EXPLANATION

The Department is requesting these Amendments be approved **retroactive** to June 1, 2016. The Department evaluated the Contractors' requests for rate increases and agreed to same in late March, 2016. While in the process of distributing contract amendments to the vendors, the Department was approached in early May 2016 with a request to redistribute funding for congregate and home delivered meals within and between Contractors. The Department agreed to these changes as well. Making these amendments effective retroactive to June 1, 2016 will allow the Contractors' access to already encumbered State Fiscal Year 2016 funds dedicated to these services.

Approval of these fourteen (14) amendments will allow the Contractors to be reimbursed for services at a rate structure that is better aligned with the Contractors' costs of providing these services. The attached Amendments increase the transportation per client per day rate from \$8.75 to \$9.32 and increase the per mile rate component for transportation and home delivered meals from .30 cents to .54 cents. It is projected that the increase in rates will support the additional costs of serving more rural clients and will ensure that clients are able to receive needed services such as transportation to appointments and essential shopping.

Approval of these amendments will also allow the Contractors to provide services where there is more client demand for meals through redistribution of funding within and between the Contractors. When these contracts were originally approved by the Governor and Executive Council on June 18, 2014 (Item #109) and amended on June 10, 2015 (Item #21), funding was based on the Contractors' point in time projections for clients' needs and demands for services. Since the recipients of these services are older adults and adults with physical disabilities, it is not uncommon for this population to experience changes over the course of time that would necessitate service delivery changes.

The Contractors will monitor transportation, meals and mileage usage along with expenses in order to ensure the services continue to be available through the end of the contract period. The Contractors will conduct client surveys on the quality of the services to ensure services are being delivered satisfactory or better. Additionally, Contractors will be collecting and reporting data on the number of clients served the number and types of meals provided, and the numbers of trips and types of transportation provided, in order for the Department to understand the gaps in service delivery and to be able to have more meaningful discussions about these important services.

Should the Governor and Executive Council not authorize these agreements, the Contractors may not be able to serve the all of the clients who need transportation and home delivered meals. The purpose of these nutrition and transportation contracts is to provide direct services to clients to support their health, independence and ability to remain in their homes and communities. Nutrition and transportation are two major services that support older adults and adults with disabilities who cannot meet their basic needs, for meals and transportation, without help. Services are provided to individuals who have very low incomes and are just above Medicaid eligibility who also demonstrate a need for the service. These services are targeted toward individuals who do not have any other resources available to support them in meeting these two basic needs.

These contractors were selected through a competitive bid process (See Attachment B).

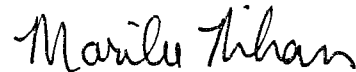

Geographic area to be served is specific per contract. See Summary of Services and Geographic Area (Attachment C).

Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

Dear Attorney Yaple,

Please review the attached amendment between the Department of Health and Human Services, Division Community Based Care Services, Bureau of Elderly and Adult Services and Lamprey Health Care, Inc. (Vendor #177677), 207 Main Street, Newmarket, NH, 03857. The vendor provides transportation services in Rockingham and parts of Strafford Counties. The Contractor requested a transfer of funds between the respective budget lines for transportation services in order to better address client needs. The Department supports this transfer of SFY 2015 funds. The Governor and Executive Council approved the original agreement on June 18, 2014 (item # 109). There are no additional funds being requested in this amendment. 64% Federal and 36% General Funds.

The following language is included in Exhibit B, paragraph 5 of the contract agreement:

- 5. Notwithstanding paragraph 18 of the P-37, an amendment limited to the terms of Exhibit B-1, B-2, and B-3 to transfer the amount of units from one service to another can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

I am asking that you review and sign off on this contract amendment as it does not need further action by the Governor and Executive Council.

The remainder of this letter is presented in the format typical of most Governor and Executive Council letters, so that you might have some context for your review.

EXPLANATION

Lamprey Health Care, Inc. has requested the transfer of funds described above in order to realign the budget to provide additional funding for mileage for the transportation of clients. The contractor originally anticipated a lower usage of transportation miles, and expects the transfer will provide enough transportation to support the overall client usage for the remainder of the state fiscal year.

This contract was awarded as the result of a competitive bid process. On November 22, 2013 the Department issued a Request for Proposal for Title XX and Title III Nutrition and Transportation services on the Department's website.

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

New Hampshire Department of Health and Human Services
Exhibit F

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
 - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (I)(b) of this certification; and
 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
 - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
 - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of
Newport Senior Center, Inc.

Report on the Financial Statements

We have audited the accompanying financial statements of Newport Senior Center, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2015 and 2014, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Newport Senior Center, Inc. as of June 30, 2015 and 2014, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 27, 2015, on our consideration of Newport Senior Center, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Newport Senior Center, Inc.'s internal control over financial reporting and compliance.

Newport Senior Center, Inc.
Notes to the Financial Statements
June 30, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Purpose

The Newport Senior Center, Inc., is a voluntary, not-for-profit corporation, incorporated under the laws of the State of New Hampshire (RSA 292) and organized exclusively for tax-exempt charitable and educational purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1954, as amended. The Organization is not a private foundation within the meaning of Section 509(a). The purpose of the Organization is to operate a community center, which serves the elderly residents of Newport, Claremont, Charlestown and surrounding areas. Major sources of funds for operations are received from the federal government and the State of New Hampshire Division of Elderly and Adult Services.

Program Services

Following are descriptions of the program services provided by the Organization:

Senior Center - Providing elderly citizens with such services including, but not limited to, health, education, general counseling and recreation.

Sullivan Nutrition - Providing nutritional, transportation and outreach services to area elderly citizens.

Trip Program - Providing the opportunity for overnight and day trip activities for elderly citizens.

Financial Statement Presentation

The financial statements have been prepared in accordance with Financial Accounting Standards Board (FASB ASC 958-210-45). Under this standard, the Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. In addition, the Organization is required to present a statement of cash flows.

Revenue Recognition

Revenue is recognized as services are rendered using the accrual method of accounting. The Organization recognizes all contributions as revenue in the period received. Contributions are reported as unrestricted or as restricted depending on the existence of donor stipulations that limit the use of the contribution. However, donor-restricted contributions whose restrictions are met in the same reporting period are reported as unrestricted contributions. Substantially all revenues are derived from grants and service contracts awarded by government agencies and nonprofit organizations.

Cash and Cash Equivalents

For purposes of reporting the statement of cash flows, the Organization considers all Treasury bills, certificates of deposit, money market funds and all other highly liquid debt instruments purchased with a maturity of 90 days or less to be cash equivalents.

Newport Senior Center, Inc.
Notes to the Financial Statements
June 30, 2015 and 2014

Accounts Receivable

Accounts Receivable are considered by management to be fully collectible and accordingly no allowance for doubtful accounts is considered necessary.

Allocation of Joint Costs

Expenses are charged to each program based on direct expenditures incurred. Any program expenditures not directly chargeable are allocated to programs and supporting services using allocation formulas based on analyses of personnel time and/or space utilized for the related activities. It was estimated that 10% of the Executive Director's time was spent on fund raising activities related to obtaining and continuing various grants in the Sullivan Nutrition program.

In-Kind Donations

The Sullivan Nutrition Program receives in-kind donations of space, food, and volunteer services. Space rental is valued at market and is reflected in the accompanying financial statements as both support and expenditures in the amount of \$9,600 for the years ending June 30, 2015 and 2014. In addition, the Organization received donations of food valued at \$0 and \$0 during the years ended June 30, 2015 and 2014, respectively. Because the volunteer services received are not specialized services, they are not reflected in these financial statements as support or expenditures. The amounts of these services are estimated at \$10,000 in both 2015 and 2014.

Inventory

Inventory consists of purchased food and supplies used for the Sullivan Nutrition Program.

Inventory is carried at cost and is determined by the first-in, first-out method.

Property and Equipment

Property and equipment are recorded at cost or, if donated, at the approximate fair value at the date of donation. Newport Senior Center, Inc. follows the policy of capitalizing, at cost, all expenditures for fixed assets in excess of \$500. Depreciation is calculated using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Land	-
Building and improvements	30-39
Furniture, fixtures and equipment	3-30
Automobiles	5

Depreciation expense recognized in these financial statements for the years ended June 30, 2015 and 2014 was \$33,717 and \$31,554, respectively.

Income Taxes

The Organization is a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and is not a private foundation.

Newport Senior Center, Inc.
Notes to the Financial Statements
June 30, 2015 and 2014

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees of
Newport Senior Center, Inc.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Newport Senior Center, Inc. (a nonprofit organization), which comprise the statement of financial position as of June 30, 2015, and the related statements of activities, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated August 27, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Newport Senior Center, Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Newport Senior Center, Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Newport Senior Center, Inc.'s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

EXPLANATION

The Department is requesting these Amendments be approved **retroactive** to June 1, 2016. The Department evaluated the Contractors' requests for rate increases and agreed to same in late March, 2016. While in the process of distributing contract amendments to the vendors, the Department was approached in early May 2016 with a request to redistribute funding for congregate and home delivered meals within and between Contractors. The Department agreed to these changes as well. Making these amendments effective retroactive to June 1, 2016 will allow the Contractors' access to already encumbered State Fiscal Year 2016 funds dedicated to these services.

Approval of these fourteen (14) amendments will allow the Contractors to be reimbursed for services at a rate structure that is better aligned with the Contractors' costs of providing these services. The attached Amendments increase the transportation per client per day rate from \$8.75 to \$9.32 and increase the per mile rate component for transportation and home delivered meals from .30 cents to .54 cents. It is projected that the increase in rates will support the additional costs of serving more rural clients and will ensure that clients are able to receive needed services such as transportation to appointments and essential shopping.

Approval of these amendments will also allow the Contractors to provide services where there is more client demand for meals through redistribution of funding within and between the Contractors. When these contracts were originally approved by the Governor and Executive Council on June 18, 2014 (Item #109) and amended on June 10, 2015 (Item #21), funding was based on the Contractors' point in time projections for clients' needs and demands for services. Since the recipients of these services are older adults and adults with physical disabilities, it is not uncommon for this population to experience changes over the course of time that would necessitate service delivery changes.

The Contractors will monitor transportation, meals and mileage usage along with expenses in order to ensure the services continue to be available through the end of the contract period. The Contractors will conduct client surveys on the quality of the services to ensure services are being delivered satisfactory or better. Additionally, Contractors will be collecting and reporting data on the number of clients served the number and types of meals provided, and the numbers of trips and types of transportation provided, in order for the Department to understand the gaps in service delivery and to be able to have more meaningful discussions about these important services.

Should the Governor and Executive Council not authorize these agreements, the Contractors may not be able to serve the all of the clients who need transportation and home delivered meals. The purpose of these nutrition and transportation contracts is to provide direct services to clients to support their health, independence and ability to remain in their homes and communities. Nutrition and transportation are two major services that support older adults and adults with disabilities who cannot meet their basic needs, for meals and transportation, without help. Services are provided to individuals who have very low incomes and are just above Medicaid eligibility who also demonstrate a need for the service. These services are targeted toward individuals who do not have any other resources available to support them in meeting these two basic needs.

These contractors were selected through a competitive bid process (See Attachment B).

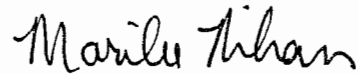

Geographic area to be served is specific per contract. See Summary of Services and Geographic Area (Attachment C).

 - 13.1. The preparation of this (report, document etc.) was financed under a Contract with the State of New Hampshire, Department of Health and Human Services, with funds provided in part by the State of New Hampshire and/or such other funding sources as were available or required, e.g., the United States Department of Health and Human Services.
14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.
15. **Operation of Facilities: Compliance with Laws and Regulations:** In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.
16. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

- 16.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function
- 16.2. Have a written agreement with the subcontractor that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the subcontractor's performance is not adequate
- 16.3. Monitor the subcontractor's performance on an ongoing basis
- 16.4. Provide to DHHS an annual schedule identifying all subcontractors, delegated functions and responsibilities, and when the subcontractor's performance will be reviewed
- 16.5. DHHS shall, at its discretion, review and approve all subcontracts.

If the Contractor identifies deficiencies or areas for improvement are identified, the Contractor shall take corrective action.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

New Hampshire Department of Health and Human Services
Exhibit F

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
 - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

To the Board of Directors and Management
Ossipee Concerned Citizens, Inc.

Report on the Financial Statements

We have audited the accompanying financial statements of Ossipee Concerned Citizens, Inc. (a nonprofit corporation) which comprise the statement of financial position as of June 30, 2015, and the related statement of activities, cash flows, and functional expenses for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Ossipee Concerned Citizens, Inc. as of June 30, 2015, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

OSSIPEE CONCERNED CITIZENS, INC.
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

A. NATURE OF ACTIVITIES

Ossipee Concerned Citizens, Inc., (the Organization) is a voluntary, not-for-profit corporation, incorporated under the laws of the State of New Hampshire (RSA 292) and organized exclusively for tax-exempt charitable and educational purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1954, as amended. The Organization is not a private foundation within the meaning of Section 509(a). The purpose of the Organization is to operate a senior center, Meals on Wheels, and a daycare program that serves the residents of Ossipee, New Hampshire, and surrounding communities. Major sources of funds for operations are received from the federal government and the State of New Hampshire Division of Elderly and Adult Services.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Statement Presentation – The Financial statements have been prepared in accordance with the Statement of Financial Accounting Standards (SFAS) No. 117, “Financial Statements of Not-for-Profit Organizations.” Under SFAS No. 117, the Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets based on the existence or absence of donor-imposed restrictions. In addition, the Organization is required to present a statement of cash flows.

Basis of Accounting – The Organization presents its financial statements on the accrual basis of accounting. Under this basis, exchange revenues and related accounts receivables are recognized when earned. Non-exchange revenues (contributions, donations, etc.) and related contributions receivable are recognized when received. Expenses and related payables are recognized when title to goods and services passes to the Organization.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents – Cash and cash equivalents include all monies in banks and liquid investments with maturity dates of less than three months. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments.

Investments – Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the statement of financial position. Investment income or loss (including gains and losses on investments, interest, and dividends) is included in the statement of activities as increases or decreases in unrestricted net assets unless the income or loss is restricted by the donor or law.

Concentrations of credit and market risk – Financial instruments that potentially expose the Organization to *credit risk* consist primarily of bank deposits. It is the Organization’s policy to deposit monies in high quality financial institutions and to limit risk by maintaining deposits within the Federal Depository Insurance Limits (FDIC) whenever possible. The Organization has not experienced any losses on its cash deposits. Market risk is limited to fluctuations in the prices of mutual funds. Management monitors investments in high quality mutual funds and believes it is not exposed to significant market risk on those amounts.

OSSIPEE CONCERNED CITIZENS, INC.
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inventory – Inventory consists of food and supplies in the food programs.

Property and Equipment – All costs of property and equipment, and the approximate fair value of donated assets in excess of \$1,000 and having an economic useful life greater than one year are capitalized. Depreciation is computed using the straight-line method, beginning in the month of acquisition, at rates based on the following estimated useful lives:

	<u>Years</u>
Equipment & Furnishings	5

Depreciation expense for the year ended June 30, 2015 was \$3,151.

Revenue Recognition – Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any government grant, contract, or other donor restrictions. A *temporary restriction* permits the organization to use donated assets as specified for a particular purpose. *Permanently restricted* net assets are those that are required to be permanently maintained but that the income from the investment of such may be used for specified purposes. All donor-restricted support is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Intentions to Give – Pledged amounts are used only for the Organization’s budgetary purposes and are not considered a guarantee of collection since donors may rescind the pledges at any time. Since pledges do not meet the criteria for revenue recognition under SFAS No. 116, they are not reflected as contributions in the statement of activities until the pledges are collected.

Contributed Services – Ossipee Concerned Citizens, Inc. receives in-kind donations of both space and volunteer services. Building space owned by the Town of Ossipee and donated to the Center is recorded at an estimated rental value of \$56,000 which reflects a rate which is equal to \$8 per square foot times 7,000 square feet of space provided. The value of donated services is not reflected in the financial statements since there is no objective basis available by which to measure the value of such services. However, a substantial number of volunteers, as well as the Organization’s Board of Directors, have donated significant amounts of their time towards the Organization’s various programs and fund-raising projects.

Refundable Advances – Grants received in advance of the year to which they apply are recorded as refundable advances in the statement of financial position.

Functional Allocation of Expenses – The costs of providing various programs and other activities have been summarized on a functional basis in the statements of activities. Accordingly, certain costs have been allocated to the programs and supporting activities benefited. Direct expenses are charged to each program based on direct costs incurred or estimated usage. Any program costs not directly chargeable are allocated to a program based on the direct charges.

OSSIPEE CONCERNED CITIZENS, INC.
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes – The Organization is exempt from federal income taxes under Internal Revenue Code Section 501(c)(3). Therefore, no provision for income taxes is made in the accompanying financial statements

The Organization complies with the *Accounting for Uncertainty in Income Taxes* standard. Accordingly, management has evaluated its tax positions and has concluded that the Organization has maintained its tax exempt status, does not have any significant unrelated business income, and has taken no uncertain tax positions that require adjustment or disclosure in its financial statements. With few exceptions, the

Organization is no longer subject to income tax examinations by the U.S. Federal or State tax authorities for years before 2012.

C. ASSETS

Cash and Cash Equivalents – All bank balances of deposits as of June 30, 2015 were insured by the Federal Deposit Insurance Corporation (FDIC).

Investments – Investments at June 30, 2015 were as follows:

Investment in mutual funds and restricted savings	\$	43,431
Real estate held for resale		<u>40,542</u>
		<u>\$ 83,973</u>

The composition of investment return in the statement of activities for the year ended June 30, 2015 was as follows:

<i>Unrestricted:</i>		
Interest and dividends	\$	2,472
Capital gain distributions		106
Unrealized gains (losses)		<u>(974)</u>
		<u>\$ 1,604</u>

Receivables ~ Due from Grantors – The Organization’s receivable, Due from State agencies and other grantors, as of June 30, 2015 was as follows:

<i>Agency Programs:</i>		
NSIP	\$	10,609
HCBC		670
USDA – Title III		9,367
Town support		16,271
		<u>\$ 36,917</u>

OSSIPEE CONCERNED CITIZENS, INC.
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2015

C. ASSETS (Continued)

Property and Equipment – Property and equipment at June 30, 2015 consisted of the following:

Equipment & furnishings	\$ 138,476
Less: Accumulated depreciation	<u>(56,959)</u>
	<u>\$ 81,517</u>

Compensated Absences – An accrual for compensated absences has not been included in the financial statements. Since the Organization cannot receive reimbursement of this amount until paid, accrual would result in a mismatching of the revenue and expense. The amount of accumulated-unpaid vacation and sick leave as of June 30, 2015 did not amount to more than a normal year's allowance.

D. NET ASSETS

Temporarily Restricted – Net assets restricted to specific purposes by donors include the following:

	Balances June 30, 2014	New Funds Received	Released From Restriction	Balances June 30, 2015
<i>Restricted for special needs:</i>				
Private donation	\$ 13,058	\$ 13,000	\$ 12,399	\$ 13,659
Bald Peak Grant	<u>6,000</u>	<u>-</u>	<u>6,000</u>	<u>-</u>
	<u>\$ 19,058</u>	<u>\$ 13,000</u>	<u>\$ 18,399</u>	<u>\$ 13,659</u>

Board-Designated Net Assets – Board designations for a long-term operating reserve as of June 30, 2015 were \$83,973. The board's intent in setting aside these donated funds is to create an endowment that will sustain future operations by allowing for the transfer of earnings to support operations or for special needs without ever using the principal balance. Currently, income to the reserve fund consists of interest and dividends on mutual funds and from donations. Whereas the fund is in its initial stage and market returns have been minimal, no monies were transferred to support operations in either fiscal year.

E. SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Grants – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the Organization. The amount which may be disallowed by the grantor cannot be determined at this time although the organization expects such amounts, if any, to be immaterial.

F. PRIOR PERIOD ADJUSTMENT

Inventory was not accounted for in the prior period. An entry to correct the beginning retained earnings balance has been reflected in the Statement of Activities for the year ended June 30, 2015 in the amount of \$10,000.

EXPLANATION

The Department is requesting these Amendments be approved **retroactive** to June 1, 2016. The Department evaluated the Contractors' requests for rate increases and agreed to same in late March, 2016. While in the process of distributing contract amendments to the vendors, the Department was approached in early May 2016 with a request to redistribute funding for congregate and home delivered meals within and between Contractors. The Department agreed to these changes as well. Making these amendments effective retroactive to June 1, 2016 will allow the Contractors' access to already encumbered State Fiscal Year 2016 funds dedicated to these services.

Approval of these fourteen (14) amendments will allow the Contractors to be reimbursed for services at a rate structure that is better aligned with the Contractors' costs of providing these services. The attached Amendments increase the transportation per client per day rate from \$8.75 to \$9.32 and increase the per mile rate component for transportation and home delivered meals from .30 cents to .54 cents. It is projected that the increase in rates will support the additional costs of serving more rural clients and will ensure that clients are able to receive needed services such as transportation to appointments and essential shopping.

Approval of these amendments will also allow the Contractors to provide services where there is more client demand for meals through redistribution of funding within and between the Contractors. When these contracts were originally approved by the Governor and Executive Council on June 18, 2014 (Item #109) and amended on June 10, 2015 (Item #21), funding was based on the Contractors' point in time projections for clients' needs and demands for services. Since the recipients of these services are older adults and adults with physical disabilities, it is not uncommon for this population to experience changes over the course of time that would necessitate service delivery changes.

The Contractors will monitor transportation, meals and mileage usage along with expenses in order to ensure the services continue to be available through the end of the contract period. The Contractors will conduct client surveys on the quality of the services to ensure services are being delivered satisfactory or better. Additionally, Contractors will be collecting and reporting data on the number of clients served the number and types of meals provided, and the numbers of trips and types of transportation provided, in order for the Department to understand the gaps in service delivery and to be able to have more meaningful discussions about these important services.

Should the Governor and Executive Council not authorize these agreements, the Contractors may not be able to serve the all of the clients who need transportation and home delivered meals. The purpose of these nutrition and transportation contracts is to provide direct services to clients to support their health, independence and ability to remain in their homes and communities. Nutrition and transportation are two major services that support older adults and adults with disabilities who cannot meet their basic needs, for meals and transportation, without help. Services are provided to individuals who have very low incomes and are just above Medicaid eligibility who also demonstrate a need for the service. These services are targeted toward individuals who do not have any other resources available to support them in meeting these two basic needs.

These contractors were selected through a competitive bid process (See Attachment B).

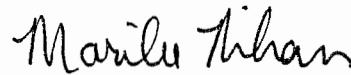

Geographic area to be served is specific per contract. See Summary of Services and Geographic Area (Attachment C).

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

New Hampshire Department of Health and Human Services
Exhibit F

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

INDEPENDENT AUDITORS' REPORT

*To the Board of Directors of
Rockingham Nutrition and Meals on Wheels Program
Brentwood, New Hampshire*

Report on the Financial Statements

We have audited the accompanying financial statements of Rockingham Nutrition and Meals on Wheels Program (a nonprofit organization) which comprise the statement of financial position as of June 30, 2015, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Rockingham Nutrition and Meals on Wheels Program as of June 30, 2015, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 27, 2015, on our consideration of Rockingham Nutrition and Meals on Wheels Program's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Rockingham Nutrition and Meals on Wheels Program's internal control over financial reporting and compliance.

ROCKINGHAM NUTRITION AND MEALS ON WHEELS PROGRAM
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities:

The Rockingham Nutrition and Meals on Wheels Program ("RNMOW" or "the Organization") is a nonprofit organization, which is tax exempt under Section 501(c)(3) of the Internal Revenue Code. The Organization provides food, nutritional services, transportation and social services to qualified elderly and handicapped individuals residing in Rockingham County, New Hampshire.

Basis of Presentation:

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America ("GAAP"). Net assets, revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Organization and changes therein are classified and reported as follows:

Unrestricted Net Assets - Net assets that are not subject to donor-imposed stipulations.

Temporarily Restricted Net Assets - Net assets subject to donor-imposed stipulations that may or will be met, either by actions of the Organization and/or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Permanently Restricted Net Assets - Net assets subject to donor-imposed stipulations that they be maintained permanently by the Organization. Generally, the donors of these assets permit the Organization to use all or part of the income earned on any related investments for general or specific purposes.

Support and Revenue:

RNMOW receives the majority of its operating funds in the form of grants or contracts from various federal, state and local government agencies. Grants and contracts are recorded as income upon the award or receipt of pledges, cash or other property subject to compliance with specific terms.

Grants, Contract Funds and Accounts Receivable:

RNMOW carries its accounts receivable at cost less an allowance for doubtful accounts. On a periodic basis, RNMOW's management evaluates accounts receivable and establishes an allowance for doubtful accounts, based on history write-offs and collections conditions. The Organization uses the allowance method to account for uncollectible accounts. No allowance for uncollectible accounts has been provided at June 30, 2015 as management is of the opinion that all amounts are collectible.

ROCKINGHAM NUTRITION AND MEALS ON WHEELS PROGRAM

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Property and Equipment:

The Organization capitalizes property and equipment over \$1,000. Lesser amounts are expensed. Property and equipment is stated at cost and is considered to be owned by the Organization while in use for the program for which it was purchased or in other authorized programs. However, the funding sources under whose grants the property was acquired may have a reversionary interest in the property. Depreciation is provided using the straight-line method over the estimated useful lives of the property generally as follows:

Furniture and equipment	5-7 years
Vehicles	5 years

Functional Allocation of Expenses:

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Investments:

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position. Unrealized gains and losses are included in the statement of activities. Investment income and gains restricted by a donor are reported as increases in unrestricted net assets if the restrictions are met (either by passage of time or by use) in the reporting period in which the income and gains are recognized.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents:

For purposes of the statement of cash flows, the Organization considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

Contributions:

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. See Note 8 for temporarily restricted net assets at June 30, 2015.

In-Kind Contributions:

The Organization records revenue and expenditures of an in-kind nature which represents the estimated fair market value of donated facilities. The fair market value of these contributions which total \$181,226 for the year ended June 30, 2015 have been included in the accompanying financial statements.

ROCKINGHAM NUTRITION AND MEALS ON WHEELS PROGRAM
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Tax Status and Uncertain Tax Positions:

RNMOW is a non-profit organization, exempt from taxation under Internal Revenue Code Section 501(c)(3). Accordingly, no provision for income taxes has been provided for in the accompanying financial statements. In addition, RNMOW has been determined by the Internal Revenue Service not to be a "private foundation" within the meaning of Section 509(a) of the Internal Revenue Code.

GAAP requires the Organization to evaluate and disclose tax positions that could have an effect on the Organization's financial statements. Substantially all of the Organization's income, expenditures and activities relate to its exempt purpose, therefore, management has determined that the Organization is not subject to unrelated business income taxes and will continue to qualify as a tax-exempt not-for-profit entity. There was no unrelated business income for 2015.

The Organization reports its activities to the Internal Revenue Service and to the State of New Hampshire on an annual basis. These informational returns are generally subject to audit and review by the governmental agencies for a period of three years after filing.

NOTE 2 INVESTMENTS

Investments are carried at fair value based on quoted prices in active markets (all Level 1 measurements, see Note 3) and consisted of the following at June 30, 2015:

	<u>Cost</u>	<u>Market Value</u>
Mutual Funds	\$ <u>424,540</u>	\$ <u>532,643</u>

Investment return for the year ended June 30, 2015 was composed of:

Dividends	\$ 12,631
Net unrealized gain	<u>3,087</u>
Total investment return	<u>\$ 15,718</u>

NOTE 3 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets for identical assets. The fair value of mutual funds is based on quoted net asset values of the shares held by the investment account at year-end.

Level 2 – Inputs other than quoted prices in Level 1 that are observable for the assets, either directly or indirectly. The investment account currently has no Level 2 assets.

ROCKINGHAM NUTRITION AND MEALS ON WHEELS PROGRAM
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2015

NOTE 3 FAIR VALUE MEASUREMENTS, Continued

Level 3 – Significant unobservable inputs for the assets where there is little or no market activity for the assets at the measurement date. The investment account currently has no Level 3 assets.

As required by ASC 820, investments are classified within the level of the lowest significant input considered in determining fair value.

The inputs or methodology described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Organization believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements and levels within the fair value hierarchy of those measurements for the assets reported at fair value on a recurring basis at June 30, 2015 are as follows:

<u>Assets at Fair Value as of June 30, 2015</u>		
<u>Description</u>	<u>Significant Observable Inputs (Level 1)</u>	<u>Total</u>
Mutual Funds:		
Large Cap Fund	\$246,612	\$246,612
Bond Funds	146,675	146,675
International Funds	103,997	103,997
Real Estate Fund	<u>35,359</u>	<u>35,359</u>
Total assets at fair value	<u>\$532,643</u>	<u>\$532,643</u>

NOTE 4 PROPERTY AND EQUIPMENT

A summary of property and equipment at June 30, 2015 is as follows:

Motor vehicles	\$ 81,616
Food service and office equipment	<u>67,127</u>
	148,743
Less: Accumulated depreciation	<u>119,804</u>
Net book value	<u>\$ 28,939</u>

Depreciation expense for the year ended June 30, 2015 was \$17,956.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2015

NOTE 5 **CONCENTRATION OF CREDIT RISK**

The Organization maintains temporary cash investments, which, at times, may exceed Federal Deposit Insurance Corporation (FDIC) limits. The Organization has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

During the fiscal year ended June 30, 2015, RNMOW received approximately 66% of its total revenue from two funding sources. At June 30, 2015, amounts due from these two funding sources included in accounts receivable was \$165,334.

NOTE 6 **RETIREMENT PLANS**

The Organization has in effect a 403(b) plan to provide retirement and incidental benefits for its employees. All of the Organization's employees are eligible to participate in the plan. The Plan generally permits an employee to make elective deferrals up to a maximum annual amount as set periodically by the Internal Revenue Service. At the discretion of the Board, the Organization made matching contributions to the plan computed 2.5% of each participating employee's annual compensation for the fiscal year ended June 30, 2015. All discretionary contributions vest immediately. The Organization's discretionary contributions to the Plan totaled \$10,157 in 2015.

NOTE 7 **LEASES**

The Organization rents space under tenant-at-will agreements at various locations. Rental costs for the year ended June 30, 2015, were \$8,675.

NOTE 8 **TEMPORARILY RESTRICTED NET ASSETS**

Net assets were released from donor restrictions by incurring expenses satisfying the restricted purpose as specified by the donors. During the fiscal year ended June 30, 2015, \$21,000 were released for program services.

Temporarily restricted net assets at June 30, 2015 are available for the following purpose:

Home Delivered Meals	<u>\$10,500</u>
----------------------	-----------------

NOTE 9 **BOARD DESIGNATED NET ASSETS**

The Board of Directors of RNMOW designated \$989,000 (the equivalent of approximately four months' current operating expenses) of the Organization's unrestricted net assets as a working capital reserve to stabilize its cash flow. These funds are to be used to mitigate program and cash flow risk associated with providing regular uninterrupted meals to the elderly and handicapped population that is served by the Organization. The Board feels this is necessary because reimbursements from the RNMOW's primary funding sources are often not received until well after current expenditures have been made. Due to the critical nature of the Organization's mission,

which is to provide food to people at risk, the Board believes that any lapse in service is not acceptable.

The Board of Directors has further designated \$80,000 for future capital asset enhancement and replacement.

NOTE 10 SUBSEQUENT EVENTS

Management has evaluated events through October 27, 2015, the date on which the financial statements were available to be issued. No other material subsequent events have occurred since June 30, 2015 that require recognition or disclosure in these financial statements.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

*To the Board of Directors of
Rockingham Nutrition and Meals on Wheels Program
Brentwood, New Hampshire*

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Rockingham Nutrition and Meals on Wheels Program (a nonprofit organization), which comprise the statement of financial position as of June 30, 2015, and the related statements of activities, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated October 27, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Rockingham Nutrition and Meals on Wheels Program's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Rockingham Nutrition and Meals on Wheels Program's internal control. Accordingly, we do not express an opinion on the effectiveness of Rockingham Nutrition and Meals on Wheels Program's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Organization's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Rockingham Nutrition and Meals on Wheels Program's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material

effect on the determination of financial statement amounts. However, providing an **opinion** on compliance with those provisions was not an objective of our audit, and accordingly, we do not **express** such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are **required** to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal **control** and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the **Organization's** internal control or on compliance. This report is an integral part of an audit performed in accordance **with** *Government Auditing Standards* in considering the Organization's internal control and compliance. **Accordingly**, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

*To the Board of Directors of
Rockingham Nutrition and Meals on Wheels Program
Brentwood, New Hampshire*

Report on Compliance for Each Major Federal Program

We have audited Rockingham Nutrition and Meals on Wheels Program's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Rockingham Nutrition and Meals on Wheels Program's major federal programs for the year ended June 30, 2015. Rockingham Nutrition and Meals on Wheels Program's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Rockingham Nutrition and Meals on Wheels Program's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Rockingham Nutrition and Meals on Wheels Program's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Rockingham Nutrition and Meals on Wheels' compliance.

Opinion on Each Major Federal Program

In our opinion, Rockingham Nutrition and Meals on Wheels Program complied, in all material respects, with the types of compliance requirements referred to above that could have direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control over Compliance

Management of Rockingham Nutrition and Meals on Wheels Program is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Rockingham Nutrition and Meals on Wheels Program's internal control over compliance with the type of requirements that could have direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Rockingham Nutrition and Meals on Wheels Program's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purposes.

EXPLANATION

The Department is requesting these Amendments be approved **retroactive** to June 1, 2016. The Department evaluated the Contractors' requests for rate increases and agreed to same in late March, 2016. While in the process of distributing contract amendments to the vendors, the Department was approached in early May 2016 with a request to redistribute funding for congregate and home delivered meals within and between Contractors. The Department agreed to these changes as well. Making these amendments effective retroactive to June 1, 2016 will allow the Contractors' access to already encumbered State Fiscal Year 2016 funds dedicated to these services.

Approval of these fourteen (14) amendments will allow the Contractors to be reimbursed for services at a rate structure that is better aligned with the Contractors' costs of providing these services. The attached Amendments increase the transportation per client per day rate from \$8.75 to \$9.32 and increase the per mile rate component for transportation and home delivered meals from .30 cents to .54 cents. It is projected that the increase in rates will support the additional costs of serving more rural clients and will ensure that clients are able to receive needed services such as transportation to appointments and essential shopping.

Approval of these amendments will also allow the Contractors to provide services where there is more client demand for meals through redistribution of funding within and between the Contractors. When these contracts were originally approved by the Governor and Executive Council on June 18, 2014 (Item #109) and amended on June 10, 2015 (Item #21), funding was based on the Contractors' point in time projections for clients' needs and demands for services. Since the recipients of these services are older adults and adults with physical disabilities, it is not uncommon for this population to experience changes over the course of time that would necessitate service delivery changes.

The Contractors will monitor transportation, meals and mileage usage along with expenses in order to ensure the services continue to be available through the end of the contract period. The Contractors will conduct client surveys on the quality of the services to ensure services are being delivered satisfactory or better. Additionally, Contractors will be collecting and reporting data on the number of clients served the number and types of meals provided, and the numbers of trips and types of transportation provided, in order for the Department to understand the gaps in service delivery and to be able to have more meaningful discussions about these important services.

Should the Governor and Executive Council not authorize these agreements, the Contractors may not be able to serve the all of the clients who need transportation and home delivered meals. The purpose of these nutrition and transportation contracts is to provide direct services to clients to support their health, independence and ability to remain in their homes and communities. Nutrition and transportation are two major services that support older adults and adults with disabilities who cannot meet their basic needs, for meals and transportation, without help. Services are provided to individuals who have very low incomes and are just above Medicaid eligibility who also demonstrate a need for the service. These services are targeted toward individuals who do not have any other resources available to support them in meeting these two basic needs.

These contractors were selected through a competitive bid process (See Attachment B).

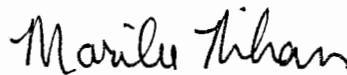

Geographic area to be served is specific per contract. See Summary of Services and Geographic Area (Attachment C).

Source of Funds for these contracts: 46% General Funds and 54% Federal Funds from:

NH Department of Justice
Office of the Attorney General
33 Capitol Street
Concord, New Hampshire 03301

Good Morning Attorney Yaple,

I am writing to ask that you review the attached amendment between the Department of Health and Human Services, Division Community Based Care Services, Bureau of Elderly and Adult Services and Rockingham Nutrition and Meals on Wheels Program, Inc. (Vendor #155197 - B001), 106 North Road Brentwood, NH, 03833. The vendor provides nutrition and transportation services in Rockingham County. The Contractor requested a transfer of funds between the respective budget lines for home delivered meals and congregate meals in order to better address client needs. The Department supports this transfer of SFY 2015 funds. The Governor and Executive Council approved the original agreement on June 18, 2014 (item # 109) and pending approval by Governor and Executive Council for Amendment #1. There are no additional funds being requested in this amendment. 60% Federal and 40% General Funds.

The following language is included in Exhibit B, paragraph 5 of the contract agreement:

5. Notwithstanding paragraph 18 of the P-37, an amendment limited to the terms of Exhibit B-1, B-2, and B-3 to transfer the amount of units from one service to another can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

I am asking that you review and sign off on this contract amendment as it does not need further action by the Governor and Executive Council.

The remainder of this letter is presented in the format typical of most Governor and Executive Council letters, so that you might have some context for your review.

EXPLANATION

Rockingham Nutrition and Meals on Wheels Program, Inc. has requested the transfer of funds described above in order to realign the budget to provide additional funding for home delivered meals to clients. Due to the inclement winter weather, the Contractor served less congregate meals to clients. The Contractor requests the funding for the underutilized congregate meals be transferred to the home delivered meals budget line. The Contractor expects the transfer will provide enough meals to support the overall client usage for the remainder of the state fiscal year.

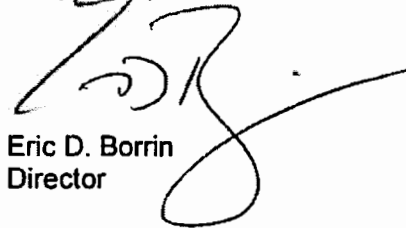

This contract was awarded as the result of a competitive bid process. On November 22, 2013 the Department issued a Request for Proposal for Title XX and Title III Nutrition and Transportation services on the Department's website.

Area Served: Rockingham County.

Source of Funds: 60% Federal Funds from the Social Services Block Grant Catalog of Federal Domestic Assistance (CFDA) #93.667 Grant and Administration for Community Living's Older Americans Act (OAA) - Title III, CFDA #s 93.044 and 93.045 and 40% General Funds.

In the event that Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Eric D. Borrin
Director

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION
AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

New Hampshire Department of Health and Human Services
Exhibit F

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

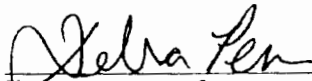

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
 - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
 - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
 - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
St. Joseph Community Services, Inc.

Report on the Financial Statements

We have audited the accompanying financial statements of St. Joseph Community Services, Inc., which comprise the statement of financial position as of September 30, 2015, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and

fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of St. Joseph Community Services, Inc. as of September 30, 2015, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited the Organization's fiscal year 2014 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated December 16, 2014. In our opinion, the summarized comparative information presented herein as of and for the year ended September 30, 2014 is consistent, in all material respects, with the audited financial statements from which it was derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 4, 2015 on our consideration of St. Joseph Community Services, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering St. Joseph Community Services, Inc.'s internal control over financial reporting and compliance.

Notes to the Financial Statements

1. Organization

St. Joseph Community Services, Inc. (the Organization), is a nonprofit health and welfare organization. The Organization provides services to elderly and low-income individuals. The primary sources of revenue are federal and state grants or contracts, in addition to individual and outside contributions. Services are provided according to the following program categories:

Title III B - Provides health and welfare counseling, escort and transportation services, information, referral, recreational activities, nutritional education, and outreach services for the elderly.

Title III C - Provides congregate and home delivered meals for people over 60 years of age.

Title XX - Provides home delivered meals for people that meet income and disability requirements.

Other Programs - Revenues and expenses from various fundraising and non-program activities.

2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies of the Organization used in preparing and presenting the accompanying financial statements.

Accounting for Contributions and Financial Statement Presentation

The Organization follows *Accounting for Contributions Received and Contributions Made* and *Financial Statements of Not-for-Profit Organizations* as required by the Financial Accounting Standards Board Accounting Standards Codification (FASB ASC). Under these guidelines, the Organization is required to distinguish between contributions that increase permanently restricted net assets, temporarily restricted net assets, and unrestricted net assets. It also requires recognition of contributions, including contributed services, meeting certain criteria at fair values. These reporting standards establish standards for financial statements of not-for-profit organizations and require a Statement of Financial Position, a Statement of Activities, a Statement of Functional Expenses, and a Statement of Cash Flows.

Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting. Under this basis, revenues, other than contributions, and expenses are reported when incurred, without regard to the date of receipt or payment of cash. Contributions are reported in accordance with FASB ASC *Accounting for Contributions Received and Contributions Made*.

Restricted and Unrestricted Revenue

Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire (that is, when a stipulated time restriction ends or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets, depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from restrictions.

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Organization considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents.

Allowance for Doubtful Accounts

The adequacy of the allowance for doubtful accounts for receivables is reviewed on an ongoing basis by the Organization's management and adjusted as required through the provision for doubtful accounts (bad debt expense). In determining the amount required in the allowance account for the year ended September 30, 2015, management has taken into account a variety of factors.

Property and Equipment

Property and equipment is recorded at cost or, if donated, at estimated fair market value at the date of donation. Major additions and improvements are capitalized, while ordinary maintenance and repairs are charged to expense. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets. Assets not in service are not depreciated.

Functional Expenses

The costs of providing various programs and activities have been summarized on a functional basis in the Statement of Activities and in the Statement of Functional Expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Donated Services

The Organization received a substantial amount of services donated by individuals in carrying out its programs. The value of these contributed services is not reflected in the financial statements. The estimated value for these services for the year ended September 30, 2015 is \$503,243.

Contributions of donated services that create or enhance nonfinancial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual amounts could differ from those estimates.

Tax Status

St. Joseph Community Services, Inc. is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3). The Organization has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions.

The Organization follows FASB ASC 740-10, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. FASB ASC 740-10 did not have a material impact on the Organization's financial statements.

The Organization's Federal Form 990 (Return of Organization Exempt From Income Tax) is subject to examination by the IRS, generally for three years after filing.

The Organization recognizes interest related to unrecognized tax benefits in interest expense and penalties that are included within reported expenses. During the year ended September 30, 2015, the Organization had no interest or penalties accrued related to unrecognized tax benefits.

3. Concentration of Credit Risk - Cash and Cash Equivalents

The carrying amount of the Organization's deposits with financial institutions was \$1,066,536 at September 30, 2015. The difference between the carrying amount and the bank balance represents reconciling items such as deposits in transit and outstanding checks, which have not been processed by the bank at September 30, 2015. The bank balance is categorized as follows:

7. Accrued Expenses

	<u>2015</u>	<u>2014</u>
Replacement of assets for expenditures for minor assets	\$ 64,953	\$ 64,953
Capital reserve for expenditures for major assets	<u>63,584</u>	<u>63,584</u>
Total	<u>\$ 128,537</u>	<u>\$ 128,537</u>

9. Temporarily Restricted Net Assets

At September 30, 2015, a portion of net assets were subject to time restrictions.

10. Net Assets Released from Restriction

Net assets are released from program restrictions by incurring expenses satisfying the restricted purpose.

11. Transactions with Related Parties

The Organization procures a portion of their legal services from a local law firm that has an attorney who serves on the Organization's Board of Directors. The attorney board member does not personally perform the legal services. For the years ended September 30, 2015 and 2014, the total legal expense from related parties was \$1,555 and \$1,512, respectively. There were no amounts owed from the Organization for legal services at September 30, 2015 and 2014.

The Organization purchases insurance through an insurance broker that has a principle who serves on the Organization's Board of Directors. The principle board member does not personally benefit from the relationship with the Organization. There were no expenses paid to this insurance broker for the year ended September 30, 2015.

12. Tax-deferred Annuity Plan

During the year ended September 30, 2015, the Organization offered a tax-deferred annuity plan qualified under Section 403(b) of the Internal Revenue Code. The plan covers full-time employees of the Organization. The Organization contributes 4% of gross salaries to the plan for qualified employees. Employees may make contributions to the plan up to the maximum amount allowed by the Internal Revenue Code. Plan expenses were \$23,045 and \$20,174 for the years ended September 30, 2015 and 2014, respectively.

13. Operating Leases

The Organization leases office space and other facilities under the terms of non-cancellable lease agreements that are scheduled to expire at various times through 2015. The Organization also rents additional facilities on a month-to-month basis. Rent expense under these agreements totaled \$50,740 and \$49,327 for the years ended September 30, 2015 and 2014, respectively.

14. **Concentrations of Risk**

A material part of the Organization's revenue is dependent upon government sources, the loss of which would have a materially adverse effect on the Organization. During the years ended September 30, 2015 and 2014, the Bureau of Elderly and Adult Services accounted for 67% and 66%, respectively, of total revenues.

The Organization, by contract, relies 100% on one vendor to provide food services required to carry out the purpose of the Organization. The Organization's contract with this vendor will expire on September 30, 2016.

15. **Fair Value Measurements**

FASB ASC, *Fair Value Measurements*, provides guidance for using fair value to measure assets and liabilities. *Fair Value Measurements* applies whenever other standards require or permit assets or liabilities to be measured at their fair market value. The standard does not expand the use of fair value in any new circumstances. Under *Fair Value Measurements*, fair value refers to the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. *Fair Value Measurements* clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions.

Under *Fair Value Measurements*, the Organization categorizes its fair value estimates based on a hierarchical framework associated with three levels of price transparency utilized in measuring financial instruments at fair value. Classification is based on the lowest level of input that is significant to the fair value of the instrument. The three levels are as follows:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of financial instruments included in Level 1 are highly liquid instruments with quoted prices;
- Level 2 - Inputs from active markets, other than quoted prices for identical instruments, are used to model fair value. Significant inputs are directly observable from active markets for substantially the full term of the asset or liability being valued; and
- Level 3 - Pricing inputs significant to the valuation are unobservable. Inputs are developed based on the best information available; however, significant judgment is required by management in developing the inputs.

The carrying amounts of cash and cash equivalents and unconditional promises to give to be received in less than one year approximate fair value because of the short maturity of those financial instruments. The fair value of unconditional promises to give to be received in more than one year is determined based on discounted future cash flows.

16. In-kind Services

In-kind services consist primarily of donated rent at estimated fair market value.

17. Subsequent Events

In accordance with the provisions set forth by FASB ASC, *Subsequent Events*, events and transactions from October 1, 2015 through December 4, 2015, the date the financial statements were available to be issued, have been evaluated by management for disclosure. Management has determined that there were no material events that would require disclosure in the Organization's financial statements through this date.

Independent Auditors' Report

To the Board of Directors of
St. Joseph Community Services, Inc.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of St. Joseph Community Services, Inc., which comprise the statement of financial position as of September 30, 2015, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated December 4, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Organization's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL
PROGRAM; REPORT ON INTERNAL CONTROL
OVER COMPLIANCE; AND REPORT ON THE
SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
REQUIRED BY OMB CIRCULAR A-133

Independent Auditors' Report

To the Board of Directors
St. Joseph Community Services, Inc.

Report on Compliance for Each Major Federal Program

We have audited St. Joseph Community Services, Inc.'s compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Organization's major federal programs for the year ended September 30, 2015. The Organization's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Organization's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain

reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Organization's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Organization's compliance.

Opinion on Each Major Federal Program

In our opinion, the Organization complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2015.

Report on Internal Control over Compliance

Management of the Organization is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Organization's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of St. Joseph Community Services, Inc. as of and for the year ended September 30, 2015, and have issued our report thereon dated December 4, 2015, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

EXPLANATION

The Department is requesting these Amendments be approved **retroactive** to June 1, 2016. The Department evaluated the Contractors' requests for rate increases and agreed to same in late March, 2016. While in the process of distributing contract amendments to the vendors, the Department was approached in early May 2016 with a request to redistribute funding for congregate and home delivered meals within and between Contractors. The Department agreed to these changes as well. Making these amendments effective retroactive to June 1, 2016 will allow the Contractors' access to already encumbered State Fiscal Year 2016 funds dedicated to these services.

Approval of these fourteen (14) amendments will allow the Contractors to be reimbursed for services at a rate structure that is better aligned with the Contractors' costs of providing these services. The attached Amendments increase the transportation per client per day rate from \$8.75 to \$9.32 and increase the per mile rate component for transportation and home delivered meals from .30 cents to .54 cents. It is projected that the increase in rates will support the additional costs of serving more rural clients and will ensure that clients are able to receive needed services such as transportation to appointments and essential shopping.

Approval of these amendments will also allow the Contractors to provide services where there is more client demand for meals through redistribution of funding within and between the Contractors. When these contracts were originally approved by the Governor and Executive Council on June 18, 2014 (Item #109) and amended on June 10, 2015 (Item #21), funding was based on the Contractors' point in time projections for clients' needs and demands for services. Since the recipients of these services are older adults and adults with physical disabilities, it is not uncommon for this population to experience changes over the course of time that would necessitate service delivery changes.

The Contractors will monitor transportation, meals and mileage usage along with expenses in order to ensure the services continue to be available through the end of the contract period. The Contractors will conduct client surveys on the quality of the services to ensure services are being delivered satisfactory or better. Additionally, Contractors will be collecting and reporting data on the number of clients served the number and types of meals provided, and the numbers of trips and types of transportation provided, in order for the Department to understand the gaps in service delivery and to be able to have more meaningful discussions about these important services.

Should the Governor and Executive Council not authorize these agreements, the Contractors may not be able to serve the all of the clients who need transportation and home delivered meals. The purpose of these nutrition and transportation contracts is to provide direct services to clients to support their health, independence and ability to remain in their homes and communities. Nutrition and transportation are two major services that support older adults and adults with disabilities who cannot meet their basic needs, for meals and transportation, without help. Services are provided to individuals who have very low incomes and are just above Medicaid eligibility who also demonstrate a need for the service. These services are targeted toward individuals who do not have any other resources available to support them in meeting these two basic needs.

These contractors were selected through a competitive bid process (See Attachment B).

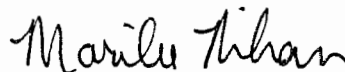

Geographic area to be served is specific per contract. See Summary of Services and Geographic Area (Attachment C).

Source of Funds for these contracts: 46% General Funds and 54% Federal Funds from:

Good Morning Attorney Yapple,

I am writing to ask that you review the attached amendment between the Department of Health and Human Services, Division Community Based Care Services, Bureau of Elderly and Adult Services and St. Joseph Community Services, (Vendor #155093 - B001), 395 Daniel Webster Highway, Merrimack, NH 03054. The vendor provides nutrition and transportation services in Hillsborough County. The Contractor requested a transfer of funds between the respective budget lines for home delivered meals and transportation services in order to better address client needs. The Department supports this transfer of SFY 2015 funds. The Governor and Executive Council approved the original agreement on June 18, 2014 (item # 109). There are no additional funds being requested in this amendment. 60% Federal and 40% General Funds.

The following language is included in Exhibit B, paragraph 5 of the contract agreement:

5. Notwithstanding paragraph 18 of the P-37, an amendment limited to the terms of Exhibit B-1, B-2, and B-3 to transfer the amount of units from one service to another can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

I am asking that you review and sign off on this contract amendment as it does not need further action by the Governor and Executive Council.

The remainder of this letter is presented in the format typical of most Governor and Executive Council letters, so that you might have some context for your review.

EXPLANATION

St. Joseph Community Services, has requested the transfer of funds described above in order to realign the budget to provide additional funding for home delivered meals and mileage for the transportation of clients. The contractor originally anticipated a lower usage of meals and transportation miles, and expects the transfer will provide enough meals and transportation to support the overall client usage for the remainder of the state fiscal year.

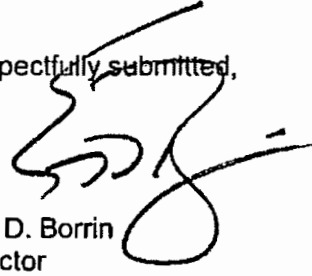

This contract was awarded as the result of a competitive bid process. On November 22, 2013 the Department issued a Request for Proposal for Title XX and Title III Nutrition and Transportation services on the Department's website.

Area Served: Hillsborough County.

Source of Funds: 60% Federal Funds from the Social Services Block Catalog of Federal Domestic Assistance (CFDA) # 93.667 Grant and Administration for Community Living's Special Programs for the Aging-Title III, CFDA #s 93.044 and 93.045 and 40% General Funds.

In the event that Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

- e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) Obligations and Activities of Business Associate.

- a. The Business Associate shall notify the Covered Entity's Privacy Officer immediately after the Business Associate becomes aware of any use or disclosure of protected health information not provided for by the Agreement including breaches of unsecured protected health information and/or any security incident that may have an impact on the protected health information of the Covered Entity.
- b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:
 - o The nature and extent of the protected health information involved, including the types of identifiers and the likelihood of re-identification;
 - o The unauthorized person used the protected health information or to whom the disclosure was made;
 - o Whether the protected health information was actually acquired or viewed
 - o The extent to which the risk to the protected health information has been mitigated.

The Business Associate shall complete the risk assessment within 48 hours of the breach and immediately report the findings of the risk assessment in writing to the Covered Entity.

- c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.
- d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.
- e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (I). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

Exhibit I

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

- f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.
- g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.
- h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.
- i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.
- j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.
- k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Exhibit I

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) **Obligations of Covered Entity**

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.
- b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.
- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) **Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) **Miscellaneous**

- a. **Definitions and Regulatory References.** All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.
- b. **Amendment.** Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.
- c. **Data Ownership.** The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.
- d. **Interpretation.** The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

Exhibit I

- e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Exhibit I.

Strafford Nutrition & Meals on Wheels
NOTES TO FINANCIAL STATEMENTS
June 30, 2015 and 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Nature of Activities

Strafford Nutrition & Meals on Wheels (a not-for-profit, IRC 501(c)(3) corporation) is an Organization that exists to provide daily noontime meals to people over 60 years of age in a congregate setting in the communities of Somersworth, Dover, Rochester, and Farmington. The program also provides meals on wheels to elderly and disabled persons in their own homes throughout all of Strafford County. The program provides in excess of 1,400 meals per day.

B. Basis of Accounting

The financial statements have been prepared using the accrual basis of accounting whereby the Organization reports support and revenue when earned and expenses when incurred.

C. Financial Statement Presentation

The financial statements have been prepared in accordance with FASB Accounting Standards Codification ("FASB ASC") No. 958, "Not-for-Profit Entities – Presentation of Financial Statements." Under FASB ASC No. 958, the Organization is required to report information regarding its financial position and activities according to the following three classes of net assets:

- Unrestricted net assets - represent expendable resources that are available for operations at management's discretion.
- Temporarily restricted net assets - represent resources restricted by donors as to purpose or by time. As of June 30, 2015 and 2014, the Organization did not have any temporarily restricted net assets.
- Permanently restricted net assets - represent resources whose use by the Organization is limited by donor-imposed stipulations that neither expire by passage of time nor can be fulfilled or otherwise removed by actions of the Organization. As of June 30, 2015 and 2014, the Organization did not have any permanently restricted net assets.

D. Use of Estimates

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions by management regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED**

E. **Income Taxes**

The Organization is an exempt organization for federal and state income tax purposes under Section 501(c)(3) of the Internal Revenue Code and similar state provisions. The Organization is not classified as a private foundation.

The Organization has adopted the provisions of authoritative guidance regarding accounting for uncertainty in income taxes. The authoritative guidance provides that a tax benefit or liability from an uncertain tax position should be recognized when it is more likely than not that a position will not be sustained upon examination. As of June 30, 2015 and 2014 management has concluded that the Organization had no uncertain income tax provisions.

The Organizations federal informational returns for 2015, 2014 and 2013 are subject to examination by the IRS, generally for three years after they were filed.

F. **Property, Plant and Equipment**

The Organization's policy is to capitalize significant assets with a useful life greater than one year. Property and equipment is depreciated using the straight-line method. Expenditures for maintenance and repairs are charged against operations. The Organization does not have any assets that meet this criteria.

G. **Statement of Cash Flows**

The Organization considers all short-term investments with an original maturity of three months or less to be cash equivalents.

H. **Advertising**

The Organization expenses advertising as incurred. The Organization had no advertising expense for 2015 and 2014.

I. **Accounts Receivable**

Accounts receivable is derived primarily from funds requested to be reimbursed from government contracts. These requests are for services and are deemed entirely collectible.

J. **Donated Goods and Services**

The Organization records donated goods and services that meet the criteria for recognition under generally accepted accounting principles (GAAP) at the estimated fair value of such items.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

K. In-Kind Support

The Organization records various types of in-kind support including facilities, services, and materials donated by volunteers and local citizens in carrying out its mission. The amounts reported as in-kind support are reported in accordance with the grant agreements. Certain amounts may not meet the requirements necessary to be recognized under accounting principles generally accepted in the United States of America. Generally accepted accounting principles allow contributed services to be recognized only if the services received create or enhance nonfinancial assets or require specialized skills, provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation.

2. CASH

At June 30, 2015 and 2014 the Organization had no deposits in excess of the FDIC insurance limit of \$250,000. At June 30, 2015, the Organization's carrying amount of deposits was \$113,532 and \$122,821 for 2014.

The Organization utilized Somersworth Housing Authority (SHA) for bill paying services. At June 30, 2015 and 2014 the Organization had \$0 and \$50,000, respectively, on deposit in SHA's revolving account.

3. DONATED SERVICES

Donated personal services were recorded at a value of \$52,195 during 2015 and \$54,690 during 2014.

4. FUNCTIONAL ALLOCATION OF EXPENSES

The costs of providing the various programs and activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

5. ECONOMIC DEPENDENCY

Approximately 53% and 52% of revenues were received through the Division of Elderly and Adult Services for 2015 and 2014.

7. SPECIAL ITEM

For fiscal years ended on or before June 30, 2014 the Organization utilized employees of Somersworth Housing Authority (SHA) to operate its programs and reimbursed SHA for the cost of those employees. Employees utilized by the Organization were covered by other post-employment benefits (OPEB) provided by SHA, and the Organization recorded a portion of SHA's obligation that was attributable to such employees a noncurrent liability on the Statement of Net Assets.

As of July 1, 2014 the Organization separated from Somersworth Housing Authority. EXPLANATION

The Department is requesting these Amendments be approved **retroactive** to June 1, 2016. The Department evaluated the Contractors' requests for rate increases and agreed to same in late March, 2016. While in the process of distributing contract amendments to the vendors, the Department was approached in early May 2016 with a request to redistribute funding for congregate and home delivered meals within and between Contractors. The Department agreed to these changes as well. Making these amendments effective retroactive to June 1, 2016 will allow the Contractors' access to already encumbered State Fiscal Year 2016 funds dedicated to these services.

Approval of these fourteen (14) amendments will allow the Contractors to be reimbursed for services at a rate structure that is better aligned with the Contractors' costs of providing these services. The attached Amendments increase the transportation per client per day rate from \$8.75 to \$9.32 and increase the per mile rate component for transportation and home delivered meals from .30 cents to .54 cents. It is projected that the increase in rates will support the additional costs of serving more rural clients and will ensure that clients are able to receive needed services such as transportation to appointments and essential shopping.

Approval of these amendments will also allow the Contractors to provide services where there is more client demand for meals through redistribution of funding within and between the Contractors. When these contracts were originally approved by the Governor and Executive Council on June 18, 2014 (Item #109) and amended on June 10, 2015 (Item #21), funding was based on the Contractors' point in time projections for clients' needs and demands for services. Since the recipients of these services are older adults and adults with physical disabilities, it is not uncommon for this population to experience changes over the course of time that would necessitate service delivery changes.

The Contractors will monitor transportation, meals and mileage usage along with expenses in order to ensure the services continue to be available through the end of the contract period. The Contractors will conduct client surveys on the quality of the services to ensure services are being delivered satisfactory or better. Additionally, Contractors will be collecting and reporting data on the number of clients served the number and types of meals provided, and the numbers of trips and types of transportation provided, in order for the Department to understand the gaps in service delivery and to be able to have more meaningful discussions about these important services.

Should the Governor and Executive Council not authorize these agreements, the Contractors may not be able to serve the all of the clients who need transportation and home delivered meals. The purpose of these nutrition and transportation contracts is to provide direct services to clients to support their health, independence and ability to remain in their homes and communities. Nutrition and transportation are two major services that support older adults and adults with disabilities who cannot meet their basic needs, for meals and transportation, without help. Services are provided to individuals who have very low incomes and are just above Medicaid eligibility who also demonstrate a need for the service. These services are targeted toward individuals who do not have any other resources available to support them in meeting these two basic needs.

These contractors were selected through a competitive bid process (See Attachment B).

Geographic area to be served is specific per contract. See Summary of Services and Geographic Area (Attachment C).

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. 5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party fundors for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party fundors, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION
AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Order of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

New Hampshire Department of Health and Human Services
Exhibit F

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
- 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
- 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
 - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).
14. INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Tri-County Community Action Program, Inc. and affiliate (a New Hampshire nonprofit organization), which comprise the consolidated statement of financial position as of June 30, 2015, and the related consolidated statements of activities, cash flows, and functional expenses for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Tri-County Community Action Program, Inc. as of June 30, 2015, and the changes in its net assets and its cash flows for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2015, on our consideration of Tri-County Community Action Program, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Tri-County Community Action Program, Inc.'s internal control over financial reporting and compliance.

TRI-COUNTY COMMUNITY ACTION PROGRAM, INC. AND AFFILIATE

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Principles of Consolidation

The financial statements include the accounts of Tri-County Community Action Program, Inc. and its affiliate, Cornerstone Housing North, Inc. The two organizations are consolidated because Tri-County Community Action Program, Inc. controls 100% of the voting power of Cornerstone Housing North, Inc. All significant intercompany items and transactions have been eliminated from the basic financial statements. Tri-County Community Action Program, Inc. (the Organization) is a New Hampshire non-profit corporation that operates a wide variety of community service programs which are funded primarily through grants or contracts from various federal, state, and local agencies. Cornerstone Housing North, Inc. (a New Hampshire nonprofit corporation) was incorporated under the laws of the State of New Hampshire for the acquisition, construction and operation of community based housing for the Elderly.

Nature of activities

The Organization's programs consist of the following:

Agency

Tri-County CAP Administration provides central program management support and oversight to our many individual programs. This includes planning and budget development, bookkeeping and accounting, payroll and HR services, legal and audit services, IT support, management support, financial support and central policy development.

Tri-County CAP Administration is the liaison between Tri-County Community Action Program, Inc., Board of Directors and its programs, ensuring that programs comply with agreements made by the Board to funding sources and vendors.

Other responsibilities include the management and allocation of funding received through a Community Services Block Grant, as well as management of the Organization's real estate property.

Head Start

Head Start serves hundreds of children and their families in multiple classrooms and locations throughout three counties. Research demonstrates that children who are healthy learn better. Due to this fact, parents in our program receive assistance in completing medical and dental exams for their children. To further assist in breaking the cycle of poverty, each family enrolled in Head Start receives assistance in completing a family needs assessment, and subsequent support in achieving their self-sufficiency and personal improvement goals.

Guardianship

The Organization's Guardianship program provides advocacy and guardian services for the vulnerable population of New Hampshire residents (developmentally disabled, chronically mentally ill, traumatic brain injury, and the elderly suffering from Alzheimer's, dementia, and multiple medical issues) who need a guardian and who have no family member or friend willing, able, or suitable to serve in that capacity.

Transportation

The Organization's transit program provides various transportation services: public bus routes, door-to-door service by request, long distance medical travel to medical facilities outside our regular service area, and special trips for the elderly to go shopping and enjoy other activities that are located outside the regular service area. The Organization's fleet of 18 wheelchair accessible vehicles offers transportation options to the elderly and disabled, as well as to the general public.

Volunteer

Coos County Retired & Senior Volunteers Program (RSVP) maintains a minimum corps of 330 volunteers, ages 55 and older. These volunteers share their skills, life experiences, and time with over 50 local non-profit and public agencies throughout Coos County that depend on volunteer assistance to meet the needs of their constituents. Our volunteers donate over 50,000 hours yearly.

Workforce Development

The Organization is assisting transitional and displaced workers as they prepare for new jobs, and also assisting currently-employed workers to gain the skills required for better jobs.

The Organization is helping to implement New Hampshire's Unified State Plan for Workforce Development, in line with the federal Workforce Investment Act. Workforce training programs, with training facilities in three towns, provide temporary assistance for needy family (TANF) recipients with 20-30 hours per week of training in the areas of employment skills, computer skills, and business experience, and also place participating TANF recipients in community-based work experience sites.

Alcohol & Other Drugs (AOD)

Services provided through the AOD program include assisting the alcoholic/addicted person on the road to recovery, through three phases: Crisis Intervention, Sobriety Maintenance, and Assessment and Referral to appropriate treatment facilities. The Residential Treatment Programs (Friendship House) provide chemically dependent individuals with the fundamental tools of recovery, including educational classes, group and individual counseling, work and recreational therapy, and attendance at in-house and community-based alcoholics anonymous and narcotics anonymous meetings. The AOD program also offers assistance with its impaired driver programs.

The Friendship House, in December of 2014, had approximately \$130,000 worth of investments and improvements due to assistance from Public Services of New Hampshire.

Carroll County Dental

The Tamworth Dental Center (the Center) offers high quality oral health care to children with NH Medicaid coverage. The Organization also serves uninsured and underinsured children and adults using a sliding fee scale that offers income-based discounts for care. The Center accepts most common dental insurances for those who have commercial dental insurance coverage. A school-based project of the Dental Center, School Smiles, offers oral health education, screening, treatment and referrals for treatment to over 1,000 children in 9 schools in the vicinity of the Center.

Carroll County Restorative Justice

The Organization's restorative justice program provides comprehensive alternatives to traditional court sentencing and dispute resolution within the framework of Balanced and Restorative Justice. Two key components of this process are personal accountability for one's actions (diversion) and alternative conflict resolution (mediation). Services are provided by in-house staff, volunteers, and partnered relations with other local service providers. Subsequent to year end, the Division was suspended.

Support Center

The Organization's Support Center at Burch House provides direct service and shelter to victims and survivors of domestic and sexual violence and stalking in Northern Grafton County. Support Center services are accessible 24 hours a day, 365 days a year. They include crisis intervention; supportive counseling; court, hospital and policy advocacy and accompaniment; emergency shelter; support groups; community education and outreach; violence prevention programs for students; information, referrals and assistance accessing other community resources.

Homeless

Homeless services include an outreach intervention and prevention project that strives to prevent individuals and families from becoming homeless, and assists the already homeless in securing safe, affordable housing. The Organization provides temporary shelter space for homeless clients. The Organization also provides some housing rehabilitation services to help preserve older housing stock.

Energy and Development, and Community Contact

Energy programs provide fuel assistance, electric assistance, utility conservation, and weatherization measures including insulation, air-sealing, energy efficient lighting and refrigerators, hot water conservation measures, minor home repairs, and replacement windows and doors.

Community Contact sites allow local participants access to energy assistance programs and other emergency services. The offices provide information to the Organizations' clients about their other programs, as well as other programs available through other organizations in the community. The Organization consolidated its eight Community contact Offices to one office per county, located in Berlin (Coos), Ashland (Grafton) and Tamworth (Carroll). Clients may submit applications for assistance via e-mail, mail, phone, fax, or face-to-face intake appointments at one of the three offices. Community Contact has schedule site outreach in Lancaster, Lebanon, Woodsville and Colebrook; a schedule is published in the local papers listing the days and locations on a monthly basis. The Carroll County's office has been successful serving the needs of clients with this model for over ten years.

Elder

The Organization's Elder program provides senior meals in 15 community dining sites, home-delivered meals (Meals on Wheels) to the frail and homebound elderly, and senior nutrition education and related programming. The Coos County ServiceLink Aging & Disability Resource Center assists with Medicare counseling, Medicaid assistance, long-term care counseling services, and caregiver supports.

Housing Services

Cornerstone Housing North, Inc. is subject to a Project Rental Assistance Contract (PRAC) with the United States Department of Housing and Urban Development, and a significant portion of their rental income is received from the Department of Housing and Urban Development. The Organization includes a 12 unit apartment complex in Berlin, New Hampshire for the elderly. This operates under Section 202 of the National Housing Act and is regulated by the U.S. Department of Housing and Urban Development (HUD) with respect to the rental charges and operating methods. For Cornerstone Housing North, Inc., the rental income is part of the same program as the Section 202 Capital Advance and is considered a major program.

Method of accounting

The financial statements of Tri-County Community Action Program, Inc. have been prepared utilizing the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, as promulgated by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). Under this basis, revenue, other than contributions, and expenses are reported when incurred without regard to the date of receipt or payment of cash.

Basis of presentation

Financial statement presentation follows the recommendations of the FASB in its Accounting Standard Codification No. 958 *Financial Statements of Not-For-Profit Organizations*. Under FASB ASC No. 958, the Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

The Organization had no permanently restricted net assets at June 30, 2015. The Organization had temporarily restricted net assets of \$745,910 at June 30, 2015.

Restricted and unrestricted support

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions. Support that is restricted is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction.

When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Unrestricted net assets include revenues and expenses and contributions which are not subject to any donor imposed restrictions. Unrestricted net assets can be board designated by the Board of Directors for special projects and expenditures.

Temporarily restricted net assets include contributions for which time restrictions or donor-imposed restrictions have not yet been met. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restriction.

Permanently restricted net assets include gifts which require, by donor restriction, that the corpus be invested in perpetuity and only the income or a portion thereof (excluding capital gains restricted by State statute) be made available for program operations in accordance with donor restrictions. The Organization had no permanently restricted net assets at June 30, 2015.

Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e. the "exit price") in an orderly transaction between market participants at the measurement date. The accounting standards for fair values establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Organization. Unobservable inputs are inputs that reflect the Organization's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The hierarchy is classified into three levels based on the reliability of inputs as follows:

Level 1: Valuations based on quoted prices in active markets for identical assets or liabilities that the Organization has the ability to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

Level 2: Valuation is determined from quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in markets that are not active or by model-based techniques in which all significant inputs are observable in the market.

Level 3: Valuations based on inputs that are unobservable and significant to the overall fair value measurement. The degree of judgment exercised in determining fair value is greatest for instruments categorized as Level 3.

The availability of observable inputs can vary and is affected by a wide variety of factors, including, the type of asset/liability, whether the asset/liability is established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, assumptions are required to reflect those that market participants would use in pricing the asset or liability at the measurement date.

As disclosed in **Note 6**, the note payable which bears monthly interest of 69% of the sum of the one month London Interbank Offered Rate (LIBOR) plus 3.25%, when the Organization's debt service coverage ratio is 1.10; or 3.00% when the Organization's debt service coverage ratio is 1.20 includes an interest rate swap agreement. The Organization's purpose in entering into a swap arrangement was to hedge against the risk of interest rate increases on the related variable rate debt and not to hold the instrument for trading purposes. The Organization pays interest at a fixed 3.85%. The arrangement is scheduled to expire on August 2040. The notional amount of the contract was \$3,145,412. Accordingly, the swap arrangement, which is a derivative financial instrument, is classified as a cash flow hedge and is valued at the net present value (NPV) of all estimated future cash flows.

For the year ended June 30, 2015, the fair value of the interest rate swap was \$7,385 and the unrealized gain was \$42,327. The fair value of the swap is included on the balance sheet as a long term liability. No amounts have been reclassified as interest expense and based upon the Organization's intent to hold the derivative until expiration they do not expect to reclassify any unrealized gains or losses to interest expense.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from balances outstanding at year-end. Most of the receivables are amounts due from federal and state awarding agencies and are based upon reimbursement for expenditures made under specific grants or contracts. A portion of the accounts receivable balance represents amounts due from patients at Carroll County Dental and participants in the alcohol and other drug treatment programs. Past due receivables are written off at management's discretion using the direct write off method; this is not considered a departure from accounting principles generally accepted in the United State because the effects of the direct write method approximate those of the allowance method. Management selects accounts to be written off after analyzing past payment history, the age of the accounts receivable, and collection rates for receivables with similar characteristics, such as length of time outstanding. The Organization does not charge interest on outstanding accounts receivable.

Property and Depreciation

Acquisitions of buildings, equipment, and improvements in excess of \$5,000 and all expenditures for repairs, maintenance, and betterments that materially prolong the useful lives of assets are capitalized. Buildings, equipment, and improvements are stated at cost less accumulated depreciation. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets. Depreciation expense related to assets used solely by an individual program is charged directly to the related program. Depreciation expense for assets used by more than one program is charged to the program based upon a square footage or other similar allocation. Depreciation expense related to administrative assets is included in the indirect cost pool and charged to the programs in accordance with the indirect cost plan. Maintenance and repairs are charged to expense as incurred.

Estimated useful lives are as follows:

Buildings and Improvements	20 to 40 years
Vehicles	5 to 8.5 years
Furniture and Equipment	5 to 15 years

Client Rents and HUD Rent Subsidy

Cornerstone Housing North, Inc.'s rents are approved on an annual basis by the Department of Housing and Urban Development. Rental increases are prohibited without such approval. The clients are charged rent equal to 30% of their income less adjustments allowed by the Department of Housing and Urban Development. Rent subsidies are received from the Department of Housing and Urban Development for the difference between the allowed rents and the amounts received from the clients.

Refundable Advances

Grants received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services or expenditures are performed or incurred. Funds received in advance of grantor conditions being met aggregated \$191,343 as of June 30, 2015.

Nonprofit tax status

The Organization is a *not-for-profit* Section 501(c)(3) organization of the Internal Revenue Code. It has been classified as an Organization that is not a private foundation under the Internal Revenue Code and qualifies for a charitable contribution deduction for individual donors. The Organization files information returns in the United States. The Organization is no longer subject to examinations by tax authorities for years prior to 2011.

The Organization follows FASB ASC, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. The Organization does not believe they have taken uncertain tax positions, therefore, a liability for income taxes associated with uncertain tax positions has not been recognized.

The Organization's Federal Form 990 (Return of Organization Exempt from Income Tax), is subject to examination by the IRS, generally for three years after it is filed.

Cornerstone Housing North, Inc. is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Internal Revenue Service has determined the Organization to be other than a private foundation within the meaning of Section 509(a).

Retirement plan

The Organization maintains a tax sheltered annuity plan under the provisions of Section 403(b) of the Internal Revenue Code. All employees are eligible to contribute to the plan beginning on the date they are employed. Each employee may elect salary reduction agreement contributions in accordance with limits allowed in the Internal Revenue Code. Employer contributions are at the Organization's annual discretion. In January 2013, payments had ceased, therefore as of June 30, 2015, there were no discretionary contributions recorded. Further information can be obtained from the Organization's 403(b) audited financial statements.

Donated services and goods

Contributed noncash assets are recorded at fair value at the date of donation. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support. In the absence of such stipulations, contributions of noncash assets are recorded as unrestricted support.

Donated property and equipment

Donations of property and equipment are recorded as support at their estimated fair value at the date of donation. Such donations are reported as unrestricted support unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Promises to Give

Conditional promises to give are not recognized in the financial statements until the conditions are substantially met. Unconditional promises to give that are expected to be collected within one year are recorded at the net realizable value. Unconditional promises to give that are expected to be collected in more than one year are recorded at fair value, which is measured as the present value of their future cash flows. The discounts on those amounts are computed using risk-adjusted interest rates applicable to the years in which the promises are received. Amortization of the discounts is included in the contribution revenue. In the absence of donor stipulations to the contrary, promises with payments due in future periods are restricted to use after the due date. Promises that remain uncollected more than one year after their due dates are written off unless the donors indicate that payment is merely postponed. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

As of June 30, 2015, there were promises to give that were absent of donor stipulations and therefore classified as temporarily restricted in the amount of \$247,754. This amount was included in the grants and contracts on the Consolidated Statement of Activities.

Use of estimates

The presentation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Fair Value of Financial Instruments

Accounting Standards Codification No. 825 (ASC 825), *Disclosures of Fair Value of Financial Instruments*, requires the Organization to disclose fair values of its financial instruments. The carrying amount of the Organization's financial instruments which consists of cash, accounts receivable, deposits and accounts payable, approximate fair value because of the short term maturity of those instruments.

Functional allocation of expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the program services and supporting activities benefited.

Program salaries and related expenses are allocated to the various program and supporting services based on actual or estimated time employees spend on each function as reported on a timesheet.

Workers Compensation expenses are charged to each program based upon the classification of the each employee and allocated to the various program based upon the time employees spend on each function as noted above.

Paid Leave is charged to a leave pool and is allocated to each program as a percentage of total salaries.

Fringe Benefits are charged to a Fringe Benefit Pool. These expenses include employer payroll taxes, pension expenses, health and dental insurance and unemployment compensation. The pool is allocated to each program based upon a percentage of salaries.

Depreciation expense is allocated to each program based upon specific assets used by the program and is reported as depreciation expense on the supplemental statements of functional expenses.

Other Occupancy expense: expenses are applicable to assets which are used by multiple programs, primarily buildings are charged to the benefiting program based upon an analysis of square footage. Costs related to a building include depreciation, insurance, utilities, building maintenance, etc. These costs are reported as space costs on the supplemental statements of functional expenses.

Insurance: automobile insurance is allocated to programs based on vehicle usage; building liability insurance is allocated to programs based on square footage of the buildings; and insurance for furniture and equipment is allocated to programs using the book basis of the insured assets.

The remaining shared expenses are charged to an Indirect Cost Pool and are allocated to each program based upon a percentage of program expenses. The expenses include items such as administrative salaries, general liability insurance, administrative travel, professional fees and other expenses which cannot be specifically identified and charged to a program.

The Organization submits an indirect cost rate proposal for the paid leave, fringe benefits and other indirect costs to the U.S. Department of Health and Human Services. The proposal effective for the fiscal year beginning July 1, 2013 received provisional approval and is effective until amended at a rate of 12.3%. Per an email with a representative from the U.S. Department of Health and Human Services, the Agency reduced the rate to 12.2% for the year ended June 30, 2015.

Advertising policy

The Organization uses advertising to inform the community about the programs it offers and the availability of services. Advertising is expensed as incurred. The total cost of advertising for the year ended June 30, 2015 was \$18,009.

NOTE 2. CASH AND CASH EQUIVALENTS

Management believes the Organization is not exposed to any significant credit risk on cash and cash equivalents and considers this a normal business risk.

The required balance in the account is \$52,497 and is restricted from withdrawal except to make payments of debt service or as approved by the US Department of Agriculture. Contributions of donated services that create or enhance non-financial assets or that require specialized skills and would typically need to be purchased if not provided by donation are recorded at their fair values in the period received.

The Organization records the value of in-kind contributions according to the accounting policy described in **Note 1**. The Head Start, Transportation and Elder Programs rely heavily on volunteers who donate their services to the Organization. These services are valued based upon the comparative market wage for similar paid positions. The Organization is also the beneficiary of a donation of in kind in the form of below market rent for some of the facilities utilized by the Head Start and Elder Programs. The value of the in-kind rent is recorded at the difference between the rental payment and the market rate for the property based upon a recent appraisal.

Many other individuals have donated significant amounts of time to the activities of the Organization. The financial statements do not reflect any value for these donated services since there is no reliable basis for making a reasonable determination.

NOTE 10. CONCENTRATION OF RISK

Tri-County Community Action Program, Inc. receives a large majority of its support from federal and state governments. For the year ended June 30, 2015, approximately \$12,900,000 (73%) of the Organization's total revenue was received from federal and state governments. If a significant reduction in the level of support were to occur, it would have a significant effect on the Organization's programs and activities.

Cornerstone Housing North, Inc. receives a large majority of its support from the U.S. Department of Housing and Urban Development. For the year ended June 30, 2015 approximately 69% of the Organizations total revenue was derived from the U.S. Department of Housing and Urban Development. In the absence of additional revenue sources, the future existence of Cornerstone Housing North, Inc. is dependent upon the funding policies of the U.S. Department of Housing and Urban Development.

The majority of Cornerstone Housing North, Inc.'s assets are apartment projects, for which operations are concentrated in the elderly person's real estate market. In addition, the Organization operates in a regulated environment. The operation of the Organization is subject to administrative directives, rules and regulations of federal, state and local regulatory agencies, including, but not limited to, HUD. Such administrative directives, rules and regulations are subject to change by an act of Congress or an administrative change mandated by HUD. Such changes may occur with little notice or inadequate funding to pay for the related cost, including the administrative burden, to comply with the change.

Environmental Contingencies

On March 30, 2009 the Organization's Board of Directors agreed to secure ownership of a 1.2-acre site located in Berlin, New Hampshire. There are 2 buildings on this site designated as the East Wing and West Wing Buildings which were formerly used as a research and development facility for the Berlin Mills Company. The exterior soil and interior parts of the East Wing Building contained contaminants which required environmental remediation. In a letter dated May 2, 2012, the State of New Hampshire Department of Environment Services (the Department) noted that the remedial actions for the exterior soils and parts of the East Wing Building had been completed to the Department's satisfaction.

In addition, the Department noted that the contaminants related to the West Wing Building did not pose an exposure hazard to site occupants, area residents, and the environment provided the West Wing Building is maintained to prevent further structural deterioration. If further deterioration occurs and contaminants are released into the environment, the Organization could be required to take additional action including containment and remediation.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors of
Tri-County Community Action Program, Inc.
Berlin, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Tri-County Community Action Program, Inc. (a nonprofit organization), which comprise the consolidated statement of financial position as of June 30, 2015, and the related consolidated statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated December 10, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered Tri-County Community Action Program Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of Tri-County Community Action Program Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of Tri-County Community Action Program Inc.'s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Tri-County Community Action Program Inc.'s consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of consolidated financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program

We have audited Tri-County Community Action Program Inc.'s compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Tri-County Community Action Program Inc.'s major federal programs for the year ended June 30, 2015. Tri-County Community Action Program Inc.'s major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Tri-County Community Action Program Inc.'s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Tri-County Community Action Program Inc.'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Tri-County Community Action Program Inc.'s compliance.

Opinion on Each Major Federal Program

In our opinion, Tri-County Community Action Program, Inc. complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of Tri-County Community Action Program, Inc. is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Tri-County Community Action Program Inc.'s internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Tri-County Community Action Program, Inc.'s internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

TRI-COUNTY COMMUNITY ACTION PROGRAM, INC.

SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS

FOR THE YEAR ENDED JUNE 30, 2014

Financial Statement Audit

FS-2014-001

Condition: The Organization records their monthly receivables based on the invoicing done by the Program Directors. The non-contract billings are recorded as miscellaneous receivables for the year-end balance. Management reviews subsequent cash receipts to capture any payments that may have been overlooked by a Program Director when completing their reports for year end.

A system needs to be developed to ensure that all financial information, including the receivable balances and estimates for allowance for doubtful accounts, is captured and reported in the financial statements.

Recommendation: The Organization should design and implement policies and procedures for the recording, reporting and collection of all receivables.

Prior Year Management Response: Management agrees with this finding. Due to the structure of the Organization, billing needs to be initiated by the program departments after reviewing their monthly results from their records and the Organization's accounting system. The Finance Department reviews the revenue and expense reports to review for flags (such as budget variances) that indicate possible unbilled items due to an unexpected revenue and expense imbalance. Monthly inquiries are made of Department Directors to ask about potential unbilled items. Written procedures will be created for Directors and/or their designees to follow to help prevent missed billings, receivable adjustments, and/or the accrual of as yet unbilled but earned receivables.

Current Status: During our testing, we noted that there were proper policies and procedures in place for the recording, reporting and collection of all receivables. Corrected.

FS-2014-002

Condition: The Organization failed to comply with the requirements to report net assets as unrestricted, temporarily restricted, and permanently restricted.

The Organization needs to have a process in place to identify restrictions on grants and donations, as well as monies received from Federal funds.

Recommendation: The Organization needs to develop a policy to properly record the donations and grants to the appropriate net asset classification.

Prior Year Management Response: Management agrees with this finding. The predecessor auditor and former fiscal management had discussions related to the treatment of the net asset section. The Organization decided to seek and utilize the guidance of the predecessor auditor. Before this finding current management was reviewing and questioning the prior recommended net asset classifications. After review of documentation and consulting with the current auditors, the current management concurs that net assets need to be classified differently and that specific written instructions are required to insure proper classification in the future. Subsequent to June 30, 2014, management analyzed the net asset balances and posted adjustments to properly classify net assets by restriction at June 30 2014.

Current Status: Corrected.

FS-2014-003

Condition: The Organization failed to design and implement procedures to control and monitor the use of a certain bank account and the proper recording of another account.

Controls over the bank accounts must be designed and implemented to prevent, or detect and correct, errors including misappropriations. A lack of internal control procedures over the Organization's bank accounts, noted above, and the reconciliation of those accounts.

One bank account was not properly recorded in the Organization's general ledger, resulting in an adjustment to the trial balance. Another bank account was reported on a cash basis, rather than an accrual basis, and had to be adjusted accordingly.

Recommendation: Management should further improve controls over the bank accounts in order to ensure that they are being reported properly.

Prior Year Management Response: Management agrees with this finding. Although immaterial to the financial statements in this instance, Management agrees that all bank accounts need to be recorded and reconciled properly due to the responsibility related to the custody of these cash assets. The Organization has corrected the issue related to both referenced accounts above and is performing further research to ensure no other such accounts have been omitted.

Current Status: Corrected.

EXPLANATION

The Department is requesting these Amendments be approved **retroactive** to June 1, 2016. The Department evaluated the Contractors' requests for rate increases and agreed to same in late March, 2016. While in the process of distributing contract amendments to the vendors, the Department was approached in early May 2016 with a request to redistribute funding for congregate and home delivered meals within and between Contractors. The Department agreed to these changes as well. Making these amendments effective retroactive to June 1, 2016 will allow the Contractors' access to already encumbered State Fiscal Year 2016 funds dedicated to these services.

Approval of these fourteen (14) amendments will allow the Contractors to be reimbursed for services at a rate structure that is better aligned with the Contractors' costs of providing these services. The attached Amendments increase the transportation per client per day rate from \$8.75 to \$9.32 and increase the per mile rate component for transportation and home delivered meals from .30 cents to .54 cents. It is projected that the increase in rates will support the additional costs of serving more rural clients and will ensure that clients are able to receive needed services such as transportation to appointments and essential shopping.

Approval of these amendments will also allow the Contractors to provide services where there is more client demand for meals through redistribution of funding within and between the Contractors. When these contracts were originally approved by the Governor and Executive Council on June 18, 2014 (Item #109) and amended on June 10, 2015 (Item #21), funding was based on the Contractors' point in time projections for clients' needs and demands for services. Since the recipients of these services are older adults and adults with physical disabilities, it is not uncommon for this population to experience changes over the course of time that would necessitate service delivery changes.

The Contractors will monitor transportation, meals and mileage usage along with expenses in order to ensure the services continue to be available through the end of the contract period. The Contractors will conduct client surveys on the quality of the services to ensure services are being delivered satisfactory or better. Additionally, Contractors will be collecting and reporting data on the number of clients served the number and types of meals provided, and the numbers of trips and types of transportation provided, in order for the Department to understand the gaps in service delivery and to be able to have more meaningful discussions about these important services.

Should the Governor and Executive Council not authorize these agreements, the Contractors may not be able to serve the all of the clients who need transportation and home delivered meals. The purpose of these nutrition and transportation contracts is to provide direct services to clients to support their health, independence and ability to remain in their homes and communities. Nutrition and transportation are two major services that support older adults and adults with disabilities who cannot meet their basic needs, for meals and transportation, without help. Services are provided to individuals who have very low incomes and are just above Medicaid eligibility who also demonstrate a need for the service. These services are targeted toward individuals who do not have any other resources available to support them in meeting these two basic needs.

These contractors were selected through a competitive bid process (See Attachment B).

Geographic area to be served is specific per contract. See Summary of Services and Geographic Area (Attachment C).

Dear Attorney Yaple,

Please review the attached contract between the Department of Health and Human Services and Tri-County Community Action Program, Inc., (Vendor #177195 – B009), 30 Exchange Street, Berlin, NH, 03570. The Agreement has been signed by the Department's Associate Commissioner and an authorized signor for the Vendor. The vendor provides nutrition and transportation services in Coos County. The Contractor requested a transfer of funds between the respective budget lines for transportation units and miles in order to better address client needs. The Department supports this transfer of State Fiscal Year 2016 funds. The Governor and Executive Council approved the original agreement on June 18, 2014 (item #109) and an Amendment on June 10, 2015 (Item #21) and Attorney General approved an Amendment on (June 23, 2015). There are no additional funds being requested in this amendment. This Amendment #3 will be effective upon the date of Attorney General approval. The source of funds are 60% Federal and 40% General Funds.

The following language is included in Exhibit B Amendmnet #1, paragraph 7 of the contract agreement:

7. Notwithstanding paragraph 18 of the General Provisions (Form P-37), an amendment limited to the terms of Exhibit B-1, B-2, B-3 and B-4 to transfer the amount of units from one service to another can be made by written agreement of both parties and may be made without obtaining approval of Governor and Executive Council.

I am asking that you review and sign off on this contract amendment as it does not need further action by the Governor and Executive Council.

The remainder of this letter is presented in the format typical of most Governor and Executive Council letters, so that you might have some context for your review.

EXPLANATION

Tri-County Community Action Program, Inc., has requested the transfer of funds described above in order to realign the budget to provide additional funding for transporations miles.

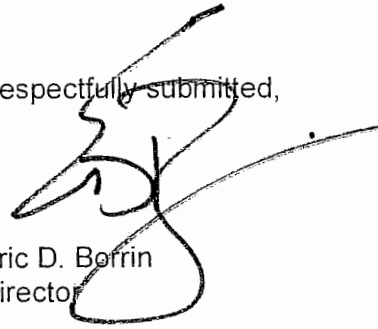

This transfer request is to change 300 of the agency's per client trips provided in Carroll County into miles. The agency is more rapidly depleting its allotted miles due to the more rural distances traveled. The transfer will enable the provision of an additional 8750 miles. The Contractor expects the transfer will provide enough transportation miles to support the overall client usage for the remainder of the state fiscal year.

Area Served: Coos and Carroll County.

Source of Funds: 55% Federal Funds from the Social Services Block Catalog of Federal Domestic Assistance (CFDA) # 93.667 Grant and Administration for Community Living's Special Programs for the Aging-Title III, CFDA #s 93.044 and 93.045 and 45% General Funds.

Respectfully submitted,

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION
AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

New Hampshire Department of Health and Human Services
Exhibit F

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
 - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (11)(b) of this certification; and
 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

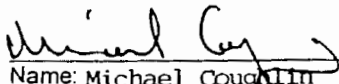

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
 - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

FINANCIAL STATEMENTS

June 30, 2015 and 2014

With Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

Board of Directors
VNA at HCS, Inc.

We have audited the accompanying financial statements of VNA at HCS, Inc., which comprise the balance sheet as of June 30, 2015, and the related statements of operations, changes in net assets, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of VNA at HCS, Inc. as of June 30, 2015, and the results of its operations, changes in its net assets and its cash flows for the year then ended, in accordance with U.S. generally accepted accounting principles.

Prior Period Financial Statements

1. **Summary of Significant Accounting Policies**

Organization

VNA at HCS, Inc. (the Association), is a non-stock, non-profit corporation in New Hampshire whose primary purpose is to provide home health care and hospice services to residents residing in the City of Keene and surrounding communities. The sole member of the Association is Home Healthcare, Hospice and Community Services, Inc.

Home Healthcare, Hospice and Community Services, Inc. is a non-stock, non-profit corporation in New Hampshire whose primary purposes are to act as a holding company and provide management services to VNA at HCS, Inc.

Basis of Presentation

Net assets and revenues, expenses, gains, and losses are classified as follows based on the existence or absence of donor-imposed restrictions in accordance with the provisions of Financial Accounting Standards Board Accounting Standards Codification Topic 958, *Not-for-Profit Entities*:

Unrestricted net assets - Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted net assets - Net assets subject to donor-imposed stipulations that may or will be met by actions of the Association and/or the passage of time. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Absent explicit donor stipulations about how long-lived assets must be maintained, the Association reports expirations of donor restrictions when the asset is placed in service.

Permanently restricted net assets - Net assets subject to donor imposed stipulations that they be maintained permanently by the Association. Generally, the donors of these assets permit the Association to use all or part of the income earned on related investments for general or specific purposes.

Income Taxes

The Association is a public charity under Section 501(c)(3) of the Internal Revenue Code. As a public charity, the Association is exempt from state and federal income taxes on income earned in accordance with its tax exempt purpose. Unrelated business income is subject to state and federal income tax. Management has evaluated the Association's tax positions and concluded that the Association has no unrelated business income or uncertain tax positions that require adjustment to the financial statements.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with an original maturity of three months or less, excluding assets limited as to use.

The Association has cash deposits in a major financial institution which may exceed federal depository insurance limits. The Association has not experienced any losses in such accounts. Management believes it is not exposed to any significant risk with respect to these accounts.

Allowance for Uncollectible Accounts

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible accounts by analyzing its past history and identifies trends for all funding sources in the aggregate. In addition, balances in excess of 365 days are fully reserved. Management regularly reviews data about revenue in evaluating the sufficiency of the allowance for doubtful accounts. Amounts not collected after all reasonable collection efforts have been exhausted are applied against the allowance for uncollectible accounts.

A reconciliation of the allowance for uncollectible accounts follows:

	<u>2015</u>	<u>2014</u>
Balance, beginning of year	\$ 357,315	\$ 320,768
Provision	564,481	287,740
Write-offs	<u>(589,652)</u>	<u>(251,193)</u>
Balance, end of year	<u>\$ 332,144</u>	<u>\$ 357,315</u>

The increase in the current year provision is primarily due to Medicare billing inquiries, a home health industry wide issue.

Assets Limited as to Use

Assets limited as to use includes designated assets set aside by the Board of Directors and donor restricted contributions.

VNA AT HCS, INC.

Notes to Financial Statements

June 30, 2015 and 2014

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation. Maintenance repairs and minor renewals are expensed as incurred and renewals and betterments are capitalized. Provision for depreciation is computed using the straight-line method over the useful lives of the related assets.

Patient Service Revenue

Providers of home health services to clients eligible for Medicare home health benefits are paid on a prospective basis, with no retrospective settlement. The prospective payment is based on the scoring attributed to the acuity level of the client at a rate determined by federal guidelines.

Providers of hospice services to clients eligible for Medicare hospice benefits are paid on a fee-for-service basis, with no retrospective settlement, provided the Association's aggregate annual Medicare reimbursement is below a predetermined aggregate capitated rate. Revenue is recognized as the services are performed based on the fixed rate amount.

Standard charges for services to all patients are recorded as revenue when services are rendered at the net realizable amounts from patients, third-party payers and others, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and in future periods as final settlements are determined. Patients unable to pay full charge, who do not have other third party resources, are charged a reduced amount based on the Association's published sliding fee scale. Reductions in full charge are recognized when the service is rendered.

Contributions

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received, which is then treated as cost. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statement of operations as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in the same year as received are reflected as unrestricted contributions in the accompanying financial statements.

Cost Allocations

The Association operates several related programs. Costs directly attributable to a program are charged to the respective program services. Management and general costs of the Association have been allocated between the programs on the basis of actual direct program costs.

VNA AT HCS, INC.

Notes to Financial Statements

June 30, 2015 and 2014

(Deficit) Excess Revenue Over Expenses

The statements of operations reflect the (deficit) excess of revenue over expenses. Changes in unrestricted net assets which are excluded from the (deficit) excess of revenue over expenses, consistent with industry practice, are contributions of long-lived assets (including assets acquired using contributions which, by donor restriction were to be used for the purposes of acquiring such assets).

2. Property and Equipment

Property and equipment is as follows:

	<u>2015</u>	<u>2014</u>
Furniture, fixtures, and equipment	\$ 1,602,366	\$ 1,527,057
Less accumulated depreciation	<u>1,345,928</u>	<u>1,171,745</u>
Total property and equipment, net	<u>\$ 256,438</u>	<u>\$ 355,312</u>

3. Temporarily and Permanently Restricted Net Assets

Temporarily and permanently restricted net assets are as follows:

	<u>2015</u>	<u>2014</u>
Temporarily restricted		
Meal sites	\$ 2,777	\$ 3,137
Respite	4,089	6,629
Shea charitable gifts	<u>-</u>	<u>16,690</u>
Total	<u>\$ 6,866</u>	<u>\$ 26,456</u>
Permanently restricted		
Hospice	\$ 10,000	\$ 10,000
Operations	<u>8,623</u>	<u>8,658</u>
Total	<u>\$ 18,623</u>	<u>\$ 18,658</u>

In 2015 the Association reviewed historical data relating to permanently restricted net assets and reclassified certain gifts to temporarily restricted net assets based upon interpretation of the initial donor intent.

VNA AT HCS, INC.

Notes to Financial Statements

June 30, 2015 and 2014

4. Patient Service Revenue

Patient service revenue is as follows:

	<u>2015</u>	<u>2014</u>
Medicare	\$ 9,881,992	\$10,452,131
Medicaid	1,111,787	1,221,733
Other third-party payers	1,859,583	1,862,515
Municipalities - fee for service	184,362	149,068
Private pay	<u>1,634,788</u>	<u>1,691,759</u>
Total	<u>\$14,672,512</u>	<u>\$15,377,206</u>

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. The Association believes that it is in substantial compliance with all applicable laws and regulations. However, there is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in net patient service revenue in the year that such amounts become known.

The Association provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Association does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

The Association provided services in other health-related activities, primarily to indigent patients, at rates substantially below cost. For certain activities, services were provided without charge. The Association estimates the costs associated with providing the other health-related activities by applying Medicare cost report methodology to determine program costs less any net patient revenue generated by the program. The estimated costs incurred in these activities amounted to \$2,879,336 and \$2,704,549 for the years June 30, 2015 and 2014, respectively.

The Association is able to provide these services with a component of funds received through local community support and federal and state grants. Local community support consists of contributions received directly from the public, United Way, municipal appropriations, and investment income earned from assets limited as to use. Federal and state grants consisted of monies received from the State of New Hampshire.

Notes to Financial Statements

June 30, 2015 and 2014

Deferred Revenue

Deferred revenue represents advances on episodic payments that have not yet been earned. Revenue is recognized over the period in which treatment is provided (60 days) on a straight-line basis.

5. Functional Expenses

The Association provides various services to residents within its geographic location. Expenses related to providing these services are as follows:

	<u>2015</u>	<u>2014</u>
Program services	\$15,287,565	\$15,525,389
Administrative and general	<u>3,054,725</u>	<u>3,045,680</u>
Total	<u>\$18,342,290</u>	<u>\$18,571,069</u>

6. Malpractice Insurance

The Association insures its malpractice risks on a claims-made basis. There were no known malpractice claims outstanding at June 30, 2015 and 2014, nor are there any unasserted claims or incidents which require loss accrual. The Association intends to renew coverage on a claims-made basis and anticipates that such coverage will be available.

7. Retirement Plan

The Association sponsors a defined contribution plan. The retirement contributions by the Association amounted to \$119,444 and \$112,136 for 2015 and 2014, respectively.

8. Related Party Transactions

The Association purchased management services from Home Healthcare, Hospice & Community Services, Inc. amounting to \$3,054,725 and \$3,045,680 and \$219,444 and \$73,043 in contract services for the years ended 2015 and 2014, respectively. The amounts due from Home Healthcare, Hospice & Community Services, Inc. for these services was \$ 4,355,625 in 2015 and 4,918,954 in 2014.

9. Concentration of Risk

The Association grants credit without collateral to its patients, most of who are local residents and are insured under third-party payer agreements. At June 30, 2015, Medicare and Medicaid represented 51% and 10% of gross accounts receivable, respectively. No other individual payor source exceeded 10% of the gross receivable balance.

EXPLANATION

The Department is requesting these Amendments be approved **retroactive** to June 1, 2016. The Department evaluated the Contractors' requests for rate increases and agreed to same in late March, 2016. While in the process of distributing contract amendments to the vendors, the Department was approached in early May 2016 with a request to redistribute funding for congregate and home delivered meals within and between Contractors. The Department agreed to these changes as well. Making these amendments effective retroactive to June 1, 2016 will allow the Contractors' access to already encumbered State Fiscal Year 2016 funds dedicated to these services.

Approval of these fourteen (14) amendments will allow the Contractors to be reimbursed for services at a rate structure that is better aligned with the Contractors' costs of providing these services. The attached Amendments increase the transportation per client per day rate from \$8.75 to \$9.32 and increase the per mile rate component for transportation and home delivered meals from .30 cents to .54 cents. It is projected that the increase in rates will support the additional costs of serving more rural clients and will ensure that clients are able to receive needed services such as transportation to appointments and essential shopping.

Approval of these amendments will also allow the Contractors to provide services where there is more client demand for meals through redistribution of funding within and between the Contractors. When these contracts were originally approved by the Governor and Executive Council on June 18, 2014 (Item #109) and amended on June 10, 2015 (Item #21), funding was based on the Contractors' point in time projections for clients' needs and demands for services. Since the recipients of these services are older adults and adults with physical disabilities, it is not uncommon for this population to experience changes over the course of time that would necessitate service delivery changes.

The Contractors will monitor transportation, meals and mileage usage along with expenses in order to ensure the services continue to be available through the end of the contract period. The Contractors will conduct client surveys on the quality of the services to ensure services are being delivered satisfactory or better. Additionally, Contractors will be collecting and reporting data on the number of clients served the number and types of meals provided, and the numbers of trips and types of transportation provided, in order for the Department to understand the gaps in service delivery and to be able to have more meaningful discussions about these important services.

Should the Governor and Executive Council not authorize these agreements, the Contractors may not be able to serve the all of the clients who need transportation and home delivered meals. The purpose of these nutrition and transportation contracts is to provide direct services to clients to support their health, independence and ability to remain in their homes and communities. Nutrition and transportation are two major services that support older adults and adults with disabilities who cannot meet their basic needs, for meals and transportation, without help. Services are provided to individuals who have very low incomes and are just above Medicaid eligibility who also demonstrate a need for the service. These services are targeted toward individuals who do not have any other resources available to support them in meeting these two basic needs.

These contractors were selected through a competitive bid process (See Attachment B).

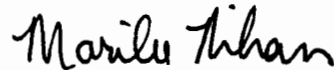

Geographic area to be served is specific per contract. See Summary of Services and Geographic Area (Attachment C).

EXPLANATION

This requested action seeks approval to amend 14 agreements by exercising fifteen (15) months of a renewal option for the continuation of nutrition and transportation services statewide. Nutrition and transportation services will be provided to seniors and disabled persons who are not eligible for Medicaid. Governor and Executive Council approved these original agreements on June 18, 2014 (Item #109).

The purpose of these contracts is to provide direct services to clients that support their health, independence and ability to remain in their homes and communities. The contractors will conduct clients' surveys on the quality of the services to ensure services are being delivered satisfactory or better. Additionally, contractors will be collecting and reporting data on the number of clients, the number of meals, and the number and type of transportation for the Department to understand the gaps in service delivery and to be able to have more meaningful discussions about these two important services.

Should the Governor and Executive Council not authorize these agreements, the nutrition and transportation services provided to low income, elderly and/or disabled clients will be reduced, or eliminated, to a level that could jeopardize their ability to remain in their home and likely create need for more costly long-term care services in traditional nursing homes or community based care programs. These direct care social services allow the elderly and disabled adults to secure and maintain independence, health, and quality of life while keeping individuals in their home and community.

These contractors were selected through a competitive bid process.

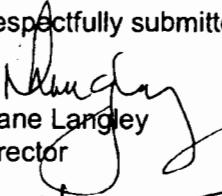

Geographic area to be served is specific per contract. See Summary of Services and Geographic Area (Attachment A).

- 2) Authorize the Department of Health and Human Services, Division of Community Based Care Services, Bureau of Elderly and Adult Services, to amend an existing Agreement with VNA at HCS, Inc., 312 Marlboro Street, Keene NH (Vendor #177274) to provide Home Delivered and Congregate Meals and Transportation Services by modifying the geographic area served with no change to the total price limitation of \$650,886.80, effective upon the date of Governor and Executive Council approval through June 30, 2015. The Governor and Executive Council approved the original contract on June 18, 2014 (Item #109).

EXPLANATION

The requested actions seek approval to modify the geographic areas to be served by adding Francestown for In Home Care and In Home Health Aide Level of Care services and adding the towns of Jaffrey and Nelson for Home Delivered Meals. These three towns were inadvertently omitted by the Contractor when they identified the list of cities and towns in which they provided these services.

The Department of Health and Human Services posted a Request for Applications for In Home Care, In Home Health Aide Level of Care, and In Home Nursing Level of Care Services on the Department's website from April 22, 2014 to May 8, 2014. VNA at HCS was one of fifteen vendors awarded a contract to provide these services. Additionally, a Request for Proposals for Nutrition and Transportation services was posted on the Department's website from November 22, 2013 through February 20, 2014. VNA at HCS was one of fourteen vendors awarded a contract to provide these services.

Should Governor and Executive Council determine not to approve this request; elderly and disabled adults may have less access to these services.

EXPLANATION

This requested action seeks approval of 14 of 14 agreements that represent \$9,984,063.25 for transportation and meals provided to seniors who are not eligible for Medicaid. All selected vendors had contracts with the Department in State Fiscal Year 2014 and funding is relatively flat, from both State General Funds and federal source. The Department has included language in the contracts to allow for amendments limited to the terms of Exhibits B-1, B-2, and B-3 to transfer the amount of units from one service to another and within the price limitation, to be made by written agreement of both parties without obtaining approval of Governor and Executive Council.

Should the Governor and Executive Council not authorize these agreements, the nutrition and transportation services provided to low income, elderly and/or disabled clients will be reduced, or eliminated, to a level that could jeopardize their ability to remain in their home and would likely need more costly long-term care services in traditional nursing homes or community based care programs. These direct care social services allow the elderly and disabled adults to secure and maintain independence, health, and quality of life while keeping individuals in their home and community.

These contractors were selected through a competitive bid process. The Department issued a Request for Proposal published on the Department's website November 22, 2013, and notified potential bidders. The Department received fifteen (15) proposals. The evaluation committee recommended awarding agreements to fourteen (14) Contractors. See Bid Summary (Attachment A).

The proposals were evaluated and scored using a consensus model. Three Department staff evaluated the proposals on its technical merits consistent with the criteria for evaluation of Technical Proposal as specified in the Request for Proposals. These staffs' experiences included administration of a Food Protection Section within the Division of Public Health Services, registered dietitian, management of administrative rules and policy development for the Bureau of Elderly and Adult Services, consultant with the NH Department of Education's Bureau of Nutrition Programs and Services, and adult protective social work for the Bureau of Elderly and Adult Services. Two Department staff, with over twenty years' experience in auditing and finance, evaluated the proposal's cost bid. See Bid Summary (Attachment A).

The contracts include an option to extend the completion date for up to two years to be exercised by mutual agreement by the parties, upon availability of funding, acceptable performance of the Statement of Work, and subsequent approval by the Governor and Executive Council.

The purpose of these contracts is to provide direct services to clients that support their health, independence and ability to remain in their homes and communities. The contractors will conduct clients' surveys on the quality of the services to ensure services are being delivered satisfactory or better. Additionally, contractors will be collecting and reporting data on the number of clients, the number of meals, and the number and type of transportation for the Department to understand the gaps in service delivery and to be able to have more meaningful discussions about these two important services.

Geographic area to be served is specific per contract. See Summary of Services and Geographic Area (Attachment B).

Source of Funds for these contracts: 60% Federal Funds from the Social Services Block Grant and Administration for Community Living's Special Programs for the Aging-Title III and 40% General Funds.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.
