Re: Re-application for position of Physician Investigator to the Medical Review  
Subcommittee (MRSC) of the New Hampshire Board of Medicine

**Qualifications:**

I am a 68 year old General Surgeon recently fully retired from clinical practice (Dec. 2013). I was very involved in quality assurance activity at Concord Hospital from 1988 to 2010, which is when I retired from there. I was President of the medical staff there 2000 to 2002 and Vice President and Chair of the Credentials Committee 1998-2000. I started the Dartmouth surgical residency rotation in Concord in 1990 (still in existence). I also started the weekly morbidity and mortality teaching conference there in 2000 and still attend those weekly meetings since I now monitor and teach medical students. I was also Chief of Surgery at Concord Hospital 2008-2009.

After I retired from a full clinical practice in Concord in 2010 I continued teaching medical students there and still do so. I did work part-time at the VA in Manchester from 2010 to 2012 until going to Rwanda, Africa for 6 months working on a US State Department residency training project. On my return I worked part-time again for 10 months at New London Hospital in New London, N.H. until Dec. 2013. In 2011, while working at the VA, I worked on a surgical safety project at the Harvard School of Public Health under the direction of Drs. Atul Gawande and William Berry. Also in 2010 and 2011 I worked part time for the N.H. Social Security Disability Board reviewing disability requests.

I joined the MRSC in 2003 and completed two full terms until 2009. In 2010 I joined the full Board of Medicine, but resigned in July of 2012 to go to work in Africa. On my return, I expressed a desire to serve on the MRSC again if there was an opening after I gave up clinical work in Dec 2013. I joined the MRSC again in February 2014 and again enjoyed the work involved. When the position of Physician Investigator became available last June with the retirement of Dr. Douglas Black I applied for the position and have worked in that capacity since last July.

I have therefore had a fairly extensive experience in both quality assurance and doing medical legal investigations. I have never acted as an expert witness, although I have been asked, and I have been lucky so far in not having been named in a suit or complaint since entering practice in 1980 after finishing my training and military obligation.

My written and oral communication skills most likely can best be judged best by those working with me on the MRSC in past and present, and the members of the Board who worked with me from 2010 to the present.

I have an active license in N.H. and Massachusetts and have maintained my surgical board certification including recent maintenance of certification exams. I am certified through 2019. I also have active advance cardiac and trauma certification. I intend to maintain all these credentials since teaching medical students and residents requires being up to date. I was fortunate to have received a teaching award from Geisel/Dartmouth Medical School at their graduation/awards ceremony in Hanover just last week. The teaching I do is mostly in Concord and does not interfere with the hours needed for the Physician Investigator position that I now have.

Observations and accomplishments:

I have completed almost one year of service in this position. The following circumstances have made this year especially challenging:

- We have been without an Executive Secretary for almost this entire time.
- The MRSC has been chronically short staffed, including several months when we were down three physician members.
- The Board has held a multi-day hearing on a complex case. I was asked to assist the prosecutors with their record review and to attend the hearing for expert assistance.
- The volume of cases needing review and investigation was an all-time high for 2014 and appears to be on the same pathway for 2015.

---

Since starting, I have arranged for over 50 reviews by outside experts. Each of these experts have agreed to do this work as a service to the state, rather than receive monetary compensation. Even though we have recently re-constituted missing MRSC members, I do not anticipate a lesser need for outside experts because of the rising number of cases as a whole and an increasing number of cases in areas like psychiatry and pain and/or addiction medicine where we currently don't have designated MRSC positions. The average number of outside reviews in previous years has been about 30.

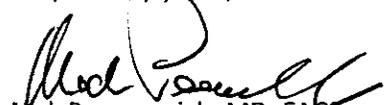

I have improved the procedures and timeliness for reviewing potential new cases. I am also conducting a more thorough review of cases prior to assignment, which requires reading all the incoming information to make sure it is accurate and complete. This extra step appears to result in a faster turn-around time of reviews returning from MRSC members as well as outside experts due to my ability to anticipate the needs of the reviewer.

Due to the increasing number and complexity of cases as well as the due diligence needed in the initial review of incoming information, I believe that this position requires additional hours. However, I am willing to continue this work at \$60/hr.

Lastly, I very much enjoy the nature of the work and also find the quality and intelligence of the whole Board of Medicine staff exceptional. It is a joy for me to work there.

Thank you for your consideration of my continuation as the Physician Investigator for the Board.

Respectfully yours,
