<p>10:45 am – noon 153ABC</p>	<p>Closing Opportunity Gaps through Early Education</p> <p>Research demonstrates that, on average, minority and low-income children enter kindergarten trailing their white and higher-income peers in math and reading. This is partially due to opportunity gaps, or when some students have fewer opportunities to learn and develop before entering school. Opportunity gaps lead to achievement gaps, which can later create social and economic consequences for families and states. Join us to explore strategies to close</p>

Thursday, August 2, 2018

General Session – It's All About Country: Politics, Polling and Pop Culture
NASA Special Briefing: Join the Journey Back to the Moon and on to Mars:
1. To Boldly Go: NASA and Human Space Exploration
2. Building America's Rocket and Growing State Economies
3. Legislators Leading the Way
Principal Pipeline Post-Conference

Was it Helpful: Yes, the NCSL Legislative Summit brings together legislators and government specialists etc. from all over the world making discussions on matters related to education as well as other topics very informative and helpful.

Why? Most sessions included excellent speakers and good participation in discussion. The General Session on CEO's and Innovation was most interesting as was current research on Closing Opportunity Gaps through Early Education, Competency-Based Learning, the 411 on 529s, NASA and the Federal Update.

What are three key areas of interest/information that would apply to New Hampshire?

1. World-Class Teaching: How to Get it and Keep It;
2. Closing Opportunity Gaps through Early Learning; and
3. Principal Pipeline Post Conference which focused on Leadership

With whom did you/will you share information?

I have already shared the Report, **NO TIME TO LOSE** with the House Education Committee and other legislators dedicated to building a world-class education system in NH. I returned with literature on Leadership in Public Education, which stresses the current shortage of principals and why, and hope to share this with House Education colleagues as well. I have also asked to be on the agenda of the next meeting of the NH Coalition for Business and Education to discuss **NO TIME TO LOSE**.

How?

Again, I have copies of the NCSL report, and an assortment of literature which I plan to discuss with colleagues and Reps. Ladd and Wolf. Last year I introduced legislation to study teacher recruitment, education and preparation in NH. In all sessions on high performing countries, the teacher is the key to their success. I hope to find an elected colleague to introduce a similar bill in 2019.

What was most beneficial to you from this conference?

The session on Closing Opportunity Gaps through Early Learning, and World Class Teaching; How to Get it and Keep it.

I have had the privilege of working for three years with 15 legislators and 10 legislative staff from across the Country in the International Education Study Group and, participating in all of the activities surrounding the publication NO TIME TO LOSE. It has been labor intensive, but overall, an extraordinary experience.

Another Highlight for me was the session on NASA, which was fascinating.

What was the least beneficial?

I always find the NCSL meetings most beneficial in terms of investment of time.
