EXPLANATION  

The purpose of this request is to continue providing crisis respite services specifically for Doorways clients. As one component of the State’s comprehensive approach to the substance use disorder crisis, respite services continue to fill a gap identified by the Doorways.  

The crisis beds are critical to engaging individuals who request support when moving into needed SUD care. The respite services continue to reduce the number of individuals who would utilize other community services due to a lack of SUD service availability, specifically hospital emergency rooms or criminal justice involvement.  

From January 1, 2021 through June 30, 2021 460 individuals utilized a total of 2,110 respite bed nights. A total of 37 beds will continue to be available each day specifically for
Doorways clients. Granite Recovery Respite will provide 11 beds in Effingham and NH Respite will provide 26 beds in Nashua between September 30, 2021 and September 29, 2022.

The Department will continue to monitor contracted services through monthly reporting of de-identified, aggregate data to ensure the appropriate number of crisis respite beds are available for Doorways clients within each Contractor's scope of services. Data includes:

- Number and demographics of clients served.
- Length of time in shelter for each person.
- Discharge reason and where the clients were discharged to.
- Staffing changes.
- Time between requests for shelter and admission.

As referenced in Exhibit C-1, Revisions to Standard Contract Language, Section 2, Renewal, Subsection 2.1 of the original contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for one (1) of the one (1) years available.

Should the Governor and Executive Council not authorize this request, clients of the Doorways may not have access to a safe and secure space to wait for substance use disorder treatment, which may lead to an increase in the number of deaths due to overdose and the number of individuals who utilize other community services which may be inappropriate to their situation, such as emergency rooms or incarceration.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette

EXPLANATION

This request is Retroactive because after the CARES Act funding was spent, the contractors agreed to continue providing respite shelter beds for females. The continuation of services was necessary while the Department identified a funding source in order to avoid a gap in direct client services.

This request is Sole Source because the contracts were originally approved as sole source and MOP 150 requires any subsequent amendments to be labelled as sole source.

The purpose of this request is to adjust funding for the two Contractors to match their respective capacities to provide crisis respite services.

Crisis respite services are needed to combat the opioid crisis and reduce the number of overdoses in the State of New Hampshire, as part of a comprehensive approach to the opioid epidemic. Additionally, services provided by the Contractors reduce the number of individuals who would otherwise utilize other community services due to a lack of crisis respite service availability, which may include hospital emergency rooms.

Approximately 500 individuals will be served from December 11, 2020 to September 29, 2021.
His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  

Page 3 of 3

The individuals served benefit from having access to respite beds that enable them to be housed in a safe and stable environment that may be safer than their current situation, which gives them a more stable foundation to support treatment and recovery. A total of thirty-five (35) respite beds will be available each day specifically for Doorways clients.

The Department will continue monitoring services through monthly reporting of de-identified aggregate data including:

- Number and demographics of clients served.
- Average time in shelter.
- Discharge reason and where the clients were discharged.
- Staffing changes.
- Reason for admission denials.
- Time between requests for shelter and admission.

Should the Governor and Executive Council not authorize this request, Doorways clients may not have access to safe and secure spaces to stay while waiting to enter substance use treatment, which may lead to an increase in the number of deaths due to overdose and an increase in the number of individuals who utilize other community services, which may include emergency rooms or detention facilities.

Area served: Statewide.

EXPLANATION

This request is Retroactive to avoid a gap in direct client services. Additionally, there was a delay in Substance Abuse and Mental Health Services Administration approval of New Hampshire's requests for continued State Opioid Response Grant funding, which delayed the Department's ability to present these contracts. This request is Sole Source because the contracts were originally approved as sole source and MOP 150 requires any subsequent amendments to be labelled as sole source.

The purpose of this request is to continue providing a safe and secure location, with non-clinical, non-medical supervision, to individuals in crisis due to opioid use who are seeking treatment services. Crisis respite services are needed to combat the Opioid Crisis and reduce the number of overdoses in the State of New Hampshire as part of a comprehensive approach to the opioid epidemic. Additionally, services provided through the attached contracts will reduce the number of individuals who currently utilize other community services due to a lack of service availability, which may include hospital emergency rooms.

Approximately twenty-three (23) respite beds will be available each day specifically for Doorways clients. From November 2019 through September 2020, 454 individuals have utilized these respite beds. The Department cannot determine the number of individuals that will be served through the contract completion dates.

The contracts increase capacity to provide respite beds for individuals in crisis situations. The individuals will benefit from having access to respite beds that enable them to be housed in a safe and stable environment that may be safer than their current situation, which gives them a more stable foundation on which to pursue treatment and recovery.

The Department will continue to monitor services through monthly reporting of de-identified aggregate data including:

- Number and demographics of clients served.
- Average time in shelter.
- Discharge reason and where the clients were discharged.
- Staffing changes.
- Reason for admission denials.
- Time between requests for shelter and admission.
His Excellency, Governor Christopher T. Sununu
And the Honorable Council
Page 3 of 3

As referenced in Exhibit C-1 of the original contracts, the parties have the option to extend
the agreements for up to two (2) additional years, contingent upon satisfactory delivery of
services, available funding, agreement of the parties and Governor and Council approval. The
Department is exercising its option to renew services for one (1) of the two (2) years available.

Should the Governor and Executive Council not authorize this request, clients of the
Doorways may not have access to a safe and secure space to wait for substance use treatment
which may lead to an increase in the number of deaths due to overdose and the number of
individuals who utilize other community services which may be inappropriate to their situation,
such as emergency rooms or jail.

Area served: Statewide.

Source of Funds: CFDA #93.788, FAIN #H79TI081685 and H79TI083326

In the event that the Federal Funds become no longer available, General Funds will not
be requested to support this program.

EXPLANATION

This request is sole source because the Department required immediate coverage due to the current scarcity of respite beds and identified these two (2) vendors as willing to provide services.

The purpose of this request is to provide a safe and secure location, with non-clinical, non-medical supervision, to individuals in crisis due to opioid use who are seeking treatment services. As
His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
Page 2 of 2

one component of the State's comprehensive approach to the Opioid Crisis, these crisis respite services are needed to fill a gap identified by the Doorways. These beds are critical to retaining individuals in treatment and keeping individuals engaged in their communities. An additional purpose is to reduce the number of individuals who currently utilize other community services due to a lack of service availability, specifically, hospital emergency rooms or arrests and incarceration for public intoxication or vagrancy.

Approximately twenty-three (23) beds will be available each day. The rate per bed per day will be $250 regardless of whether the bed is being utilized or not as the beds are being set aside specifically for Doorways clients. Granite Recovery Respite will provide 11 beds in Effingham for men and women. NH Respite will provide 12 beds in Nashua for men.

These contracts will benefit the Department through increased capacity to provide respite beds for individuals in crises. The individuals will benefit from having access to respite beds that enable them to be housed in a safe and stable environment that may be safer than their current situation and which gives them a more stable foundation on which to pursue treatment and recovery. In addition to these services, a robust level of client-specific data will be available, which will be collected in coordination with the Doorways.

The State Opioid Response grant is being used to make critical investments in the substance use disorder system in order to reduce unmet treatment needs, reduce opioid overdose fatalities, and increase access to medication-assisted treatment. Through collaborative agreements with these Contractors, the Doorways will be responsible for gathering data on client-related outcomes including, but not limited to, recovery status, criminal justice involvement, employment, and housing needs at the time intervals listed above. This data will enable the Department to measure short and long-term outcomes associated with SOR-funded initiatives and to determine which programs are generating the best results for the clients served.

As referenced in the Exhibit C-1 of these agreements, the parties have the option to extend contract services for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council.

Should the Governor and Executive Council not authorize this request, clients of the Doorways may not have access to a safe and secure space to wait for substance use treatment, which may lead to an increase in the number of deaths due to overdose and the number of individuals who utilize other community services which may be inappropriate to their situation, such as emergency rooms or jail.

Area served: Statewide.

Source of Funds: 100% Federal Funds from the Substance Abuse and Mental Health Services Administration, State Opioid Response Grant (CFDA #93.788, FINA 081685).

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Jeffrey A. Meyers  
Commissioner

**EXPLANATION**

This request is **Retroactive** because after the CARES Act funding was spent, the contractors agreed to continue providing respite shelter beds for females. The continuation of services was necessary while the Department identified a funding source in order to avoid a gap in direct client services.

This request is **Sole Source** because the contracts were originally approved as sole source and MOP 150 requires any subsequent amendments to be labelled as sole source.

The purpose of this request is to adjust funding for the two Contractors to match their respective capacities to provide crisis respite services.

Crisis respite services are needed to combat the opioid crisis and reduce the number of overdoses in the State of New Hampshire, as part of a comprehensive approach to the opioid epidemic. Additionally, services provided by the Contractors reduce the number of individuals who would otherwise utilize other community services due to a lack of crisis respite service availability, which may include hospital emergency rooms.

Approximately 500 individuals will be served from December 11, 2020 to September 29, 2021.
The individuals served benefit from having access to respite beds that enable them to be housed in a safe and stable environment that may be safer than their current situation, which gives them a more stable foundation to support treatment and recovery. A total of thirty five (35) respite beds will be available each day specifically for Doorways clients.

The Department will continue monitoring services through monthly reporting of de-identified aggregate data including:

- Number and demographics of clients served.
- Average time in shelter.
- Discharge reason and where the clients were discharged.
- Staffing changes.
- Reason for admission denials.
- Time between requests for shelter and admission.

Should the Governor and Executive Council not authorize this request, Doorways clients may not have access to safe and secure spaces to stay while waiting to enter substance use treatment, which may lead to an increase in the number of deaths due to overdose and an increase in the number of individuals who utilize other community services, which may include emergency rooms or detention facilities.

Area served: Statewide.

EXPLANATION

This request is Retroactive to avoid a gap in direct client services. Additionally, there was a delay in Substance Abuse and Mental Health Services Administration approval of New Hampshire’s requests for continued State Opioid Response Grant funding, which delayed the Department’s ability to present these contracts. This request is Sole Source because the contracts were originally approved as sole source and MOP 150 requires any subsequent amendments to be labelled as sole source.

The purpose of this request is to continue providing a safe and secure location, with non-clinical, non-medical supervision, to individuals in crisis due to opioid use who are seeking treatment services. Crisis respite services are needed to combat the Opioid Crisis and reduce the number of overdoses in the State of New Hampshire as part of a comprehensive approach to the opioid epidemic. Additionally, services provided through the attached contracts will reduce the number of individuals who currently utilize other community services due to a lack of service availability, which may include hospital emergency rooms.

Approximately twenty-three (23) respite beds will be available each day specifically for Doorways clients. From November 2019 through September 2020, 454 individuals have utilized these respite beds. The Department cannot determine the number of individuals that will be served through the contract completion dates.

The contracts increase capacity to provide respite beds for individuals in crisis situations. The individuals will benefit from having access to respite beds that enable them to be housed in a safe and stable environment that may be safer than their current situation, which gives them a more stable foundation on which to pursue treatment and recovery.

The Department will continue to monitor services through monthly reporting of de-identified aggregate data including:

- Number and demographics of clients served.
- Average time in shelter.
- Discharge reason and where the clients were discharged.
- Staffing changes.
- Reason for admission denials.
- Time between requests for shelter and admission.
His Excellency, Governor Christopher T. Sununu  
And the Honorable Council  
Page 3 of 3

As referenced in Exhibit C-1 of the original contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for one (1) of the two (2) years available.

Should the Governor and Executive Council not authorize this request, clients of the Doorways may not have access to a safe and secure space to wait for substance use treatment which may lead to an increase in the number of deaths due to overdose and the number of individuals who utilize other community services which may be inappropriate to their situation, such as emergency rooms or jail.

Area served: Statewide.

Source of Funds: CFDA #93.788, FAIN #H79TI081685 and H79TI083326

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

EXPLANATION

This request is sole source because the Department required immediate coverage due to the current scarcity of respite beds and identified these two (2) vendors as willing to provide services.

The purpose of this request is to provide a safe and secure location, with non-clinical, non-medical supervision, to individuals in crisis due to opioid use who are seeking treatment services. As
one component of the State’s comprehensive approach to the Opioid Crisis, these crisis respite services are needed to fill a gap identified by the Doorways. These beds are critical to retaining individuals in treatment and keeping individuals engaged in their communities. An additional purpose is to reduce the number of individuals who currently utilize other community services due to a lack of service availability, specifically, hospital emergency rooms or arrests and incarceration for public intoxication or vagrancy.

Approximately twenty-three (23) beds will be available each day. The rate per bed per day will be $250 regardless of whether the bed is being utilized or not as the beds are being set aside specifically for Doorways clients. Granite Recovery Respite will provide 11 beds in Eppingham for men and women. NH Respite will provide 12 beds in Nashua for men.

These contracts will benefit the Department through increased capacity to provide respite beds for individuals in crises. The individuals will benefit from having access to respite beds that enable them to be housed in a safe and stable environment that may be safer than their current situation and, which gives them a more stable foundation on which to pursue treatment and recovery. In addition to these services, a robust level of client-specific data will be available, which will be collected in coordination with the Doorways.

The State Opioid Response grant is being used to make critical investments in the substance use disorder system in order to reduce unmet treatment needs, reduce opioid overdose fatalities, and increase access to medication assisted treatment. Through collaborative agreements with these Contractors, the Doorways will be responsible for gathering data on client-related outcomes including, but not limited to, recovery status, criminal justice involvement, employment, and housing needs at the time intervals listed above. This data will enable the Department to measure short and long-term outcomes associated with SOR-funded initiatives and to determine which programs are generating the best results for the clients served.

As referenced in the Exhibit C-1 of these agreements, the parties have the option to extend contract services for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council.

Should the Governor and Executive Council not authorize this request, clients of the Doorways may not have access to a safe and secure space to wait for substance use treatment, which may lead to an increase in the number of deaths due to overdose and the number of individuals who utilize other community services which may be inappropriate to their situation, such as emergency rooms or jail.

Area served: Statewide.

Source of Funds: 100% Federal Funds from the Substance Abuse and Mental Health Services Administration, State Opioid Response Grant (CFDA #93.788, FAIN TI081685).

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Jeffrey A. Meyers
Commissioner
