His Excellency, Governor Christopher T. Sununu
and the Honorable Executive Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Natural and Cultural Resources, Division of Parks and Recreation (Department), to enter into a contract with 2-Way Communications Service, Inc. (VC #154388), of Concord, NH in the amount of \$553,339 for the installation and support of a Digital Mobile Radio (DMR) Tier III Trunked Radio System in the seacoast area upon Governor and Executive Council approval through May 14, 2018. **100% Agency Income**

Funding is available as follows:

	<u>FY 2018</u>
03-35-35-351510-37200000	
Service Parks	\$553,339
030-500331 Equipment New/Replacement	

EXPLANATION

The radio system at Hampton Beach and the seacoast area is inadequate to support the lifeguards and operations staff. The existing Very High Frequency (VHF) radio system is at capacity and we are unable to fully cover the seacoast region's communications needs. The current radios are unreliable due to the call volume and the staff is unable to respond adequately to emergencies on busy days.

It was determined by the Federal Communication Commission's certified regional frequency coordinator that the existing VHF radio system in the Department's seacoast area of operations cannot be upgraded to provide the necessary capacity because there are no additional frequencies available however there are frequencies available using the Ultra High Frequency (UHF) band. Using the UHF band requires that all the equipment in the seacoast area be changed out to UHF equipment.

The DMR Tier III Trunked UHF Radio System is built with a large capacity and the ability to expand for future needs. The system has remote monitoring capability for trouble shooting, alarm monitoring, and is covered under a 5-year service agreement for repairs and emergency response. There are also multiple redundancies built into the system to assure reliable operations even if one component goes down. The VHF equipment being replaced will be redeployed to the Department's Great North Woods Management Area to provide them with communication capabilities they currently don't have but need.

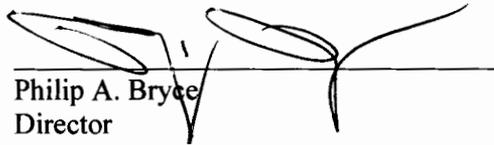

In December 2017, the Department issued a Request for Proposals (RFP) for a DMR Tier III Trunked Radio System to provide coverage from Hampton to Portsmouth and out to White Island. The RFP (17-CAP1893) was posted on the Division of Purchase and Property's website, Division of Parks and Recreation's website, and the following construction services' websites: Construction Summary of NH, Infinite Imaging, McGraw Hill Construction, Signature Press and Blueprinting, and Works in Progress.

Two (2) companies submitted proposals by the closing date of January 5, 2018. The selected company, 2-Way Communications Service, Inc., offered the lowest price and met all of the required criteria.

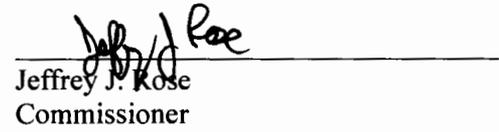

The Attorney General's Office has approved this contract as to form, substance and execution.

Respectfully submitted,

Concurred,

Philip A. Bryce
