REQUESTED ACTION

Authorize the Department of Health and Human Services to amend an existing agreement with The Front Door (Vendor #156244-B001) for the provision of transitional shelter and intervention services through the State Grant-in-Aid program by amending the scope of services and increasing the price limitation by \$10,000 from \$165,000 to \$175,000 with no change to the contract end date of June 30, 2017, effective upon Governor and Executive Council approval. 100% General Funds.

Funding is available in the following account for State Fiscal Years 2016 and 2017, with the ability to adjust encumbrances between State Fiscal Years without further approval from the Governor and Executive Council, if needed and justified.

Sub-total				\$165,000	\$10,000	\$175,000

EXPLANATION

The purpose of this request is to add funding to an existing agreement for security deposit and rental assistance, which will be added to intervention services and transitional shelter services currently provided by the vendor to homeless individuals. The Department has been made aware of a disproportionate need for security deposit and rental assistance in the vendor's service area. Therefore, the Department is requesting the current price limitation be increased by \$10,000 from \$165,000 to \$175,000. The additional funds will be used for security deposit and rental assistance, which will assist with stabilizing individuals who are at risk of

becoming homeless or who are transitioning into permanent housing. The vendor currently provides the following services through the State Grant-in-Aid (SGIA) program.

Intervention Services – Non-shelter services that assist persons who are homeless, or at imminent risk of homelessness through case management, assisted referrals, or other targeted services intended to assist persons experiencing homelessness obtain or maintain shelter. Examples of intervention activities include (but are not limited to) information and referrals to assist clients in exiting homelessness, assessing a client's eligibility for shelter/housing placement, legal services, HMIS, and drop-in centers or other facilities where clients have access to case managers as well as telephone/internet access for education, housing, employment purposes.

Transitional Shelter - A time-limited independent housing residence, designed to provide a person or family, safe semi-private housing and comprehensive supportive services. Case management, educational or rehabilitative programs and referrals help to strengthen resiliency, enhance life skills and financial independence, and prepare for a successful transition to permanent housing. Allowable activities include: essential services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and transitional shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Should Governor and Executive Council not authorized this request, individuals and families who are without housing and resources will resort to seeking local shelter in places that are not fit for people to live in, or will attempt to travel to shelters in other communities. This will increase the likelihood that homeless people will be in danger of injury or death, and will be cut off from basic supports for health, education and treatment.

EXPLANATION

This request is **retroactive** because the awards were not made until June 9th, 2015.

The purpose of this request is for the provision of intervention services and/or emergency shelter and related services, including essential services, to homeless individuals.

This package includes twenty-three (23) of the twenty-seven (27) vendors chosen to receive State Grant-in-Aid Program funding, and represents \$5,759,549 of the total \$6,569,941 being funded.

The State Grant-in-Aid (SGIA) Funds program provides funding support for the following:

Emergency Shelter - Any facility, the primary purpose of which is to provide temporary shelter for homeless individuals or families. Non-permanent shelter, which is crisis-oriented and designed to meet the basic needs of homeless clients. Allowable activities include: Essential Services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Transitional Shelter - A time-limited independent housing residence, designed to provide a person or family, safe semi-private housing and comprehensive supportive services. Case management, educational or rehabilitative programs and referrals help to strengthen resiliency, enhance life skills and financial independence, and prepare for a successful transition to permanent housing. Allowable activities include: Essential Services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and transitional shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Specialty Shelter - An emergency shelter for designed solely to serve the specialized needs of an identifiable subgroup of homeless individuals. Allowable activities include: Essential Services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and specialty shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Intervention Services – Non-shelter services that assist persons who are homeless, or at imminent risk of homelessness through case management, assisted referrals, or other targeted services intended to assist persons experiencing homelessness obtain or maintain shelter. Examples of intervention activities include (but are not limited to) information and referrals to assist clients in exiting homelessness, assessing a client's eligibility for shelter/housing placement, legal services, HMIS, and drop-in centers or other facilities where clients have access to case managers as well as telephone/internet access for education, housing, employment purposes.

The Department of Health of Human Services received a total of thirty-eight (38) applications from twenty-eight (28) agencies for State Grant-in-Aid Funding Program in response to a Request for Applications that was posted to the Departments website from December 5, 2014 through February 13, 2015. After review of the applicants, by a team of qualified personnel from the Bureau of Homeless and Housing, twenty-seven (27) agencies were chosen. Priority was given to vendors that provide Emergency, Specialty and Transitional Shelter services.

The attached agreements call for the provision of these services for two years and reserves the Department's right to renew the agreements for up to two (2) additional years, based upon satisfactory delivery of services, and continued availability of funds and Governor and Executive Council approval.

Should Governor and Executive Council not authorized this request, Individuals and families who are without housing and resources will resort to seeking local shelter in places that are not fit for people to live in, or will attempt to travel to shelters in other communities. This will increase the likelihood that homeless people will be in danger of injury or death, and will be cut off from basic supports for health, education and treatment.

BMCAP is being funded ahead of Veteran's Inc. for the New Start program, although Veteran's Inc (VI) scored higher than BMCAP. The reason is because BMCAP is providing a homeless intervention program to the general population in 2 counties. If not funded, there would be no Homeless Intervention services available in Belknap and Merrimack counties, which is unacceptable. The VI program is a new project, and although statewide, serves a specific subpopulation of homeless (veterans) that represent less than 9% of the total homeless population in the state. Given the limited resources available I believe it is imperative we fund services accessible to all over those accessible to a small sub population.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

- d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.
- e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). - f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.
- i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.
- j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.
- k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

(4) Obligations of Covered Entity

- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.
- b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.
- c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.
- d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

Exhibit I

- e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Exhibit I.

To the Board of Trustees of
The Salvation Army - Eastern Territory

We have audited the accompanying consolidated financial statements of The Salvation Army - Eastern Territory (the "Eastern Territory"), which comprise the consolidated statements of financial position as of September 30, 2015 and 2014, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of The Salvation Army - Eastern Territory as of September 30, 2015 and 2014, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

THE SALVATION ARMY - EASTERN TERRITORY

Notes to Consolidated Financial Statements

1. PURPOSE AND ORGANIZATION

The Salvation Army, founded in 1865, is a not-for-profit international religious organization and charitable movement organized and operated on a quasi-military pattern and is a branch of the Christian Church. Its membership includes officers (clergy), soldiers and adherents (laity), members of various activity groups and volunteers who serve as advisors, associates and committed participants in its service functions.

The accompanying consolidated financial statements include all programs and operations of The Salvation Army - Eastern Territory (the "Eastern Territory") incorporated as The Salvation Army (A New York Corporation), with its corporate headquarters located in West Nyack, New York. The Eastern Territory comprises the states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Ohio and Northeast Kentucky, the Commonwealth of Puerto Rico and the U.S. Virgin Islands. The Eastern Territory also consolidates other related entities in which it has an economic interest and control. The centers of operation, which are the divisional headquarters, institutions, corps community centers, service extension units and adult rehabilitation centers, maintain their own standardized financial systems and accounting records under powers of attorney granted by corporate authority, and issue such reports and financial statements as may be called for locally, pertaining to the financial and property resources which they administer. All intercompany accounts and transactions have been eliminated.

The Eastern Territory is an organization exempt from income taxes under Section 501(a) as an entity described in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended and is exempt from state income taxes under related state provisions.

The Eastern Territory operates a variety of programs including corps community centers that provide spiritual, educational and recreational services; homeless and emergency shelters; senior citizens' residences, children's homes and children's day care centers; adult rehabilitation centers and substance abuse centers; emergency disaster services; assistance for the poor, disabled, and retired; jail and hospital visitation; and camping activities.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with the national accounting policies of The Salvation Army. These policies are consistent with accounting principles generally accepted in the United States of America ("US GAAP").

In order to observe restrictions which donors place on grants and other gifts, as well as designations made by the Board of Trustees, all assets, liabilities and activities are accounted for in the following net asset classifications:

Unrestricted Net Assets - not subject to donor-imposed restrictions. Unrestricted net assets may be designated for specific purposes or locations by actions of the Board of Trustees.

Temporarily Restricted Net Assets - subject to donor-imposed stipulations that may be fulfilled by actions of the Eastern Territory to meet the stipulations and/or become unrestricted at the date specified by the donor.

THE SALVATION ARMY - EASTERN TERRITORY
Notes to Consolidated Financial Statements (continued)
September 30, 2015 and 2014
(in thousands)

Permanently Restricted Net Assets - subject to donor-imposed stipulations that they be retained and invested permanently by the Eastern Territory. The donors require the Eastern Territory to use all or part of the investment return on these net assets for specified or unspecified purposes.

Support and revenue are recorded as increases in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions that are not fulfilled in the accounting period. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulations or by law. All expenses are reported as decreases in unrestricted net assets. Expirations of temporary restrictions on net assets, that is, the expiration of the donor-imposed stipulated purpose and/or the elapsing of the specified time period, are reported as net assets released from restrictions.

Contributions subject to donor-imposed restrictions are recorded as temporarily restricted support and are reclassified as unrestricted when the donor-imposed restriction has been fulfilled and/or the stipulated time period has elapsed. Contributions with donor-imposed restrictions that are met in the same accounting period are recorded as unrestricted income. Promises to give that are scheduled to be received after the end of the reporting period are shown as increases in temporarily restricted net assets and are released to unrestricted net assets when the purpose and/or time restriction is met. Promises to give subject to donor-imposed stipulations that the corpus be maintained permanently are recognized as increases in permanently restricted net assets. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions to be received after one year are discounted at a credit-adjusted discount rate. Amortization of the discount is recorded as contribution revenue.

During fiscal years 2015 and 2014, the Eastern Territory received notification of certain intentions to give. However, due to their conditional nature, these gifts have not been reflected in the accompanying consolidated financial statements.

Cash and Cash Equivalents

For purposes of these consolidated financial statements, cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to cash and have original maturities of three months or less. At September 30, 2015 and 2014, cash equivalents included \$20,017 and \$20,015, respectively, held in a money market account at a commercial bank as collateral for letters of credit for insurance purposes (see Note 15). Cash and cash equivalents do not include cash held temporarily in the long-term investment portfolio until suitable investments are identified.

Inventory

Inventory for goods purchased for resale is stated at the lower of weighted average cost or market. Inventory for goods donated for resale is based on estimated fair value.

Investments

The Eastern Territorial headquarters has the responsibility for investment activity for all units within the Eastern Territory for unrestricted assets, including board-designated assets; temporarily restricted assets; and permanently restricted assets. The temporarily restricted assets and the permanently restricted asset portfolios are maintained on a pooled "mutual fund" accounting basis, with the total earnings, investment expenses, appreciation and depreciation, whether realized or unrealized, being allocated to each participating account on a pro rata basis.

THE SALVATION ARMY - EASTERN TERRITORY

Notes to Consolidated Financial Statements (continued)

September 30, 2015 and 2014

(in thousands)

Income earned on unrestricted assets is distributed to the constituent accounts on the basis of a stated percentage of the monthly account balances during the year. Amounts so deposited may be withdrawn when required for use by the centers of operation. The excess (deficit) of investment income earned over amounts distributed is reported as unrestricted board-designated income. The Board of Trustees generally designates the use of portions of these excess funds for specified projects for use within the Eastern Territory.

Charitable gift annuities are maintained in a separate portfolio and are invested in accordance with applicable laws for such annuities. The Eastern Territory maintains assets sufficient to meet annuity requirements of various states.

Investment income and net appreciation (depreciation) on investments of donor endowments, whether permanently or temporarily restricted, are reported as follows:

- As increases in permanently restricted net assets if the terms of the gift or the Eastern Territory's interpretation of relevant state law requires that they be added back to the principal of the permanently restricted contributions.
- As increases in temporarily restricted net assets if the terms of the gift or the Eastern Territory's interpretation of relevant state law imposes restrictions on the current use of the investment income or net appreciation (depreciation).

Split-Interest Agreements

Accounting standards require that the following instruments be recorded as income and net assets at the present value of their ultimate Eastern Territory interest:

Trusts Held by a Third Party

Donors have established and funded trusts which are administered by organizations other than the Eastern Territory. Under the terms of these trusts, the Eastern Territory has the irrevocable right to receive all or a portion of the income earned on the trust assets either in perpetuity or for the life of the trust. The Eastern Territory does not control the assets held by outside trusts.

Charitable Remainder Trusts

Donors have established and funded trusts under which specified distributions are to be made to a designated beneficiary or beneficiaries over the trusts' term. Upon termination of the trusts, the Eastern Territory receives the assets remaining in the trusts. Trusts are recorded as increases to net assets at the fair value of trust assets, less the present value of the estimated future payments to be made under the specific terms of the trusts using the 2000 CM mortality table. The discount rates ranged from 4.0% to 10.0% at September 30, 2015 and 2014.

Charitable Gift Annuities

Donors have contributed assets to the Eastern Territory in exchange for a promise by the Eastern Territory to pay a fixed amount or percentage for a specified period of time to the donors or to individuals or organizations designated by the donors. Under the terms of such agreements, the assets received are held by, and the annuity liability is an obligation of, the Eastern Territory. The discount rates ranged from 1.2% to 11.6% at September 30, 2015 and 2014. In fiscal years 2015 and 2014, the assumptions used in

THE SALVATION ARMY - EASTERN TERRITORY

Notes to Consolidated Financial Statements (continued)

September 30, 2015 and 2014

(in thousands)

the valuation of the annuity liability include mortality data in accordance with the 2000 CM mortality table.

Pooled (Life) Income Funds

The Eastern Territory manages a life income fund. The fund is divided into units, and contributions from many donors are pooled and invested as a group. Donors are assigned a specific number of units based on the proportion of the fair value of their contributions to the total fair value of the pooled income fund on the date of the donor's entry into the pooled fund. The donor is paid the actual income earned on those units until his or her death. Upon the donor's death, the value of these assigned units reverts to the Eastern Territory.

The Eastern Territory recognizes its interest in the assets received as contribution revenue, at the fair value of the assets received net of a discount for future interest based on the life expectancy of the donor, calculated using the 2000 CM mortality table. The discount rates ranged from 2.73% to 11.2% at September 30, 2015 and 2014.

Land, Buildings and Equipment

Land, buildings and equipment are stated at cost or, if donated, at fair market value at date of donation.

Support and Revenue

All items of support and revenue are stated on the accrual basis, including amounts which are receivable under the terms and provisions of cost reimbursement contracts with government units and other third-party payers.

Donations-in-Kind and Contributed Services

Material gifts-in-kind items used in the Eastern Territory's Corps and Unit programs and services (e.g., vehicles, free rent, equipment) and donated goods distributed (e.g., clothing, furniture, food) are recorded as income and expense at the time the items are received or distributed, respectively.

Goods donated for sale in the Eastern Territory's adult rehabilitation centers and thrift stores are recorded as contributions and processed donations-in-kind on the basis of a percentage of sales income determined by historical trend studies.

Contributed land, buildings and equipment are recorded at fair value at the date of donation as unrestricted support and revenue unless the use of such contributed assets is restricted by a donor-imposed restriction. The Eastern Territory does not imply a time restriction to contributions of long lived assets.

Contributed services are reported as contributions at their fair value if such services create or enhance nonfinancial assets, would have been purchased if not provided by contributions, require specialized skills and are provided by individuals possessing such specialized skills.

Expenses

All expenses are stated on the accrual basis and are presented in the accompanying consolidated statements of activities and functional expenses. Certain costs have been allocated among the programs and supporting services benefited.

Depreciation

The Eastern Territory capitalizes equipment purchased in excess of \$10. Depreciation is provided on buildings, vehicles and equipment at straight-line rates based on estimated service lives. The estimated service lives for buildings and improvements are 20-50 years and 4-20 years for vehicles and equipment. For buildings, a half year of depreciation is charged in the year of acquisition or completion of construction, and in the year of disposition. For vehicles and equipment, a full year of depreciation is charged in the year of acquisition and no depreciation is charged in the year of disposition.

Depreciation is also provided on equipment used in cost-reimbursement programs that provide for reimbursement of depreciation by a third-party payer.

Provision is made for major future costs of property maintenance and replacement of vehicles and some equipment by transfer of operating net assets to board-designated unrestricted net assets.

Concentration of Credit Risk

Financial instruments which potentially subject the Eastern Territory to concentrations of credit risk consist primarily of cash and cash equivalents and investment securities. The Eastern Territory maintains its cash and cash equivalents with large financial institutions. At certain times, the Eastern Territory's cash account balances may exceed federally insured limits. However, the Eastern Territory has not experienced, nor does it anticipate, any losses with respect to such bank balances. The Eastern Territory's investment portfolio is diversified with several investment managers in a variety of asset classes. The Eastern Territory regularly evaluates its depository arrangements and investments, including performance thereof.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from these estimates.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, *Revenue from Contracts with Customers*, which supersedes most of the current revenue recognition requirements. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. The guidance provides a five-step analysis of transactions to determine when and how revenue is recognized. Other major provisions include capitalization of certain contract costs, consideration of time value of money in the transaction price, and allowing estimates of variable consideration to be recognized before contingencies are resolved in certain circumstances. The guidance also requires enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. The guidance is effective for the interim and annual periods on or after December 15, 2017 (early adoption is not permitted). The guidance permits the use of either a retrospective or cumulative effect transition method. The adoption of ASU 2014-09 is not expected to have a material impact on the Eastern Territory's consolidated financial statements.

Notes to Consolidated Financial Statements (continued)

FASB Accounting Standards Codification (“ASC”) Topic 820, *Fair Value Measurements*, permits a reporting entity, as a practical expedient, to measure the fair value of certain investments using a net asset value (“NAV”) per share of the investment, or its equivalent. In May 2015, the FASB issued ASU 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendments in this update are effective for fiscal years beginning after December 15, 2016, however early adoption is permitted. The reporting entity is required upon adoption to apply the amendments retrospectively to all periods presented.

The Eastern Territory early adopted ASU 2015-07 effective October 1, 2014, and has applied the amendments retroactively for all periods presented, as required by the ASU. The adoption of this new guidance by the Eastern Territory only amended disclosure requirements and did not have an impact on the Eastern Territory’s consolidated financial statements for the periods presented.

Reclassification

Certain information in the fiscal 2014 consolidated financial statements has been reclassified to conform to the fiscal 2015 presentation. Specific assistance to individuals expense which was formerly reported as part of other social services, has been allocated amongst all program service expense functions. Such reclassifications did not change total assets, liabilities, revenues, expenses or changes in net assets as reflected on the 2014 consolidated financial statements.

3. PLEDGES RECEIVABLE, NET

Unconditional promises to give, that are expected to be collected within one year, are recorded at net realizable value. Unconditional promises to give, that are expected to be collected in future years, are recorded at the present value of their estimated future cash flows using a credit-adjusted discount rate.

Unconditional promises to give included the following at September 30, 2015 and 2014:

	<u>2015</u>	<u>2014</u>
Unconditional promises to give due in:		
Less than one year	\$ 5,161	\$ 5,280

Allowance for uncollectibles	<u>(1,220)</u>	<u>(1,033)</u>
Net unconditional promises to give	<u>\$ 12,374</u>	<u>\$ 10,912</u>

At September 30, 2015 and 2014, the interest rates used to discount pledges receivable to present value ranged from 0.23% to 3.93%.

4. INVESTMENTS

Investments consist of equity and debt securities, federal and state government obligations, mutual funds, certificates of deposit, money market securities, private equity, timber, real estate, hedge funds, commodities, and commingled funds, and are carried at fair value. Investments in marketable securities are stated principally at published market prices. The fair value of other investments, primarily alternative investments, is based upon the most recent information obtained from the fund managers. Earnings on investments, including interest, dividends and realized and unrealized gains and losses, are reported as other revenues on the accompanying consolidated statements of activities.

Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with investments, it is reasonably possible that changes in risk in the near term would materially affect the amounts reported in the consolidated statements of financial position.

Investments, at fair value, consisted of the following at September 30, 2015 and 2014:

	<u>2015</u>	<u>2014</u>
Marketable securities:		
Short-term securities	\$ 79,378	\$ 136,891
Corporate bonds and other fixed income securities	147,526	206,332
Federal and state government securities	54,344	131,370
Equity securities	899,340	850,468
Mutual funds	<u>101,016</u>	<u>136,256</u>
Total marketable securities	<u>1,281,604</u>	<u>1,461,317</u>

5. FAIR VALUE MEASUREMENTS

US GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date.

US GAAP establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This fair value hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value hierarchy is categorized into three levels based on inputs as follows:

- Level 1: Quoted market prices for identical assets or liabilities to which an entity has access at the measurement date.
- Level 2: Inputs and information other than quoted market indices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include the following:
 - a. Quoted prices for similar assets or liabilities in active markets.
 - b. Quoted prices for identical or similar assets in markets that are not active.
 - c. Observable inputs other than quoted prices for the asset or liability.
 - d. Inputs derived principally from, or corroborated by, observable market data by correlation or by other means.
- Level 3: Inputs that are unobservable and significant to the overall fair value measurement of the asset or liability.

Observable inputs reflect the assumptions market participants would use in pricing the asset or liability developed from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The Eastern Territory has segregated all financial assets and liabilities that are measured at fair value on a recurring basis (at least annually), except for those investments and assets of trusts administered by the Eastern Territory measured at fair value using the NAV per share practical expedient, into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value.

6. PENSION, RETIREMENT AND OTHER POSTRETIREMENT PLANS

Employee Pension Plans

Eligible employees participate in the Employee Pension Plan and Trust Agreement (the "Plan") with other Salvation Army Territories, which provides for death, disability and retirement benefits. The Plan is a defined contribution, money purchase plan.

Annual contributions to the Plan are based on a stipulated 6% of employees' salaries. The Eastern Territory incurred \$10,303 and \$9,981 of expenses under this plan in fiscal years 2015 and 2014, respectively. The Eastern Territory has recorded a liability for contributions accrued under the Plan of \$1,782 and \$1,961 as of September 30, 2015 and 2014, respectively, and are included on the accompanying consolidated statements of financial position as part of liability for pension and other postretirement benefits.

The Eastern Territory has designated assets of \$5,719 and \$6,027 as of September 30, 2015 and 2014, respectively, for an inactive money purchase pension plan for employees whose benefits were frozen as of April 30, 1977. The liability for benefits accrued under this plan of \$5,719 and \$6,027 as of September 30, 2015 and 2014, respectively, are included on the accompanying consolidated statements of financial position as part of liability for pension and other postretirement benefits.

7. OFFICERS' RETIREMENT PROVISIONS AND OTHER POSTRETIREMENT BENEFITS

The Eastern Territory has a retirement provision for officers which provides retirement benefits, as defined by The Salvation Army policy governing such benefits. Retirement allowances are determined based upon active officer allowances and length of service. They are self-funded principally by annual assessments to all centers of operation, by designated portions of legacy income, by earnings on assets designated for retirement benefits and by special appropriations. Such designated assets, which were \$44,152 and \$40,602 as of September 30, 2015 and 2014, respectively, are included in unrestricted board-designated net assets. These assets may be reallocated for other purposes at any time by the Eastern Territory's Board of Trustees.

The Eastern Territory also provides certain healthcare and death benefits for retired Salvation Army officers as part of the retirement provision for officers. All Eastern Territory officers and their eligible dependents are eligible for these benefits, as defined by the Eastern Territory policy. Provisions for these benefits are self-funded in a manner similar to officers' retirement benefits. Such designated assets, which were \$97,512 and \$108,922 as of September 30, 2015 and 2014, respectively, are included in unrestricted board-designated net assets. These assets may be reallocated for other purposes at any time by the Eastern Territory's Board of Trustees.

US GAAP requires the recognition of an asset or liability for the funded status of defined pension and other post-retirement benefit plans in the statements of financial position of the sponsoring entity. The funded status of a benefit plan is measured as the difference between plan assets at fair value and the benefit obligation. For a defined benefit pension plan, the benefit obligation is the projected benefit obligation ("PBO"). For any other defined benefit post-retirement benefit plan, such as a retiree healthcare plan, the benefit obligation is the accumulated post-retirement benefit obligation. The initial incremental recognition of the funded status for the defined pension and other post-retirement benefit plans, as well as subsequent changes in funded status that are not included in net periodic benefit cost, is reflected in a separate line item within changes in net assets.

Because the plans are unfunded, the fiscal year 2016 estimated future benefit payments also represent the expected contributions to the plans for that year.

8. ESTIMATED LIABILITY FOR SELF-INSURANCE CLAIMS

Officers and employees of the Eastern Territory are provided health benefits under a self-insured program which is administered by a third-party claims administrator. The employee medical plan is funded by employee contributions and annual assessments to all centers of operations.

The Eastern Territory also maintains self-insurance programs for general liability, automobile, workers' compensation, and property coverage. The programs are administered by the Eastern Territory Headquarters and are intended to provide coverage for claims arising in all centers of operations. Funding for these programs is obtained through assessments to all centers of operations for each line of coverage and through earnings on designated assets held to pay claims. Assets designated by the Eastern Territory's Board of Trustees for insurance programs amounted to \$85,034 and \$91,591 at September 30, 2015 and 2014, respectively, and were included in board-designated net assets. The Board may reallocate these assets for other purposes as deemed necessary.

Liabilities for self-insurance claims have been developed based on an actuarial model based on historical claims and industry experience. As of September 30, 2015 and 2014, the actuarially determined liabilities consisted of the following:

<u>2015</u>	<u>Case Reserve</u>	<u>Incurred But Not Reported</u>	<u>Total</u>
Officer and Employee Medical Plan	\$ 241	\$ 9,307	\$ 9,548

9. MORTGAGES AND NOTES PAYABLE

Notes Payable

On August 16, 2007, the Eastern Territory issued an offering memorandum for the sale and issuance of up to \$400,000 of Taxable Commercial Paper Notes (the "Notes") for the purpose of real estate acquisitions and facilities construction. The Notes were split into two Series, the Series A Notes and the Series B Notes, and were purchased or the sale arranged by JPMorgan Chase Securities, Inc. ("JPMorgan") and Merrill Lynch & Co. Inc. ("Merrill Lynch"), respectively, the dealers in the transactions. The Series A Notes were sold at a discount with the face amount payable at maturity and the Series B Notes were offered at both a discount and at par with the face amount payable at maturity and both series are interest bearing. The Notes carry maximum maturities of 270 days and may be issued in denominations of \$100 or in integral multiples of \$1 in excess of \$100. The Notes are unsecured general obligations of the Eastern Territory.

On August 22, 2007, \$100,000 of Series A Notes and \$60,000 of Series B Notes were issued. On September 11, 2008, an additional \$35,000 of Series A Notes and \$40,000 of Series B Notes were issued. On October 15, 2009, an additional \$50,000 of Series A Notes was issued. On October 9, 2010, the Eastern Territory issued an additional \$35,000 of Series A Notes and \$25,000 of Series B Notes. Deutsche Bank Trust Company Americas was the issuing and paying agent. On August 13, 2013, U.S. Bank Global Corporate Trust Services became the issuing and paying agent.

On November 29, 2011, the Eastern Territory entered a credit agreement with U.S. Bank for two term loans in accordance with its long-term financing strategy. The first term loan ("Term Loan A") of \$45,000 with a repayment term of 54 months is due and payable in full on December 1, 2019. Proceeds were used to pay down \$45,000 of Series B Notes issued in 2007. The second term loan ("Term Loan B") of \$55,000 with a repayment term of 10 years is due and payable in full on November 29, 2021. The loans bear interest daily at a per annum rate equal to one-month LIBOR plus the applicable margin, which amount to 0.50% and 0.80% for Term Loan A and Term Loan B, respectively. At September 30, 2015 and 2014, the Eastern Territory had a combined principal balance outstanding of \$100,000 for Term Loans A and B. Term Loans A and B are unsecured general obligations of the Eastern Territory. The interest rates on Term Loans A and B were 0.69% and 0.99%, respectively, at September 30, 2015 and 0.65% and 0.95%, respectively, at September 30, 2014.

On May 24, 2012, the Eastern Territory entered into a credit agreement with TD Bank for a term loan in accordance with its long-term financing strategy. The term loan ("TD Term Loan") of \$100,000 with a repayment term of 10 years is due and payable in full on May 24, 2022. Proceeds were used to retire \$20,000 of Series A Notes issued in 2007 and \$50,000 of Series B Notes issued in 2007 and 2008. On June 5, 2012, \$14,000 of Series B Notes issued in 2008 and 2010 were paid down and not reissued and on July 6, 2012, an additional \$16,000 of Series B Notes issued in 2008 and 2010 were paid down and not reissued. The loan bears interest daily at a per annum rate equal to one-month LIBOR plus an applicable margin of 1.0%. At September 30, 2015 and 2014, the Eastern Territory had a principal balance outstanding of \$100,000. The interest rate on the TD Term Loan was 1.19% and 1.15% at September 30, 2015 and 2014, respectively.

Total interest expense related to the long-term financing strategy for the years ended September 30, 2015 and 2014 was \$19,146 and \$19,054, respectively. Included in this amount are net payments to counterparties related to interest rate swap agreements of \$16,670 and \$16,706 for the years ended September 30, 2015 and 2014, respectively.

As of September 30, 2015 and 2014, the Eastern Territory had a principal balance outstanding of \$199,928, net of discount of \$72 and principal balance of \$199,873, net of discount of \$127, respectively, for Series A Notes. During fiscal years 2015 and 2014, interest rates on the Series A Notes ranged from 0.15% to 0.25% and 0.12% to 0.23%, respectively.

Concurrent with the issuance of the Notes in fiscal years 2007 through 2011, the Eastern Territory entered into a total of six interest rate swap agreements with notional amounts totaling \$345,000 in order to hedge its interest rate risk on the Notes whereby the Eastern Territory agreed to pay a counterparty a fixed rate and the counterparty agreed to pay the Eastern Territory a variable interest rate intended to approximate the variable rate equal to 30-Day LIBOR (0.1930% at September 30, 2015 and 0.1541% at September 30, 2014) on the Eastern Territory's Commercial Paper and Term Loans.

Concurrent with the issuance of Term Loan B, the Eastern Territory has entered into an interest rate swap transaction with U.S. Bank in the notional amount of \$55,000, wherein the Eastern Territory agreed to pay U.S. Bank a fixed rate of interest equal to 2.149% of the notional amount and receive from U.S. Bank an interest payment equal to 30-Day LIBOR (0.1930% at September 30, 2015 and 0.1541% at September 30, 2014). The interest rate swap agreement issued concurrently with the 2007 Series B Notes was maintained to hedge interest rate risk on Term Loan A.

The Eastern Territory accounts for its interest rate swap agreements in accordance with *Accounting for Derivative Instruments and Hedging Activities*. Fair values of interest rate swap agreements are the estimated amounts that the Eastern Territory would have received or paid, including accrued interest, to terminate the agreements on the date of the consolidated statement of financial position. The estimated fair values of the agreements are recorded assets or liabilities within the consolidated statement of financial position. Changes in the estimated fair values are recorded in the consolidated statement of activities.

Mortgages Payable

United States Department of Housing and Urban Development

The Eastern Territory is obligated under various mortgages payable, which represent liabilities to the United States Department of Housing and Urban Development (“HUD”) related to the purchase of land and construction of buildings for senior citizens’ residences as well as for transitional and emergency shelter programs.

Funding from HUD has been in the form of mortgage notes and capital advances, some of which bear interest expense and for which repayment is not required as long as the Eastern Territory operates the programs stipulated by HUD. At the end of a 40-year period, the mortgage notes and capital advances payable to HUD are to be forgiven by HUD assuming that terms of the agreement are satisfied. Mortgages payable and capital advances in the amount of \$40,169 (which includes \$3,672 of HUD funds paid by the Eastern Territory to Fifth Third Bank and the Ohio Housing Finance Agency during fiscal 2015 pertaining to amounts outstanding as of September 30, 2014) and \$35,989 as of September 30, 2015 and 2014, respectively, have been included in mortgages and notes payable in the accompanying consolidated statements of financial position. All HUD mortgages and capital advances are collateralized by the related underlying assets.

One HUD mortgage, which requires principal and interest payments, is financed with Red Mortgage Capital, Inc. At September 30, 2015 and 2014, the amounts outstanding were \$5,834 and \$5,899, respectively, with interest payable at 5.4% per annum. The financing is collateralized by the related underlying assets.

Other Mortgages Payable

A mortgage which requires no current principle or interest payment, is financed with the New Jersey Department of Community Affairs. The mortgage is reduced by 20% per year over a five year period and repayment is not required unless The Salvation Army discontinues the related program or sells the underlying assets. At September 30, 2015 and 2014, the amounts outstanding were \$161 and \$201, respectively.

Five of these mortgages with amounts outstanding of \$2,192 do not require current payments of either principal or interest. Principal, accrued interest and current interest will become due in years subsequent to fiscal year 2016. These mortgages are collateralized by the related underlying assets.

Future principal payments due as of September 30, 2015 are as follows:

Through these transactions, the Eastern Territory issued leveraged loans receivables of \$7,054 to one investment fund in fiscal 2015 and \$12,663 to two investment funds in fiscal 2014, due in 2045 and 2044, respectively, with interest payments only on the loans until 2022 and 2021, respectively. The loans bear an interest rate of 1% and are unsecured. As of September 30, 2015 and 2014, amounts due to the Eastern Territory totaled \$19,717 and \$12,663, respectively, and are included in notes receivable on the accompanying consolidated statements of financial position.

In connection with the New Markets Tax Credits transactions, the Eastern Territory obtained loans payable for \$9,800 and \$17,641 for the Camden Kroc Center during the years ended September 30, 2015 and 2014, respectively, maturing in 2045 and 2044, respectively. The loans bear interest rates that range between 0.71% and 1.15%. Interest-only payments are required until maturity upon which time the entire principal balance will become due. As of September 30, 2015 and 2014, amounts payable by the Eastern Territory totaled \$27,441 and \$17,641, respectively, and are included in mortgages and notes payable on the accompanying consolidated statements of financial position.

At the closing of each of the respective New Markets Tax Credits transactions, the Eastern Territory and investor executed put and call option agreements that would grant the respective investor the right and option to cause the Eastern Territory to purchase (within three months after the seven-year compliance period) the investor's membership interests in the fund (the put) for a predetermined purchase price of approximately \$1. If the investor does not elect to put its interests to the Eastern Territory beyond the end of month 87, the Eastern Territory will have the right to call its purchase right in the fund for the current fair market value.

10. CONDITIONAL ASSET RETIREMENT OBLIGATIONS

The Eastern Territory is required to recognize a conditional asset retirement obligation (“CARO”) related to the cost associated with the eventual remediation and abatement of asbestos and other environmental hazards contained within its physical plant. The cost of the abatement was based upon a consultant’s estimate which specializes in such abatements. At September 30, 2015 and 2014, the CARO was \$60,939 and \$59,210, respectively. Land, buildings and equipment included capitalized conditional asset retirement obligations at a cost of \$13,185 and accumulated depreciation of \$12,128 and \$11,800 at September 30, 2015 and 2014, respectively. At September 30, 2015 and 2014, the estimated cost of abatement was \$54,800. At September 30, 2015 and 2014, the inflationary rate was 2.52% and the discount rate was 2.92%. For the years ended September 30, 2015 and 2014, the Eastern Territory recorded accretion expense of \$2,232 and \$2,348, respectively. During fiscal years 2015 and 2014, the remediation costs amounted to \$503 and \$398, respectively, and were recorded as a reduction to the CARO.

11. NET ASSET CLASSIFICATIONS

Temporarily restricted net assets are available for the following purposes or future periods at September 30, 2015 and 2014:

	<u>\$ 344,286</u>	<u>\$ 374,213</u>

While the Eastern Territory segregates and spends all donor restricted funds in accordance with donor intent (i.e. restriction), following a review of the Eastern Territory’s temporarily restricted net asset funds during fiscal year 2014, specifically the manner in which certain temporarily restricted funds were reflected on the consolidated statement of financial position, the Eastern Territory determined that donor restricted funds totaling \$63,549 were required to be transferred from board designated unrestricted net assets to temporarily restricted net assets.

Permanently restricted net assets as of September 30, 2015 and 2014 are restricted to investments in perpetuity, the income from which is expendable to support the following:

13. ENDOWMENTS

The Eastern Territory's endowment consists of approximately one thousand eight hundred individual funds established for a variety of purposes. Its endowment includes both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments. As required by US GAAP, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The New York Prudent Management of Institutional Funds Act ("NYPMIFA"), as enacted by the State of New York, applies to all the institutional funds of the Eastern Territory, unless the donor has specifically directed otherwise. The law updated prior rules regarding investment conduct, expenditure of funds, delegation of management and investment, and release or modification of restrictions. The most significant change made by the law was the elimination of the concept of "historic dollar value" for endowment funds. Under NYPMIFA, a detailed prudence standard governs appropriation from endowment funds, and there is no longer a requirement to maintain historic dollar value.

As a result of this interpretation, the Eastern Territory classifies as permanently restricted net assets (a) the original value of the gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Eastern Territory in a manner consistent with the standard of prudence prescribed by NYPMIFA. In accordance with NYPMIFA, the Board of Trustees considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purpose of the organization and the donor-restricted endowment fund
- General economic conditions
- The possible effects of inflation and deflation

- The expected total return from income and the appreciation of investments
- Other resources of the Eastern Territory
- The investment policies of the Eastern Territory

Spending Policy

The Eastern Territory has a policy of making available for distribution each year 5% of its endowment fund's average fair value over the prior 20 quarters. In establishing this policy, the Eastern Territory considered the long-term expected return on its endowment. Accordingly, over the long-term, the Eastern Territory expects its endowment assets to grow at a pace at least equal to inflation. This is consistent with the Eastern Territory's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

Return Objectives and Risk Parameters

The Eastern Territory has adopted investment policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Eastern Territory must hold in perpetuity or for donor-specified periods as well as board-designated funds. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of appropriate benchmarks without putting the assets at imprudent risk.

Strategies Employed for Achieving Objectives

To satisfy its long-term objectives, the Eastern Territory relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Eastern Territory targets a diverse asset allocation to achieve its long-term return objectives within prudent risk constraints.

The following table summarizes endowment net asset composition by type of fund as of September 30, 2015:

THE SALVATION ARMY - EASTERN TERRITORY
Notes to Consolidated Financial Statements (continued)
September 30, 2015 and 2014
(in thousands)

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that donors or NYPMIFA requires the Eastern Territory to retain as a fund of perpetual duration. In accordance with US GAAP, deficiencies of this nature that are reported in unrestricted net assets were \$145 and \$69 at September 30, 2015 and 2014, respectively. These deficiencies generally resulted from unfavorable market fluctuations that occurred after the investment of permanently restricted contributions and continued appropriation for certain programs that was deemed permanent by the Board of Trustees.

14. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used to estimate the fair value of certain items appearing on the consolidated statements of financial position for which it is practicable to estimate that value:

Cash and Cash Equivalents

Cash and cash equivalents consist principally of investments in short-term, interest-bearing instruments and are carried at cost plus accrued interest which approximates fair value.

Pledges Receivable

The fair value of pledges receivable, after allowances for uncollectible pledges, is determined by discounting the expected future cash flows by an appropriate rate of return.

Accounts Receivable

The carrying amount reported approximates its fair value.

Note Receivable

The carrying amount reported approximates its fair value.

Notes Payable

Due to the short-term nature of the Eastern Territory's commercial paper, the carrying amount approximates its fair value.

Mortgages and Other Notes Payable

The fair values of mortgages and other notes payable are significantly impacted by the terms of their agreements with HUD, for mortgages payable, and the deferred payment terms, for notes payable. Accordingly, the fair values of these instruments are not readily determinable.

15. COMMITMENTS AND CONTINGENCIES

Letters of Credit

As of September 30, 2015, the Eastern Territory has issued letters of credit totaling \$18,340 to insurance companies under various insurance programs. The Eastern Territory has additional letters of credit in the amount of \$304, relating to its obligation with the New York State Environmental Facilities Development Corporation. These letters of credit are collateralized by the Eastern Territory's cash and cash equivalents and renew automatically each year.

Limited Partnership Subscription Commitments

At September 30, 2015, the Eastern Territory had commitments to invest \$89,424 over a period of 11 years in various limited partnerships.

Real Estate and Construction Purchase Commitments

The Board of Trustees of the Eastern Territory had future capital commitments of approximately \$48,309 which was unspent as of September 30, 2015.

Leases

At September 30, 2015 and 2014, the Eastern Territory was committed under operating leases, principally for office space. Rent expense was \$10,955 and \$9,361 in fiscal years 2015 and 2014, respectively. Future minimum base rents under terms of noncancelable operating leases were as follows at September 30, 2015:

Fiscal Year

2016	\$	9,025
2017		6,242
2018		4,445
2019		2,240
2020		896
Thereafter		18
Total	\$	<u>22,866</u>

Litigation

The Eastern Territory is a defendant in several lawsuits arising in the normal course of operations. While outside counsel cannot predict the outcome of such litigation, management does not expect the outcome to have a material effect on the consolidated financial position, changes in net assets and cash flows of the Eastern Territory.

16. RELATED PARTY TRANSACTIONS

For fiscal years 2015 and 2014, the Eastern Territory made payments for administrative services to The Salvation Army National Headquarters of \$1,585 and \$1,447, respectively. In addition, for fiscal years 2015 and 2014, the Eastern Territory made payments to The Salvation Army International Headquarters of \$5,102 and \$4,839, respectively, for World Services and \$4,806 and \$9,628, respectively, for other mission grants and administrative services. The Eastern Territory also made a \$2,500 payment in fiscal 2015 to The Salvation Army International Headquarters for the International Pension fund.

17. ACCOUNTING FOR INCOME TAXES

Accounting for uncertainty in income taxes requires that a tax position be recognized or derecognized based on a "more likely than not" threshold. This applies to positions taken or expected to be taken in a tax return. The Eastern Territory has evaluated its tax positions and concluded that it does not have any uncertain tax positions that require recognition as of and for the years ended September 30, 2015 and 2014.

THE SALVATION ARMY - EASTERN TERRITORY
Notes to Consolidated Financial Statements (continued)
September 30, 2015 and 2014
(in thousands)

The tax years ended September 30, 2012, 2013, 2014 and 2015 are still open to audit for both federal and state purposes. There have been no material changes in unrecognized benefits as of September 30, 2015 and 2014, nor are any material changes anticipated in the twelve months following September 30, 2015.

18. SUBSEQUENT EVENTS

The Eastern Territory evaluated its September 30, 2015 consolidated financial statements for subsequent events through February 19, 2016, the date the consolidated financial statements were issued. Except as disclosed below, the Eastern Territory is not aware of any subsequent events which would require recognition or disclosure in the accompanying consolidated financial statements.

On October 16, 2015, the Eastern Territory closed on the sale of property for \$108,750, with a net book value of \$1,346, in exchange for cash proceeds of \$70,000 and a purchase money mortgage note of \$38,750. The principal amount is due on its maturity date of December 31, 2050, unless terminated earlier upon agreement of both parties to certain terms and conditions. Interest is payable monthly at 6% per annum. The Eastern Territory simultaneously entered into a long-term lease for the premises, expiring no later than October 15, 2045, with an annual base rent of \$2,325, subject to the same termination conditions included in the purchase money mortgage.

On December 29, 2015, the Eastern Territory entered into a New Markets Tax Credits transaction for the benefit of the Greater Cleveland Area Services ("GCAS"). Through this transaction, the Eastern Territory issued a leveraged loan receivable for approximately \$11,508 to an investment fund due in 2045. The loan bears an interest rate of 1.15%. Interest-only payments are required until 2022 and the loan is unsecured. In connection with the above transaction, the Eastern Territory obtained loans payable of \$17,435 for the GCAS. The loans bear an interest rate of 1%. Interest-only payments are required until maturity in 2045.

At the closing, the Eastern Territory and investor executed put and call option agreements that would grant the investor the right and option to cause the Eastern Territory to purchase (within three months after the seven-year compliance period) the investor's membership interests in the fund (the put) for a predetermined purchase price of approximately \$1. If the investor does not elect to put its interests to the Eastern Territory beyond the end of month 87, the Eastern Territory will have the right to call its purchase right in the fund for the current fair market value.

On February 17, 2016, the Eastern Territory issued a Supplement to the Offering Memorandum dated April 16, 2015 (the "Supplement"). As set forth in the Supplement, the Eastern Territory will reduce the principal amount of the Series 2007A Notes (see Note 9) to \$100,000, and will issue a new series of commercial paper notes in an amount up to \$100,000, which shall be denoted as Taxable Commercial Paper Notes, Series 2016A. J.P. Morgan Securities LLC, the dealer with respect to the 2007A Notes, will also act as dealer with respect to the Series 2016A Notes. JPMorgan Chase Bank, N.A. has agreed to provide \$100,000 of liquidity for the payment of maturing principal of the Series 2016A Notes pursuant to the terms of a Revolving Loan Agreement. U.S. Bank National Association is the issuing and paying agent.

EXPLANATION

This request is **retroactive** because award decisions were not made until June 9, 2015. Additionally, the selected vendors were delayed in returning executed contract documents in proper form to the Department.

The purpose of this request is for the provision of intervention services and/or emergency shelter and related services, including essential services, to homeless individuals.

This package includes two (2) of the twenty-seven (27) vendors chosen to receive State Grant-in-Aid Program funding, and represents \$451,028 of the total \$6,569,941 being funded. Twenty-five (23) of the contracts were previously approved by the Governor and Executive Council approval on the August 26, 2015 and two (2) contracts are anticipated to be scheduled for Governor and Executive Council approval on the September 16, 2015 meeting.

The State Grant-in-Aid (SGIA) Funds program provides funding support for the following:

Emergency Shelter - Any facility, the primary purpose of which is to provide temporary shelter for homeless individuals or families. Non-permanent shelter, which is crisis-oriented and designed to meet the basic needs of homeless clients. Allowable activities include: Essential Services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Transitional Shelter - A time-limited independent housing residence, designed to provide a person or family, safe semi-private housing and comprehensive supportive services. Case management, educational or rehabilitative programs and referrals help to strengthen resiliency, enhance life skills and financial independence, and prepare for a successful transition to permanent housing. Allowable activities include: Essential Services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and transitional shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Specialty Shelter - An emergency shelter for designed solely to serve the specialized needs of an identifiable subgroup of homeless individuals. Allowable activities include: Essential Services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and specialty shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Intervention Services – Non-shelter services that assist persons who are homeless, or at imminent risk of homelessness through case management, assisted referrals, or other targeted services intended to assist persons experiencing homelessness obtain or maintain shelter. Examples of intervention activities include (but are not limited to) information and referrals to assist clients in exiting homelessness, assessing a client's eligibility for shelter/housing placement, legal services, HMIS, and drop-in centers or other facilities where clients have access to case managers as well as telephone/internet access for education, housing, employment purposes.

The Department of Health of Human Services received a total of thirty-eight (38) applications from twenty-eight (28) agencies for State Grant-in-Aid Funding Program in response to a Request for Applications that was posted to the Departments website from December 5, 2014 through February 13, 2015. After review of the applicants by a team of qualified personnel from the Bureau of Homeless and Housing, twenty-seven (27) agencies were chosen. Priority was given to vendors that provide Emergency, Specialty and Transitional Shelter services.

The attached agreements call for the provision of these services for two years and reserves the Department's right to renew the agreements for up to two (2) additional years, based upon satisfactory delivery of services, and continued availability of funds and Governor and Executive Council approval.

Should Governor and Executive Council not authorize this request, individuals and families who are without housing and resources will resort to seeking local shelter in places that are not fit for people to live in, or will attempt to travel to shelters in other communities. This will increase the likelihood that homeless people will be in danger of injury or death, and will be cut off from basic supports for health, education and treatment.

BMCAP is being funded ahead of Veteran's Inc for the New Start program, although Veteran's inc (VI) scored higher than BMCAP.

The reason is because BMCAP is providing a homeless intervention program to the general population in 2 counties.

If not funded, there would be no Homeless Intervention services available in Belknap and Merrimack counties, which is unacceptable.

The VI program is a new project, and although statewide, serves a specific subpopulation of homeless (veterans) that represent less than 9% of the total homeless population in the state.

Given the limited resources available I believe it is imperative we fund services accessible to all over those accessible to a small sub population.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Trustees of
The Salvation Army - Eastern Territory

We have audited the accompanying consolidated financial statements of The Salvation Army - Eastern Territory (the "Eastern Territory"), which comprise the consolidated statements of financial position as of September 30, 2015 and 2014, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of The Salvation Army - Eastern Territory as of September 30, 2015 and 2014, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

1. PURPOSE AND ORGANIZATION

The Salvation Army, founded in 1865, is a not-for-profit international religious organization and charitable movement organized and operated on a quasi-military pattern and is a branch of the Christian Church. Its membership includes officers (clergy), soldiers and adherents (laity), members of various activity groups and volunteers who serve as advisors, associates and committed participants in its service functions.

The accompanying consolidated financial statements include all programs and operations of The Salvation Army - Eastern Territory (the "Eastern Territory") incorporated as The Salvation Army (A New York Corporation), with its corporate headquarters located in West Nyack, New York. The Eastern Territory comprises the states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Ohio and Northeast Kentucky, the Commonwealth of Puerto Rico and the U.S. Virgin Islands. The Eastern Territory also consolidates other related entities in which it has an economic interest and control. The centers of operation, which are the divisional headquarters, institutions, corps community centers, service extension units and adult rehabilitation centers, maintain their own standardized financial systems and accounting records under powers of attorney granted by corporate authority, and issue such reports and financial statements as may be called for locally, pertaining to the financial and property resources which they administer. All intercompany accounts and transactions have been eliminated.

The Eastern Territory is an organization exempt from income taxes under Section 501(a) as an entity described in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended and is exempt from state income taxes under related state provisions.

The Eastern Territory operates a variety of programs including corps community centers that provide spiritual, educational and recreational services; homeless and emergency shelters; senior citizens' residences, children's homes and children's day care centers; adult rehabilitation centers and substance abuse centers; emergency disaster services; assistance for the poor, disabled, and retired; jail and hospital visitation; and camping activities.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with the national accounting policies of The Salvation Army. These policies are consistent with accounting principles generally accepted in the United States of America ("US GAAP").

In order to observe restrictions which donors place on grants and other gifts, as well as designations made by the Board of Trustees, all assets, liabilities and activities are accounted for in the following net asset classifications:

Unrestricted Net Assets - not subject to donor-imposed restrictions. Unrestricted net assets may be designated for specific purposes or locations by actions of the Board of Trustees.

Temporarily Restricted Net Assets - subject to donor-imposed stipulations that may be fulfilled by actions of the Eastern Territory to meet the stipulations and/or become unrestricted at the date specified by the donor.

THE SALVATION ARMY - EASTERN TERRITORY
Notes to Consolidated Financial Statements (continued)
September 30, 2015 and 2014
(in thousands)

Permanently Restricted Net Assets - subject to donor-imposed stipulations that they be retained and invested permanently by the Eastern Territory. The donors require the Eastern Territory to use all or part of the investment return on these net assets for specified or unspecified purposes.

Support and revenue are recorded as increases in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions that are not fulfilled in the accounting period. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulations or by law. All expenses are reported as decreases in unrestricted net assets. Expirations of temporary restrictions on net assets, that is, the expiration of the donor-imposed stipulated purpose and/or the elapsing of the specified time period, are reported as net assets released from restrictions.

Contributions subject to donor-imposed restrictions are recorded as temporarily restricted support and are reclassified as unrestricted when the donor-imposed restriction has been fulfilled and/or the stipulated time period has elapsed. Contributions with donor-imposed restrictions that are met in the same accounting period are recorded as unrestricted income. Promises to give that are scheduled to be received after the end of the reporting period are shown as increases in temporarily restricted net assets and are released to unrestricted net assets when the purpose and/or time restriction is met. Promises to give subject to donor-imposed stipulations that the corpus be maintained permanently are recognized as increases in permanently restricted net assets. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions to be received after one year are discounted at a credit-adjusted discount rate. Amortization of the discount is recorded as contribution revenue.

During fiscal years 2015 and 2014, the Eastern Territory received notification of certain intentions to give. However, due to their conditional nature, these gifts have not been reflected in the accompanying consolidated financial statements.

Cash and Cash Equivalents

For purposes of these consolidated financial statements, cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to cash and have original maturities of three months or less. At September 30, 2015 and 2014, cash equivalents included \$20,017 and \$20,015, respectively, held in a money market account at a commercial bank as collateral for letters of credit for insurance purposes (see Note 15). Cash and cash equivalents do not include cash held temporarily in the long-term investment portfolio until suitable investments are identified.

Inventory

Inventory for goods purchased for resale is stated at the lower of weighted average cost or market. Inventory for goods donated for resale is based on estimated fair value.

Investments

The Eastern Territorial headquarters has the responsibility for investment activity for all units within the Eastern Territory for unrestricted assets, including board-designated assets; temporarily restricted assets; and permanently restricted assets. The temporarily restricted assets and the permanently restricted asset portfolios are maintained on a pooled "mutual fund" accounting basis, with the total earnings, investment expenses, appreciation and depreciation, whether realized or unrealized, being allocated to each participating account on a pro rata basis.

THE SALVATION ARMY - EASTERN TERRITORY
Notes to Consolidated Financial Statements (continued)

Income earned on unrestricted assets is distributed to the constituent accounts on the basis of a stated percentage of the monthly account balances during the year. Amounts so deposited may be withdrawn when required for use by the centers of operation. The excess (deficit) of investment income earned over amounts distributed is reported as unrestricted board-designated income. The Board of Trustees generally designates the use of portions of these excess funds for specified projects for use within the Eastern Territory.

Charitable gift annuities are maintained in a separate portfolio and are invested in accordance with applicable laws for such annuities. The Eastern Territory maintains assets sufficient to meet annuity requirements of various states.

Investment income and net appreciation (depreciation) on investments of donor endowments, whether permanently or temporarily restricted, are reported as follows:

- As increases in permanently restricted net assets if the terms of the gift or the Eastern Territory's interpretation of relevant state law requires that they be added back to the principal of the permanently restricted contributions.
- As increases in temporarily restricted net assets if the terms of the gift or the Eastern Territory's interpretation of relevant state law imposes restrictions on the current use of the investment income or net appreciation (depreciation).

Split-Interest Agreements

Accounting standards require that the following instruments be recorded as income and net assets at the present value of their ultimate Eastern Territory interest:

Trusts Held by a Third Party

Donors have established and funded trusts which are administered by organizations other than the Eastern Territory. Under the terms of these trusts, the Eastern Territory has the irrevocable right to receive all or a portion of the income earned on the trust assets either in perpetuity or for the life of the trust. The Eastern Territory does not control the assets held by outside trusts.

Charitable Remainder Trusts

Donors have established and funded trusts under which specified distributions are to be made to a designated beneficiary or beneficiaries over the trusts' term. Upon termination of the trusts, the Eastern Territory receives the assets remaining in the trusts. Trusts are recorded as increases to net assets at the fair value of trust assets, less the present value of the estimated future payments to be made under the specific terms of the trusts using the 2000 CM mortality table. The discount rates ranged from 4.0% to 10.0% at September 30, 2015 and 2014.

Charitable Gift Annuities

Donors have contributed assets to the Eastern Territory in exchange for a promise by the Eastern Territory to pay a fixed amount or percentage for a specified period of time to the donors or to individuals or organizations designated by the donors. Under the terms of such agreements, the assets received are held by, and the annuity liability is an obligation of, the Eastern Territory. The discount rates ranged from 1.2% to 11.6% at September 30, 2015 and 2014. In fiscal years 2015 and 2014, the assumptions used in

the valuation of the annuity liability include mortality data in accordance with the 2000 CM mortality table.

Pooled (Life) Income Funds

The Eastern Territory manages a life income fund. The fund is divided into units, and contributions from many donors are pooled and invested as a group. Donors are assigned a specific number of units based on the proportion of the fair value of their contributions to the total fair value of the pooled income fund on the date of the donor's entry into the pooled fund. The donor is paid the actual income earned on those units until his or her death. Upon the donor's death, the value of these assigned units reverts to the Eastern Territory.

The Eastern Territory recognizes its interest in the assets received as contribution revenue, at the fair value of the assets received net of a discount for future interest based on the life expectancy of the donor, calculated using the 2000 CM mortality table. The discount rates ranged from 2.73% to 11.2% at September 30, 2015 and 2014.

Land, Buildings and Equipment

Land, buildings and equipment are stated at cost or, if donated, at fair market value at date of donation.

Support and Revenue

All items of support and revenue are stated on the accrual basis, including amounts which are receivable under the terms and provisions of cost reimbursement contracts with government units and other third-party payers.

Donations-in-Kind and Contributed Services

Material gifts-in-kind items used in the Eastern Territory's Corps and Unit programs and services (e.g., vehicles, free rent, equipment) and donated goods distributed (e.g., clothing, furniture, food) are recorded as income and expense at the time the items are received or distributed, respectively.

Goods donated for sale in the Eastern Territory's adult rehabilitation centers and thrift stores are recorded as contributions and processed donations-in-kind on the basis of a percentage of sales income determined by historical trend studies.

Contributed land, buildings and equipment are recorded at fair value at the date of donation as unrestricted support and revenue unless the use of such contributed assets is restricted by a donor-imposed restriction. The Eastern Territory does not imply a time restriction to contributions of long lived assets.

Contributed services are reported as contributions at their fair value if such services create or enhance nonfinancial assets, would have been purchased if not provided by contributions, require specialized skills and are provided by individuals possessing such specialized skills.

Expenses

All expenses are stated on the accrual basis and are presented in the accompanying consolidated statements of activities and functional expenses. Certain costs have been allocated among the programs and supporting services benefited.

Depreciation

The Eastern Territory capitalizes equipment purchased in excess of \$10. Depreciation is provided on buildings, vehicles and equipment at straight-line rates based on estimated service lives. The estimated service lives for buildings and improvements are 20-50 years and 4-20 years for vehicles and equipment. For buildings, a half year of depreciation is charged in the year of acquisition or completion of construction, and in the year of disposition. For vehicles and equipment, a full year of depreciation is charged in the year of acquisition and no depreciation is charged in the year of disposition.

Depreciation is also provided on equipment used in cost-reimbursement programs that provide for reimbursement of depreciation by a third-party payer.

Provision is made for major future costs of property maintenance and replacement of vehicles and some equipment by transfer of operating net assets to board-designated unrestricted net assets.

Concentration of Credit Risk

Financial instruments which potentially subject the Eastern Territory to concentrations of credit risk consist primarily of cash and cash equivalents and investment securities. The Eastern Territory maintains its cash and cash equivalents with large financial institutions. At certain times, the Eastern Territory's cash account balances may exceed federally insured limits. However, the Eastern Territory has not experienced, nor does it anticipate, any losses with respect to such bank balances. The Eastern Territory's investment portfolio is diversified with several investment managers in a variety of asset classes. The Eastern Territory regularly evaluates its depository arrangements and investments, including performance thereof.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from these estimates.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, *Revenue from Contracts with Customers*, which supersedes most of the current revenue recognition requirements. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. The guidance provides a five-step analysis of transactions to determine when and how revenue is recognized. Other major provisions include capitalization of certain contract costs, consideration of time value of money in the transaction price, and allowing estimates of variable consideration to be recognized before contingencies are resolved in certain circumstances. The guidance also requires enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. The guidance is effective for the interim and annual periods on or after December 15, 2017 (early adoption is not permitted). The guidance permits the use of either a retrospective or cumulative effect transition method. The adoption of ASU 2014-09 is not expected to have a material impact on the Eastern Territory's consolidated financial statements.

FASB Accounting Standards Codification (“ASC”) Topic 820, *Fair Value Measurements*, permits a reporting entity, as a practical expedient, to measure the fair value of certain investments using a net asset value (“NAV”) per share of the investment, or its equivalent. In May 2015, the FASB issued ASU 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendments in this update are effective for fiscal years beginning after December 15, 2016, however early adoption is permitted. The reporting entity is required upon adoption to apply the amendments retrospectively to all periods presented.

The Eastern Territory early adopted ASU 2015-07 effective October 1, 2014, and has applied the amendments retroactively for all periods presented, as required by the ASU. The adoption of this new guidance by the Eastern Territory only amended disclosure requirements and did not have an impact on the Eastern Territory’s consolidated financial statements for the periods presented.

Reclassification

Certain information in the fiscal 2014 consolidated financial statements has been reclassified to conform to the fiscal 2015 presentation. Specific assistance to individuals expense which was formerly reported as part of other social services, has been allocated amongst all program service expense functions. Such reclassifications did not change total assets, liabilities, revenues, expenses or changes in net assets as reflected on the 2014 consolidated financial statements.

3. PLEDGES RECEIVABLE, NET

Unconditional promises to give, that are expected to be collected within one year, are recorded at net realizable value. Unconditional promises to give, that are expected to be collected in future years, are recorded at the present value of their estimated future cash flows using a credit-adjusted discount rate.

Unconditional promises to give included the following at September 30, 2015 and 2014:

	<u>2015</u>	<u>2014</u>
Unconditional promises to give due in:		
Less than one year	\$ 5,161	\$ 5,280
One year to five years	7,305	5,367

Allowance for uncollectibles	<u>(1,220)</u>	<u>(1,033)</u>
Net unconditional promises to give	<u>\$ 12,374</u>	<u>\$ 10,912</u>

At September 30, 2015 and 2014, the interest rates used to discount pledges receivable to present value ranged from 0.23% to 3.93%.

4. INVESTMENTS

Investments consist of equity and debt securities, federal and state government obligations, mutual funds, certificates of deposit, money market securities, private equity, timber, real estate, hedge funds, commodities, and commingled funds, and are carried at fair value. Investments in marketable securities are stated principally at published market prices. The fair value of other investments, primarily alternative investments, is based upon the most recent information obtained from the fund managers. Earnings on investments, including interest, dividends and realized and unrealized gains and losses, are reported as other revenues on the accompanying consolidated statements of activities.

Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with investments, it is reasonably possible that changes in risk in the near term would materially affect the amounts reported in the consolidated statements of financial position.

Investments, at fair value, consisted of the following at September 30, 2015 and 2014:

	<u>2015</u>	<u>2014</u>
Marketable securities:

Corporate bonds and other fixed income securities	147,526	206,332
Federal and state government securities	54,344	131,370
Equity securities	899,340	850,468
Mutual funds	<u>101,016</u>	<u>136,256</u>
Total marketable securities	<u>1,281,604</u>	<u>1,461,317</u>

Real estate	114,048	111,442
Hedge funds	411,776	429,135
Commingled funds	330,248	343,514
Commodities	<u>33,800</u>	<u>45,238</u>
Total alternative investments	<u>1,075,193</u>	<u>1,117,226</u>
Receivables for securities sold	57,073	127,211

Total investments, at fair value	<u>\$ 2,349,128</u>	<u>\$ 2,538,672</u>

Investment expenses reducing dividends and interest revenue in the accompanying consolidated statements of activities were \$24,164 and \$17,307 for the years ended September 30, 2015 and 2014, respectively.

5. FAIR VALUE MEASUREMENTS

US GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date.

US GAAP establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This fair value hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value hierarchy is categorized into three levels based on inputs as follows:

- Level 1: Quoted market prices for identical assets or liabilities to which an entity has access at the measurement date.
- Level 2: Inputs and information other than quoted market indices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include the following:
 - a. Quoted prices for similar assets or liabilities in active markets.
 - b. Quoted prices for identical or similar assets in markets that are not active.
 - c. Observable inputs other than quoted prices for the asset or liability.
 - d. Inputs derived principally from, or corroborated by, observable market data by correlation or by other means.
- Level 3: Inputs that are unobservable and significant to the overall fair value measurement of the asset or liability.

Observable inputs reflect the assumptions market participants would use in pricing the asset or liability developed from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The Eastern Territory has segregated all financial assets and liabilities that are measured at fair value on a recurring basis (at least annually), except for those investments and assets of trusts administered by the Eastern Territory measured at fair value using the NAV per share practical expedient, into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value.

The Eastern Territory uses the NAV per share or its equivalent as a practical expedient to determine the fair value of all the underlying investments, which (a) do not have a readily determinable fair value and (b) prepare their financial statements consistent with the measurement principles of an investment company or have the attributes of an investment company.

6. PENSION, RETIREMENT AND OTHER POSTRETIREMENT PLANS

Employee Pension Plans

Eligible employees participate in the Employee Pension Plan and Trust Agreement (the "Plan") with other Salvation Army Territories, which provides for death, disability and retirement benefits. The Plan is a defined contribution, money purchase plan.

Annual contributions to the Plan are based on a stipulated 6% of employees' salaries. The Eastern Territory incurred \$10,303 and \$9,981 of expenses under this plan in fiscal years 2015 and 2014, respectively. The Eastern Territory has recorded a liability for contributions accrued under the Plan of \$1,782 and \$1,961 as of September 30, 2015 and 2014, respectively, and are included on the accompanying consolidated statements of financial position as part of liability for pension and other postretirement benefits.

The Eastern Territory has designated assets of \$5,719 and \$6,027 as of September 30, 2015 and 2014, respectively, for an inactive money purchase pension plan for employees whose benefits were frozen as of April 30, 1977. The liability for benefits accrued under this plan of \$5,719 and \$6,027 as of September 30, 2015 and 2014, respectively, are included on the accompanying consolidated statements of financial position as part of liability for pension and other postretirement benefits.

7. OFFICERS' RETIREMENT PROVISIONS AND OTHER POSTRETIREMENT BENEFITS

The Eastern Territory has a retirement provision for officers which provides retirement benefits, as defined by The Salvation Army policy governing such benefits. Retirement allowances are determined based upon active officer allowances and length of service. They are self-funded principally by annual assessments to all centers of operation, by designated portions of legacy income, by earnings on assets designated for retirement benefits and by special appropriations. Such designated assets, which were \$44,152 and \$40,602 as of September 30, 2015 and 2014, respectively, are included in unrestricted board-designated net assets. These assets may be reallocated for other purposes at any time by the Eastern Territory's Board of Trustees.

The Eastern Territory also provides certain healthcare and death benefits for retired Salvation Army officers as part of the retirement provision for officers. All Eastern Territory officers and their eligible dependents are eligible for these benefits, as defined by the Eastern Territory policy. Provisions for these benefits are self-funded in a manner similar to officers' retirement benefits. Such designated assets, which were \$97,512 and \$108,922 as of September 30, 2015 and 2014, respectively, are included in unrestricted board-designated net assets. These assets may be reallocated for other purposes at any time by the Eastern Territory's Board of Trustees.

US GAAP requires the recognition of an asset or liability for the funded status of defined pension and other post-retirement benefit plans in the statements of financial position of the sponsoring entity. The funded status of a benefit plan is measured as the difference between plan assets at fair value and the benefit obligation. For a defined benefit pension plan, the benefit obligation is the projected benefit obligation ("PBO"). For any other defined benefit post-retirement benefit plan, such as a retiree healthcare plan, the benefit obligation is the accumulated post-retirement benefit obligation. The initial incremental recognition of the funded status for the defined pension and other post-retirement benefit plans, as well as subsequent changes in funded status that are not included in net periodic benefit cost, is reflected in a separate line item within changes in net assets.

8. ESTIMATED LIABILITY FOR SELF-INSURANCE CLAIMS

Officers and employees of the Eastern Territory are provided health benefits under a self-insured program which is administered by a third-party claims administrator. The employee medical plan is funded by employee contributions and annual assessments to all centers of operations.

The Eastern Territory also maintains self-insurance programs for general liability, automobile, workers' compensation, and property coverage. The programs are administered by the Eastern Territory Headquarters and are intended to provide coverage for claims arising in all centers of operations. Funding for these programs is obtained through assessments to all centers of operations for each line of coverage and through earnings on designated assets held to pay claims. Assets designated by the Eastern Territory's Board of Trustees for insurance programs amounted to \$85,034 and \$91,591 at September 30, 2015 and 2014, respectively, and were included in board-designated net assets. The Board may reallocate these assets for other purposes as deemed necessary.

Liabilities for self-insurance claims have been developed based on an actuarial model based on historical claims and industry experience. As of September 30, 2015 and 2014, the actuarially determined liabilities consisted of the following:

<u>2015</u>	<u>Case Reserve</u>	<u>Incurred But Not Reported</u>	<u>Total</u>

Mortgages Payable

United States Department of Housing and Urban Development

The Eastern Territory is obligated under various mortgages payable, which represent liabilities to the United States Department of Housing and Urban Development (“HUD”) related to the purchase of land and construction of buildings for senior citizens’ residences as well as for transitional and emergency shelter programs.

Funding from HUD has been in the form of mortgage notes and capital advances, some of which bear interest expense and for which repayment is not required as long as the Eastern Territory operates the programs stipulated by HUD. At the end of a 40-year period, the mortgage notes and capital advances payable to HUD are to be forgiven by HUD assuming that terms of the agreement are satisfied. Mortgages payable and capital advances in the amount of \$40,169 (which includes \$3,672 of HUD funds paid by the Eastern Territory to Fifth Third Bank and the Ohio Housing Finance Agency during fiscal 2015 pertaining to amounts outstanding as of September 30, 2014) and \$35,989 as of September 30, 2015 and 2014, respectively, have been included in mortgages and notes payable in the accompanying consolidated statements of financial position. All HUD mortgages and capital advances are collateralized by the related underlying assets.

One HUD mortgage, which requires principal and interest payments, is financed with Red Mortgage Capital, Inc. At September 30, 2015 and 2014, the amounts outstanding were \$5,834 and \$5,899, respectively, with interest payable at 5.4% per annum. The financing is collateralized by the related underlying assets.

Other Mortgages Payable

A mortgage which requires no current principle or interest payment, is financed with the New Jersey Department of Community Affairs. The mortgage is reduced by 20% per year over a five year period and repayment is not required unless The Salvation Army discontinues the related program or sells the underlying assets. At September 30, 2015 and 2014, the amounts outstanding were \$161 and \$201, respectively.

At September 30, 2015 and 2014, the Eastern Territory had multiple mortgages payable outstanding aggregating \$7,410 and \$7,814, respectively, inclusive of accrued interest payable of \$639 and \$588, respectively, with interest payable at rates varying from 0.00% to 10.00% per annum with maturities through fiscal year 2047. Five of these mortgages with amounts outstanding of \$2,192 do not require current payments of either principal or interest. Principal, accrued interest and current interest will become due in years subsequent to fiscal year 2016. These mortgages are collateralized by the related underlying assets.

Future principal payments due as of September 30, 2015 are as follows:

New Markets Tax Credits

The Eastern Territory entered into New Markets Tax Credits transactions for the benefit of the Camden Kroc Center during the years ended September 30, 2015 and 2014. Through these transactions, the Eastern Territory issued leveraged loans receivables of \$7,054 to one investment fund in fiscal 2015 and \$12,663 to two investment funds in fiscal 2014, due in 2045 and 2044, respectively, with interest payments only on the loans until 2022 and 2021, respectively. The loans bear an interest rate of 1% and are unsecured. As of September 30, 2015 and 2014, amounts due to the Eastern Territory totaled \$19,717 and \$12,663, respectively, and are included in notes receivable on the accompanying consolidated statements of financial position.

In connection with the New Markets Tax Credits transactions, the Eastern Territory obtained loans payable for \$9,800 and \$17,641 for the Camden Kroc Center during the years ended September 30, 2015 and 2014, respectively, maturing in 2045 and 2044, respectively. The loans bear interest rates that range between 0.71% and 1.15%. Interest-only payments are required until maturity upon which time the entire principal balance will become due. As of September 30, 2015 and 2014, amounts payable by the Eastern Territory totaled \$27,441 and \$17,641, respectively, and are included in mortgages and notes payable on the accompanying consolidated statements of financial position.

At the closing of each of the respective New Markets Tax Credits transactions, the Eastern Territory and investor executed put and call option agreements that would grant the respective investor the right and option to cause the Eastern Territory to purchase (within three months after the seven-year compliance period) the investor's membership interests in the fund (the put) for a predetermined purchase price of approximately \$1. If the investor does not elect to put its interests to the Eastern Territory beyond the end of month 87, the Eastern Territory will have the right to call its purchase right in the fund for the current fair market value.

10. CONDITIONAL ASSET RETIREMENT OBLIGATIONS

The Eastern Territory is required to recognize a conditional asset retirement obligation (“CARO”) related to the cost associated with the eventual remediation and abatement of asbestos and other environmental hazards contained within its physical plant. The cost of the abatement was based upon a consultant’s estimate which specializes in such abatements. At September 30, 2015 and 2014, the CARO was \$60,939 and \$59,210, respectively. Land, buildings and equipment included capitalized conditional asset retirement obligations at a cost of \$13,185 and accumulated depreciation of \$12,128 and \$11,800 at September 30, 2015 and 2014, respectively. At September 30, 2015 and 2014, the estimated cost of abatement was \$54,800. At September 30, 2015 and 2014, the inflationary rate was 2.52% and the discount rate was 2.92%. For the years ended September 30, 2015 and 2014, the Eastern Territory recorded accretion expense of \$2,232 and \$2,348, respectively. During fiscal years 2015 and 2014, the remediation costs amounted to \$503 and \$398, respectively, and were recorded as a reduction to the CARO.

11. NET ASSET CLASSIFICATIONS

Temporarily restricted net assets are available for the following purposes or future periods at September 30, 2015 and 2014:

	<u>2015</u>	<u>2014</u>
Character building/social programs	\$ 250,995	\$ 285,919

Pledges to be paid in future periods	<u>10,217</u>	<u>7,114</u>
	<u>\$ 344,286</u>	<u>\$ 374,213</u>

While the Eastern Territory segregates and spends all donor restricted funds in accordance with donor intent (i.e. restriction), following a review of the Eastern Territory’s temporarily restricted net asset funds during fiscal year 2014, specifically the manner in which certain temporarily restricted funds were reflected on the consolidated statement of financial position, the Eastern Territory determined that donor restricted funds totaling \$63,549 were required to be transferred from board designated unrestricted net assets to temporarily restricted net assets.

Permanently restricted net assets as of September 30, 2015 and 2014 are restricted to investments in perpetuity, the income from which is expendable to support the following:

	<u>2015</u>	<u>2014</u>
Character building/social programs	\$ 379,737	\$ 371,849

Total net assets released from restrictions	<u>\$ 62,062</u>	<u>\$ 55,325</u>

13. ENDOWMENTS

The Eastern Territory's endowment consists of approximately one thousand eight hundred individual funds established for a variety of purposes. Its endowment includes both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments. As required by US GAAP, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The New York Prudent Management of Institutional Funds Act ("NYPMIFA"), as enacted by the State of New York, applies to all the institutional funds of the Eastern Territory, unless the donor has specifically directed otherwise. The law updated prior rules regarding investment conduct, expenditure of funds, delegation of management and investment, and release or modification of restrictions. The most significant change made by the law was the elimination of the concept of "historic dollar value" for endowment funds. Under NYPMIFA, a detailed prudence standard governs appropriation from endowment funds, and there is no longer a requirement to maintain historic dollar value.

As a result of this interpretation, the Eastern Territory classifies as permanently restricted net assets (a) the original value of the gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Eastern Territory in a manner consistent with the standard of prudence prescribed by NYPMIFA. In accordance with NYPMIFA, the Board of Trustees considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purpose of the organization and the donor-restricted endowment fund
- General economic conditions
- The possible effects of inflation and deflation

- The expected total return from income and the appreciation of investments
- Other resources of the Eastern Territory
- The investment policies of the Eastern Territory

Spending Policy

The Eastern Territory has a policy of making available for distribution each year 5% of its endowment fund's average fair value over the prior 20 quarters. In establishing this policy, the Eastern Territory considered the long-term expected return on its endowment. Accordingly, over the long-term, the Eastern Territory expects its endowment assets to grow at a pace at least equal to inflation. This is consistent with the Eastern Territory's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

Return Objectives and Risk Parameters

The Eastern Territory has adopted investment policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Eastern Territory must hold in perpetuity or for donor-specified periods as well as board-designated funds. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of appropriate benchmarks without putting the assets at imprudent risk.

Strategies Employed for Achieving Objectives

To satisfy its long-term objectives, the Eastern Territory relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Eastern Territory targets a diverse asset allocation to achieve its long-term return objectives within prudent risk constraints.

The following table summarizes endowment net asset composition by type of fund as of September 30, 2015:

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that donors or NYPMIFA requires the Eastern Territory to retain as a fund of perpetual duration. In accordance with US GAAP, deficiencies of this nature that are reported in unrestricted net assets were \$145 and \$69 at September 30, 2015 and 2014, respectively. These deficiencies generally resulted from unfavorable market fluctuations that occurred after the investment of permanently restricted contributions and continued appropriation for certain programs that was deemed permanent by the Board of Trustees.

14. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used to estimate the fair value of certain items appearing on the consolidated statements of financial position for which it is practicable to estimate that value:

Cash and Cash Equivalents

Cash and cash equivalents consist principally of investments in short-term, interest-bearing instruments and are carried at cost plus accrued interest which approximates fair value.

Pledges Receivable

The fair value of pledges receivable, after allowances for uncollectible pledges, is determined by discounting the expected future cash flows by an appropriate rate of return.

Accounts Receivable

The carrying amount reported approximates its fair value.

Note Receivable

The carrying amount reported approximates its fair value.

Notes Payable

Due to the short-term nature of the Eastern Territory's commercial paper, the carrying amount approximates its fair value.

Mortgages and Other Notes Payable

The fair values of mortgages and other notes payable are significantly impacted by the terms of their agreements with HUD, for mortgages payable, and the deferred payment terms, for notes payable. Accordingly, the fair values of these instruments are not readily determinable.

15. COMMITMENTS AND CONTINGENCIES

Letters of Credit

As of September 30, 2015, the Eastern Territory has issued letters of credit totaling \$18,340 to insurance companies under various insurance programs. The Eastern Territory has additional letters of credit in the amount of \$304, relating to its obligation with the New York State Environmental Facilities Development Corporation. These letters of credit are collateralized by the Eastern Territory's cash and cash equivalents and renew automatically each year.

Limited Partnership Subscription Commitments

At September 30, 2015, the Eastern Territory had commitments to invest \$89,424 over a period of 11 years in various limited partnerships.

Real Estate and Construction Purchase Commitments

The Board of Trustees of the Eastern Territory had future capital commitments of approximately \$48,309 which was unspent as of September 30, 2015.

Leases

At September 30, 2015 and 2014, the Eastern Territory was committed under operating leases, principally for office space. Rent expense was \$10,955 and \$9,361 in fiscal years 2015 and 2014, respectively. Future minimum base rents under terms of noncancelable operating leases were as follows at September 30, 2015:

Fiscal Year

2016	\$	9,025

Litigation

The Eastern Territory is a defendant in several lawsuits arising in the normal course of operations. While outside counsel cannot predict the outcome of such litigation, management does not expect the outcome to have a material effect on the consolidated financial position, changes in net assets and cash flows of the Eastern Territory.

16. RELATED PARTY TRANSACTIONS

For fiscal years 2015 and 2014, the Eastern Territory made payments for administrative services to The Salvation Army National Headquarters of \$1,585 and \$1,447, respectively. In addition, for fiscal years 2015 and 2014, the Eastern Territory made payments to The Salvation Army International Headquarters of \$5,102 and \$4,839, respectively, for World Services and \$4,806 and \$9,628, respectively, for other mission grants and administrative services. The Eastern Territory also made a \$2,500 payment in fiscal 2015 to The Salvation Army International Headquarters for the International Pension fund.

17. ACCOUNTING FOR INCOME TAXES

Accounting for uncertainty in income taxes requires that a tax position be recognized or derecognized based on a "more likely than not" threshold. This applies to positions taken or expected to be taken in a tax return. The Eastern Territory has evaluated its tax positions and concluded that it does not have any uncertain tax positions that require recognition as of and for the years ended September 30, 2015 and 2014.

The tax years ended September 30, 2012, 2013, 2014 and 2015 are still open to audit for both federal and state purposes. There have been no material changes in unrecognized benefits as of September 30, 2015 and 2014, nor are any material changes anticipated in the twelve months following September 30, 2015.

18. SUBSEQUENT EVENTS

The Eastern Territory evaluated its September 30, 2015 consolidated financial statements for subsequent events through February 19, 2016, the date the consolidated financial statements were issued. Except as disclosed below, the Eastern Territory is not aware of any subsequent events which would require recognition or disclosure in the accompanying consolidated financial statements.

On October 16, 2015, the Eastern Territory closed on the sale of property for \$108,750, with a net book value of \$1,346, in exchange for cash proceeds of \$70,000 and a purchase money mortgage note of \$38,750. The principal amount is due on its maturity date of December 31, 2050, unless terminated earlier upon agreement of both parties to certain terms and conditions. Interest is payable monthly at 6% per annum. The Eastern Territory simultaneously entered into a long-term lease for the premises, expiring no later than October 15, 2045, with an annual base rent of \$2,325, subject to the same termination conditions included in the purchase money mortgage.

On December 29, 2015, the Eastern Territory entered into a New Markets Tax Credits transaction for the benefit of the Greater Cleveland Area Services ("GCAS"). Through this transaction, the Eastern Territory issued a leveraged loan receivable for approximately \$11,508 to an investment fund due in 2045. The loan bears an interest rate of 1.15%. Interest-only payments are required until 2022 and the loan is unsecured. In connection with the above transaction, the Eastern Territory obtained loans payable of \$17,435 for the GCAS. The loans bear an interest rate of 1%. Interest-only payments are required until maturity in 2045.

At the closing, the Eastern Territory and investor executed put and call option agreements that would grant the investor the right and option to cause the Eastern Territory to purchase (within three months after the seven-year compliance period) the investor's membership interests in the fund (the put) for a predetermined purchase price of approximately \$1. If the investor does not elect to put its interests to the Eastern Territory beyond the end of month 87, the Eastern Territory will have the right to call its purchase right in the fund for the current fair market value.

On February 17, 2016, the Eastern Territory issued a Supplement to the Offering Memorandum dated April 16, 2015 (the "Supplement"). As set forth in the Supplement, the Eastern Territory will reduce the principal amount of the Series 2007A Notes (see Note 9) to \$100,000, and will issue a new series of commercial paper notes in an amount up to \$100,000, which shall be denoted as Taxable Commercial Paper Notes, Series 2016A. J.P. Morgan Securities LLC, the dealer with respect to the 2007A Notes, will also act as dealer with respect to the Series 2016A Notes. JPMorgan Chase Bank, N.A. has agreed to provide \$100,000 of liquidity for the payment of maturing principal of the Series 2016A Notes pursuant to the terms of a Revolving Loan Agreement. U.S. Bank National Association is the issuing and paying agent.

EXPLANATION

This request is **retroactive** because the awards were not made until June 9th, 2015.

The purpose of this request is for the provision of intervention services and/or emergency shelter and related services, including essential services, to homeless individuals.

This package includes twenty-three (23) of the twenty-seven (27) vendors chosen to receive State Grant-in-Aid Program funding, and represents \$5,759,549 of the total \$6,569,941 being funded.

The State Grant-in-Aid (SGIA) Funds program provides funding support for the following:

Emergency Shelter - Any facility, the primary purpose of which is to provide temporary shelter for homeless individuals or families. Non-permanent shelter, which is crisis-oriented and designed to meet the basic needs of homeless clients. Allowable activities include: Essential Services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Transitional Shelter - A time-limited independent housing residence, designed to provide a person or family, safe semi-private housing and comprehensive supportive services. Case management, educational or rehabilitative programs and referrals help to strengthen resiliency, enhance life skills and financial independence, and prepare for a successful transition to permanent housing. Allowable activities include: Essential Services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and transitional shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Specialty Shelter - An emergency shelter for designed solely to serve the specialized needs of an identifiable subgroup of homeless individuals. Allowable activities include: Essential Services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and specialty shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Intervention Services – Non-shelter services that assist persons who are homeless, or at imminent risk of homelessness through case management, assisted referrals, or other targeted services intended to assist persons experiencing homelessness obtain or maintain shelter. Examples of intervention activities include (but are not limited to) information and referrals to assist clients in exiting homelessness, assessing a client's eligibility for shelter/housing placement, legal services, HMIS, and drop-in centers or other facilities where clients have access to case managers as well as telephone/internet access for education, housing, employment purposes.

The Department of Health of Human Services received a total of thirty-eight (38) applications from twenty-eight (28) agencies for State Grant-in-Aid Funding Program in response to a Request for Applications that was posted to the Departments website from December 5, 2014 through February 13, 2015. After review of the applicants, by a team of qualified personnel from the Bureau of Homeless and Housing, twenty-seven (27) agencies were chosen. Priority was given to vendors that provide Emergency, Specialty and Transitional Shelter services.

The attached agreements call for the provision of these services for two years and reserves the Department's right to renew the agreements for up to two (2) additional years, based upon satisfactory delivery of services, and continued availability of funds and Governor and Executive Council approval.

Should Governor and Executive Council not authorized this request, Individuals and families who are without housing and resources will resort to seeking local shelter in places that are not fit for people to live in, or will attempt to travel to shelters in other communities. This will increase the likelihood that homeless people will be in danger of injury or death, and will be cut off from basic supports for health, education and treatment.

BMCAP is being funded ahead of Veteran's Inc for the New Start program, although Veteran's Inc (VI) scored higher than BMCAP. The reason is because BMCAP is providing a homeless intervention program to the general population in 2 counties. If not funded, there would be no Homeless Intervention services available in Belknap and Merrimack counties, which is unacceptable. The VI program is a new project, and although statewide, serves a specific subpopulation of homeless (veterans) that represent less than 9% of the total homeless population in the state. Given the limited resources available I believe it is imperative we fund services accessible to all over those accessible to a small sub population.

We have audited the accompanying financial statements of The Way Home, Inc., (a nonprofit organization), which comprise the statement of financial position as of June 30, 2016, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Way Home, Inc., as of June 30, 2016, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of functional expenses on page 5 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. THE WAY HOME, INC.
NOTES TO FINANCIAL STATEMENTS
June 30, 2016 and 2015

1. NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Organization's first program, a security deposit loan program, was created in 1987/88 by the Greater Manchester Low Income Housing Network in response to housing concerns identified in a United Way Community Needs Study. Services began in Manchester, NH in January 1988 under a fiscal agent with the Network serving as an Advisory Committee. The Organization was incorporated as a NH nonprofit on August 25, 1989 to assure continuation of this housing assistance program. It was originally known as The Security Deposit Loan Fund of Greater Manchester. Its primary purpose was to make loans that will be utilized for the security deposits, targeting low-income households, which, without the security deposit loan and housing counseling services would otherwise remain or become homeless.

During the fiscal year ended June 30, 1998, the Organization changed its' name to The Way Home, Inc. The Organization believed this new name more effectively reflected the purpose of the Organization, more properly represented the growth of purpose from its original concept, and more easily linked into the service areas that clients will need.

The Organization's office is located in Manchester, New Hampshire. Services provided include:

- Homeless prevention, outreach & intervention services, including homelessness prevention grants
- Rental housing counseling which teach tenants self-help skills, provides housing advocacy, and assists with landlord negotiations
- Financial management education for homeless persons, low income renters, and at-risk homeowners
- Housing counseling for at-risk home owners with a focus on foreclosure prevention
- Steps to success coaching and workshops on self-sufficiency skills
- Healthy home services to help address in-home environmental hazards with a special focus on vulnerable populations
- A housing resource center, a welcoming week-day facility for homeless and at-risk individuals
- Transitional housing apartments for homeless children and their families
- Development and/or management of supportive housing for several special needs populations, including chronically homeless individuals/families and homeless veterans
- Community advocacy to help the voice of low income households be heard on housing related issues

Method of Accounting

The Organization uses the accrual method of accounting, recognizing income when earned rather than received and expenses when incurred rather than when paid.

1. NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Standards of Accounting and Financial Reporting

During 1995, the Organization adopted Statement of Financial Accounting Standards (SFAS) No. 116, Accounting for Contributions Received and Made, and SFAS No. 117, Financial Statements for Not-for-Profit Organizations. SFAS No. 116 requires that certain unconditional promises to give (pledges) and contributions be recorded as support in the period received.

SFAS No. 117 establishes standards for general purpose external financial statements for not-for-profit organizations and requires that resources be classified for accounting and reporting categories according to externally (donor) imposed restrictions as follows:

Unrestricted Net Assets – Include the portion of expendable unrestricted funds that are available for support of the Organization’s operations. In a prior year, the Board of Directors designated restrictions on portions of the net assets as classified on the statements of financial position.

Temporarily Restricted Net Assets – Include the portion of funds for which donor or grantor restrictions have not yet been met, and for which the ultimate purpose of the proceeds are not permanently restricted.

Permanently Restricted Net Assets – Include the portion of funds that by donor or grantor restriction require the corpus be invested in perpetuity and only the income be made available for programs or operations in accordance with donor restrictions.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Statements of Cash Flows

The Organization has adopted Financial Accounting Standard No. 95. “Statements of Cash Flows”. For purposes of this statement, the Organization considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

Fixed Assets

The Organization capitalizes property and equipment over \$1,500. Lesser amounts are expensed. Purchased property and equipment is capitalized at cost. Depreciation on equipment is computed using the straight-line method over an estimated useful life of 3 to 10 years. The building and renovations are being depreciated over an estimated life of 20 to 50 years. See Note 6 regarding donated equipment.

Income Taxes

The Organization is a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the United States Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation.

The Organization's Forms 990, Return of Organization Exempt from Income Tax, for the years ending June 30, 2016, 2015 and 2014 are subject to examination by the IRS, generally for three years after they are filed.

Deferred Revenue

Funds restricted by grantors for particular operating purposes are deemed to be earned and reported as revenues of the particular fund when the Organization has incurred expenditures in compliance with the specific restrictions. Such amounts received or receivable but not yet earned are reported as deferred revenue. At June 30, 2016 and 2015 there was deferred revenue of \$26,707 and \$24,701 respectively.

Gifts of Cash, Assets and Services

The Organization reports gifts of cash and other assets as restricted support if they are received with donor stipulations.

When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Gifts of long-lived assets with restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained; the Organization reclassifies long-lived assets as unrestricted net assets when the assets are placed in service.

The Organization reports gifts of land, buildings, and equipment, if any, as unrestricted support if there are no donor restrictions. See also Note 6 regarding in-kind contributions.

Under the terms of the \$356,128 New Hampshire Housing Finance Authority loan, the Organization is required to segregate reserves to meet future insurance, real estate taxes, and maintenance and replacement obligations. The Organization maintains separate restricted accounts to meet these requirements.

5. RESTRICTED AND BOARD DESIGNATED NET ASSETS

Effective September 30, 1992, the Board of Directors of the Organization voted to segregate funds restricted by grantors for security deposit loans from the loan fund balance, with the excess designated by the board as restricted loan funds.

See also Notes 2 and 8 regarding loans and funds restricted for guaranteed security deposits and other board restricted funds.

6. IN-KIND CONTRIBUTIONS

The Organization makes use of volunteer services to supplement its operations and control operating expenses. Donated services are valued in a manner consistent with federal guidelines and volunteer services organization rates. The contribution of services is recognized if the services received (a) create or enhance non-financial assets or (b) require specialized skills that are provided by individuals possessing those skills and would typically need to be purchased if not provided by donation.

These financial statements reflect the fair value of donated goods/equipment and services received in the current fiscal year as in-kind income and related expense in the amount of \$34,313 and \$53,180, respectively for the years ended June 30, 2016 and 2015.

The value of donated services and equipment, food and supplies included in the June 30, 2016 and 2015 financial statements and the corresponding expenditures are as follows:

7. LOANS RECEIVABLE AND ALLOWANCE FOR UNCOLLECTIBLE RECEIVABLES

During its first year of operation the Organization implemented an Allowance for Uncollectible Receivables for the security deposit loan program. The allowance was calculated by a formula at an accrual rate of 50% of loans extended.

In 1991 a Letter of Guarantee was instituted to maximize the benefit of this limited resource. In 1993 The Way Home's Security Deposit Guarantee became the model for the State of New Hampshire Housing Security Guarantee Program. In 1996, the Board of Directors voted to formalize the structure of the security deposit loan program, including the allowance for uncollectible receivables. With increased use of the NH HSGP program (see Note 8) the policy was revised to provide an uncollectible allowance only on those guarantees not underwritten by the NH HSGP program. By Fiscal Year 2016, all security deposit loan receivables were underwritten by a funder in a manner that allowed for closing of the remaining uncollectible receivables.

8. GUARANTEED SECURITY DEPOSITS

A Letter of Guarantee Program has been developed and implemented by the Organization. Pursuant to this program, the Fund guarantees that a landlord will receive the appropriate percentage of a security deposit when the Fund's client vacates an apartment or the full security deposit when the client has completed their loan repayment. The program requires the landlord to communicate with the Fund and become more active in the deposit process

In 1993 NH State Legislation used The Way Home's Security Deposit Guarantee Program as its model in creating the Housing Security Guarantee Program (HSGP). In Fiscal Years 2015 and 2016, this resource underwrote more than 80% of the Letters of Guarantee issued by The Way Home for its Housing Assistance program. The NH Housing Security Guarantee Program provides guarantees for rental security deposits to eligible persons in accordance with New Hampshire RSA 126: A, 50.

Funds related to the State guarantee program may be drawn only upon determination of uncollectibility of a security deposit loan.

Because the Organization now has an underwriter for a significant amount of the guarantees, and after careful study, the Organization has revised the policy of providing a reduction in cash reserve requirements for all guarantees to a minimum of 50% of guarantees not covered by the NH Housing Security Guarantee Program.

9. SPECIAL ASSISTANCE TO INDIVIDUALS

Pursuant to the requirements of grantors, during 2016 and 2015 the Organization distributed \$327,964 and \$338,868, respectively, on behalf of individuals for such items as security deposits, rents, utilities, to end or prevent homelessness. More than 85% of this assistance was in the form of grants for qualified individuals, underwritten by several different program funds, including HUD HOME Tenant Based Rental Assistance, HUD Emergency Solutions Grant, HUD Continuum of Care Permanent Supportive Housing, and NH State Grant in Aid. The remaining assistance for homeless and at-risk renters was in the form of default reimbursement for the rental assistance loans, underwritten by NH HSGP and NH HHARLF programs.

10. HEALTHY HOME SERVICES PROGRAM

The Way Home's Healthy Home Services grew out of a special project, begun with EPA funding in 1995, to empower a group of low income tenants in Manchester to work in collaboration with the Manchester Health Department to build a grassroots Lead Poisoning Prevention campaign.

The result is a peer educator empowerment process that guides emerging leaders from the low-income community. In 1997 the leadership of these low income women created The Way Home's Healthy Home Services to protect children from environmental hazards in the home. Through their work, the City of Manchester was named as an EPA Child Health Champion Community and also secured HUD grants to remediate lead paint hazards. The Way Home served on the 2007 NH Lead Poisoning Prevention Legislative Study Commission and is serving on the NH Healthy Homes Steering Committee and the City of Manchester Healthy Homes Partnership. Project staff includes a Healthy Home Specialist and housing counselors/advocates trained in healthy home education. The team has been called upon by the Manchester Health Department to assist tenants living with pest infestations. The Fiscal Year 2016 and 2015 program included a special EPA Environmental Justice Project to provide tenant education and support services to help low income tenants do their part as a key component of Integrated Pest Management in rental housing; and a Healthy Home Contract with the City of Manchester as part of its HUD Lead Hazard Reduction Demonstration Grant funded healthy housing program. The Way Home's Healthy Home Services Program includes healthy home apartment inspections, in-home peer support with education and resources, education on lead poisoning prevention and safe pest management, education on reporting substandard housing conditions.

11. STEPS TO SUCCESS SUPPORTIVE SERVICES LINKED TO HOUSING COUNSELING & SUPPORTIVE HOUSING PROGRAMS

Steps to Success Supportive Services build skills for homeless and at-risk clients to gain access to and remain in permanent housing. The Organization's Steps to Success program is provided by Housing Counselors and Housing Advocates who help individuals to set appropriate goals and coach them on action steps to meet these goals. These supportive services are available to clients in The Way Home's transitional housing, permanent housing, and general housing counseling programs. In fiscal year 2016 and 2015, The Way Home owned and/or leased 51 units of housing, including 7 transitional units in its 214 Spruce Street facility, which opened in 2002. The Way Home's Steps to Success supportive services are also used as part of its HUD Continuum of Care (CoC) funded permanent supportive housing programs; its HUD ESG & HUD CoC funded rapid re-housing programs; and for special needs clients in its general housing counseling programs.

12. UNDER THE BRIDGE PROGRAM

The Organization has been instrumental in the publication of a book of stories and poems written by Manchester, NH homeless individuals. It is a self-advocacy and fund-raising program that serves as a tool for training staff who work with the homeless and at-risk population and for general public information. Proceeds from the sale of the book are used for special needs of The Way Home's homeless clients and the very poor clients at risk of homelessness.

13. MERCY FUND PROGRAM

Donations relative to this program are managed by a staff member affiliated with the Sisters of Mercy and are committed to service to the poor. It provides assistance to the Organization's clients with basic necessities.

14. HOMELESS HOUSING AND ACCESS REVOLVING LOAN FUND (HHARLF) PROGRAM

The New Hampshire Department of Health and Human Services Bureau of Homeless and Housing Services began administering a new program, the Homeless Housing and Access Revolving Loan Fund, set forth by State Legislation in 2007 to assist homeless persons to secure an apartment. The Way Home, Inc., as a local provider for the Bureau's homeless prevention intervention services, began implementing this new program in January 2008. The HHARLF Program provides guarantees of rental security deposits and/or first month's rent to eligible persons. This is a loan program with a guarantee to the landlord that, in the event of a default, they will be reimbursed the amount of the security deposit. The client will be responsible to make monthly payments towards the security deposit and/or first month's rent to the HHARLF provider and, when the deposit is paid in full, the security deposit will be transferred to the landlord.

15. HUD CERTIFIED HOUSING COUNSELING AGENCY PROGRAM

Since 2002, the Organization has been approved by the U.S. Department of Housing and Urban Development (HUD) as a Housing Counseling Agency. As such, the Organization provides one on one counseling and group education classes for homeless persons, low income renters, and homeowners at-risk of foreclosure. Applicants for The Way Home's housing services are scheduled for a needs assessment with a housing counselor. Those seeking rental assistance are also scheduled for a Financial Literacy Class. Homeless persons are helped to access shelter & services and take steps to succeed in rental housing. Renters are helped to make housing more affordable, prevent eviction, and work with landlords to reduce in-home health hazards. Homeowners are helped to prevent loss of their home. Those who cannot save their home are helped to secure rental housing.

16. PERMANENT SUPPORTIVE HOUSING – YOUR WAY HOME PROGRAM

During the fiscal year ending June 30, 2007, the Organization began the Your Way Home Program.

Permanent Supportive Housing is an intensive model of housing and services designed to serve individuals with a disabling condition that contributed to long term homelessness.

During fiscal year ending 2016, the Organization was awarded federal funding to provide help for these homeless individuals and families.

17. MORTGAGE RESETTLEMENT THRU NH HOUSING

In 2012 the State of New Hampshire launched a robust foreclosure intervention initiative (the Program). This three-year program is being supported by \$3.5 million from the National Mortgage Settlement. The State, through the Department of Justice and the Banking Department, contracted with New Hampshire Housing to administer the Program. New Hampshire Housing is charged with supporting a statewide network of counseling organizations to provide effective pre and post foreclosure intervention and counseling at no cost to at-risk homeowners. The counseling agencies will empower and assist at-risk homeowners in making informed and realistic choices about their individual housing futures. The Program is part of a larger effort, which includes separate funding for legal services through the New Hampshire Foreclosure Relief Project.

The Way Home was awarded funds in the fiscal year 2013 as part of a competitive RFP issued by NH Housing in 2012 for a three-year program with funding being awarded annually. The first award of \$75,000 began on February 1, 2013. Funding was increased to \$95,000 for years two and three. This program represents 29 of the total leased or owned units of 51.

18. RELATED PARTY TRANSACTIONS

Currently, two Board of Director members are also clients of the Organization who receive services from the Organization. The Board of Directors is aware of the relationship and the individuals' services are monitored by an employee of the Organization.

19. SUBSEQUENT EVENTS

The organization has evaluated subsequent events through September 20, 2016, the date which the financial statements were available to be issued.

The Way Home: Staff Vitae & Resumes

Executive Director: Mary Sliney (**FT**), has managed The Way Home's programs since 1988. An empowerment educator with a Masters in Science Teaching, Ms Sliney has a special concern for Manchester's low-income families with whom she began working in 1976 as a tenant leader while living at a public housing project. A 1986 United Way community needs strategy session on access to affordable housing resulted in a Low-income Housing Network for which Ms Sliney served as facilitator/convener from 1987-1997. The Network's first project was to create a loan fund for security deposits. Ms Sliney was hired to staff the Security Deposit Loan Program which, under her leadership has expanded its services into what is now The Way Home with programs in Housing Counseling, Homeless Prevention / Intervention, and Supportive Housing. With her work for The Way Home, Mary creates opportunities for individuals from the low-income community to help others access safe, affordable housing and gain the skills and resources to succeed in their housing. Mary connects these grassroots peer educators with officials in HUD funded programs, working with NH Housing, Manchester Housing Authority, and Fair Housing Project of NH Legal Assistance. Through Ms. Sliney's leadership, The Way Home was recognized in 2000 with a HUD Best Practice Award and the NH Corporate Fund Dunfey Award for Excellence in Management. In addition to her work at The Way Home, Ms. Sliney is a co-founder of the Manchester Area Homeless Continuum of Care and a member of the NH Healthy Home Steering Committee. Ms. Sliney is a graduate of the Chamber of Commerce Leadership Manchester Class of 1998 and Leadership NH Class of 2002.

Anne is responsible for facility management including 214 Spruce Housing Resource Center and Transitional Shelter. Anne has worked in NonProfit fiscal management since 1972; prior to The Way Home served as Director of Finance & Human Resources with Bi-State Primary Care Association in Concord, NH (2001-07), Fiscal Officer for Community Action in Haverill, MA (1997-2000), Associate Executive -Finance & Personnel for Beverly Regional YMCA in Beverly, MA (1991-1997), and various Business Office roles for Endicott College in Beverly, MA (1972-1991).

As an experienced Tenant Coordinator from his stay in Germany, 6/93-10/97, he gained additional experience as a Tenant Ambassador for Manchester Neighborhood Housing Services (MNHS) from 3/01-12/04. In 2004 The Way Home hired Izet as a full-time housing counselor and part-time community builder for homeless clients. Izet has provided excellent service to both homeless and rental housing counseling clients. His strong sense of money management and setting goals makes him an excellent teacher and role model. Izet has provided homeless outreach and has coordinated services

with area homeless shelters. His ability to assist and challenge has given him success in helping homeless persons take the necessary steps to move from a shelter into an apartment. Izet also worked as an advocate for refugees and added to The Way Home's capacity to serve multi-cultural clients.

In 2007, Izet became chair of the Manchester Continuum of Care Homeless Liaison Committee. From 2007-2012 he worked with the chronically homeless individuals, doing one-on-one counseling, working with budgets, life skills and other supportive services to nurture their independence and advocate for greater opportunity. For the last several years, Izet has been working with HUD and VA programs to house homeless veterans, opening more than 30 units of permanent housing for chronically homeless persons. Izet assists with the implementation of HUD funded HPRP and ESG Homelessness Prevention & Rapid ReHousing Programs. In 2014 Izet became The Way Home's Homeless Program Management Assistant. EXPLANATION

This request is **retroactive** because the awards were not made until June 9th, 2015.

The purpose of this request is for the provision of intervention services and/or emergency shelter and related services, including essential services, to homeless individuals.

This package includes twenty-three (23) of the twenty-seven (27) vendors chosen to receive State Grant-in-Aid Program funding, and represents \$5,759,549 of the total \$6,569,941 being funded.

The State Grant-in-Aid (SGIA) Funds program provides funding support for the following:

Emergency Shelter - Any facility, the primary purpose of which is to provide temporary shelter for homeless individuals or families. Non-permanent shelter, which is crisis-oriented and designed to meet the basic needs of homeless clients. Transitional Shelter - A time-limited independent housing residence, designed to provide a person or family, safe semi-private housing and comprehensive supportive services. Case management, educational or rehabilitative programs and referrals help to strengthen resiliency, enhance life skills and financial independence, and prepare for a successful transition to permanent housing. Allowable activities include: Essential Services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and transitional shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Specialty Shelter - An emergency shelter for designed solely to serve the specialized needs of an identifiable subgroup of homeless individuals. Intervention Services – Non-shelter services that assist persons who are homeless, or at imminent risk of homelessness through case management, assisted referrals, or other targeted services intended to assist persons experiencing homelessness obtain or maintain shelter. Examples of intervention activities include (but are not limited to) information and referrals to assist clients in exiting homelessness, assessing a client's eligibility for shelter/housing placement, legal services, HMIS, and drop-in centers or other facilities where clients have access to case managers as well as telephone/internet access for education, housing, employment purposes.

The Department of Health of Human Services received a total of thirty-eight (38) applications from twenty-eight (28) agencies for State Grant-in-Aid Funding Program in response to a Request for Applications that was posted to the Departments website from December 5, 2014 through February 13, 2015. After review of the applicants, by a team of qualified personnel from the Bureau of Homeless and Housing, twenty-seven (27) agencies were chosen. Priority was given to vendors that provide Emergency, Specialty and Transitional Shelter services.

The attached agreements call for the provision of these services for two years and reserves the Department's right to renew the agreements for up to two (2) additional years, based upon satisfactory delivery of services, and continued availability of funds and Governor and Executive Council approval.

Should Governor and Executive Council not authorized this request, Individuals and families who are without housing and resources will resort to seeking local shelter in places that are not fit for people to live in, or will attempt to travel to shelters in other communities. This will increase the likelihood that homeless people will be in danger of injury or death, and will be cut off from basic supports for health, education and treatment.

BMCAP is being funded ahead of Veteran's Inc for the New Start program, although Veteran's Inc (VI) scored higher than BMCAP.

The reason is because BMCAP is providing a homeless intervention program to the general population in 2 counties.

If not funded, there would be no Homeless intervention services available in Belknap and Merrimack counties, which is unacceptable.

The VI program is a new project, and although statewide, serves a specific subpopulation of homeless (veterans) that represent less than 9% of the total homeless population in the state. Given the limited resources available I believe it is imperative we fund services accessible to all over those accessible to a small sub population.

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

(2) **Business Associate Use and Disclosure of Protected Health Information.**

- a. Business Associate shall not use, disclose, maintain or transmit Protected Health Information (PHI) except as reasonably necessary to provide the services outlined under Exhibit A of the Agreement. Further, Business Associate, including but not limited to all its directors, officers, employees and agents, shall not use, disclose, maintain or transmit PHI in any manner that would constitute a violation of the Privacy and Security Rule.
- b. Business Associate may use or disclose PHI:
 - I. For the proper management and administration of the Business Associate;
 - II. As required by law, pursuant to the terms set forth in paragraph d. below; or
 - III. For data aggregation purposes for the health care operations of Covered Entity.
- c. To the extent Business Associate is permitted under the Agreement to disclose PHI to a third party, Business Associate must obtain, prior to making any such disclosure, (i) reasonable assurances from the third party that such PHI will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party; and (ii) an agreement from such third party to notify Business Associate, in accordance with the HIPAA Privacy, Security, and Breach Notification Rules of any breaches of the confidentiality of the PHI, to the extent it has obtained knowledge of such breach.
- d. The Business Associate shall not, unless such disclosure is reasonably necessary to provide services under Exhibit A of the Agreement, disclose any PHI in response to a request for disclosure on the basis that it is required by law, without first notifying Covered Entity so that Covered Entity has an opportunity to object to the disclosure and to seek appropriate relief. If Covered Entity objects to such disclosure, the Business

Exhibit I

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

- e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) Obligations and Activities of Business Associate.

- a. The Business Associate shall notify the Covered Entity's Privacy Officer immediately after the Business Associate becomes aware of any use or disclosure of protected health information not provided for by the Agreement including breaches of unsecured protected health information and/or any security incident that may have an impact on the protected health information of the Covered Entity.
- b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:
 - o The nature and extent of the protected health information involved, including the types of identifiers and the likelihood of re-identification;
 - o The unauthorized person used the protected health information or to whom the disclosure was made;
 - o Whether the protected health information was actually acquired or viewed
 - o The extent to which the risk to the protected health information has been mitigated.

The Business Associate shall complete the risk assessment within 48 hours of the breach and immediately report the findings of the risk assessment in writing to the Covered Entity.

- c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.
- d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.
- e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (I). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

Exhibit I

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

- f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.
- g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.
- h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.
- i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.
- j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.
- k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.
- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Exhibit I

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.
- b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.
- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.
- b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.
- c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.
- d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

Exhibit I

- e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Exhibit I.

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Tri-County Community Action Program, Inc. and Affiliate (a New Hampshire nonprofit organization), which comprise the consolidated statements of financial position as of June 30, 2016 and 2015, and the related consolidated statements of cash flows and functional expenses, and the related notes to the consolidated financial statements for the years then ended, and the related consolidated statement of activities for the year ended June 30, 2016.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Tri-County Community Action Program, Inc. and Affiliate as of June 30, 2016 and 2015, and its cash flows for the years then ended, and the changes in its net assets for the year ended June 30, 2016 in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited Tri-County Community Action Program, Inc. and Affiliate's 2015 financial statements, and we expressed an unmodified audit opinion on those financial statements in our report dated December 10, 2015. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2015, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 16, 2016, on our consideration of Tri-County Community Action Program, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Tri-County Community Action Program, Inc.'s internal control over financial reporting and compliance.

TRI-COUNTY COMMUNITY ACTION PROGRAM, INC. AND AFFILIATE

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2016 AND 2015**

NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Principles of Consolidation

The consolidated financial statements include the accounts of Tri-County Community Action Program, Inc. and its affiliate, Cornerstone Housing North, Inc. The two organizations are consolidated because Tri-County Community Action Program, Inc. controls 100% of the voting power of Cornerstone Housing North, Inc. All significant intercompany items and transactions have been eliminated from the basic financial statements. Tri-County Community Action Program, Inc. (the Organization) is a New Hampshire non-profit corporation that operates a wide variety of community service programs which are funded primarily through grants or contracts from various federal, state, and local agencies. Cornerstone Housing North, Inc. (a New Hampshire nonprofit corporation) was incorporated under the laws of the State of New Hampshire for the acquisition, construction and operation of community based housing for the Elderly.

Nature of activities

The Organization's programs consist of the following:

Agency

Tri-County CAP Administration provides central program management support and oversight to our many individual programs. This includes planning and budget development, bookkeeping and accounting, payroll and HR services, legal and audit services, IT support, management support, financial support and central policy development.

Tri-County CAP Administration is the liaison between Tri-County Community Action Program, Inc., Board of Directors and its programs, ensuring that programs comply with agreements made by the Board to funding sources and vendors.

Other responsibilities include the management and allocation of funding received through a Community Services Block Grant, as well as management of the Organization's real estate property.

Head Start

Head Start provides comprehensive services to low-income children and their families. Head Start supports children's growth and development in a positive learning environment through a variety of services, which include: Early learning, Health and Family well-being. All children receive health and development screenings, nutritious meals, oral health and mental health support. Parents and families are supported in achieving their own goals, such as housing stability, continued education, and financial security.

Programs support and strengthen parent-child relationships and engage families around children's learning and development. Tri County Community Action Head Start serves 241 children in Carroll, Coos & Grafton counties in 9 locations with 12 center-based classrooms and 3 home based options.

Guardianship

The Organization's Guardianship program provides advocacy and guardian services for the vulnerable population of New Hampshire residents (developmentally disabled, chronically mentally ill, traumatic brain injury, and the elderly suffering from Alzheimer's, dementia, and multiple medical issues) who need a guardian and who have no family member or friend willing, able, or suitable to serve in that capacity.

Transportation

The Organization's transit program provides various transportation services: public bus routes, door-to-door service by request, long distance medical travel to medical facilities outside our regular service area, and special trips for the elderly to go shopping and enjoy other activities that are located outside the regular service area. The Organization's fleet of 21 wheelchair accessible vehicles offers transportation options to the elderly and disabled, as well as to the general public.

Volunteer

Coos County Retired & Senior Volunteers Program (RSVP) maintains a minimum corps of 400 volunteers, ages 55 and older. These volunteers share their skills, life experiences, and time with over 60 local non-profit and public agencies throughout Coos County that depend on volunteer assistance to meet the needs of their constituents. Our volunteers donate over 50,000 hours yearly.

Workforce Development

The Organization is assisting transitional and displaced workers as they prepare for new jobs, and also assisting currently-employed workers to gain the skills required for better jobs.

The Organization is helping to implement New Hampshire's Unified State Plan for Workforce Development, in line with the federal Workforce Investment Act. Workforce training programs, with training facilities in three towns, provide temporary assistance for needy family (TANF) recipients with 20-30 hours per week of training in the areas of employment skills, computer skills, and business experience, and also place participating TANF recipients in community-based work experience sites.

Alcohol & Other Drugs (AOD)

Services provided through the AOD program include assisting the alcoholic/addicted person on the road to recovery, through three phases: Crisis Intervention, Sobriety Maintenance, and Assessment and Referral to appropriate treatment facilities.

The Residential Treatment Programs (Friendship House) provide chemically dependent individuals with the fundamental tools of recovery, including educational classes, group and individual counseling, work and recreational therapy, and attendance at in-house and community-based alcoholics anonymous and narcotics anonymous meetings. The AOD program also offers assistance with its impaired driver programs.

The Friendship House, in December of 2014, had approximately \$130,000 worth of investments and improvements due to assistance from Public Services of New Hampshire. The Organization is currently exploring the construction of a new center for the Alcohol and Other Drugs program, to enhance their services. There was \$92,748 of pre-development capitalized expense in the current year.

Carroll County Dental

The Tamworth Dental Center (the Center) offers high quality oral health care to children with NH Medicaid coverage. The Organization also serves uninsured and underinsured children and adults using a sliding fee scale that offers income-based discounts for care. The Center accepts most common dental insurances for those who have commercial dental insurance coverage. A school-based project of the Dental Center, School Smiles, offers oral health education, screening, treatment and referrals for treatment to over 1,000 children in 9 schools in the vicinity of the Center.

Carroll County Restorative Justice

The Organization's restorative justice program provides comprehensive alternatives to traditional court sentencing and dispute resolution within the framework of Balanced and Restorative Justice. Two key components of this process are personal accountability for one's actions (diversion) and alternative conflict resolution (mediation). Services are provided by in-house staff, volunteers, and partnered relations with other local service providers. The division was discontinued in January 2016.

Support Center

The Organization's Support Center at Burch House provides direct service and shelter to victims and survivors of domestic and sexual violence and stalking in Northern Grafton County. Support Center services are accessible 24 hours a day, 365 days a year. They include: crisis intervention; supportive counseling; court, hospital and policy advocacy and accompaniment; emergency shelter; support groups; community education and outreach; violence prevention programs for students; information, referrals and assistance accessing other community resources.

Homeless

Homeless services include an outreach intervention and prevention project that strives to prevent individuals and families from becoming homeless, and assists the already homeless in securing safe, affordable housing. The Organization provides temporary shelter space for homeless clients.

The Organization also provides some housing rehabilitation services to help preserve older housing stock.

Energy Assistance and Outreach

Energy Assistance Services provide fuel and electric assistance through direct pay to vendors or a discount on the client's bill. Community Contact site allow local participants access to energy assistance programs and other emergency services. Low-Income Weatherization

The NH Weatherization Program helps low-income families, Elderly, Disabled, Small children and individuals lower their home energy costs; increase their health, safety, and comfort; and improve the quality of living while improving housing stock in communities around the state utilizing energy cost saving, health and safety and carbon lowering measures. The NH Weatherization Assistance Program also creates Local NH jobs.

Housing Services

Cornerstone Housing North, Inc. is subject to a Project Rental Assistance Contract (PRAC) with the United States Department of Housing and Urban Development, and a significant portion of their rental income is received from the Department of Housing and Urban Development.

The Organization includes a 12 unit apartment complex in Berlin, New Hampshire for the elderly. This operates under Section 202 of the National Housing Act and is regulated by the U.S. Department of Housing and Urban Development (HUD) with respect to the rental charges and operating methods.

The above Organization has a Section 202 Capital Advance. Under guidelines established by the U.S. Office of Management and Budget *Uniform Guidance, Title 2 U.S. Code of Federal Regulations (CFR) part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards*, the Section 202 Capital Advance is considered to be a major program.

Method of accounting

The consolidated financial statements of Tri-County Community Action Program, Inc. have been prepared utilizing the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, as promulgated by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). Under this basis, revenue, other than contributions, and expenses are reported when incurred without regard to the date of receipt or payment of cash.

Basis of presentation

Financial statement presentation follows the recommendations of the FASB in its Accounting Standard Codification No. 958 *Financial Statements of Not-For-Profit Organizations*. Under FASB ASC No. 958, the Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

The Organization had no permanently restricted net assets at June 30, 2016 and 2015. The Organization had temporarily restricted net assets of \$777,943 and \$745,910 at June 30, 2016 and 2015, respectively.

Restricted and unrestricted support

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions. Support that is restricted is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Unrestricted net assets include revenues and expenses and contributions which are not subject to any donor imposed restrictions. Unrestricted net assets can be board designated by the Board of Directors for special projects and expenditures.

Temporarily restricted net assets include contributions for which time restrictions or donor-imposed restrictions have not yet been met. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restriction (**Note 12**).

Permanently restricted net assets include gifts which require, by donor restriction, that the corpus be invested in perpetuity and only the income or a portion thereof (excluding capital gains restricted by State statute) be made available for program operations in accordance with donor restrictions. The Organization had no permanently restricted net assets at June 30, 2016 and 2015.

Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e. the "exit price") in an orderly transaction between market participants at the measurement date. The accounting standards for fair values establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Organization. Unobservable inputs are inputs that reflect the Organization's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The hierarchy is classified into three levels based on the reliability of inputs as follows:

Level 1: Valuations based on quoted prices in active markets for identical assets or liabilities that the Organization has the ability to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

Level 2: Valuation is determined from quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in markets that are not active or by model-based techniques in which all significant inputs are observable in the market.

Level 3: Valuations based on inputs that are unobservable and significant to the overall fair value measurement. The degree of judgment exercised in determining fair value is greatest for instruments categorized as Level 3.

The availability of observable inputs can vary and is affected by a wide variety of factors, including, the type of asset/liability, whether the asset/liability is established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, assumptions are required to reflect those that market participants would use in pricing the asset or liability at the measurement date.

As disclosed in **Note 6**, the bond payable, formerly bearing monthly interest of 69% of the sum of the one month London Interbank Offered Rate (LIBOR) plus 3.25%, when the Organization's debt service coverage ratio was 1.10; or 3.00% when the Organization's debt service coverage ratio was 1.20, included an interest rate swap agreement. The Organization paid interest at a fixed 3.85%. The arrangement was scheduled to expire on August 2040. The notional amount of the contract was \$3,145,412. Accordingly, the swap arrangement, which is a derivative financial instrument, was classified as a cash flow hedge and was valued at the net present value (NPV) of all estimated future cash flows. The Organization's purpose in entering into a swap arrangement was to hedge against the risk of interest rate increases on the related variable rate debt and not to hold the instrument for trading purposes. The swap arrangement was removed in February 2016 when the bond agreement was renewed and the effective interest rate became 2.75% plus the bank's internal cost of funds multiplied by 67%. The rate at the time of renewal was 3.10%.

For the year ended June 30, 2015, the fair value of the interest rate swap was \$7,385 and the unrealized gain was \$42,327. The fair value of the swap was included on the balance sheet as a long term liability. The amount of the unrealized gain for the year ended June 30, 2016 was \$7,385 and there was no fair value of the swap remaining after the bond was renewed.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from balances outstanding at year-end. Most of the receivables are amounts due from federal and state awarding agencies and are based on reimbursement for expenditures made under specific grants or contracts. A portion of the accounts receivable balance represents amounts due from patients at Carroll County Dental and participants in the alcohol and other drug treatment programs. Past due receivables are written off at management's discretion using the direct write off method; this is not considered a departure from accounting principles generally accepted in the United State because the effects of the direct write method approximate those of the allowance method. Management selects accounts to be written off after analyzing past payment history, the age of the accounts receivable, and collection rates for receivables with similar characteristics, such as length of time outstanding. The Organization does not charge interest on outstanding accounts receivable.

Property and Depreciation

Acquisitions of buildings, equipment, and improvements in excess of \$5,000 and all expenditures for repairs, maintenance, and betterments that materially prolong the useful lives of assets are capitalized. Buildings, equipment, and improvements are stated at cost less accumulated depreciation. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets. Depreciation expense related to assets used solely by an individual program is charged directly to the related program. Depreciation expense for assets used by more than one program is charged to the program based upon a square footage or other similar allocation.

Depreciation expense related to administrative assets is included in the indirect cost pool and charged to the programs in accordance with the indirect cost plan. Maintenance and repairs that do not materially prolong the useful lives of assets are charged to expense as incurred.

Estimated useful lives are as follows:

Buildings and improvements	20 to 40 years
Vehicles	5 to 8.5 years
Furniture and equipment	5 to 15 years

Client Rents and HUD Rent Subsidy

Cornerstone Housing North, Inc.'s rents are approved on an annual basis by the Department of Housing and Urban Development. Rental increases are prohibited without such approval. The clients are charged rent equal to 30% of their income less adjustments allowed by the Department of Housing and Urban Development. Rent subsidies are received from the Department of Housing and Urban Development for the difference between the allowed rents and the amounts received from the clients.

Refundable Advances

Grants received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services or expenditures are performed or incurred. Funds received in advance of grantor conditions being met aggregated \$233,329 and \$191,343 as of June 30, 2016 and 2015, respectively.

Nonprofit tax status

The Organization is a *not-for-profit* Section 501(c)(3) organization in accordance with the Internal Revenue Code. It has been classified as an Organization that is not a private foundation under the Internal Revenue Code and qualifies for a charitable contribution deduction for individual donors. The Organization files information returns in the United States. The Organization is no longer subject to examinations by tax authorities for years prior to 2012.

The Organization follows FASB ASC, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. The Organization does not believe they have taken uncertain tax positions, therefore, a liability for income taxes associated with uncertain tax positions has not been recognized.

The Organization's Federal Form 990 (Return of Organization Exempt from Income Tax), is subject to examination by the IRS, generally for three years after it is filed.

Cornerstone Housing North, Inc. is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Internal Revenue Service has determined the Organization to be other than a private foundation within the meaning of Section 509(a).

Retirement plan

The Organization maintains a tax sheltered annuity plan under the provisions of Section 403(b) of the Internal Revenue Code. All employees are eligible to contribute to the plan beginning on the date they are employed. Each employee may elect salary reduction agreement contributions in accordance with limits allowed in the Internal Revenue Code. Employer contributions are at the Organization's annual discretion. In January 2013, employer contribution payments ceased, therefore as of June 30, 2016 and 2015, there were no discretionary contributions recorded. Subsequent to year end, the discretionary contributions were reinstated by the Organization. Further information can be obtained from the Organization's 403(b) audited financial statements.

Donated services and goods

Contributions of donated services that create or enhance non-financial assets or that require specialized skills and would typically need to be purchased if not provided by donation are recorded at their fair values in the period received.

Contributed noncash assets are recorded at fair value at the date of donation. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support. In the absence of such stipulations, contributions of noncash assets are recorded as unrestricted support.

Donated property and equipment

Donations of property and equipment are recorded as support at their estimated fair value at the date of donation. Such donations are reported as unrestricted support unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Promises to Give

Conditional promises to give are not recognized in the financial statements until the conditions are substantially met. Unconditional promises to give that are expected to be collected within one year are recorded at the net realizable value. Unconditional promises to give that are expected to be collected in more than one year are recorded at fair value, which is measured as the present value of their future cash flows. The discounts on those amounts are computed using risk-adjusted interest rates applicable to the years in which the promises are received. Amortization of the discounts is included in contribution revenue. In the absence of donor stipulations to the contrary, promises with payments due in future periods are restricted to use after the due date. Promises that remain uncollected more than one year after their due dates are written off unless the donors indicate that payment is merely postponed. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

As of June 30, 2016 and 2015, there were promises to give that were absent of donor stipulations, but restricted in regards to timing, and therefore classified as temporarily restricted in the amount of \$229,419 and \$247,754, respectively. This amount was included in grants and contracts on the Consolidated Statement of Activities.

Use of estimates

The presentation of financial statements in conformity accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Fair Value of Financial Instruments

Accounting Standards Codification No. 825 (ASC 825), *Disclosures of Fair Value of Financial Instruments*, requires the Organization to disclose fair values of its financial instruments. The carrying amount of the Organization's financial instruments which consists of cash, accounts receivable, deposits and accounts payable, approximate fair value because of the short term maturity of those instruments.

Functional allocation of expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the program services and supporting activities benefited.

Program salaries and related expenses are allocated to the various programs and supporting services based on actual or estimated time employees spend on each function as reported on a timesheet.

Workers Compensation expenses are charged to each program based upon the classification of the each employee and allocated to the various program based upon the time employees spend on each function as noted above.

Paid Leave is charged to a leave pool and is allocated to each program as a percentage of total salaries.

Fringe Benefits are charged to a Fringe Benefit Pool. These expenses include employer payroll taxes, pension expenses, health and dental insurance and unemployment compensation. The pool is allocated to each program based upon a percentage of salaries.

Depreciation expense is allocated to each program based upon specific assets used by the program and is reported as depreciation expense on the statements of functional expenses.

Other Occupancy expenses are applicable to assets which are used by multiple programs. Buildings are primarily charged to the benefiting program based upon an analysis of square footage. Costs related to a building include depreciation, insurance, utilities, building maintenance, etc. These costs are reported as space costs on the statements of functional expenses.

Insurance: automobile insurance is allocated to programs based on vehicle usage; building liability insurance is allocated to programs based on square footage of the buildings; and insurance for furniture and equipment is allocated to programs using the book basis of the insured assets.

The remaining shared expenses are charged to an Indirect Cost Pool and are allocated to each program based upon a percentage of program expenses. The expenses include items such as administrative salaries, general liability insurance, administrative travel, professional fees and other expenses which cannot be specifically identified and charged to a program.

The Organization submits an indirect cost rate proposal for the paid leave, fringe benefits and other indirect costs to the U.S. Department of Health and Human Services. The proposal effective for the fiscal year beginning July 1, 2015 received provisional approval and is effective until amended at a rate of 12.5%. Per the agreement with the U.S. Department of Health and Human Services, the Organization's final rate for the year ended June 30, 2015 was 11.5%.

NOTE 10. IN-KIND CONTRIBUTIONS

The Organization records the value of in-kind contributions according to the accounting policy described in **Note 1**. The Head Start, Transportation and Elder Programs rely heavily on volunteers who donate their services to the Organization. These services are valued based upon the comparative market wage for similar paid positions.

The Organization is also the beneficiary of a donation of in kind in the form of below market rent for some of the facilities utilized by the Head Start and Elder Programs.

The value of the in-kind rent is recorded at the difference between the rental payment and the market rate for the property based upon a recent appraisal.

Many other individuals have donated significant amounts of time to the activities of the Organization. The financial statements do not reflect any value for these donated services since there is no reliable basis for making a reasonable determination.

NOTE 11. CONCENTRATION OF RISK

Tri-County Community Action Program, Inc. receives a majority of its support from federal and state governments. For the years ended June 30, 2016 and 2015, approximately \$12,200,000 (72%) and \$12,900,000 (73%), respectively, of the Organization's total revenue was received from federal and state governments. If a significant reduction in the level of support were to occur, it would have a significant effect on the Organization's programs and activities.

Cornerstone Housing North, Inc. receives a large majority of its support from the U.S. Department of Housing and Urban Development. For the years ended June 30, 2016 and 2015 approximately 66% and 69%, respectively, of the Organizations total revenue was derived from the U.S. Department of Housing and Urban Development. In the absence of additional revenue sources, the future existence of Cornerstone Housing North, Inc. is dependent upon the funding policies of the U.S. Department of Housing and Urban Development.

The majority of Cornerstone Housing North, Inc.'s assets are apartment projects, for which operations are concentrated in the elderly person's real estate market. In addition, the Organization operates in a regulated environment. The operation of the Organization is subject to administrative directives, rules and regulations of federal, state and local regulatory agencies, including, but not limited to, HUD. Such administrative directives, rules and regulations are subject to change by an act of Congress or an administrative change mandated by HUD. Such changes may occur with little notice or inadequate funding to pay for the related cost, including the administrative burden, to comply with the change.

NOTE 13. COMMITMENTS AND CONTINGENCIES

Grant Compliance

The Organization received funds under several federal and state grants. Under the terms of the grants the Organization is required to comply with various stipulations including use and time restrictions. If the Organization was found to be noncompliant with the provisions of the grant agreements, the Organization could be liable to the grantor or face discontinuation of funding.

Environmental Contingencies

On March 30, 2009, the Organization's Board of Directors agreed to secure ownership of a 1.2-acre site located in Berlin, New Hampshire. There are 2 buildings on this site designated as the East Wing and West Wing Buildings which were formerly used as a research and development facility for the Berlin Mills Company.

The exterior soil and interior parts of the East Wing Building contained contaminants which required environmental remediation. In a letter dated May 2, 2012, the State of New Hampshire Department of Environment Services (the Department) noted that the remedial actions for the exterior soils and parts of the East Wing Building had been completed to the Department's satisfaction.

In addition, the Department noted that the contaminants related to the West Wing Building did not pose an exposure hazard to site occupants, area residents, and the environment provided the West Wing Building is maintained to prevent further structural deterioration. If further deterioration occurs and contaminants are released into the environment, the Organization could be required to take additional action including containment and remediation.

NOTE 14. RELATED PARTY TRANSACTIONS

As disclosed in **Note 6**, the Organization has a loan payable to the wife of the former Chief Executive Officer, which was paid off as of June 30, 2016. Also in **Note 6**, the Organization has a loan payable to a non-profit organization which also provides pass-through state and federal funding for some of the Organization's programs. See **Note 6** for terms of the note payables. Total notes payable to related parties for the years ended June 30, 2016 and 2015 was \$84,563 and \$132,725, respectively.

NOTE 15. RESIDUAL RECEIPTS ACCOUNT

Cornerstone Housing North, Inc.'s use of the residual receipts account is contingent upon HUD's prior written approval. During the year ended June 30, 2016, Cornerstone Housing North, Inc. was required to return to HUD the balance in the residual receipts account in excess of \$250 per unit. This resulted in a refund to HUD of \$1,184. This was recorded as a miscellaneous financial expense on the Statements of Activities during the year ended June 30, 2016.

NOTE 16. PRIOR PERIOD ADJUSTMENT

The beginning net assets for the year ended June 30, 2015, for Cornerstone Housing North, Inc. have been restated to correct an error. In the previously issued financial statements, salaries were allocated for the Chief Finance Officer and Chief Executive Officer of Tri-County Community Action Program, Inc., without prior written approval from HUD. HUD ultimately disallowed the expense. Tri-County Community Action Program, Inc. paid these funds back to Cornerstone Housing North, Inc. in the current year. Correction of this error increased the net assets for Cornerstone Housing North, Inc. by \$4,479 at June 30, 2015 and reduced the net assets of Tri-County Community Action Program, Inc. by \$4,479 at June 30, 2015; therefore, these amounts netted to zero on the Statements of Financial Position and Statements of Activities.

NOTE 17. RECLASSIFICATION

Certain amounts and accounts from the prior year consolidated financial statements have been reclassified to enhance the comparability with the presentation for the current year.

NOTE 18. SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the statement of financial position date, but before financial statements are available to be issued. Recognized subsequent events are events or transactions that provide additional evidence about conditions that existed at the statement of financial position date, including the estimates inherent in the process of preparing financial statements. Non-recognized subsequent events are events that provide evidence about conditions that did not exist at the statement of financial position date, but arose after that date. Management has evaluated subsequent events through November 16, 2016, the date the financial statements were available to be issued.

TRI-COUNTY COMMUNITY ACTION PROGRAM, INC.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors of
Tri-County Community Action Program, Inc.
Berlin, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Tri-County Community Action Program, Inc. (a nonprofit organization), which comprise the statement of financial position as of June 30, 2016, and the related statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated November 16, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered Tri-County Community Action Program Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of Tri-County Community Action Program Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of Tri-County Community Action Program Inc.'s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Tri-County Community Action Program Inc.'s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of consolidated financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

TRI-COUNTY COMMUNITY ACTION PROGRAM, INC.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE
FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors of
Tri-County Community Action Program, Inc.
Berlin, New Hampshire

Report on Compliance for Each Major Federal Program

We have audited Tri-County Community Action Program Inc.'s compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Tri-County Community Action Program Inc.'s major federal programs for the year ended June 30, 2016. Tri-County Community Action Program Inc.'s major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Tri-County Community Action Program Inc.'s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Tri-County Community Action Program Inc.'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Tri-County Community Action Program Inc.'s compliance.

Opinion on Each Major Federal Program

In our opinion, Tri-County Community Action Program, Inc. complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Report on Internal Control over Compliance

Management of Tri-County Community Action Program, Inc. is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Tri-County Community Action Program Inc.'s internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Tri-County Community Action Program, Inc.'s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

This request is **retroactive** because the awards were not made until June 9th, 2015.

The purpose of this request is for the provision of intervention services and/or emergency shelter and related services, including essential services, to homeless individuals.

This package includes twenty-three (23) of the twenty-seven (27) vendors chosen to receive State Grant-in-Aid Program funding, and represents \$5,759,549 of the total \$6,569,941 being funded.

The State Grant-in-Aid (SGIA) Funds program provides funding support for the following:

Emergency Shelter - Any facility, the primary purpose of which is to provide temporary shelter for homeless individuals or families. Non-permanent shelter, which is crisis-oriented and designed to meet the basic needs of homeless clients. Allowable activities include: Essential Services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Transitional Shelter - A time-limited independent housing residence, designed to provide a person or family, safe semi-private housing and comprehensive supportive services. Case management, educational or rehabilitative programs and referrals help to strengthen resiliency, enhance life skills and financial independence, and prepare for a successful transition to permanent housing. Allowable activities include: Essential Services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and transitional shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Specialty Shelter - An emergency shelter for designed solely to serve the specialized needs of an identifiable subgroup of homeless individuals. Allowable activities include: Essential Services, such as assistance in finding permanent housing, employment counseling, substance abuse counseling, assistance in accessing other community services; staff salaries and benefits; and specialty shelter operational costs such as administration, rent, utilities, insurance, and supplies.

Intervention Services – Non-shelter services that assist persons who are homeless, or at imminent risk of homelessness through case management, assisted referrals, or other targeted services intended to assist persons experiencing homelessness obtain or maintain shelter. Examples of intervention activities include (but are not limited to) information and referrals to assist clients in exiting homelessness, assessing a client's eligibility for shelter/housing placement, legal services, HMIS, and drop-in centers or other facilities where clients have access to case managers as well as telephone/internet access for education, housing, employment purposes.

The Department of Health of Human Services received a total of thirty-eight (38) applications from twenty-eight (28) agencies for State Grant-in-Aid Funding Program in response to a Request for Applications that was posted to the Departments website from December 5, 2014 through February 13, 2015. After review of the applicants, by a team of qualified personnel from the Bureau of Homeless and Housing, twenty-seven (27) agencies were chosen. Priority was given to vendors that provide Emergency, Specialty and Transitional Shelter services.

The attached agreements call for the provision of these services for two years and reserves the Department's right to renew the agreements for up to two (2) additional years, based upon satisfactory delivery of services, and continued availability of funds and Governor and Executive Council approval.

Should Governor and Executive Council not authorized this request, Individuals and families who are without housing and resources will resort to seeking local shelter in places that are not fit for people to live in, or will attempt to travel to shelters in other communities. This will increase the likelihood that homeless people will be in danger of injury or death, and will be cut off from basic supports for health, education and treatment.

BMCAP is being funded ahead of Veteran's Inc for the New Start program, although Veteran's Inc (VI) scored higher than BMCAP.

The reason is because BMCAP is providing a homeless intervention program to the general population in 2 counties.

If not funded, there would be no Homeless intervention services available in Belknap and Merrimack counties, which is unacceptable.

The VI program is a new project, and although statewide, serves a specific subpopulation of homeless (veterans) that represent less than 9% of the total homeless population in the state. Given the limited resources available I believe it is imperative we fund services accessible to all over those accessible to a small sub population.

- e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

- e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). - f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

- j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.
- k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. - l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Exhibit I

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

- a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.
- b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.
- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.
- b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.
- c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.
- d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

Exhibit I

- e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.
