EXPLANATION

This request is **sole source** because Qualtrics is nationally recognized by the Association of Public Health Laboratories as the gold standard program for data collection and has been thoroughly vetted for cybersecurity by the State of NH Department of Information Technology.

The purpose of this request is to provide survey services in two specialized areas; Public Health Laboratories Biomonitoring and Health Care Workforce Data Collection.

The Contractor will provide survey software to the New Hampshire Expanded Biomonitoring Program for the collection of environmental chemical exposure and demographic information. The information collected using Qualtrics survey software will be used in conjunction with Departmental testing of specimens (i.e. blood and urine) in order to ascertain the level and potential source(s) of environmental chemical exposure(s) in NH. These chemicals include metals such as lead, arsenic, and uranium; pesticides, herbicides, and insecticides; per- and polyfluoroalkyl substances (PFAS); and cotinine (a marker for nicotine exposure) to name a few. This contract allows for the survey of a large number of participants in a timeframe that could not be met through individual meetings. The information obtained in the Expanded Biomonitoring Program is especially useful to evaluating public health policy, allocating resources, and addressing the chemical exposure risk factors encountered by New Hampshire residents.

Qualtrics services are proprietary. Qualtrics, LLC owns the survey software, which is the core component of the Health Professions Data Center (HPDC). The survey software allows the HPDC to collect provider data using customized, electronic surveys, which are implemented through the health professions licensing boards during license renewal cycles. Rural Health and Primary Care (RHPC) selected Qualtrics through a competitive bid process in 2014, being the only vendor that met business (programmatic/DoIT) requirements. HPDC has implemented surveys with multiple health professions licensing boards, several of which have ongoing renewals throughout the year. In order for the HPDC to continue operations and to avoid a lapse in data collection, it is imperative that a Qualtrics contract is established to continue workforce data collection for the current cycles (7/1/18-6/30-19). HB322 (Laws of 2017, Chapter 131; RSA 126-A:5, XVIII(c)) authorizes participating health professions licensing boards to adopt rules requiring licensees to complete the HPDC's workforce survey during license renewal cycles. HB322 requires the program to submit annual workforce reports to the legislature and without continued, uninterrupted Qualtrics software, this legislative requirement cannot be met.

The Contractor will provide survey software for the NH Section of Rural Health and Primary Care (RHPC) to establish the health professions surveys and data collection for the Health Professions Data Center (HPDC). RHPC developed the HPDC to collect and store key practice and capacity data from all practicing, licensed healthcare providers in NH. The data is used for healthcare access planning and workforce assessment purposes and will be used to:

- Identify federal shortage designations.
- Strengthened recruitment and retention initiatives including loan repayment, scholarships, and waiver programs.
- The expansion of existing educational and employment training programs; and
- Stronger emergency preparedness.

The State Office of Rural Health (SORH), which falls under RHPC, is legislatively charged in HB1692 (Laws of 2010, Chapter 114:2) to collect workforce data regarding the current and anticipated supply of health care professionals who make up the state's primary care workforce and current and anticipated demand for primary care services in the state. RSA 126-A:5, XVIII(d) authorizes the SORH to provide aggregate data and interval reports to be published on the DHHS website. The SORH is also charged in RSA 126-A:5, XVIII(e) to submit a written report to the Speaker of the House of Representatives, the Senate President, the Governor, and other legislators on primary care workforce issues determined by the aggregate data collected and analyzed. HB322 (2017) authorizes participating health professions licensing boards to adopt rules requiring licensees to complete the

Health Professions Surveys during license renewal. This statute also requires RHPC to submit annual provider workforce data reports to the legislature.

Survey implementation began in 2015 with the Board of Medicine. The HPDC continues to expand with the addition of providers through collaboration with their respective health professions licensing boards. Currently, the following provider types are being surveyed: physicians, physician assistants, advanced practice registered nurses, psychologists and licensed alcohol and drug counselors, clinical social workers, marriage and family therapists, pastoral psychotherapists, and mental health counselors. In 2020, the survey will include dentists and registered dental hygienists.

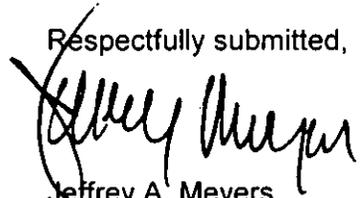

As referenced in Part 2 – Information Technology Provisions, Section 2, Contract Term of this contract, the Department reserves the option to extend contract services for up to three (3) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council.

Should the Governor and Executive Council not authorize this request, the Biomonitoring Program would have to cold call participants to collect survey data, administering the survey verbally and collecting results in PDF format. This method for capturing scientific data could result in error due to its manual entry process. Additionally, without the study process being implemented by the vendor, the cooperative agreement for the CDC grant would expire before all information was properly collected. In closing, the Biomonitoring Program would not complete the requirement of the grant and would very likely not be awarded a successive five (5) year grant in the future, leading the program to end in August 2019. Additionally, RHPC will be unable to establish an extension to the current contract by April 10, 2019, the Health Professions Data Center will be stalled and data collection will cease until contract approval. A lapse in data collection will result in the inability for RHPC to meet legislative requirements.

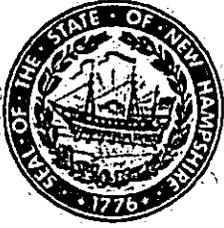

Area served: Statewide.

Source of Funds: NH Expanded Biomonitoring Program & Funds Health Professions Data Center 100% Federal Funds.

SOFTWARE AGREEMENT**

1. **License Grant.**

During the Subscription Term, the State will receive a limited, nonexclusive, non-assignable, royalty free, worldwide right to access and use the Software solely for the State's internal business operations subject to the terms of this Agreement and up to the number of licenses documented in the Agreement.

The Parties acknowledges that this Agreement is a services agreement and Contractor will not be delivering copies of the Software to Customer as part of the Agreement.

2. **Software Title.** Title, right, and interest (including all ownership and intellectual property rights) in the Software provided under this agreement, and its associated documentation, shall remain with the Contractor.

3. **Software and Documentation Copies.** Contractor shall provide the State with access to its support website. The State shall have the right to copy Documentation from the support website for its internal business needs.

4. **Restrictions.** Except as otherwise permitted under the Contract, the State agrees not to:

- a. Remove or modify any program markings or any notice of Contractor's proprietary rights;
- b. Make the programs or materials available in any manner to any third party for use in the third party's business operations; or
- c. transmit any content or data that is unlawful or infringes any intellectual property rights; or
- d. circumvent or endanger its operation or security; or
- e. Cause or permit reverse engineering, disassembly or recompilation of the programs.

5. **Viruses.** Contractor shall make commercially reasonable efforts to provide Software that is free of viruses, destructive programming, and mechanisms designed to disrupt the performance of the Software in accordance with the Specifications. As a part of its internal development process, Contractor will use reasonable efforts to test the Software for viruses.

6. **Audit.** Upon forty-five (45) days written notice, Contractor may audit the State's use of the programs at Contractor's sole expense. The State agrees to cooperate with Contractor's audit and provide reasonable assistance and access to information. The State agrees that Contractor shall not be responsible for any of the State's reasonable costs incurred in cooperating with the audit. Notwithstanding the foregoing, Contractor's audit rights are subject to applicable State and federal laws and regulations.

7. **Software Non-Infringement.** Contractor warrants that it has good title to, or the right to allow the State to use all Services, equipment, and Software, including any all component parts thereof such as third-party software or programs that may be embedded in the Software ("Contracted Resources") provided under this Contract, and that such Services, equipment, and Software do not violate or infringe any patent,

trademark, copyright, trade name or other intellectual property rights or misappropriate a trade secret of any third party.

The warranty of non-infringement shall be an on-going and perpetual obligation that shall survive termination of the Contract. In the event that someone makes a claim against the State that any Contracted Resources infringe their intellectual property rights, Contractor shall defend and indemnify the State against the claim provided that the State:

- a. Promptly notifies Contractor in writing, not later than 30 days after the State receives actual written notice of such claim;
- b. Gives Contractor control of the defense and any settlement negotiations; and
- c. Gives Contractor the information, authority, and assistance reasonably needed to defend against or settle the claim.

Notwithstanding the foregoing, the State's counsel may participate in any claim to the extent the State seeks to assert any immunities or defenses applicable to the State.

If Contractor believes or it is determined that any of the Contracted Resources may have violated someone else's intellectual property rights, Contractor may choose to either modify the Contracted Resources to be non-infringing or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, Contractor may end the license, and require return of the applicable Contracted Resources and refund all fees the State has paid Contractor under the Contract. Contractor will not indemnify the State if the State alters the Contracted Resources without Contractor's consent or uses it outside the scope of use identified in Contractor's user Documentation or if the State uses a version of the Contracted Resources which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Contracted Resources which was provided to the State at no additional cost. Contractor will not indemnify the State to the extent that an infringement claim is based upon any information design, Specification, instruction, Software, data, or material not furnished by Contractor. Contractor will not indemnify the State to the extent that an infringement claim is based upon the combination of any Contracted Resources with any products or services not provided by Contractor without Contractor's consent.

For Section 7 of this Agreement only, the provisions state the sole, exclusive, and entire liability of the parties, their affiliates, and subcontractors to the other party, and is the other party's sole remedy, with respect to covered third party claims and to the infringement or misappropriation of third party intellectual property rights.

8. **Control of All Component Elements.** Contractor acknowledges and agrees that it is responsible for maintaining all licenses or permissions to use any third-party software, equipment, or services that are component parts of any deliverable provided under this agreement for the entire term of the contract. SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the No procurement List (of excluded parties).

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.
