

Victoria F. Sheehan
Commissioner

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

William Cass, P.E.
Assistant Commissioner

Bureau of Construction
March 29, 2017

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

INFORMATIONAL ITEM

In accordance with the process approved by Governor and Council April 9, 1980, Item #8 (as amended), and as subsequently reapproved on December 7, 2006 the Department of Transportation has reinstated the use of contract contingencies. As a condition of reinstating contingencies, the Department of Transportation's Bureau of Construction submits on a quarterly basis a summary of active projects that may require contingency use. Attached please find the summary report for the period through March 28, 2017.

Additionally we are providing for reference Final Payment Reports for calendar years 2015 and 2016. The reports provide a summary of the final project costs (including contingency use) for projects closed out in those years. I would note that in the great majority of the project closed in those years finished under the total bid amount with no contingency use. For example, in 2016 of the 57 projects closed, only 3 were over the contract total; and final balances show overall savings with total payments below bid totals by over \$12 million.

Respectfully,

A handwritten signature in black ink that reads "Victoria F. Sheehan".

Victoria Sheehan
Commissioner
