EXPLANATION

The Department of Environmental Services issued a request for proposals for 2015 Local Source Water Protection Grants. These grants are funded by set-asides under the Drinking Water State Revolving Loan Fund. Twenty proposals were received. The proposals were evaluated and ranked based on criteria included in the request for proposals, such as whether the project fulfills a component of a source water protection program, that the proposed project addresses appropriate threats, and that the project will deliver a valuable and useful product. Based on the available federal funding, the Department determined that it could offer grants to twelve source protection planning projects and three source security projects. See attachment A for the proposal rankings and list of reviewers.

Pennichuck Water Works, Inc. (PWW) will use the grant funds to develop a series of short video segments to demonstrate actions watershed residents may take to limit non-point source contaminants and better protect drinking water resources. The videos will highlight the importance of watershed protection, present PWW's management approach, and showcase actions residents can take to further protect the watershed and drinking water resources.

This agreement has been approved as to form, substance, and execution by the Office of the Attorney General. In the event that federal funds no longer become available, General funds will not be requested to support this program.

We respectfully request your approval.

person, on account of, based on, resulting from, arising out of (or which may be claimed to arise out of) the acts or omissions of the Grantee or Subcontractor, or subgrantee or other agent of the Grantee. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant shall survive the termination of this agreement.

EXHIBIT A SCOPE OF WORK

Pennichuck Water Works, Inc.:

Pennichuck Water Works, Inc. (PWW) will use New Hampshire Department of Environmental Services (NHDES) grant funds to develop a series of short video segments to demonstrate actions watershed residents may take to limit non-point source contaminants and better protect drinking water resources. The videos will highlight the importance of watershed protection, present PWW's management approach, and showcase actions residents can take to further protect the watershed and drinking water resources. Specifically, the following tasks, as described in the application submitted to NHDES, will be accomplished:

1. Video Script Development

PWW will develop compelling and interesting narrative scripts to use with short video segments for general public audiences. The videos will focus on threats to the water supply that residents can control, such as fertilizer use, good pet waste management, reducing impervious surfaces and stormwater runoff, and other related topics. Emphasis will be placed on reducing phosphorus, which is a key element in watershed protection. Draft scripts will be provided to conservation commissioners and NHDES for review and comment. A summary of comments received will be completed and forwarded to NHDES along with the final scripts.

2. Compilation of Existing Videos and Photos

Existing videos and photos available for public use or those that are the property of PWW will be compiled and used in the video segments to support and underscore the major themes and educational points of the video segments. A summary of the existing videos and examples of the photos selected for the video segments will be provided to NHDES for review and comment.

3. Video Development

PWW will employ a professional videographer to produce and edit four to five separate (different themes) video segments to include watershed photos as well as local interviews. The videos will be created in a file format that can be easily published online and accessed by the public through internet service capabilities currently available in the Nashua region. A draft of the videos will be provided to NHDES for review and comment prior to completion. PWW will hold at least one focus group made up of watershed residents to view the videos and discuss resident comments, questions, or other feedback concerning the videos.

4. Web Publishing, Promotional Activities, and Public Feedback

PWW will publish the video segments to its website (<http://www.pennichuck.com/>) to be freely available for public viewing and will contact the municipalities within the watershed (including Nashua Regional Planning Commission) to request they post a link on their websites to the URL where the videos are posted. PWW will conduct a series of promotional activities, including notice to its customers through its website and billing inserts, making them aware of the videos. In addition, information regarding the videos will be provided to each municipality in the watershed with a request to post the information on the municipal website and/or bulletin boards.

Grantee Initials DW
Date 6/3/15

PWW will develop an online survey offered as a “clickable link” at the end of the videos to ask viewers questions, including what town they live in and whether they intend to make recommended changes consistent with the guidance within the videos. Viewers will also be allowed to leave contact information for later follow-up to determine whether they took actions or changed behaviors consistent with guidance in the videos. A summary report of promotional activities, video usage, and viewer survey feedback will be provided to NHDES.

Quarterly progress report forms must be completed by grant recipients or their subcontractor and submitted to NHDES every three months, beginning with the first full 3 month quarter after grant approval from Governor & Council.

EXHIBIT B
BUDGET & PAYMENT METHOD

All services shall be performed to the satisfaction of the Department of Environmental Services before payment is made. All payments shall be made upon receipt and approval of stated outputs and upon receipt of the associated invoice. **If the invoice is less than the initial estimate, only the amount on the invoice will be paid.** Payments shall be made in accordance with the following schedule, based upon completion of specific tasks:

Task Number/Description	Source Water Protection Grant
1. Video Script Development	\$6,900.00
2. Compilation of Existing Videos and Photos	\$4,100.00
3. Video Development	\$5,900.00
4. Web Publishing, Promotional Activities, and Public Feedback	\$3,100.00
TOTAL:	\$20,000.00

EXHIBIT C
SPECIAL PROVISIONS

Subparagraph 1.7 of the General Provisions shall not apply to this Agreement.

Changes to the Scope of Work or reallocation of grant funds require NHDES approval in advance.

Work must be completed by the completion date listed on the grant agreement (section 1.6). Requests for payment along with required proof of work must be submitted no later than 90 days after the completion date or the grant will be closed out and funds will no longer be available.

If a deadline extension is requested, the grantee must make that request for approval at least two months before the completion date. Failure to do so may result in lower rankings of future grant applications.

Federal Funds paid under this agreement are from a Grant to the State from the U.S. Environmental Protection Agency, Drinking Water State Revolving Fund Set-Asides under CFDA #66.468. All applicable requirements, regulations, provisions, terms and conditions of this Federal Grant are hereby adopted in full force and effect to the relationship between this Department and the grantee.
