REQUESTED ACTION

Authorize the Department of Environmental Services to award a Local Source Water Protection grant to the Manchester Water Works (VC #170435B002) in the amount of \$20,000 to complete a project to protect public drinking water, effective upon Governor and Council approval through May 31, 2019. 100% Federal Funds.

Funding is available as follows:

	<u>FY2018</u>

Dept. Environmental Services, DWSRF Administration, Grants- Federal	

EXPLANATION

The Department of Environmental Services issued a request for proposals for 2018 Local Source Water Protection Grants. These grants are funded by set-asides under the Drinking Water State Revolving Loan Fund. Twelve proposals were received. The proposals were evaluated and ranked based on criteria included in the request for proposals, such as whether the project fulfills a component of a source water protection program, that the proposed project addresses appropriate threats, and that the project will deliver a valuable and useful product. Based on the available federal funding and eligibility criteria, the Department determined that it could offer grants to seven source protection planning projects and three source security projects. See attachment A for the full list of grants awarded and list of reviewers.

The Manchester Water Works will use the grant funds to expand its public education program to increase public knowledge about the importance of protecting Lake Massabesic, (Manchester's primary source of drinking water) and areas within its watershed.

This agreement has been approved as to form, substance, and execution by the Office of the Attorney General. In the event that federal funds no longer become available, General funds will not be requested to support this program. This grant award, while less than \$25,000 threshold, requires G&C approval as the Manchester Water Works has already received funds in excess of the threshold for this fiscal year.

We respectfully request your approval.

  
Robert R. Scott  
Commissioner

Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant shall survive the termination of this agreement.

## **EXHIBIT A** **SCOPE OF WORK**

### **Manchester Water Works (MWW):**

In an effort to increase public knowledge about the importance of protecting Lake Massabesic, (Manchester's primary source of drinking water) and areas within its watershed, MWW will use NHDES Local Source Water Protection Grant funding to expand its public education program. The focus of this project will be to update MWW's website to provide more public information on watershed protection, and update the lake's watershed map to include watershed and water supply protection information

### **Task 1. Watershed Trail Use Mapping**

- 1.1. Update the "Manchester Water Works Watershed Land" map published on the city's website to include a summary of posted watershed rules and clearly mark designated uses within specific areas of the watershed on the map. The revised map will be added to the updated website prepared under Task 2. Additionally, a second map showing critical water supply areas with significant public use will receive a more detailed map that will serve as a template for future maps for use along public-access trails within MWW-owned lands. Draft maps will be provided to NHDES for review and comment prior to completion.

*Deliverables:* An updated "Manchester Water Works Watershed Land" map that includes information on allowable uses, restrictions and rules administered by MWW. One detailed map of a selected area and trail network. Geographic information systems (GIS) files and digital formatted files will be submitted to NHDES.

### **Task 2. Manchester Water Works Website Update**

- 2.1 MWW will update its website to include information on the public water supply and watershed, sources of pollution, and pollution prevention and how residents and visitors that use MWW land recreationally can help protect the water supply.
- 2.2 MWW will develop materials customized to its users and surrounding areas, including introductory information on the watershed and water supply, information on MWW-owned lands and their use, including the maps generated under Task 1. The website will state why it is important to protect the watershed and water supply, and include information on MWW's current school-based education program and how people can help and/or contribute to protection of the supply.
- 2.3 Figures and photos will be incorporated to make the material more appealing to a general audience. MWW will publish on the city's website general watershed and pollutant information previously generated by other agencies such as US EPA and NHDES. This will include links to outside resources available through US EPA and NHDES, including NH Soak Up the Rain (<http://soaknh.org/>) to encourage residents to manage stormwater responsibly on their property.

2.4 A mock-up version of the website will be prepared in accordance with content standards and format established by the City’s website content manager. The mock-up will be presented in a format that is the same or very similar to the City’s actual website, including all formatting, text, figures, links, etc. The mock website will be reviewed and modified based on comments from the City’s website content manager. The final content will be published online by the City and the link emailed to NHDES.

*Deliverables:* A mock-up of the proposed website improvements will be prepared and published online in a format consistent with the City’s website, including all narrative text, figures and links and then published to the City of Manchester’s website.

**Task 3. Outreach to Watershed Communities**

3.1 Prepare and send a letter to the Towns of Auburn, Hooksett, Candia, Chester and Allenstown’s Conservation Commissions with instructions concerning how to find the updated website and requesting that each Town include links to the new MWW website on their municipal website to inform residents of current recreational restrictions on MWW property. The letter will include a summary of allowed and restricted uses, the updated watershed map showing MWW-owned lands and associated trails, the detailed map for the one trail network, and a link to where the maps can be accessed on the website. A copy of each map will also be provided to each community for them to hang at Town Hall for residents to view. Final drafts of letters and maps will be forwarded to NHDES for comment prior to sending out the materials to said municipalities.

3.2 Notify local watershed recreational groups and utilize social media outlets to publicize the new website, maps and associated watershed regulations. Copies of notifications to said groups will be compiled and forwarded to NHDES.

**Quarterly progress report forms must be completed by grant recipients or their subcontractor and submitted to NHDES every three months, beginning with the first full 3 month quarter after grant approval from Governor & Council.**

**EXHIBIT B**  
**BUDGET & PAYMENT METHOD**
