REQUESTED ACTION

Authorize the Department of Transportation to enter into agreements totaling \$987,448 with the following sub-recipients to provide funding and services under the Transportation Enhancement (TE) Program through a local project administration process, effective upon Governor and Council approval, through June 30, 2015. 100% Federal Funds.

Funding is available as follows:

Table with 5 columns: Sub-recipient, Vendor #, FY 2014, FY 2015, Total \$. Rows include Town of Stratham (27771) and City of Keene (27790).

Summary table with 4 columns: Description, FY2014, FY2015, Total \$. Rows include Municipal Aid - Federal and 072-500574 Grants to Local Gov't - Federal.

EXPLANATION

These agreements are between the State and the sub-recipients to delineate responsibilities for providing services necessary to plan, layout, design, acquire right-of-way, contract for construction, and/or provide oversight supervision for the Federal Aid program projects approved as part of the State Transportation Improvement Program.

The Transportation Enhancement program was established under the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA). The Transportation Enhancement Program provides up to 80% federal funding reimbursement to project applicants. Projects can include: facilities for bicyclists and pedestrians, safety and educational activities for bicyclists and pedestrians, acquisition of scenic easements and scenic or historic sites, scenic or historic highway programs (including the provision of tourist and welcome center facilities), landscaping and other scenic beautification, historic preservation, rehabilitation and operation of historic

transportation buildings, structures or facilities (including historic railroad facilities and canals), preservation of abandoned railroad corridors (including the conversion and use thereof for pedestrian or bicycle trails), control and reduce water pollution due to highway runoff or reduce vehicle-caused wildlife mortality while maintaining habitat connectivity, and the establishment of transportation museums.

New Hampshire has been allocated approximately \$3.4 million per year since the program began for funding of Transportation Enhancement eligible projects.

The Department has approved these project awards using a competitive application process. Project applicants were required to submit a letter of interest in advance of the project application. All applicants that submitted a letter of interest were required to attend mandatory training that explained the application process and requirements of managing a federally funded project. Applications were submitted to both the New Hampshire Department of Transportation (NHDOT) and the Regional Planning Commissions. Each Regional Planning Commission scored the applications for their region. Rankings from all nine regional planning commissions were then transmitted to NHDOT. The Department scored all the projects using published criteria that added additional points for the top three projects from each planning commission. These scores created a ranking that was given to the Transportation Enhancement Advisory Committee, which is the designated body that scores and recommends projects to the Commissioner of NHDOT for funding. An advisory board chaired by an Executive Councilor and representatives from the Department of Transportation, Department of Resource and Economic Development, Department of Historical Resources, Senate Designee, House Designee, Governor's Designee, Municipal Association Designee, and a Regional Planning Commission Designee approved these project awards. This recommended list of projects was submitted to the Commissioner of the DOT and he approved the submitted list.

The Town of Stratham proposes the design, construction and completion of bicycle and pedestrian improvements in the Village District. Improvements will include addition of sidewalks, vertical granite curbing, solar light fixtures, bike lane striping, bike racks, bus stop and shelter and a gravel path. The City of Keene proposes the design, construction and completion of an approximately 1200-foot section of multi-use path between School Street and Island Street. The proposed path will be 8 feet wide.

Authorization is requested to allow the Department to enter into these agreements with the sub-recipients to ensure compliance with Federal Aid program requirements and to permit State personnel to supervise this project and the Department to expend Federal funds.

Expenses incurred will be charged against the designated project account number and reimbursement for costs shall be borne by the Grants to Local Gov - Federal fund in the amount of \$987,448 in accordance with Federal Aid program requirements.

Your approval of this submission is respectfully requested.

Sincerely,

Handwritten signature in black ink, appearing to read "M D. WA".
