

70 Jm

State of New Hampshire

DEPARTMENT OF SAFETY
OFFICE OF THE COMMISSIONER
33 HAZEN DR. CONCORD, NH 03305
603/271-2791

JOHN J. BARTHELMES
COMMISSIONER

August 25, 2014

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

Requested Action

Pursuant to RSA 21-P:43, the Department of Safety, Division of Homeland Security and Emergency Management (HSEM) requests authorization to enter into a Memorandum of Agreement (MOA) with the Department of Environmental Services (DES) [VC# 177894-B001] for \$209,453.00 for the Fluvial Erosion Hazard (FEH) Assessment Program, which provides support for two full-time personnel and associated benefits necessary to support the program of preparing and conducting assessments for the identification of river-induced public safety hazards in New Hampshire. Effective upon Governor and Council approval through September 30, 2015. Funding source: 100% Federal Funds.

Funding is available in the SFY 2015 operating budget as follows:

02-23-23-236010-80920000	Dept. of Safety – Homeland Sec-Emer Mgmt – 100% EMPG Local Match	
072-500576	Grants to Other State Agencies - Federal	
Activity Code: 23EM138092		\$209,453.00

Explanation

In this project, program staff will provide the additional technical foundation of this long-term initiative through three (3) activities. First, program staff will perform a stream power analysis, with priority given to those watersheds identified through the data collection project as experiencing the greatest concentrations of flood events and related expenditures. Stream power is a measure of the river energy available to work beds and banks, leading to erosion and channel change. This analysis can be conducted in geographic information systems and can further enhance risk prioritization through identification of river reaches with the greatest potential to experience future changes. Second, program staff will assist in collecting additional data on flood hazards through meeting with community officials in the state to obtain a local perspective on the concentration of flood and fluvial erosion hazards and to input this information into the system that has been designed to accommodate this data. Third, program staff will provide technical support to the Pre- and Post-Incident River Response Team (PIRRT) and state personnel in examining the flood and fluvial erosion hazard risk data and assisting in site priority targeting through understanding of river dynamic processes and features that are contributing factors to high-risk sites.

The MOA listed above is funded from the FFY'13 Emergency Management Performance Grant, which was awarded to the Department of Safety, Division of Homeland Security and Emergency Management (HSEM) from the Federal Emergency Management Agency (FEMA). The grant funds may be used to measurably improve all-hazard planning and preparedness capabilities/activities, to include mitigation, preparedness, response, and recovery initiatives at the state and local level. Applications are submitted to this office, which are reviewed by the HSEM Planning Chief, Assistant Planning Chief and Field Representatives and approved by the HSEM Director. The criteria for approval are based on grant eligibility in accordance with the FFY'13 grant guidance and the documented needs of state agencies or local jurisdictions; a copy of this guidance is attached. The Emergency Management Performance Grant is 50% federally funded by FEMA with a 50% match requirement supplied by DES. DES acknowledges their match obligation as part of Section V of the Memorandum of Agreement.

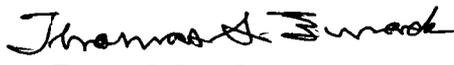

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
August 25, 2014
Page 2 of 2

In the event that Federal Funds are no longer available, General Funds and/or Highway Funds will not be requested to support this program.

Respectfully submitted,

John J. Barthelmes
Commissioner of Safety

Respectfully submitted,

Thomas S. Burack
Commissioner of Environmental Services

**New Hampshire Homeland Security and Emergency Management (NHHSEM)
Emergency Management Performance Grant (EMPG) Guidance
FFY 2013**

(Grant Performance Period: October 1, 2012 through September 30, 2015)

The purpose of the FY 2013 Emergency Management Performance Grant (EMPG) Program is to assist State and Local Governments and other eligible agencies in preparing for all hazards. EMPG focuses on Planning, Organization/Administrative, Equipment, Training, Exercises, Mitigation and Maintenance/Sustainment to enhance and sustain all-hazards emergency management capabilities.

As part of the FY 2013 EMPG Program, DHS-FEMA identified an overarching **priority**:

***Advancing “Whole Community” Security and Emergency Management:** “Whole Community” fosters a national emergency management approach and considers all aspects of a community to effectively prepare for, protect against, respond to, recover from, and mitigate against any terrorist attack or natural disaster. As the country experiences threats of terrorist attacks (foreign and domestic) and natural disasters, communities are challenged to develop collective, local abilities to withstand the potential impacts of these events, respond quickly, and recover in a way that sustains or improves the community’s overall well-being. Achieving this collective capacity calls for innovative approaches across the community, including emergency management to build up existing practices, institutions, and organizations that help make local communities successful, and that can leverage this infrastructure if and when an incident occurs.*

Effectiveness Measures – Quarterly Progress Reporting: As part of the EMPG Program administration, grantees are **required** to provide quarterly reports that provide sufficient detail for NH HSEM to measure progress of the funded project(s). The EMPG Quarterly Report form is available on NH HSEM’s website at: <http://www.nh.gov/safety/divisions/hsem/grants/documents/empg-quarterly-form.doc>

Cost Match: The EMPG Program has a 50 percent (50%) Federal and 50 percent (50%) Local cost match (cash or in-kind) requirement. Unless otherwise authorized by law, Federal funds cannot be matched with other Federal funds. To meet matching requirements, the grantee contributions must be *reasonable, allowable, allocable, and necessary* under the grant program and must comply with all Federal requirements and regulations.

Allowable Costs: EMPG funding is available for projects that fall into the categories of – ***Planning, Organization/Administrative, Equipment, Training, Exercises, Mitigation and Maintenance & Sustainment***. The following list of possible projects and activities is meant to guide you in selecting projects for an EMPG grant submission. This list of suggested projects is not intended to be all-inclusive. Local communities or agencies may have other specific projects and activities that reflect specific local needs based on local capability assessments and local hazards.

Planning

FY 2013 EMPG Program funds may be used for a range of emergency management planning activities. Planning provides a methodical way to engage the whole community in thinking through the life cycle of potential crises, determining required capabilities, and establishing a framework for roles and responsibilities. Planning must include participation from all stakeholders in the community who are able to contribute critical perspectives and may have a role in executing the plan. Planning should be flexible enough to address incidents of varying types and magnitudes.

Planning activities may include, but are not limited to, the following:

- **Create/update your Local Emergency Operations Plan (LEOP) **** consistent with the Comprehensive Preparedness Guide (CPG) 101 v.2 November 2010 which serves as the foundation for State and local emergency planning. CPG 101 can be found at:
http://www.fema.gov/pdf/about/divisions/npd/CPG_101_V2.pdf.
- **Develop/Enhance an All-Hazards Mitigation Plan**** for your community, approvable by the Federal Emergency Management Agency (FEMA).
- Community-based planning to advance “whole community” security and emergency management.
- Modify existing incident management and emergency operations plans.
- Develop/enhance comprehensive emergency management plans.
- Develop/enhance large-scale and catastrophic event incident plans.
- Develop/enhance logistics and resource management plans.
- Develop/enhance local evacuation plans, including alerts/warning, crisis communications, sheltering, and re-entry.
- Develop/enhance volunteer and/or donations management plans.
- Prepare a hazard mitigation project proposal for submission to NH HSEM.
- Develop/enhance dam emergency action plans.
- Develop/enhance a Continuity of Operations Plan (COOP)/Continuity of Government Plan (COG), following the DHS program guidance.
- Develop a local debris management plan.
- Develop/enhance a local shelter plan.
- Develop/enhance emergency management and operations plans to integrate citizen/volunteer and other non-governmental organization resources and participation.
- Develop/enhance other response and recovery plans, following the DHS program guidance.

**** A community must have the following two plans in place before NH HSEM will consider funding other projects: an updated LEOP and a FEMA approvable All-Hazards Mitigation Plan. Applicants may apply for funding for these plans in conjunction with other items.**

Organization/Administrative

EMPG Program funds may be used for all-hazards emergency management operations, staffing, and other day-to-day activities in support of emergency management. Proposed staffing activities should be linked to accomplishing emergency management-related projects and activities. This grant is project-driven.

Organization/Administrative projects & activities may include, but are not limited to, the following:

- Maintain/upgrade an Emergency Operations Center and/or alternate EOC capable of accommodating staff to respond to local emergencies.
- Establish and maintain a call-down list for EOC staff.
- Establish and maintain emergency response/recovery resource lists.
- Develop or update Emergency Management mutual aid agreements with a focus on damage assessment, debris removal, etc.
- Logistics and Resource Management, following the DHS program guidance.
- Develop and maintain written duties and responsibilities for Emergency Operations Center (EOC) staff positions and agency representatives (Checklist/Job Action Sheets).
- Develop and maintain Public-Private sector partnerships.
- Conduct a hazard analysis and risk assessment.
- Supply preparation.
- Develop public education and awareness information (i.e., brochures & pamphlets).
- Develop and maintain a list of private non-profit organizations within your local jurisdiction to ensure that these organizations are included in requests for public assistance funds.
- Develop/enhance financial and administrative procedures for use before, during, and after disaster events in support of a comprehensive emergency management program.
- Develop or update procedures for tracking of disaster-related expenses by local agencies.
- Program evaluations.
- Develop/enhance systems to monitor training programs.

Equipment

Allowable equipment categories for the FY 2013 EMPG Program are listed on the web-based version of the Authorized Equipment List (AEL) on the Responder Knowledge Base (RKB), which is sponsored by FEMA at <http://www.rkb.us>. Unless otherwise stated, equipment must meet all mandatory regulatory and/or FEMA-adopted standards to be eligible for purchase using these funds. In addition, agencies will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

The **select allowable equipment** includes equipment from the following AEL Categories:

- [04] Information Technology
- [05] Cyber Security Enhancement Equipment
- [06] Interoperable Communications Equipment (see note below)
- [07] Detection Equipment
- [10] Power Equipment (i.e., generators)**
- [11] CBRNE Reference Materials
- [12] CBRNE Incident Response Vehicles ***
- [14] Physical Security Enhancement Equipment
- [19] CBRNE Logistical Support Equipment
- [21] Other Authorized Equipment (i.e., equipment to support an EOC)

**** Generators** - Generators for Dept. of Public Works facilities are considered LOW priority. NH HSEM cannot fund DPW “fuel depot” facilities. However, if the facility is previously identified in their Local Emergency Operations Plan as a shelter or Emergency Operations Center (EOC) (and this can be proven) then you may submit an application with the understanding that it would be considered after all other higher priority projects are processed. Generators are still allowed for sewer & water facilities, critical communication structures (i.e., towers with communication equipment), shelters, and EOCs. Contact the State EMPG Program Manager or your assigned HSEM Field Rep for eligibility of other “critical infrastructure” not listed here.

***** Incident Response Vehicles** – Even though this equipment is eligible under the FEMA Authorized Equipment List (AEL), NH HSEM has a policy in place NOT to fund incident response vehicles.

If you have questions concerning the eligibility of equipment not specifically addressed in the AEL, please contact the State EMPG Program Manager for clarification.

NOTE: Grantees that are using FY 2013 EMPG Program funds to support emergency communications activities should comply with the *FY 2013 SAFECOM Guidance on Emergency Communication Grants*. The guidance provides recommendations to grantees seeking funding for interoperable emergency communications projects, including allowable costs, items to consider when funding emergency communications projects, grants management best practices for emergency communications grants, and information on standards that ensure greater interoperability. The guidance is intended to ensure that Federally-funded investments are compatible and support national goals and objectives for improving interoperability nationwide. SAFECOM guidance can be found at <http://www.safecomprogram.gov/library/lists/library/DispForm.aspx?ID=334>.

The recipient shall also ensure projects support the Statewide Communication Interoperability Plan (SCIP).

Training

FY 2013 EMPG Program funds may be used for a range of emergency management-related training activities to enhance the capabilities of State and local emergency management personnel through the establishment, support, conduct, and attendance of training. Training should foster the development of a community oriented approach to emergency management that emphasizes engagement at the community level, strengthens best practices, and provides a path toward building sustainable resilience.

Training Activities may include, but are not limited to, the following:

- Attending training courses at the Emergency Management Institute.
- Attending a “field delivered” training course conducted by NH Fire Academy.
- Attending other local, state, or nationally sponsored training event that provides skills or knowledge relevant to emergency management.
- Completing FEMA Independent Study (IS) Courses.
- Identify and train a pre-identified local damage assessment team.
- Participation in NIMS/ICS Training
- Attending other FEMA-approved emergency management training
- Participation mass evacuation training at local and State levels.

Allowable training-related costs include the following:

Funds Used to Develop, Deliver, and Evaluate Training - Includes costs related to administering the training: planning, scheduling, facilities, materials and supplies, reproduction of materials, and equipment.

- **Overtime and Backfill** - The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of attendance at FEMA and/or approved training courses and programs are allowable. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.
- **Travel** - Travel costs (e.g., airfare, mileage, per diem, hotel) are allowable as expenses by employees who are on travel status for official business related to approved training.

Exercises

Exercises implemented with grant funds should evaluate performance of the capabilities required to respond to the exercise scenario. Exercise activities should follow HSEEP Guidance which can be found at <https://hseep.dhs.gov>. Grantees are encouraged to develop exercises that test their Local EOPs. *Before applying for EMPG funds for an exercise, please contact the State's Exercise/Training Officer on availability for HSEEP funding which is 100% compared to 50% under EMPG.*

Allowable exercise-related costs include:

- Conduct multi-agency EOC exercise (tabletop or functional) and forward report to include after action reports to NH HSEM (external evaluation of exercise is strongly encouraged). Exercises might involve any of the following scenarios:
 - Hurricane Exercise
 - Terrorism Exercise
 - Severe Storm Exercise
- Conduct a communications exercise.
- Participate in a multi-state or multi-jurisdictional exercise.
- Observe or evaluate a State or local exercise outside your local jurisdiction.
- Assist local agencies and commercial enterprises (nursing homes, dams, prisons, schools, etc.) in developing, executing and evaluating their exercise.
- Assist local hospitals in developing, executing and evaluating mass care, hazmat, terrorism, and special events exercises.
- Funds Used to Design, Develop, Conduct and Evaluate an Exercise - This includes costs related to planning, meeting space and other meeting costs, facilitation costs, materials and supplies, travel, and documentation. Grantees are encouraged to use free public space/locations/facilities, whenever available, prior to the rental of space/locations/facilities.
- Hiring of Contractors/Consultants – Contractors/consultants may be hired to support direct exercise activities. The services of contractors/consultants may also be procured to support the design, development, conduct and evaluation of exercises.
- Overtime and Backfill - The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of time spent on the design, development and conduct of exercises are allowable expenses. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.
- Supplies - Supplies are items that are expended or consumed during the course of the planning and conduct of the exercise projects (e.g., copying paper, gloves, tape, non-sterile masks, and disposable protective equipment).
- Other Items - These costs are limited to items consumed in direct support of exercise activities such as the rental of space/locations for planning and conducting an exercise, rental of equipment (e.g., portable toilets, tents), and the procurement of gasoline, exercise signs, badges, and other essential nondurable goods. Grantees are encouraged to use free public space/locations, whenever available, prior to the rental of space/locations.

Exercises (cont.)

Unauthorized exercise-related costs include:

- Reimbursement for the maintenance and/or wear and tear costs of general use vehicles (e.g., construction vehicles) and emergency response apparatus (e.g., fire trucks, ambulances). The only vehicle costs that are reimbursable are fuel/gasoline or mileage.
- Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs).
- Durable and non-durable goods purchased for installation and/or use beyond the scope of exercise conduct.

Mitigation

Prior to applying for EMPG funds to do a Mitigation Project, it is recommended to first inquire on hazard mitigation-type grants through the State Hazard Mitigation Officer at hazmitplanning@dos.nh.gov.

Mitigation Activities may include:

- Brick and mortar projects, such as, installing drainage ditches, enlarging culverts, or installing riprap. No annual maintenance activities allowed, such as brush removal, or drainage clearing.
- Communications activities, such as communications studies, compatibility studies, and/or purchasing of communications equipment for interoperability.

Maintenance and Sustainment

The use of FEMA preparedness grant funds for maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees are allowable under all active and future grant awards, unless otherwise noted. Grantees are reminded that **supplanting is not permitted under the EMPG Program**. Maintenance contracts and warranties, repair and replacement costs, upgrades, and/or user fees for equipment that was not originally purchased with preparedness (EMPG) grant funding may not be subsequently paid for with preparedness (EMPG) grant funding.

Maintenance and Sustainment may include:

- Maintenance Contracts and Warranties - To increase the useful life of the equipment, FEMA has determined that maintenance contracts and warranties may be purchased using grant funding from one Fiscal Year to cover equipment purchased with funding from a different Fiscal Year. The use of grant funding for the purchase of maintenance contracts and warranties must meet the following conditions:
 - Maintenance contracts and warranties may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing Congressional appropriations for specific programs, maintenance contracts and warranties must be purchased using funds from the same grant program used to purchase the original equipment
 - The term of the Maintenance Contract shall not exceed the period of performance of the grant to which the contract is being charged.
 - Warranties are allowed to be purchased up front and can exceed the grant's period of performance.

Maintenance and Sustainment

Maintenance and Sustainment may include (cont.):

- Repair and Replacement Costs - The cost of repair and replacement parts for equipment purchased using FEMA preparedness grant funding is an allowable expense.
 - Repair and replacement parts may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing Congressional appropriations for specific programs, repair and replacement parts must be purchased using the same grant program used to purchase the original equipment

- Upgrades - FEMA preparedness grant funding may be used to upgrade previously purchased allowable equipment. For example, if the grantee purchased risk management software with EMPG Program funds in FY 2009 and would like to use FY 2013 grant funding to upgrade the software, this is allowable.
 - Upgrades may only be purchased for equipment that has been purchased using FEMA preparedness grant funding.
 - To avoid supplementing Congressional appropriations for specific programs, upgrades must be purchased using the same grant program used to purchase the original equipment.

- User fees - User fees are viewed as costs for specific services required to maintain and provide continued operation of equipment or systems. An example would be the recurring service fees associated with handheld radios or mobile data computers
 - User fees may only be paid for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing congressional appropriations for specific programs, user fees must be paid for using the same grant program used to purchase the original equipment.
 - The service time purchased shall not exceed the period of performance of the grant to which the user fee is being charged.

Metropolitan Medical Response System (MMRS) Grant Program

MMRS Grant Programs:

Although no longer funded as discrete grant programs, all activities and costs allowed under the Metropolitan Medical Response System (MMRS) grant program are allowable costs under the FY 2013 EMPG Program. Before applying, please contact the EMPG Program Manager to discuss project eligibility and availability of funds.

Unallowable Costs/Items Not Funded

- General administrative projects. Administrative expenses must be directly connected to a specific Emergency Management-related project.
- The same/similar project will not be funded year after year.
- Expenditures for weapons systems and ammunition.
- Costs to support the hiring of sworn public safety officers for the purposes of fulfilling traditional public safety duties or to supplant traditional public safety positions and responsibilities.
- Activities unrelated to the completion and implementation of the EMPG Program.
- Other items not in accordance with the portions of the AEL and allowable costs listed above.
- Emergency Response Vehicles (i.e., command vehicles, mobile EOCs)
- Construction projects

**MEMORANDUM OF AGREEMENT
BETWEEN
THE NEW HAMPSHIRE DEPARTMENT OF ENVIRONMENTAL SERVICES
AND
THE NEW HAMPSHIRE DEPARTMENT OF SAFETY**

FFY '13 Emergency Management Performance Grant (EMPG) Program

Fluvial Erosion Hazard (FEH) Geomorphic Assessment Program

I. PURPOSE

The purpose of this project is to support the Fluvial Erosion Hazard (FEH) Program, which provides support for two full-time personnel and associated benefits necessary to support the program of conducting assessments for the identification of river-induced public safety hazards in New Hampshire.

II. PARTIES

The parties to this agreement are New Hampshire Department of Environmental Services (hereinafter DES) and the New Hampshire Department of Safety, Division of Homeland Security and Emergency Management (hereinafter HSEM).

III. AUTHORITY

The Emergency Management Performance Grant (EMPG) awarded by HSEM supports activities associated with all-hazard planning and preparedness capabilities and activities, to include preparation, prevention, response, recovery, and mitigation initiatives. This program supports the personnel and data management support necessary for assistance to communities relative to site-specific issues throughout the state, and in the conductance of assessments in the Mascoma River watershed to continue the ongoing identification of areas at risk from river changes and issues caused by flooding in New Hampshire.

IV. SCOPE OF WORK

Recurring annual flood events in New Hampshire, which often cause dynamic changes in river systems through the process of erosion has demonstrated the need for the technical expertise in preparation for and response to these events. These events have led to the creation of a state/federal partnership in New Hampshire to enhance flood risk reduction, the Pre- and Post-Incident River Response Team (PIRRT). In support of these efforts, the team has engaged in a data collection project to identify and assess the spatial locations in the state where flood events and expenditures have concentrated to begin evaluating the state's flood risk management priorities.

In this project, program staff will provide the additional technical foundation of this long-term initiative through three (3) activities. First, program staff will perform a stream power analysis, with priority given to those watersheds identified through the data collection project as experiencing the greatest concentrations of flood events and related expenditures. Stream power is a measure of the river energy available to work beds and banks, leading to erosion and channel change. This analysis can be conducted in geographic information systems, and can further enhance risk prioritization through identification of river reaches with the greatest potential to experience future changes.

Second, program staff will assist in collecting additional data on flood hazards through meeting with community officials in the state to obtain a local perspective on the concentration of flood and fluvial erosion hazards, and to input this information into the system that has been designed to accommodate this data. Third, program staff will provide technical support to PIRRT and state personnel in examining the flood and fluvial erosion hazard risk data and assisting in site priority targeting through understanding of river dynamic processes and features that are contributing factors to high-risk sites.

These activities will strengthen the statewide flood and fluvial erosion data foundation current being assembled, to provide PIRRT and state personnel the maximum ability to target those watersheds in the state with the greatest flood and erosion risks for hazard mitigation assistance in the future.

The staff within DES funded through this grant will perform these tasks on the rivers and watersheds identified herein, ensuring that DES is fulfilling the needs of all of the ongoing assessment projects.

V. FUNDING

HSEM agrees to provide financial assistance from the FFY '13 EMPG Program in the amount of \$209,453.00 to DES in support of the tasks listed above, in accordance with Paragraph IV. The financial assistance to be provided by HSEM under this MOA requires that DES provide a 50% matching contribution of the total project amount. The match requirement of \$209,453.00 will be met by DES through the DES Dam Bureau, Dam Registration Fund.

DES shall maintain financial records, supporting documents, and all other pertinent records for a period of seven (7) years. In these records, DES shall maintain documentation of the 50% cost match required by this grant and agreed upon by DES.

Payments shall be made by HSEM to DES quarterly through submittal of invoices for services rendered. DES agrees to document \$209,453.00 in matching expenditures.

VI. TERMINATION

Either party may terminate this agreement by providing notice to the other thirty (30) days prior to termination.

VII. DURATION

This agreement shall continue in effect from October 1, 2014 until September 30, 2015, unless terminated earlier by either party.

VIII. AGREEMENT

In WITNESS THEREOF, the parties hereto have executed this agreement, which shall become effective on the date the Governor and Executive Council of the State of New Hampshire approve the agreement.

OFFICE OF THE ATTORNEY GENERAL

TITLE I

THE STATE AND ITS GOVERNMENT

CHAPTER 21-P

DEPARTMENT OF SAFETY

Homeland Security and Emergency Management

Section 21-P:43

21-P:43 Appropriations and Authority to Accept Services, Gifts, Grants, and Loans. – Each political subdivision may make appropriations in the manner provided by law for making appropriations for the ordinary expenses of such political subdivision for the payment of expenses of its local organization for emergency management. Whenever the federal government or any federal agency or officer offers to the state, or through the state to any of its political subdivisions, services, equipment, supplies, materials, or funds by way of gift, grant, or loan for purposes of emergency management the state, acting through the governor, commissioner, or such political subdivision, acting with the consent of the governor and through its executive officer, city council, or board of selectmen, may accept such offer, subject to the terms of the offer and the rules and regulations, if any, of the agency making the offer. Whenever any person, firm or corporation offers to the state or to any of its political subdivisions services, equipment, supplies, materials, or funds by way of gift, grant, or loan for purposes of emergency management the state, acting through the governor, or such political subdivision, acting through its executive officer, city council, or board of selectmen, may accept such offer, subject to its terms.
