EXPLANATION

The purpose of this request is to increase harm reduction services by expanding geographical reach and care coordination to clients in Syringe Service Programs in order to reduce the rate of opioid misuse and infectious disease complications associated with opioid use. Services provided comply with NH RSA-318:43 Syringe Services Programs Authorized. Overdose Data to Action (OD2A) funds will cover operations related to current linkage to care activities. In addition, funds through the Substance Abuse Prevention and Treatment Block Grant (SABG) will be used to support expansion of the current successful models of linkage to care in new regions of the state that do not currently have harm reduction based linkage to care services. All activities covered with this funding are related to strengthening and expanding the linkage to care programs. Funds awarded under this contract may not be used for the procurement of syringes.

Approximately 1,500 individuals who are at greatest risk for infectious disease complications due to drug use will be served statewide during State Fiscal Year 2023.

The Contractor will continue to provide enhanced Syringe Services Programs that include Harm Reduction Services in the Greater Concord, Manchester, Nashua, Keene, Upper Valley Lakes Region, and Seacoast areas. Each area has a Care Coordinator who establishes and maintains effective relationships in the community to provide referrals, navigation, and linkage services to reduce opioid misuse and infectious disease complications. Care Coordination Services provided to individuals include one-on-one consultations during outreach activities relative to appropriate services available to individuals; in-depth guidance on confidentiality and its limits; support to participants through telephone calls and texts as appropriate; and communication with referral agencies.

The Department will monitor and ensure services are provided by the Contractor in accordance with NH RSA-318:43.

As referenced in Exhibit A of the original agreement, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) of the two (2) years available.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

Should the Governor and Council not authorize this request, individuals may not have the opportunity to readily access the resources and education necessary to make informed decisions about their own health. Individuals who use drugs and are at a high risk for infectious disease complications may not have the chance for self-advocacy in their medical care, miss the chance to have meaningful engagement within their communities, and will not have the opportunity to be linked with the essential services described above.

Area served: Statewide

Source of Federal Funds: Assistance Listing Number CFDA #93.136, FAIN #NU17CE924984; and Assistance Listing Number CFDA #93.136, FAIN #TI083509.

Page 2 of 3

Approximately 2,032 individuals statewide, who use drugs and who are at greatest risk for infectious disease complications due to drug use, will be served from September 1, 2020 to August 31, 2022.

The New Hampshire Harm Reduction Coalition will provide enhanced Syringe Services Programs that include Harm Reduction Services in the Greater Manchester, Greater Nashua, Keene and Seacoast areas in year one (1) of the contract period. In the second year of the contract, the vendor will establish and implement an enhanced Syringe Services Programs in the Greater Concord Area. Each site will have a Care Coordinator to establish and maintain effective relationships in the community to provide referrals, navigation, and linkage services to reduce opioid misuse and infectious disease complications. The Contractor will promote Syringe Services Programs by offering education on harm reduction services to individuals who use drugs and are at risk for infectious disease complications and connecting participants with further harm reduction education opportunities available through Care Coordination Services.

Care Coordination Services provided to individuals include one-on-one consultations during outreach activities relative to appropriate services available to individuals; in-depth guidance on confidentiality and its limits; support to participants through telephone calls and texts as appropriate; and communication with referral agencies.

The Contractor will also ensure Care Coordination Services include calling referral sites while a participant is engaged in syringe service activities to ensure linkages to care are completed. The Contractor will collaborate with area community health, mental health and recovery service providers to improve relationships with organizations, agencies and service providers in an effort to improve the health, well-being and quality of life of individuals who use drugs.

The Contractor will ensure services are provided in accordance with NH RSA-318:43 Syringe Services Programs Authorized, ensuring funding is not utilized for:

- Naloxone or Narcan, syringes, fentanyl test strips, harm reduction kits, furniture or equipment (generally, but note that vehicles may be allowable expenses for linkage to care activities);
- Human Immunodeficiency Virus (HIV), Hepatitis C Virus (HCV), and other Sexually Transmitted Diseases (STD) testing;
- Drug disposal including:
 - Implementing or expanding drug disposal programs or drug take back programs, and
 - Drug drop box or drug disposal bags;
- The provision of medical or clinical care;
- Wastewater analysis including:
 - Testing vendors;
 - Sewage testing; and
 - Wastewater testing;
- Research;
- Direct funding or expanding the provision of substance abuse treatment;

and the Honorable Council

- The prevention of Adverse Childhood Experiences (ACEs) as a stand-alone activity. However, activities related to ACEs are allowable if they pertain to establishing linkage to care, or to providing training to public safety and first responders on trauma-informed care; and
- Public safety activities that do not include clear overlap or collaboration with a public health partner and their objectives.

The Department will monitor contracted services by reviewing annual reports and conducting quarterly site reviews.

The Department selected the Contractor through a competitive bid process using a Request for Proposals (RFP) that was posted on the Department's website from 3/3/2020 through 4/16/2020. The Department received one (1) response that was reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A of the attached contract, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

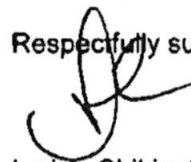

Should the Governor and Council not authorize this request, individuals may not have the opportunity to readily access the resources and education necessary to make informed decisions about their own health. Individuals who use drugs and are at a high risk for infectious disease complications may not have the chance for self-advocacy in their medical care, miss the chance to have meaningful engagement within their communities and will not have the opportunity to be linked with the essential services described above.

INSTRUCTIONS FOR CERTIFICATION:

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI.
