REQUESTED ACTION

Authorize the Department of Health and Human Services, Division of Public Health Services, to exercise a renewal option to an existing **sole source** agreement with JSI Research & Training Institute, Inc. (Vendor #161611-B001) 44 Farnsworth Street, Boston, MA 02210, for the provision of the operation and maintenance of the Family Planning Data System, by increasing the price limitation by \$15,000 from \$25,162 to \$40,162, and extending the contract completion date from February 29, 2016 to February 28, 2017, effective March 1, 2016. Governor and Executive Council approved the original agreement on September 3, 2014 (Item #18). 100% Federal Funding.

Funds to support this request are available in the following account in State Fiscal Year 2016, and anticipated to be available in State Fiscal Year 2017 upon the availability and continued appropriation of funds in the future operating budget, with the ability to adjust encumbrances between State Fiscal Years through the Budget Office, if needed and justified.

EXPLANATION

This is a **sole source** amendment because JSI Research and Training Institute, Inc. developed a Family Planning Data System customized to meet the specific federal Title X data requirements. DoIT is aware of the amendment. There has been no change to any IT component of the base contract as a result of the amendment.

The purpose of this amendment is to renew contract services for the provision of the operation and maintenance of the Family Planning Data System which has been utilized and funded directly by the US Department of Health and Human Services, Office of Population Affairs for Region I Grantees for the past 14 years. In 2013, the Office of Population Affairs shifted the financial responsibility for the data collection directly to the grantee states, requiring all grantees to plan for this cost in their budgets.

Grantees in the New England states collectively fund JSI Research & Training Institute in order to maintain the most cost effective and efficient means to continue to meet federal requirements.

JSI Research & Training Institute, Inc. provides project management, system maintenance, technical support, data analysis, system operations, customer service, and report generation. The reports generated are essential to monitoring of the Family Planning Contract utilization and used to create a federally required Title X Family Planning Annual Report. The Office of Population Affairs uses this report to inform future federal funding allocations.

The original contract contained the option to renew of up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council. The Department is satisfied with the services provided by JSI Research & Training Institute, Inc.

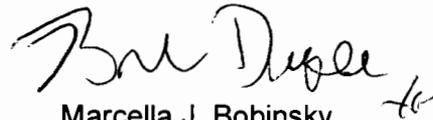

Should Governor and Executive Council not approve this request the New Hampshire Family Planning Program will not be in compliance with the Department of Health and Human Services' Office of Population Affairs, Title X Family Planning Program, which may affect future federal funding.

Area Served: Statewide

Source of Funds: 100% Federal Funds US Department of Health and Human Services, Office of Population Affairs, Title X Family Planning.

In the event that federal funds become no longer available, General Funds will not be requested to support this program.

Respectfully Submitted,

Marcella J. Bobinsky

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
 - 7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

- 7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

19. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
JSI Research and Training Institute, Inc. and Affiliate

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of JSI Research and Training Institute, Inc. and Affiliate (both non-profit organizations), which comprise the consolidated statement of financial position as of September 30, 2014, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk

assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of JSI Research and Training Institute, Inc. and Affiliate as of September 30, 2014, and the changes in their net assets and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole.

Report on Summarized Comparative Information

We have previously audited the JSI Research and Training Institute, Inc. and Affiliate consolidated financial statements, and we expressed an unmodified opinion on those audited financial statements in our report dated March 17, 2014. In our opinion, the summarized consolidated comparative information presented herein as of and for the year ended September 30, 2013 is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated February 12, 2015, on our consideration of JSI Research and Training Institute, Inc. and its affiliate's internal control over financial reporting and on our tests of their compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering JSI Research and Training Institute, Inc. and its affiliate's internal control over financial reporting and compliance.

NOTE 1 – ORGANIZATION AND NATURE OF ACTIVITIES

JSI Research and Training Institute, Inc. is the sole member of World Education, Inc. (Affiliate) with such powers as are typically accorded to a sole member including the power of appointment and removal of the World Education, Inc. board of trustees, the right to approve amendments to the bylaws and certificate of incorporation of World Education, Inc., and the right to approve any merger, consolidation, dissolution or transfer of substantial assets of World Education, Inc.

JSI Research and Training Institute, Inc. was incorporated in the Commonwealth of Massachusetts on April 11, 1979. JSI Research and Training Institute, Inc. provides education and research primarily to non-profit health and human service agencies both in the United States and abroad. Current funding is principally from the United States Agency for International Development and the United States Department of Health and Human Services (HHS).

World Education, Inc. (Affiliate) was founded in 1951 and incorporated in the state of New Jersey. Working in partnership with community, national, and international agencies in Asia, Africa, and the United States, it provides professional assistance in the design and implementation of non-formal adult education programs. These programs integrate functional education with relevant problem-solving aspects of individual growth and national development such as health, nutrition, family planning, childcare, refugee education, agricultural practices, literacy, and income generation.

JSI Research and Training Institute, Inc. and its affiliate are tax exempt organizations under 501 (c) (3) of the Internal Revenue Code and file separate unconsolidated tax returns.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of JSI Research and Training Institute, Inc. and World Education, Inc., its affiliate, (collectively referred to as the Organization). Significant intra-entity accounts and transactions have been eliminated in consolidation.

Basis of Accounting

The consolidated financial statements of the Organization have been prepared utilizing the accrual basis of accounting and include the accounts of JSI Research and Training Institute, Inc. and its affiliate in conformity with accounting principles generally accepted in the United States of America.

JSI Research and Training Institute, Inc. and Affiliate
NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Fair Value

The Organization values its qualifying assets and liabilities under a fair value hierarchy that prioritizes the inputs and assumptions used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and liabilities and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Organization uses appropriate valuation techniques based on the available inputs to measure the fair value of its assets and liabilities. When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Cash and Cash Equivalents

The Organization considers all monies in banks and highly liquid investments with maturity dates of three months or less to be cash equivalents. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments.

Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities (marketable investments) are measured at fair values based on quoted market prices in the consolidated statement of financial position. Unrealized gains and losses are included in the statement of activities.

Property and Equipment

Property and equipment is reported on the basis of cost less accumulated depreciation. Acquisitions of property and equipment in excess of \$1,500 are capitalized. Depreciation is computed using the straight-line method calculated to extinguish the book value of the respective assets over their estimated useful lives (5 - 7 years) of the related assets.

Revenue Recognition

Unrestricted and restricted contributions are recognized as revenue at the date the pledge is made or the gift is received, whichever is earlier. Revenue from cost reimbursement contracts and grants is recorded as the related expenditures are incurred.

JSI Research and Training Institute, Inc. and Affiliate

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. Contributions are reported as temporarily restricted support and are then reclassified to unrestricted net assets upon expiration of the time restriction. Temporarily restricted support, whose restrictions are met in the same reporting period, is shown as unrestricted support.

Donated Materials and Services

Donated materials and services are recorded as in kind project contributions at their estimated fair market value as of the date of receipt and as an expense in the accompanying consolidated statement of activities. Donated services are recognized if the services received create or enhance non-financial assets or require specialized skills that are provided by individuals possessing those skills and would typically need to be purchased if not provided by donation.

Income Taxes

The Organization is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and is not a private foundation as described in Section 509. Accordingly, no provision for income taxes is included in the accompanying consolidated financial statements.

The Organization has evaluated its tax positions and believes that there would be no material changes to the results of its operations or financial position as a result of an audit by the applicable taxing authorities, federal or state. The Organization has filed all of its known and required returns in a timely manner including as permitted allowed extensions. Following administrative practice of the taxing authorities, the tax years 2011, 2012 and 2013, remain open years subject to examination and review.

JSI Research and Training Institute, Inc. and World Education, Inc. (Affiliate) file separate unconsolidated tax returns. JSI Research and Training Institute, Inc. files tax returns based on a September 30th year end and its affiliate files tax returns based on a June 30th year end.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the consolidated statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Financial Statement Presentation

In accordance with accounting principles generally accepted in the United States of America, the Organization reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets based upon the existence or absence of donor imposed restrictions. For the

year ended September 30, 2014 there was no activity in temporarily restricted or permanently restricted net assets.

NOTE 3 – CONCENTRATION OF CREDIT RISK

The Organization maintains demand deposits and money market funds at financial institutions. At times, certain balances held in these accounts may not be fully guaranteed by the United States Government. The uninsured portions of cash and money market accounts are backed solely by the assets of the financial institution. Therefore, the failure of a financial institution could result in a financial loss to the Organization. However, the Organization has not experienced losses on these accounts in the past and management believes the risk of loss, if any, to be minimal.

NOTE 4 – INVESTMENTS

Fair Value

In accordance with accounting principles generally accepted in the United States of America, the Organization values its qualifying assets and liabilities under a fair value hierarchy that prioritizes the inputs and assumptions used to measure fair value. The three levels of the fair value hierarchy are as follows:

- Level 1 – Observable inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 – Inputs other than quoted prices in active markets that are observable for the asset either directly or indirectly, including inputs from markets that are not considered to be active.
- Level 3 – Unobservable inputs which reflect the Organization's assessment of the assumptions that market participants would use in pricing the asset or liability including assumptions about risk.

A qualifying asset or liability's level within the framework is based upon the lowest level of any input that is significant to the fair value measurement.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Directors
JSI Research and Training Institute, Inc. and Affiliate

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of JSI Research and Training Institute, Inc. and Affiliate ("Organization"), which comprise the consolidated statement of financial position as of September 30, 2014, and the related consolidated statements of activities, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated February 12, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered JSI Research and Training Institute, Inc. and its affiliate's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of JSI Research and Training Institute, Inc. and its affiliates' s internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Organization's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

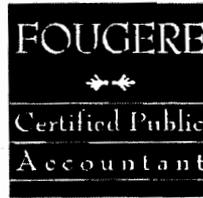

As part of obtaining reasonable assurance about whether JSI Research and Training Institute, Inc. and its affiliate's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

This purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE IN REQUIRED BY OMB CIRCULAR A-133**

To the Board of Directors
JSI Research and Training Institute, Inc. and Affiliate

Report on Compliance for Each Major Federal Program

We have audited JSI Research and Training Institute, Inc.'s compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of JSI Research and Training Institute, Inc.'s major federal programs for the year ended September 30, 2014. JSI Research and Training Institute, Inc.'s major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of JSI Research and Training Institute, Inc.'s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about JSI Research and Training Institute, Inc.'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of JSI Research and Training Institute, Inc.'s compliance.

Opinion on Each Major Federal Program

In our opinion, JSI Research and Training Institute, Inc. complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2014.

Report on Internal Control Over Compliance

Management of JSI Research and Training Institute, Inc. is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered JSI Research and Training Institute, Inc.'s internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of JSI Research and Training Institute, Inc.'s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

World Education, Inc. (Affiliate) maintains a different fiscal year (June 30) and has its own stand alone audit performed in accordance with the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. However, the

consolidated financial statements contain the combined activity of JSI Research and Training, Institute and World Education, Inc.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

The Department of Health and Human Services recommends a **sole source** agreement with JSI Research & Training Institute, Inc. because they developed a Family Planning Data System customized to meet the specific federal Title X data requirements. This Data System has been utilized and funded directly by the US Department of Health and Human Services, Office of Population Affairs for Region I Grantees for the past 13 years. In 2013, the Office of Population Affairs decided to shift the financial responsibility for the data collection directly to the grantee States, requiring all grantees to plan for this cost in their budgets. The Region I grantees decided to continue to collectively fund JSI Research & Training Institute for data collection in order to move forward with the most cost effective

and efficient means to continue to meet family planning contractual obligations. To procure a new vendor to provide a customized data system would be cost and time prohibitive.

The Data System provides ongoing operation of the Family Planning Data System that consists of project management, system availability and maintenance, technical support, data analysis, system operations, customer service, and report generation.

The Data System application provides important annual and quarterly data reports to the Family Planning Title X Program. Data collected for these reports consists of numbers of family planning users by age and gender; race and ethnicity; income levels; insurance coverage status; English proficiency; contraceptive method; cancer screening; STD/HIV screenings, and related data. On a monthly basis, Family Planning contract agencies submit family planning encounter records to JSI Research and Training Institute, Inc. for processing. These data reports are used by the federal Title X grantee to evaluate the Family Planning contract agencies utilization throughout the contract period. At the conclusion of each calendar year, JSI Research & Training Institute, Inc. initiates a process to create cumulative Family Planning Contract agency reports for all participating federal Title X grantees, as well as subset reports of the participating sites within each Family Planning contract agency region. Reports are created and validated, then distributed to federal Title X grantee report users. This data report is used to create a federally required Title X Family Planning Annual Report, which is submitted to the Office of Population Affairs. The Office of Population Affairs uses this report to inform future federal funding allocations.

Should Governor and Executive Council not authorize this request; the New Hampshire Title X Family Planning Program will be out of grant compliance with the Department of Health and Human Services' Office of Population Affairs, Title X Family Planning Program, which will put federal dollars at risk.

The Agreement has the option to extend for two (2) additional year(s), contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Council.

The following performance measures will be used to measure the effectiveness of the agreement.

- Assure the timely availability of Family Planning Data System application generated reports as well as their accuracy.
- Assure Family Planning Data System application technical support services will be available 7 AM to 7 PM, seven days a week to provide application and database maintenance, enhancement requests, and special requests.

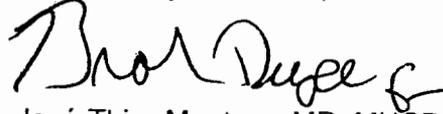

Area served: The State of New Hampshire, less the geographic areas of Cheshire and Rockingham Counties, and the towns of Lebanon and Claremont. Planned Parenthood of Northern New England is responsible to serve those areas and for submitting the data sets.

Source of Funds: 100% Federal Funds US Department of Health and Human Services, Office of Population Affairs, Title X Family Planning.

The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party fundors, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
 - 7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

- 7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. 12. **Completion of Services: Disallowance of Costs:** Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

13. **Credits:** All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:

Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

Further, Business Associate, including but not limited to all its directors, officers, employees and agents, shall not use, disclose, maintain or transmit PHI in any manner that would constitute a violation of the Privacy and Security Rule.
- b. Business Associate may use or disclose PHI:
 - I. For the proper management and administration of the Business Associate;
 - II. As required by law, pursuant to the terms set forth in paragraph d. below; or
 - III. For data aggregation purposes for the health care operations of Covered Entity.
- c. To the extent Business Associate is permitted under the Agreement to disclose PHI to a third party, Business Associate must obtain, prior to making any such disclosure, (i) reasonable assurances from the third party that such PHI will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party; and (ii) an agreement from such third party to notify Business Associate, in accordance with the HIPAA Privacy, Security, and Breach Notification Rules of any breaches of the confidentiality of the PHI, to the extent it has obtained knowledge of such breach.
- d. The Business Associate shall not, unless such disclosure is reasonably necessary to provide services under Exhibit A of the Agreement, disclose any PHI in response to a request for disclosure on the basis that it is required by law, without first notifying Covered Entity so that Covered Entity has an opportunity to object to the disclosure and to seek appropriate relief. If Covered Entity objects to such disclosure, the Business

Exhibit I

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

- e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) Obligations and Activities of Business Associate.

- a. The Business Associate shall notify the Covered Entity's Privacy Officer immediately after the Business Associate becomes aware of any use or disclosure of protected health information not provided for by the Agreement including breaches of unsecured protected health information and/or any security incident that may have an impact on the protected health information of the Covered Entity.

- b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:

- o The nature and extent of the protected health information involved, including the types of identifiers and the likelihood of re-identification;
- o The unauthorized person used the protected health information or to whom the disclosure was made;
- o Whether the protected health information was actually acquired or viewed
- o The extent to which the risk to the protected health information has been mitigated.

The Business Associate shall complete the risk assessment within 48 hours of the breach and immediately report the findings of the risk assessment in writing to the Covered Entity.

- d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

- e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (I). - f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.
- g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.

- j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.
- k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.
- b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.
- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.
- b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.
- c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.
- d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

Exhibit I

- e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.
