EXPLANATION

The Central NH Regional Planning Commission is the primary planning agency in the central part of state covering twenty communities. The Fixing Americas Surface Transportation (FAST) Act provides planning and transit funds for each Regional Planning Commission (RPC). Cooperatively, the New Hampshire Department of Transportation (NHDOT) and the Central NH Regional Planning Commission has developed procedures for addressing transportation planning issues.

Central NH Regional Planning Commission has developed a proposal to carry out the planning and programming processes as identified by 23 CFR Subpart C and USC Title 23 Section 134 and the Transit Planning process as identified in Section 5303 of the Federal Transit Act.

This contract comprises the biennium Unified Planning Work Plan (UPWP) for State Fiscal Years 2020 and 2021. As part of this program, Central NH Regional Planning Commission will provide transportation planning and programming services and products to support state, regional, and local needs. The Central NH Regional Planning Commission will focus on ten planning factors as follows:

- 1) Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency,
- 2) Increase the safety of the transportation system for motorized and non-motorized users,
- 3) Increase the security of the transportation system for motorized and non-motorized users,
- 4) Increase the accessibility and mobility of people and freight,

- 5) Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns,
- 6) Enhance the integration and connectivity of the transportation system, across and between modes, people and freight,
- 7) Promote efficient system management and operation,
- 8) Emphasize the preservation of the existing transportation system,
- 9) Improve the resiliency and reliability of the transportation system and reduce or mitigate storm water impacts of surface transportation; and
- 10) Enhance travel and tourism.

These planning factors are identified in the Fixing America's Surface Transportation (FAST) Act. Additionally, Central NH Regional Planning Commission will address the New Hampshire Federal Highway Administration and Federal Transit Administration Planning Emphasis Areas (PEAs), which include FAST Act implementation of performance based planning and programming, regional planning cooperation and ladders of opportunities for access to essential services and identification of connectivity gaps.

The Central NH Regional Planning Commission can accomplish this work for a total fee not to exceed \$565,165.00. The funding to be used is from Federal Highway Administration (FHWA) Planning funds and local funds. The Federal portion \$508,648.50 is Federal Aid (involving Statewide Planning & Research (SPR) funds) with additional \$56,516.50 in local funds (collected by Central NH Regional Planning Commission to be applied towards total cost).

The funding is 80% federal funds with 10% state match. Turnpike toll credit is being utilized for match requirement, effectively using 90% federal funds and 10% local funds from Central NH Regional Planning Commission. The Capital Budget Overview Committee approved the use of Turnpike Toll Credits on June 5, 2019.

The Contract has been approved by the Attorney General as to form and execution and funding for each fiscal year is contingent upon the availability and continued appropriations of funds. Copies of the fully executed contract are on file at the Secretary of State's office and the Department of Administrative Services office and subsequent to Governor and Executive Council approval, will be on file at the Department of Transportation.

It is respectfully requested that authority be given to enter into a Contract for professional services as detailed in the Requested Resolution.

CENTRAL NEW HAMPSHIRE REGIONAL PLANNING COMMISSION

FY 2020-21 UNIFIED PLANNING WORK PROGRAM

Introduction

Since its reactivation in 1986, the Central New Hampshire Regional Planning Commission (CNHRPC) has executed an integrated transportation and land use planning program. Some of the overarching themes of this program have included consideration of the effects of transportation policies on land use, the need for consistency between land use and transportation policies, the need for and advisability of a broad range of public involvement, an increased consideration of alternative modes of transportation during the planning process, and the continued dialogue between state, regional, and local officials and offices.

This two-year work program outlines tasks for FY2020 and FY2021 and is the implementation and execution of the collaboration and partnership between CNHRPC and New Hampshire Department of Transportation (NHDOT). CNHRPC will continue to strengthen its capacity so that it may assist and serve its member communities, work collaboratively with NHDOT, and participate fully in regional land use and transportation issues.

Goals and Objectives

The goals of the CNHRPC biennial UPWP are:

- To plan for the safety and mobility of the people of the CNHRPC region;
- To provide local transportation planning assistance to member municipalities, particularly mobility plans and activities;
- To support comprehensive, coordinated and continuous transportation planning for the safe and efficient movement of people and goods consistent with the region's overall economic, social and environmental goals;
- To partner with NHDOT in striving for transportation excellence to enhance the quality of life in New Hampshire;
- To continue the development of CNHRPC's Transportation Demand Management Program, including associated statewide activities related to CommuteSmart New Hampshire; and
- To coordinate with the SNHPC MPO with regards to the urbanized areas within Allenstown, Bow and Pembroke now included in the SNHPC MPO Urbanized Area.

FHWA/FTA New Hampshire Planning Emphasis Areas

The FHWA New Hampshire Division and FTA Region 1 have identified specific topical areas that they would like emphasized in the Metropolitan Planning Organization (MPO) and statewide planning and research (SPR) work programs. The following table (Exhibit 1) outlines how the tasks contained in the CNHRPC FY 2020-21 UPWP addresses the topical areas as found in the FHWA/FTA Planning Emphasis Areas (PEAs).
