection with the Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobby Activities," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

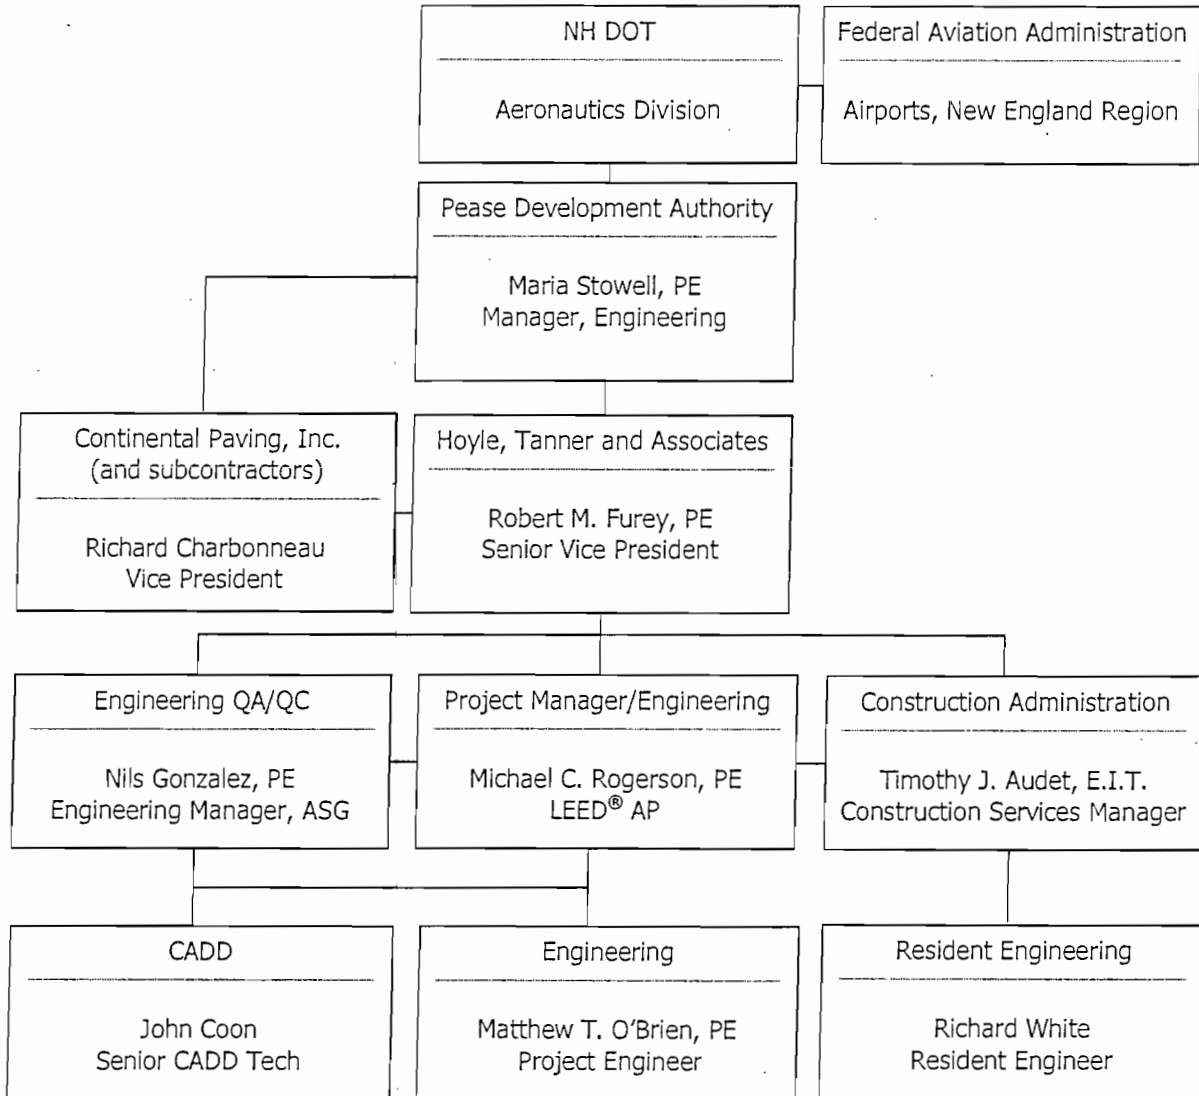

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

(Project Number)

**Runway Crack Repair Design, Additional Bidding Services and Construction Phase Services for Airfield
 Pavement and Drainage System Restoration (ASR)
 Base Bid PLUS 4 Additive Alternates**
 (Work Description)

Title 49, United States Code, section 47105(d), authorizes the Secretary to require certification from the sponsor that it will comply with the statutory and administrative requirements in carrying out a project under the Airport Improvement Program (AIP). General standards for selection of consultant services within Federal grant programs are described in Title 49, Code of Federal Regulations (CFR), Part 18.36. Sponsors may use other qualifications-based procedures provided they are equivalent to specific standards in 49 CFR 18 and FAA Advisory Circular 150/5100-14, Architectural, Engineering, and Planning Consultant Services for Airport Grant Projects.

Except for the certified items below marked not applicable (N/A), the list includes major requirements for this aspect of project implementation, although it is not comprehensive, nor does it relieve the sponsor from fully complying with all applicable statutory and administrative standard.

	Yes	No	N/A
1. Solicitations were made to ensure fair and open competition from a wide area of interest.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Consultants were selected using competitive procedures based on qualifications, experience, and disadvantaged enterprise requirements with the fees determined through negotiations.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. A record of negotiations will be prepared reflecting considerations involved in the establishment of fees, which are not significantly above the sponsor's independent cost estimate.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. If engineering or other services are to be performed by sponsor force account personnel, prior approval was obtained from the FAA.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. The consultant services contracts clearly establish the scope of work and delineate the division of responsibilities between all parties engaged in carrying out elements of the project.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. Costs associated with work ineligible for AIP funding are clearly identified and separated from eligible items in solicitations, contracts, and related project documents.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7. Mandatory contract provisions for grant-assisted contracts have been included in consultant services contracts.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8. The cost-plus-percentage-of-cost methods of contracting prohibited under Federal standards were not used.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. If the services being procured cover more than the single grant project referenced in this certification, the scope of work was specifically described in the advertisement, and future work will not be initiated beyond five years.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

I certify, for the project identified herein, responses to the forgoing items are accurate as marked and have prepared documentation attached hereto for any item marked "no" that is correct and complete.

**Runway Crack Repair Design, Additional Bidding Services and Construction Phase Services for Airfield Pavement and Drainage System Restoration (ASR)
 Base Bid PLUS 4 Additive Alternates**
 (Work Description)

Title 49, United States Code, section 47105(d), authorizes the Secretary to require certification from the sponsor that it will comply with the statutory and administrative requirements in carrying out a project under the Airport Improvement Program (AIP). AIP standards are generally described in FAA Advisory Circular (AC) 150/5100-6, Labor Requirements for the Airport Improvement Program, AC 150/5100-15, Civil Rights Requirements for the Airport Improvement Program, and AC 150/5100-16, Airport Improvement Program Grant Assurance One--General Federal Requirements. A list of current advisory circulars with specific standards for design or construction of airports as well as procurement/installation of equipment and facilities is referenced in standard airport sponsor Grant Assurance 34 contained in the grant agreement.

Except for the certified items below marked not applicable (N/A), the list includes major requirements for this aspect of project implementation, although it is not comprehensive, nor does it relieve the sponsor from fully complying with all applicable statutory and administrative standards.

	Yes	No	N/A
1. The plans and specifications were prepared in accordance with applicable Federal standards and requirements, so no deviation or modification to standards set forth in the advisory circulars, or State standard, is necessary other than those previously approved by the FAA.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Specifications for the procurement of equipment are not proprietary or written so as to restrict competition. At least two manufacturers can meet the specification.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. The development included in the plans is depicted on the airport layout plan approved by the FAA.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Development that is ineligible for AIP funding has been omitted from the plans and specifications.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5. The process control and acceptance tests required for the project by standards contained in Advisory Circular 150/5370-10 are included in the project specifications.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. If a value engineering clause is incorporated into the contract, concurrence was (will be) obtained from the FAA.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7. The plans and specifications incorporate applicable requirements and recommendations set forth in the Federally approved environmental finding.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
8. For construction activities within or near aircraft operational areas, the requirements contained in Advisory Circular 150/5370-2 have been discussed with the FAA as well as incorporated into the specifications, and a safety/phasing plan has FAA's concurrence, if required.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. The project was physically completed without Federal participation in costs due to errors and omissions in the plans and specifications that were foreseeable at the time of project design.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

I certify, for the project identified herein, responses to the forgoing items are accurate as marked and have prepared documentation attached hereto for any item marked "no" that is correct and complete.

 (Work Description)

Title 49, United States Code (USC), section 47105(d), authorizes the Secretary to require certification from the sponsor that it will comply with the statutory and administrative requirements in carrying out a project under the Airport Improvement Program (AIP). General standards for equipment and construction contracts within Federal grant programs are described in Title 49, Code of Federal Regulations (CFR), Part 18.36. AIP standards are generally described in FAA Advisory Circular (AC) 150/5100-6, Labor Requirements for the Airport Improvement Program, AC 150/5100-15, Civil Rights Requirements for the Airport Improvement Program, and AC 150/5100-16, Airport Improvement Program Grant Assurance One--General Federal Requirements. Sponsors may use State and local procedures provided procurements conform to these Federal standards.

Except for the certified items below marked not applicable (N/A), the list includes major requirements for this aspect of project implementation, although it is not comprehensive, nor does it relieve the sponsor from fully complying with all applicable statutory and administrative standards.

	Yes	No	N/A
1. A code or standard of conduct is in effect governing the performance of the sponsor's officers, employees, or agents in soliciting and awarding procurement contracts.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Qualified personnel are engaged to perform contract administration, engineering supervision, construction inspection, and testing.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. The procurement was publicly advertised using the competitive sealed bid method of procurement.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. The bid solicitation clearly and accurately describes:			
a. The current Federal wage rate determination for all construction projects, and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. All other requirements of the equipment and/or services to be provided.			
5. Concurrence was obtained from FAA prior to contract award under any of the following circumstances:			
a. Only one qualified person/firm submits a responsive bid,	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. The contract is to be awarded to other than the lowest responsible bidder,			
c. Life cycle costing is a factor in selecting the lowest responsive bidder, or			
d. Proposed contract prices are more than 10 percent over the sponsor's cost estimate.			
6. All contracts exceeding \$100,000 require the following provisions:			
a. A bid guarantee of 5 percent, a performance bond of 100 percent, and a payment bond of 100 percent;			
b. Conditions specifying administrative, contractual, and legal remedies, including contract termination, for those instances in which contractors violate or breach contract terms; and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Compliance with applicable standards and requirements issued under Section 306 of the Clean Air Act (42 USC 1857(h)), Section 508 of the Clean Water Act (33 USC 1368), and Executive Order 11738.			
7. All construction contracts contain provisions for:			
a. Compliance with the Copeland "Anti-Kick Back" Act, and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Preference given in the employment of labor (except in executive, administrative, and supervisory positions) to honorably discharged Vietnam era veterans and disabled veterans.			
8. All construction contracts exceeding \$2,000 contain the following provisions:			
a. Compliance with the Davis-Bacon Act based on the current Federal wage rate determination; and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Compliance with the Contract Work Hours and Safety Standards Act (40 USC 327-330), Sections 103 and 107.			
9. All construction contracts exceeding \$10,000 contain appropriate clauses from 41 CFR Part 60 for compliance with Executive Orders 11246 and 11375 on Equal Employment Opportunity.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
10. All contracts and subcontracts contain clauses required from Title VI of the Civil Rights Act and 49 CFR 23 and 49 CFR 26 for Disadvantaged Business Enterprises.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
11. Appropriate checks have been made to assure that contracts or subcontracts are not awarded to those individuals or firms suspended, debarred, or voluntarily excluded from doing business with any U.S. Department of Transportation (DOT) element and appearing on the DOT Unified List.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

I certify, for the project identified herein, responses to the forgoing items are accurate as marked and have prepared documentation attached hereto for any item marked "no" that is correct and complete.

**Runway Crack Repair Design, Additional Bidding Services and Construction Phase Services for Airfield
 Pavement and Drainage System Restoration (ASR)
 Base Bid PLUS 4 Additive Alternates**
 (Work Description)

Title 49, United States Code, section 47105(d), authorizes the Secretary to require certification from the sponsor that it will comply with the statutory and administrative requirements in carrying out a project under the Airport Improvement Program (AIP). General requirements on the drug-free workplace within Federal grant programs are described in Title 49, Code of Federal Regulations, Part 29. Sponsors are required to certify they will be, or will continue to provide, a drug-free workplace in accordance with the regulation. The AIP project grant agreement contains specific assurances on the Drug-Free Workplace Act of 1988.

Except for the certified items below marked not applicable (N/A), the list includes major requirements for this aspect of project implementation, although it is not comprehensive, nor does it relieve the sponsor from fully complying with all applicable statutory and administrative standards.

	Yes	No	N/A
1. A statement has been published notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the sponsor's workplace, and specifying the actions to be taken against employees for violation of such prohibition.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. An ongoing drug-free awareness program has been established to inform employees about:			
a. The dangers of drug abuse in the workplace;			
b. The sponsor's policy of maintaining a drug-free workplace;	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Any available drug counseling, rehabilitation, and employee assistance programs; and			
d. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.			
3. Each employee to be engaged in the performance of the work has been given a copy of the statement required within item 1 above.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Employees have been notified in the statement required by item 1 above that, as a condition employment under the grant, the employee will:			
a. Abide by the terms of the statement; and	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction.			
5. The FAA will be notified in writing within ten calendar days after receiving notice under item 4b above from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title of the employee, to the FAA. Notices shall include the project number of each affected grant.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. One of the following actions will be taken within 30 calendar days of receiving a notice under item 4b above with respect to any employee who is so convicted:			
a. Take appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Require such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency.			
7. A good faith effort will be made to continue to maintain a drug-free workplace through implementation of items 1 through 6 above.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

I have prepared documentation attached hereto with site(s) for performance of work (street address, city, county, state, zip code). There are no such workplaces that are not identified in the attachment. I have prepared additional documentation for any above items marked "no" and attached it hereto. I certify that, for the project identified herein, responses to the forgoing items are accurate as marked and attachments are correct and complete.

Grant Assurances Airport Sponsors

A. General.

1. These assurances shall be complied with in the performance of grant agreements for airport development, airport planning, and noise compatibility program grants for airport sponsors.
2. These assurances are required to be submitted as part of the project application by sponsors requesting funds under the provisions of Title 49, U.S.C., subtitle VII, as amended. As used herein, the term "public agency sponsor" means a public agency with control of a public-use airport; the term "private sponsor" means a private owner of a public-use airport; and the term "sponsor" includes both public agency sponsors and private sponsors.
3. Upon acceptance of this grant offer by the sponsor, these assurances are incorporated in and become part of this grant agreement.

B. Duration and Applicability.

1. **Airport development or Noise Compatibility Program Projects Undertaken by a Public Agency Sponsor.** The terms, conditions and assurances of this grant agreement shall remain in full force and effect throughout the useful life of the facilities developed or equipment acquired for an airport development or noise compatibility program project, or throughout the useful life of the project items installed within a facility under a noise compatibility program project, but in any event not to exceed twenty (20) years from the date of acceptance of a grant offer of Federal funds for the project. However, there shall be no limit on the duration of the assurances regarding Exclusive Rights and Airport Revenue so long as the airport is used as an airport. There shall be no limit on the duration of the terms, conditions, and assurances with respect to real property acquired with federal funds. Furthermore, the duration of the Civil Rights assurance shall be specified in the assurances.
2. **Airport Development or Noise Compatibility Projects Undertaken by a Private Sponsor.** The preceding paragraph 1 also applies to a private sponsor except that the useful life of project items installed within a facility or the useful life of the facilities developed or equipment acquired under an airport development or noise compatibility program project shall be no less than ten (10) years from the date of acceptance of Federal aid for the project.

3. **Airport Planning Undertaken by a Sponsor.** Unless otherwise specified in this grant agreement, only Assurances 1, 2, 3, 5, 6, 13, 18, 30, 32, 33, and 34 in section C apply to planning projects. The terms, conditions, and assurances of this grant agreement shall remain in full force and effect during the life of the project.

C. **Sponsor Certification.** The sponsor hereby assures and certifies, with respect to this grant that:

1. **General Federal Requirements.** It will comply with all applicable Federal laws, regulations, executive orders, policies, guidelines, and requirements as they relate to the application, acceptance and use of Federal funds for this project including but not limited to the following:

Federal Legislation

- a. Title 49, U.S.C., subtitle VII, as amended.
- b. Davis-Bacon Act - 40 U.S.C. 276(a), et seq.¹
- c. Federal Fair Labor Standards Act - 29 U.S.C. 201, et seq.
- d. Hatch Act – 5 U.S.C. 1501, et seq.²
- e. Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 Title 42 U.S.C. 4601, et seq.^{1,2}
- f. National Historic Preservation Act of 1966 - Section 106 - 16 U.S.C. 470(f).¹
- g. Archeological and Historic Preservation Act of 1974 - 16 U.S.C. 469 through 469c.¹
- h. Native Americans Grave Repatriation Act - 25 U.S.C. Section 3001, et seq.
- i. Clean Air Act, P.L. 90-148, as amended.
- j. Coastal Zone Management Act, P.L. 93-205, as amended.
- k. Flood Disaster Protection Act of 1973 - Section 102(a) - 42 U.S.C. 4012a.¹
- l. Title 49, U.S.C., Section 303, (formerly known as Section 4(f))
- m. Rehabilitation Act of 1973 - 29 U.S.C. 794.
- n. Civil Rights Act of 1964 - Title VI - 42 U.S.C. 2000d through d-4.
- o. Age Discrimination Act of 1975 - 42 U.S.C. 6101, et seq.
- p. American Indian Religious Freedom Act, P.L. 95-341, as amended.
- q. Architectural Barriers Act of 1968 -42 U.S.C. 4151, et seq.¹
- r. Power plant and Industrial Fuel Use Act of 1978 - Section 403- 2 U.S.C. 8373.¹
- s. Contract Work Hours and Safety Standards Act - 40 U.S.C. 327, et seq.¹
- t. Copeland Anti kickback Act - 18 U.S.C. 874.1
- u. National Environmental Policy Act of 1969 - 42 U.S.C. 4321, et seq.¹
- v. Wild and Scenic Rivers Act, P.L. 90-542, as amended.
- w. Single Audit Act of 1984 - 31 U.S.C. 7501, et seq.²
- x. Drug-Free Workplace Act of 1988 - 41 U.S.C. 702 through 706.

Executive Order 12699 - Seismic Safety of Federal and Federally Assisted New
Building Construction¹
Executive Order 12898 - Environmental Justice

Federal Regulations

- a. 14 CFR Part 13 - Investigative and Enforcement Procedures.
- b. 14 CFR Part 16 - Rules of Practice For Federally Assisted Airport Enforcement Proceedings.
- c. 14 CFR Part 150 - Airport noise compatibility planning.
- d. 29 CFR Part 1 - Procedures for predetermination of wage rates.¹
- e. 29 CFR Part 3 - Contractors and subcontractors on public building or public work financed in whole or part by loans or grants from the United States.¹
- f. 29 CFR Part 5 - Labor standards provisions applicable to contracts covering federally financed and assisted construction (also labor standards provisions applicable to non-construction contracts subject to the Contract Work Hours and Safety Standards Act).¹
- g. 41 CFR Part 60 - Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor (Federal and federally assisted contracting requirements).¹
- h. 49 CFR Part 18 - Uniform administrative requirements for grants and cooperative agreements to state and local governments.³
- i. 49 CFR Part 20 - New restrictions on lobbying.
- j. 49 CFR Part 21 - Nondiscrimination in federally-assisted programs of the Department of Transportation - effectuation of Title VI of the Civil Rights Act of 1964.
- k. 49 CFR Part 23 - Participation by Disadvantage Business Enterprise in Airport Concessions.
- l. 49 CFR Part 24 - Uniform relocation assistance and real property acquisition for Federal and federally assisted programs.^{1 2}
- m. 49 CFR Part 26 – Participation By Disadvantaged Business Enterprises in Department of Transportation Programs.
- n. 49 CFR Part 27 - Nondiscrimination on the basis of handicap in programs and activities receiving or benefiting from Federal financial assistance.¹
- o. 49 CFR Part 29 – Government wide debarment and suspension (nonprocurement) and government wide requirements for drug-free workplace (grants).
- p. 49 CFR Part 30 - Denial of public works contracts to suppliers of goods and services of countries that deny procurement market access to U.S. contractors.

- q. 49 CFR Part 41 - Seismic safety of Federal and federally assisted or regulated new building construction.¹

Office of Management and Budget Circulars

- a. A-87 - Cost Principles Applicable to Grants and Contracts with State and Local Governments.
- b. A-133 - Audits of States, Local Governments, and Non-Profit Organizations

¹ These laws do not apply to airport planning sponsors.

² These laws do not apply to private sponsors.

³ 49 CFR Part 18 and OMB Circular A-87 contain requirements for State and Local Governments receiving Federal assistance. Any requirement levied upon State and Local Governments by this regulation and circular shall also be applicable to private sponsors receiving Federal assistance under Title 49, United States Code.

Specific assurances required to be included in grant agreements by any of the above laws, regulations or circulars are incorporated by reference in this grant agreement.

2. Responsibility and Authority of the Sponsor.

- a. **Public Agency Sponsor:** It has legal authority to apply for this grant, and to finance and carry out the proposed project; that a resolution, motion or similar action has been duly adopted or passed as an official act of the applicant's governing body authorizing the filing of the application, including all understandings and assurances contained therein, and directing and authorizing the person identified as the official representative of the applicant to act in connection with the application and to provide such additional information as may be required.
- b. **Private Sponsor:** It has legal authority to apply for this grant and to finance and carry out the proposed project and comply with all terms, conditions, and assurances of this grant agreement. It shall designate an official representative and shall in writing direct and authorize that person to file this application, including all understandings and assurances contained therein; to act in connection with this application; and to provide such additional information as may be required.

3. Sponsor Fund Availability. It has sufficient funds available for that portion of the project costs which are not to be paid by the United States. It has sufficient funds available to assure operation and maintenance of items funded under this grant agreement which it will own or control.

4. Good Title.

- a. It, a public agency or the Federal government, holds good title, satisfactory to the Secretary, to the landing area of the airport or site thereof, or will give assurance satisfactory to the Secretary that good title will be acquired.

- b. For noise compatibility program projects to be carried out on the property of the sponsor, it holds good title satisfactory to the Secretary to that portion of the property upon which Federal funds will be expended or will give assurance to the Secretary that good title will be obtained.

5. Preserving Rights and Powers.

- a. It will not take or permit any action which would operate to deprive it of any of the rights and powers necessary to perform any or all of the terms, conditions, and assurances in this grant agreement without the written approval of the Secretary, and will act promptly to acquire, extinguish or modify any outstanding rights or claims of right of others which would interfere with such performance by the sponsor. This shall be done in a manner acceptable to the Secretary.
- b. It will not sell, lease, encumber, or otherwise transfer or dispose of any part of its title or other interests in the property shown on Exhibit A to this application or, for a noise compatibility program project, that portion of the property upon which Federal funds have been expended, for the duration of the terms, conditions, and assurances in this grant agreement without approval by the Secretary. If the transferee is found by the Secretary to be eligible under Title 49, United States Code, to assume the obligations of this grant agreement and to have the power, authority, and financial resources to carry out all such obligations, the sponsor shall insert in the contract or document transferring or disposing of the sponsor's interest, and make binding upon the transferee all of the terms, conditions, and assurances contained in this grant agreement.
- c. For all noise compatibility program projects which are to be carried out by another unit of local government or are on property owned by a unit of local government other than the sponsor, it will enter into an agreement with that government. Except as otherwise specified by the Secretary, that agreement shall obligate that government to the same terms, conditions, and assurances that would be applicable to it if it applied directly to the FAA for a grant to undertake the noise compatibility program project. That agreement and changes thereto must be satisfactory to the Secretary. It will take steps to enforce this agreement against the local government if there is substantial non-compliance with the terms of the agreement.
- d. For noise compatibility program projects to be carried out on privately owned property, it will enter into an agreement with the owner of that property which includes provisions specified by the Secretary. It will take steps to enforce this agreement against the property owner whenever there is substantial non-compliance with the terms of the agreement.
- e. If the sponsor is a private sponsor, it will take steps satisfactory to the Secretary to ensure that the airport will continue to function as a public-use airport in accordance with these assurances for the duration of these assurances.
- f. If an arrangement is made for management and operation of the airport by any agency or person other than the sponsor or an employee of the sponsor, the sponsor will reserve sufficient rights and authority to insure

that the airport will be operated and maintained in accordance Title 49, United States Code, the regulations and the terms, conditions and assurances in this grant agreement and shall insure that such arrangement also requires compliance therewith.

- g. Sponsors of commercial service airports will not permit or enter into any arrangement that results in permission for the owner or tenant of a property used as a residence, or zoned for residential use, to taxi an aircraft between that property and any location on airport. Sponsors of general aviation airports entering into any arrangement that results in permission for the owner of residential real property adjacent to or near the airport must comply with the requirements of Sec. 136 of Public Law 112-95 and the sponsor assurances.
6. **Consistency with Local Plans.** The project is reasonably consistent with plans (existing at the time of submission of this application) of public agencies that are authorized by the State in which the project is located to plan for the development of the area surrounding the airport.
 7. **Consideration of Local Interest.** It has given fair consideration to the interest of communities in or near where the project may be located.
 8. **Consultation with Users.** In making a decision to undertake any airport development project under Title 49, United States Code, it has undertaken reasonable consultations with affected parties using the airport at which project is proposed.
 9. **Public Hearings.** In projects involving the location of an airport, an airport runway, or a major runway extension, it has afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport or runway location and its consistency with goals and objectives of such planning as has been carried out by the community and it shall, when requested by the Secretary, submit a copy of the transcript of such hearings to the Secretary. Further, for such projects, it has on its management board either voting representation from the communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project.
 10. **Air and Water Quality Standards.** In projects involving airport location, a major runway extension, or runway location it will provide for the Governor of the state in which the project is located to certify in writing to the Secretary that the project will be located, designed, constructed, and operated so as to comply with applicable air and water quality standards. In any case where such standards have not been approved and where applicable air and water quality standards have been promulgated by the Administrator of the Environmental Protection Agency, certification shall be obtained from such Administrator. Notice of certification or refusal to certify shall be provided within sixty days after the project application has been received by the Secretary.
 11. **Pavement Preventive Maintenance.** With respect to a project approved after January 1, 1995, for the replacement or reconstruction of pavement at the airport,

it assures or certifies that it has implemented an effective airport pavement maintenance-management program and it assures that it will use such program for the useful life of any pavement constructed, reconstructed or repaired with Federal financial assistance at the airport. It will provide such reports on pavement condition and pavement management programs as the Secretary determines may be useful.

12. **Terminal Development Prerequisites.** For projects which include terminal development at a public use airport, as defined in Title 49, it has, on the date of submittal of the project grant application, all the safety equipment required for certification of such airport under section 44706 of Title 49, United States Code, and all the security equipment required by rule or regulation, and has provided for access to the passenger enplaning and deplaning area of such airport to passengers enplaning and deplaning from aircraft other than air carrier aircraft.
13. **Accounting System, Audit, and Record Keeping Requirements.**
 - a. It shall keep all project accounts and records which fully disclose the amount and disposition by the recipient of the proceeds of this grant, the total cost of the project in connection with which this grant is given or used, and the amount or nature of that portion of the cost of the project supplied by other sources, and such other financial records pertinent to the project. The accounts and records shall be kept in accordance with an accounting system that will facilitate an effective audit in accordance with the Single Audit Act of 1984.
 - b. It shall make available to the Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, for the purpose of audit and examination, any books, documents, papers, and records of the recipient that are pertinent to this grant. The Secretary may require that an appropriate audit be conducted by a recipient. In any case in which an independent audit is made of the accounts of a sponsor relating to the disposition of the proceeds of a grant or relating to the project in connection with which this grant was given or used, it shall file a certified copy of such audit with the Comptroller General of the United States not later than six (6) months following the close of the fiscal year for which the audit was made.
14. **Minimum Wage Rates.** It shall include, in all contracts in excess of \$2,000 for work on any projects funded under this grant agreement which involve labor, provisions establishing minimum rates of wages, to be predetermined by the Secretary of Labor, in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5), which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids and shall be included in proposals or bids for the work.
15. **Veteran's Preference.** It shall include in all contracts for work on any project funded under this grant agreement which involve labor, such provisions as are necessary to insure that, in the employment of labor (except in executive, administrative, and supervisory positions), preference shall be given to Vietnam

era veterans, Persian Gulf veterans, Afghanistan-Iraq war veterans, disabled veterans, and small business concerns owned and controlled by disabled veterans as defined in Section 47112 of Title 49, United States Code. However, this preference shall apply only where the individuals are available and qualified to perform the work to which the employment relates.

16. **Conformity to Plans and Specifications.** It will execute the project subject to plans, specifications, and schedules approved by the Secretary. Such plans, specifications, and schedules shall be submitted to the Secretary prior to commencement of site preparation, construction, or other performance under this grant agreement, and, upon approval of the Secretary, shall be incorporated into this grant agreement. Any modification to the approved plans, specifications, and schedules shall also be subject to approval of the Secretary, and incorporated into this grant agreement.
17. **Construction Inspection and Approval.** It will provide and maintain competent technical supervision at the construction site throughout the project to assure that the work conforms to the plans, specifications, and schedules approved by the Secretary for the project. It shall subject the construction work on any project contained in an approved project application to inspection and approval by the Secretary and such work shall be in accordance with regulations and procedures prescribed by the Secretary. Such regulations and procedures shall require such cost and progress reporting by the sponsor or sponsors of such project as the Secretary shall deem necessary.
18. **Planning Projects.** In carrying out planning projects:
 - a. It will execute the project in accordance with the approved program narrative contained in the project application or with the modifications similarly approved.
 - b. It will furnish the Secretary with such periodic reports as required pertaining to the planning project and planning work activities.
 - c. It will include in all published material prepared in connection with the planning project a notice that the material was prepared under a grant provided by the United States.
 - d. It will make such material available for examination by the public, and agrees that no material prepared with funds under this project shall be subject to copyright in the United States or any other country.
 - e. It will give the Secretary unrestricted authority to publish, disclose, distribute, and otherwise use any of the material prepared in connection with this grant.
 - f. It will grant the Secretary the right to disapprove the sponsor's employment of specific consultants and their subcontractors to do all or any part of this project as well as the right to disapprove the proposed scope and cost of professional services.
 - g. It will grant the Secretary the right to disapprove the use of the sponsor's employees to do all or any part of the project.
 - h. It understands and agrees that the Secretary's approval of this project grant or the Secretary's approval of any planning material developed as part of

this grant does not constitute or imply any assurance or commitment on the part of the Secretary to approve any pending or future application for a Federal airport grant.

19. Operation and Maintenance.

- a. The airport and all facilities which are necessary to serve the aeronautical users of the airport, other than facilities owned or controlled by the United States, shall be operated at all times in a safe and serviceable condition and in accordance with the minimum standards as may be required or prescribed by applicable Federal, state and local agencies for maintenance and operation. It will not cause or permit any activity or action thereon which would interfere with its use for airport purposes. It will suitably operate and maintain the airport and all facilities thereon or connected therewith, with due regard to climatic and flood conditions. Any proposal to temporarily close the airport for non-aeronautical purposes must first be approved by the Secretary. In furtherance of this assurance, the sponsor will have in effect arrangements for-
- 1) Operating the airport's aeronautical facilities whenever required;
 - 2) Promptly marking and lighting hazards resulting from airport conditions, including temporary conditions; and
 - 3) Promptly notifying airmen of any condition affecting aeronautical use of the airport. Nothing contained herein shall be construed to require that the airport be operated for aeronautical use during temporary periods when snow, flood or other climatic conditions interfere with such operation and maintenance. Further, nothing herein shall be construed as requiring the maintenance, repair, restoration, or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the sponsor.
- b. It will suitably operate and maintain noise compatibility program items that it owns or controls upon which Federal funds have been expended.

20. Hazard Removal and Mitigation. It will take appropriate action to assure that such terminal airspace as is required to protect instrument and visual operations to the airport (including established minimum flight altitudes) will be adequately cleared and protected by removing, lowering, relocating, marking, or lighting or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

21. Compatible Land Use. It will take appropriate action, to the extent reasonable, including the adoption of zoning laws, to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including landing and takeoff of aircraft. In addition, if the project is for noise compatibility program implementation, it will not cause or permit any change in land use, within its jurisdiction, that will reduce its compatibility, with respect to the airport, of the noise compatibility program measures upon which Federal funds have been expended.

22. Economic Nondiscrimination.

- a. It will make the airport available as an airport for public use on reasonable terms and without unjust discrimination to all types, kinds and classes of aeronautical activities, including commercial aeronautical activities offering services to the public at the airport.
- b. In any agreement, contract, lease, or other arrangement under which a right or privilege at the airport is granted to any person, firm, or corporation to conduct or to engage in any aeronautical activity for furnishing services to the public at the airport, the sponsor will insert and enforce provisions requiring the contractor to-
 - 1) furnish said services on a reasonable, and not unjustly discriminatory, basis to all users thereof, and
 - 2) charge reasonable, and not unjustly discriminatory, prices for each unit or service, provided that the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.
- c. Each fixed-based operator at the airport shall be subject to the same rates, fees, rentals, and other charges as are uniformly applicable to all other fixed-based operators making the same or similar uses of such airport and utilizing the same or similar facilities.
- d. Each air carrier using such airport shall have the right to service itself or to use any fixed-based operator that is authorized or permitted by the airport to serve any air carrier at such airport.
- e. Each air carrier using such airport (whether as a tenant, non tenant, or subtenant of another air carrier tenant) shall be subject to such nondiscriminatory and substantially comparable rules, regulations, conditions, rates, fees, rentals, and other charges with respect to facilities directly and substantially related to providing air transportation as are applicable to all such air carriers which make similar use of such airport and utilize similar facilities, subject to reasonable classifications such as tenants or non tenants and signatory carriers and non signatory carriers. Classification or status as tenant or signatory shall not be unreasonably withheld by any airport provided an air carrier assumes obligations substantially similar to those already imposed on air carriers in such classification or status.
- f. It will not exercise or grant any right or privilege which operates to prevent any person, firm, or corporation operating aircraft on the airport from performing any services on its own aircraft with its own employees [including, but not limited to maintenance, repair, and fueling] that it may choose to perform.
- g. In the event the sponsor itself exercises any of the rights and privileges referred to in this assurance, the services involved will be provided on the same conditions as would apply to the furnishing of such services by commercial aeronautical service providers authorized by the sponsor under these provisions.

- h. The sponsor may establish such reasonable, and not unjustly discriminatory, conditions to be met by all users of the airport as may be necessary for the safe and efficient operation of the airport.
 - i. The sponsor may prohibit or limit any given type, kind or class of aeronautical use of the airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.
- 23. **Exclusive Rights.** It will permit no exclusive right for the use of the airport by any person providing, or intending to provide, aeronautical services to the public. For purposes of this paragraph, the providing of the services at an airport by a single fixed-based operator shall not be construed as an exclusive right if both of the following apply:
 - a. It would be unreasonably costly, burdensome, or impractical for more than one fixed-based operator to provide such services, and
 - b. If allowing more than one fixed-based operator to provide such services would require the reduction of space leased pursuant to an existing agreement between such single fixed-based operator and such airport. It further agrees that it will not, either directly or indirectly, grant or permit any person, firm, or corporation, the exclusive right at the airport to conduct any aeronautical activities, including, but not limited to charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity, and that it will terminate any exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under Title 49, United States Code.
- 24. **Fee and Rental Structure.** It will maintain a fee and rental structure for the facilities and services at the airport which will make the airport as self-sustaining as possible under the circumstances existing at the particular airport, taking into account such factors as the volume of traffic and economy of collection. No part of the Federal share of an airport development, airport planning or noise compatibility project for which a grant is made under Title 49, United States Code, the Airport and Airway Improvement Act of 1982, the Federal Airport Act or the Airport and Airway Development Act of 1970 shall be included in the rate basis in establishing fees, rates, and charges for users of that airport.
- 25. **Airport Revenues.**
 - a. All revenues generated by the airport and any local taxes on aviation fuel established after December 30, 1987, will be expended by it for the capital or operating costs of the airport; the local airport system; or other local facilities which are owned or operated by the owner or operator of the

airport and which are directly and substantially related to the actual air transportation of passengers or property; or for noise mitigation purposes on or off the airport. The following exceptions apply to this paragraph:

- 1) If covenants or assurances in debt obligations issued before September 3, 1982, by the owner or operator of the airport, or provisions enacted before September 3, 1982, in governing statutes controlling the owner or operator's financing, provide for the use of the revenues from any of the airport owner or operator's facilities, including the airport, to support not only the airport but also the airport owner or operator's general debt obligations or other facilities, then this limitation on the use of all revenues generated by the airport (and, in the case of a public airport, local taxes on aviation fuel) shall not apply.
- 2) If the Secretary approves the sale of a privately owned airport to a public sponsor and provides funding for any portion of the public sponsor's acquisition of land, this limitation on the use of all revenues generated by the sale shall not apply to certain proceeds from the sale. This is conditioned on repayment to the Secretary by the private owner of an amount equal to the remaining unamortized portion (amortized over a 20-year period) of any airport improvement grant made to the private owner for any purpose other than land acquisition on or after October 1, 1996, plus an amount equal to the federal share of the current fair market value of any land acquired with an airport improvement grant made to that airport on or after October 1, 1996.
- 3) Certain revenue derived from or generated by mineral extraction, production, lease, or other means at a general aviation airport (as defined at Section 47102 of title 49 United States Code), if the FAA determines the airport sponsor meets the requirements set forth in Sec. 813 of Public Law 112-95.

- b. As part of the annual audit required under the Single Audit Act of 1984, the sponsor will direct that the audit will review, and the resulting audit report will provide an opinion concerning, the use of airport revenue and taxes in paragraph (a), and indicating whether funds paid or transferred to the owner or operator are paid or transferred in a manner consistent with Title 49, United States Code and any other applicable provision of law, including any regulation promulgated by the Secretary or Administrator.
- c. Any civil penalties or other sanctions will be imposed for violation of this assurance in accordance with the provisions of Section 47107 of Title 49, United States Code.

26. Reports and Inspections. It will:

- a. submit to the Secretary such annual or special financial and operations reports as the Secretary may reasonably request and make such reports

available to the public; make available to the public at reasonable times and places a report of the airport budget in a format prescribed by the Secretary;

- b. for airport development projects, make the airport and all airport records and documents affecting the airport, including deeds, leases, operation and use agreements, regulations and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request;
- c. for noise compatibility program projects, make records and documents relating to the project and continued compliance with the terms, conditions, and assurances of this grant agreement including deeds, leases, agreements, regulations, and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request; and
- d. in a format and time prescribed by the Secretary, provide to the Secretary and make available to the public following each of its fiscal years, an annual report listing in detail:
 - 1) all amounts paid by the airport to any other unit of government and the purposes for which each such payment was made; and
 - 2) all services and property provided by the airport to other units of government and the amount of compensation received for provision of each such service and property.

27. Use by Government Aircraft. It will make available all of the facilities of the airport developed with Federal financial assistance and all those usable for landing and takeoff of aircraft to the United States for use by Government aircraft in common with other aircraft at all times without charge, except, if the use by Government aircraft is substantial, charge may be made for a reasonable share, proportional to such use, for the cost of operating and maintaining the facilities used. Unless otherwise determined by the Secretary, or otherwise agreed to by the sponsor and the using agency, substantial use of an airport by Government aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the Secretary, would unduly interfere with use of the landing areas by other authorized aircraft, or during any calendar month that –

- a. Five (5) or more Government aircraft are regularly based at the airport or on land adjacent thereto; or
- b. The total number of movements (counting each landing as a movement) of Government aircraft is 300 or more, or the gross accumulative weight of Government aircraft using the airport (the total movement of Government aircraft multiplied by gross weights of such aircraft) is in excess of five million pounds.

28. Land for Federal Facilities. It will furnish without cost to the Federal Government for use in connection with any air traffic control or air navigation activities, or weather-reporting and communication activities related to air traffic control, any areas of land or water, or estate therein, or rights in buildings of the sponsor as the Secretary considers necessary or desirable for construction, operation, and maintenance at Federal expense of space or facilities for such

purposes. Such areas or any portion thereof will be made available as provided herein within four months after receipt of a written request from the Secretary.

29. Airport Layout Plan.

- a. It will keep up to date at all times an airport layout plan of the airport showing (1) boundaries of the airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the sponsor for airport purposes and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars and roads), including all proposed extensions and reductions of existing airport facilities; (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon; and (4) all proposed and existing access points used to taxi aircraft across the airport's property boundary. Such airport layout plans and each amendment, revision, or modification thereof, shall be subject to the approval of the Secretary which approval shall be evidenced by the signature of a duly authorized representative of the Secretary on the face of the airport layout plan. The sponsor will not make or permit any changes or alterations in the airport or any of its facilities which are not in conformity with the airport layout plan as approved by the Secretary and which might, in the opinion of the Secretary, adversely affect the safety, utility or efficiency of the airport.
- b. If a change or alteration in the airport or the facilities is made which the Secretary determines adversely affects the safety, utility, or efficiency of any federally owned, leased, or funded property on or off the airport and which is not in conformity with the airport layout plan as approved by the Secretary, the owner or operator will, if requested, by the Secretary (1) eliminate such adverse effect in a manner approved by the Secretary; or (2) bear all costs of relocating such property (or replacement thereof) to a site acceptable to the Secretary and all costs of restoring such property (or replacement thereof) to the level of safety, utility, efficiency, and cost of operation existing before the unapproved change in the airport or its facilities except in the case of a relocation or replacement of an existing airport facility due to a change in the Secretary's design standards beyond the control of the airport sponsor.

- 30. Civil Rights.** It will comply with such rules as are promulgated to assure that no person shall, on the grounds of race, creed, color, national origin, sex, age, or handicap be excluded from participating in any activity conducted with or benefiting from funds received from this grant. This assurance obligates the sponsor for the period during which Federal financial assistance is extended to the program, except where Federal financial assistance is to provide, or is in the form of personal property or real property or interest therein or structures or improvements thereon in which case the assurance obligates the sponsor or any transferee for the longer of the following periods: (a) the period during which the property is used for a purpose for which Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits, or

(b) the period during which the sponsor retains ownership or possession of the property.

31. Disposal of Land.

- a. For land purchased under a grant for airport noise compatibility purposes, including land serving as a noise buffer, it will dispose of the land, when the land is no longer needed for such purposes, at fair market value, at the earliest practicable time. That portion of the proceeds of such disposition which is proportionate to the United States' share of acquisition of such land will be, at the discretion of the Secretary, (1) reinvested in another project at the airport, or (2) transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order, (1) reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund. If land acquired under a grant for noise compatibility purposes is leased at fair market value and consistent with noise buffering purposes, the lease will not be considered a disposal of the land. Revenues derived from such a lease may be used for an approved airport development project that would otherwise be eligible for grant funding or any permitted use of airport revenue.
- b. For land purchased under a grant for airport development purposes (other than noise compatibility), it will, when the land is no longer needed for airport purposes, dispose of such land at fair market value or make available to the Secretary an amount equal to the United States' proportionate share of the fair market value of the land. That portion of the proceeds of such disposition which is proportionate to the United States' share of the cost of acquisition of such land will, (1) upon application to the Secretary, be reinvested or transferred to another eligible airport as prescribed by the Secretary. The Secretary shall give preference to the following, in descending order: (1) reinvestment in an approved noise compatibility project, (2) reinvestment in an approved project that is eligible for grant funding under Section 47117(e) of title 49 United States Code, (3) reinvestment in an approved airport development project that is eligible for grant funding under Sections 47114, 47115, or 47117 of title 49 United States Code, (4) transferred to an eligible sponsor of another public airport to be reinvested in an approved noise compatibility project at that airport, and (5) paid to the Secretary for deposit in the Airport and Airway Trust Fund.
- c. Land shall be considered to be needed for airport purposes under this assurance if (1) it may be needed for aeronautical purposes (including runway protection zones) or serve as noise buffer land, and (2) the revenue

from interim uses of such land contributes to the financial self-sufficiency of the airport. Further, land purchased with a grant received by an airport operator or owner before December 31, 1987, will be considered to be needed for airport purposes if the Secretary or Federal agency making such grant before December 31, 1987, was notified by the operator or owner of the uses of such land, did not object to such use, and the land continues to be used for that purpose, such use having commenced no later than December 15, 1989.

- d. Disposition of such land under (a) (b) or (c) will be subject to the retention or reservation of any interest or right therein necessary to ensure that such land will only be used for purposes which are compatible with noise levels associated with operation of the airport.
32. **Engineering and Design Services.** It will award each contract, or sub-contract for program management, construction management, planning studies, feasibility studies, architectural services, preliminary engineering, design, engineering, surveying, mapping or related services with respect to the project in the same manner as a contract for architectural and engineering services is negotiated under Title IX of the Federal Property and Administrative Services Act of 1949 or an equivalent qualifications-based requirement **prescribed** for or by the sponsor of the airport.
 33. **Foreign Market Restrictions.** It will not allow funds provided under this grant to be used to fund any project which uses any product or service of a foreign country during the period in which such foreign country is listed by the United States Trade Representative as denying fair and equitable market opportunities for products and suppliers of the United States in procurement and construction.
 34. **Policies, Standards, and Specifications.** It will carry out the project in accordance with policies, standards, and specifications approved by the Secretary including but not limited to the advisory circulars listed in the Current FAA Advisory Circulars for AIP projects, dated 16 April 2013 (the latest approved version as of this grant offer) and included in this grant, and in accordance with applicable state policies, standards, and specifications approved by the Secretary.
 35. **Relocation and Real Property Acquisition.** (1) It will be guided in acquiring real property, to the greatest extent practicable under State law, by the land acquisition policies in Subpart B of 49 CFR Part 24 and will pay or reimburse property owners for necessary expenses as specified in Subpart B. (2) It will provide a relocation assistance program offering the services described in Subpart C and fair and reasonable relocation payments and assistance to displaced persons as required in Subpart D and E of 49 CFR Part 24. (3) It will make available within a reasonable period of time prior to displacement, comparable replacement dwellings to displaced persons in accordance with Subpart E of 49 CFR Part 24.
 36. **Access By Intercity Buses.** The airport owner or operator will permit, to the maximum extent practicable, intercity buses or other modes of transportation to

have access to the airport; however, it has no obligation to fund special facilities for intercity buses or for other modes of transportation.

37. **Disadvantaged Business Enterprises.** The recipient shall not discriminate on the basis of race, color, national origin or sex in the award and performance of any DOT-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The Recipient shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure non discrimination in the award and administration of DOT-assisted contracts. The recipient's DBE program, as required by 49 CFR Part 26, and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the recipient of its failure to carry out its approved program, the Department may impose sanctions as provided for under Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801).
38. **Hangar Construction.** If the airport owner or operator and a person who owns an aircraft agree that a hangar is to be constructed at the airport for the aircraft at the aircraft owner's expense, the airport owner or operator will grant to the aircraft owner for the hangar a long term lease that is subject to such terms and conditions on the hangar as the airport owner or operator may impose.
39. **Competitive Access.**
- a. If the airport owner or operator of a medium or large hub airport (as defined in section 47102 of title 49, U.S.C.) has been unable to accommodate one or more requests by an air carrier for access to gates or other facilities at that airport in order to allow the air carrier to provide service to the airport or to expand service at the airport, the airport owner or operator shall transmit a report to the Secretary that-
 - 1) Describes the requests;
 - 2) Provides an explanation as to why the requests could not be accommodated; and
 - 3) Provides a time frame within which, if any, the airport will be able to accommodate the requests.
 - b. Such report shall be due on either February 1 or August 1 of each year if the airport has been unable to accommodate the request(s) in the six month period prior to the applicable due date.

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

104

CHRISTOPHER D. CLEMENT, SR.
COMMISSIONER

JEFF BRILLHART, P.E.
ASSISTANT COMMISSIONER

Bureau of Aeronautics
August 1, 2013

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Transportation to provide funding to the Pease Development Authority (Vendor Code 156846) for SBG-16-02-2013, Phase I efforts to restore airfield pavement and drainage systems that have been damaged by Alkali-Silica Reaction (ASR), conduct Runway 16-34 pavement repairs (5-year life extension), and perimeter roadway relocation at the Portsmouth International Airport at Pease. State and Federal participation in the amount of \$2,043,402.50 is effective upon Governor and Council approval through September 30, 2017. 94.74% Federal Funds, 5.26% General Funds.

Funding is available as follows:

	<u>FY 2014</u>
04-96-96-960030-1789 FAA Projects 034-500151 Bonded Expenses	\$1,989,628.75
04-96-96-960030-0997 FAA Projects 034-500151 Bonded Expenses	<u>\$53,773.75</u>
Total	\$ 2,043,402.50

EXPLANATION

The following are two Federal Aviation Administration (FAA) State Block Grants have been awarded to the State of New Hampshire:

<u>FAA Grant Number</u>	<u>FAA Grant Amount</u>
3-33-SBGP-10-2010	\$3,143,085.00
3-33-SBGP-18-2013	\$4,102,793.00

A total of \$1,935,855.00 (or 90% of the project cost) is proposed from the grants listed above for this airport development project (SBG-16-02-2013 copy attached), Phase I efforts to restore airfield

pavement and drainage systems that have been damaged by Alkali-Silica Reaction (ASR), conduct Runway 16-34 pavement repairs (5-year life extension), and perimeter roadway relocation at the Portsmouth International Airport at Pease. This project will repair bituminous pavements and repair and seal drainage structures heaved and damaged by the action of ASR in the Portland Cement Concrete (PCC) pavements. In addition the project will relocate a portion of the airport perimeter road to a location outside the Taxiway Object Free Area (TOFA). The project will also repair runway edge joints to extend the runway useful life an additional 5 years. This project is necessary to meet FAA rules and regulations to improve the operational safety at the airport.

The Department of Transportation accepts the Federal Funds for this project as a pass through to the Pease Development Authority in accordance with RSA 422:15. The Pease Development Authority will participate in the amount of \$107,547.50 (5 % of this project). State participation in the amount of \$107,547.50 (5 % of this project) is also requested. The total cost of the airport development project is \$2,150,950.00.

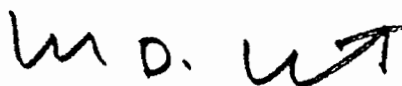

As a State agency, the Pease Development Authority is not obligated to procure insurance. Similarly, the indemnification requirement has been waived for this contract.

The Contract has been approved by the Attorney General as to form and execution, and the Department has verified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Please note that the state funds are from the General Fund and have been previously approved in HB25, 2011 253:1 XIV-A and 2009, 145:1, XII- A, Capital Budget.

Sincerely,

Christopher D. Clement Sr.
Commissioner
