(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
North Country Health Consortium, Inc. and Subsidiary
Littleton, New Hampshire

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of North Country Health Consortium, Inc. (a nonprofit organization) and Subsidiary, which comprise the consolidated statements of financial position as of September 30, 2017 and 2016, and the related consolidated statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances; but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 9, 2018 on our consideration of North Country Health Consortium, Inc. and Subsidiary's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering North Country Health Consortium, Inc. and Subsidiary's internal control over financial reporting and compliance.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Activities and Summary of Significant Accounting Policies

Nature of activities

North Country Health Consortium, Inc. and Subsidiary (NCHC) (the Organization) is a not-for-profit health center chartered under the laws of the State of New Hampshire. The Organization's mission is to lead innovative collaboration to improve the health status of the region. NCHC is engaged in promoting and facilitating access to services and programs that improve the health status of the area population, provide health training and educational opportunities for healthcare purposes, and provide region-wide dental services for an underserved and uninsured residents.

The Organization's wholly owned subsidiary, North Country ACO (the ACO), is a non-profit 501(c)(3) charitable corporation formed in December 2011. This entity was formed as an accountable care organization (ACO) with its purpose to support the programs and activities of the ACO participants to improve the overall health of their respective populations and communities. North Country ACO members participate in the Medicare Shared Savings Program to pay for services to Medicare beneficiaries. North Country ACO performs administration and manages the distribution of funds to participants using a patient based model.

Medicare payments to North Country ACO have ceased. The Organization did not submit an application to reapply to the Medicare Shared Savings Program. As a result, North Country ACO was issued a status of non-renewal, and its participation agreement with the Shared Savings Program has been terminated. Substantially all funds have been distributed to participants. A nominal cash balance remained to fund closing activities and completion of the required notifications to participants. After these activities have been completed, it is the intent of the Organization to dissolve North Country ACO.

The Organization's primary programs are as follows:

Network and Workforce Activities – To provide workforce education programs and promote oral health initiatives for the Organization's dental services.

Public Health and CSAP – To conduct community substance abuse prevention activities, coordination of public health networks, and promote community emergency response plan.

Dental Services and Molar – To sustain a program offering oral health services for children and low income adults in northern New Hampshire.

Following is a summary of the significant accounting policies used in the preparation of these consolidated financial statements.

Principles of consolidation

The accompanying consolidated financial statements include the accounts of North Country Health Consortium, Inc. and its wholly owned subsidiary, North Country ACO. All significant inter-company transactions and balances have been eliminated in consolidation.

Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)

Use of estimates

In preparing the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of risk

The Organization's operations are affected by various risk factors, including credit risk and risk from geographic concentration and concentrations of funding sources. Management attempts to manage risk by obtaining and maintaining revenue funding from a variety of sources. A substantial portion of the Organization's activities are funded through grants and contracts with private and federal and state agencies. As a result, the Organization may be vulnerable to the consequences of change in the availability of funding sources and economic policies at the agency level. The Organization generally does not require collateral to secure its receivables.

Revenue recognition

Below are the revenue recognition policies of the Organization:

Dental Patient Revenue

Dental services are recorded as revenue within the fiscal year related to the service period.

Grant and Contract Revenue

Grants and contracts are recorded as revenue in the period they are earned by satisfaction of grant or contract requirements.

Fees for Programs and Services

Fees for programs and services are recorded as revenue in the period the related services were performed.

Cash and cash equivalents

For purposes of the statement of cash flows, the Organization considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Restricted cash - IDN

Restricted cash - IDN consists of advanced funding received from The State of New Hampshire Department of Health and Human Services for the Integrated Delivery Network program (IDN). The original advance of funds of \$2,000,000 is to be used to fund the Organization's cost of administering the IDN over a period of five years, beginning in fiscal year 2017. The remaining balance is to be distributed to participants.

Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)

For the years ending September 30, 2017 and 2016, these amounts were restricted as follows:

	2017	2016
Administration fee to the Organization	\$ 1,600,000	\$ 2,000,000
Distributions to participants	<u>621,388</u>	<u>413,235</u>
	<u>\$ 2,221,388</u>	<u>\$ 2,413,235</u>

Accounts receivable

The Organization has receivable balances due from dental services provided to individuals and from grants and contracts received from federal, state, and private agencies. Management reviews the receivable balances for collectability and records an allowance for doubtful accounts based on historical information, estimated contractual adjustments, and current economic trends. Management considers the individual circumstances when determining the collectability of past due amounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to earnings and a credit to accounts receivable. Any collection fees or related costs are expensed in the year incurred. The Organization recorded an allowance for doubtful accounts for estimated contractual adjustments for dental service of \$7,776 as of September 30, 2017 and 2016, and an allowance for doubtful accounts for grants and contracts of \$0 as of September 30, 2017 and 2016. The Organization does not charge interest on its past due accounts, and collateral is generally not required.

Certificates of deposit

The Organization has three certificates of deposit with one financial institution. These certificates carry original terms of 12 months to 24 months, have interest rates ranging from .40% to .55%, and mature at various dates through September 2018.

Property and equipment

Property and equipment is stated at cost less accumulated depreciation. The Organization generally capitalizes property and equipment with an estimated useful life in excess of one year and installed costs over \$2,500. Lesser amounts are generally expensed. Purchased property and equipment is capitalized at cost.

Property and equipment are depreciated using the straight-line method using the following ranges of estimated useful lives:

Computers and equipment	3-7 years
Dental equipment	5-7 years
Furniture and fixtures	5-7 years
Vehicles	5 years

Depreciation expense totaled \$30,209 and \$15,721 for the years ended September 30, 2017 and 2016, respectively.

Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)

Deferred revenue

Deferred revenue is related to advance payments on grants or advance billings relative to anticipated expenses or events in future periods. The revenue is realized when the expenses are incurred or as services are provided in the period earned.

Net assets

The Organization is required to report information regarding its financial position and activity according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets – consist of unrestricted amounts that are available for use in carrying out the mission of the Organization.

Temporarily restricted net assets – consist of those amounts that are donor restricted for a specific purpose. When a donor restriction expires, either by the passage of a stipulated time restriction or by the accomplishment of a specific purpose restriction, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. The Organization has elected, however, to show those restricted contributions whose restrictions are met in the same reporting period as they are received as unrestricted support. The Organization had no temporarily restricted net assets at September 30, 2017 and 2016.

Permanently restricted net assets – result from contributions from donors who place restrictions on the use of donated funds mandating that the original principal remain invested in perpetuity. The Organization had no permanently restricted net assets at September 30, 2017 and 2016.

Income taxes

The Organization and the ACO are exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and are not classified as private foundations. FASB ASC 740-10 prescribes a recognition threshold and measurement attributable for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Organization is not aware of any such uncertain tax positions. The tax years ending September 30, 2014 through 2017 are still open to audit.

Functional expenses

The costs of providing the various programs and activities have been summarized on a functional basis in the Statement of Activities. Expenses are charged to programs based on direct expenses incurred and certain costs, including salaries and fringe benefits, are allocated to the programs and supporting services based upon related utilization and benefit.

Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)

Implementation of new accounting pronouncements

Management is reviewing the following Accounting Standards Updates (ASU) issued by the Financial Accounting Standards Board, which are effective for future years, for possible implementation and to determine their effect on the Organization's financial reporting.

ASU No. 2014-09, *Revenue from Contracts with Customers*. This ASU includes new revenue measurement and recognition guidance, as well as required additional disclosures. The ASU is effective for annual reporting beginning after December 15, 2017, including interim reporting periods within that reporting period. The effect of this ASU has not been quantified.

ASU No. 2016-02, *Leases (Topic 842)*. This ASU requires lessees to recognize the following for all leases (with the exception of short-term leases) at the commencement date; (1) a lease liability, which is the lessee's obligation to make lease payments arising from a lease, measured on a discounted basis; and (2) a right-of-use asset which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. For short-term leases (term of twelve months or less), a lessee is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities. If a lessee makes the election, it should recognize lease expense for such leases generally on a straight-line basis over the lease term. The ASU is effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2019. The effect of this ASU has not been quantified.

ASU No. 2016-14, *Not-For-Profit Entities: Presentation of Financial Statements of Not-for-Profit Entities*. The ASU was issued to improve reporting by not-for-profit entities in the areas of net asset classifications and information provided about liquidity. This ASU is effective for fiscal years beginning after December 31, 2017, and interim periods within fiscal years beginning after December 31, 2018. This ASU will increase disclosures in the Organization's financial statements.

ASU No. 2016-18, *Statement of Cash Flows: Restricted Cash*. This ASU clarifies how to report restricted cash in the statement of cash flows. This ASU is effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 31, 2019. This ASU will have minimal effect on the Organization's financial statements.

Reclassification

Certain amounts in the 2016 financial statements have been reclassified to conform to the current year presentation.

Note 2. Cash Concentrations

The Organization maintains cash balances at two financial institutions. Their bank accounts at the institutions are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 per financial institution. The Organization's cash balances exceeded federally insured limits by \$103,495 at September 30, 2017. The Organization has not experienced any losses with these accounts. Management believes the Organization is not exposed to any significant credit risk on cash as of September 30, 2017.

Note 2. Cash Concentrations (Continued)

The Organization attempts to manage credit risk relative to cash concentrations by utilizing "sweep" accounts. The Organization maintains ICS Sweep accounts that invest cash balances in other financial institutions at amounts that do not exceed FDIC insurable limits. All cash at these institutions is held in interest-bearing money market accounts. Interest rates on these balances ranged from .10% to .15% as of September 30, 2017.

Note 3. Operating Leases

The Organization leases office space in Littleton, NH under a three year operating lease that expires in October 2020. The Organization has the option to renew the lease for two additional years.

Future minimum rental payments under lease commitments are as follows:

Year Ended September 30,	
2018	\$ 97,636
2019	103,797
2020	106,911
2021	8,931
Thereafter	-
	<u>\$ 317,275</u>

Lease expense for the aforementioned leases was \$62,100 and \$59,105 for the years ended September 30, 2017 and 2016, respectively.

Note 4. Deferred Revenue

The summary of the components of deferred revenue as of September 30, are as follows:

	2017	2016
Deferred Revenue- IDN	\$ 2,215,782	\$ 2,392,816
Deferred Revenue- Other	169,483	187,053
Total	<u>\$ 2,385,265</u>	<u>\$ 2,579,869</u>

Deferred revenue - IDN

Under the terms of an agreement between the Centers for Medicare and Medicaid Services (CMS) and the State of New Hampshire Department of Health and Human Services, various Integrated Delivery Networks (IDN) are to be established within geographic regions across the state to develop programs to transform New Hampshire's behavioral health delivery system by strengthening community-based mental health and substance use disorder services and programs to combat the opioid crisis. The Organization has been designated to be the administrative lead of one of these IDNs.

Note 4. Deferred Revenue (Continued)

In September 2016, the Organization was awarded a five-year grant from the CMS, passed through the State of New Hampshire Department of Health and Human Services. At that date, the Organization was advanced \$2,413,256 upon fulfillment of the condition of successful submission and state approval of an IDN Project Plan. Of that amount, \$2,000,000 will be retained by the Organization as administrative fees for five years and the remaining funds will be disbursed to participants. For years two through five, the IDNs will continue to earn performance-based incentive funding by achieving defined targets and any funds received will be passed through to the participants.

Note 5. Related Party Transactions

A majority of the Organization's members and the Organization are also members of a Limited Liability Company. There were no transactions between the Limited Liability Company and the Organization's members in 2017 and 2016.

The Organization contracts various services from other organizations of which members of management of these other organizations may also be board members of North Country Health Consortium, Inc. and Subsidiary. Amounts paid to these organizations were \$348,668 and \$121,264 for the years ended September 30, 2017 and 2016, respectively. Outstanding amounts due to these organizations as of September 30, 2017 and 2016 amounted to \$37,950 and \$0, respectively. Outstanding amounts due from these organizations as of September 30, 2017 and 2016 amounted to \$0 and \$1,380, respectively.

Note 6. Retirement Plan

The Organization offers a defined contribution savings and investment plan (the Plan) under section 403(b) of the Internal Revenue Code. The Plan is available to all employees who are 21 years of age or older. There is no service requirement to participate in the Plan. Employee contributions are permitted and are subject to IRS limitations. Monthly employer contributions are \$50 for each part-time employee and \$100 for each full-time employee. Employer contributions for the years ended September 30, 2017 and 2016 were \$26,291 and \$16,725, respectively.

Note 7. Commitment and Contingencies

The Organization receives a significant portion of its support from various funding sources. Expenditure of these funds requires compliance with terms and conditions specified in the related contracts and agreements. These expenditures are subject to audit by the contracting agencies. Any disallowed expenditures would become a liability of the Organization requiring repayment to the funding sources. Liabilities resulting from these audits, if any, will be recorded in the period in which the liability is ascertained. Management estimates that any potential liability related to such audits will be immaterial.

Note 8. Federal Reports

Additional reports, required by *Government Auditing Standards* and Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, including the Schedule of Expenditures of Federal Awards, are included in the supplements to this report.

Note 9. Subsequent Events

Subsequent to year end, the Organization received \$1,388,399 from the State of New Hampshire in funding for the IDN grant based on the successful submission and completion of the year 2 plan. The funds will be used for future expenses related to the programs of the grant.

Friendship House

Effective October 1, 2017, the Organization agreed to assume the operations of Friendship House, an outpatient drug and alcohol treatment facility and program from Tri County Community Action Program (TCCAP). The existing facility did not meet various safety codes. The property was sold to Affordable Housing, Education, and Development (AHEAD). AHEAD is constructing a new facility. The facility is to be leased to the Organization for the purpose of continuing the operations of Friendship House. The old building will be demolished after the new building is completed and vacated.

On October 1, 2017, the Organization entered into a lease agreement with AHEAD to lease the premises for \$1 per year until a certificate of occupancy is issued for the new building. Once the certificate of occupancy has been issued, a new five-year lease becomes effective through March 2023, with monthly rent and CAM fee payments of \$19,582. The payment may be adjusted annually each year. The Organization has the option to renew this lease for five additional five year terms.

Under the terms of the program transition agreement, the Organization, at its discretion, offered employment to most of the employees of Friendship House. No liabilities or assets were assumed by the Organization.

In August 2017, the Organization was awarded funding of \$250,000 from the State of New Hampshire Department of Health and Human Services to provide services to bridge the transition of services from TCCAP to the Organization. The funds were received in October 2017.

The Organization has evaluated subsequent events through March 9, 2018, the date the financial statements were available to be issued.

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of North Country Health Consortium, Inc. and Subsidiary (the Organization) under programs of the federal government for the year ended September 30, 2017. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Directors of
North Country Health Consortium, Inc. and Subsidiary
Littleton, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of North Country Health Consortium, Inc. and Subsidiary (the Organization) (a New Hampshire nonprofit organization), which comprise the consolidated statements of financial position as of September 30, 2017, and the related consolidated statements of activities and changes in net assets, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated March 9, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered North Country Health Consortium, Inc. and Subsidiary's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of North Country Health Consortium, Inc. and Subsidiary's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether North Country Health Consortium, Inc. and Subsidiary's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the Board of Directors of
North Country Health Consortium, Inc. and Subsidiary
Littleton, New Hampshire

Report on Compliance for Each Major Federal Program

We have audited North Country Health Consortium, Inc. and Subsidiary's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of North Country Health Consortium, Inc. and Subsidiary's major federal programs for the year ended September 30, 2017. North Country Health Consortium, Inc. and Subsidiary's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of North Country Health Consortium, Inc. and Subsidiary's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about North Country Health Consortium, Inc. and Subsidiary's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of North Country Health Consortium, Inc. and Subsidiary's compliance.

Opinion on Each Major Federal Program

In our opinion, North Country Health Consortium, Inc. and Subsidiary complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2017.

Report on Internal Control Over Compliance

Management of North Country Health Consortium, Inc. and Subsidiary is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered North Country Health Consortium, Inc. and Subsidiary's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of North Country Health Consortium, Inc. and Subsidiary's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Funds to support this request are available in State Fiscal Year 2019 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office without approval of the Governor and Executive Council, if needed and justified.

Please see attached financial details.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of \$3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2016; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

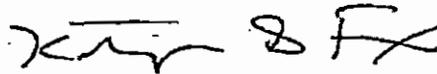

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

9. DATA/ACCESS/CONFIDENTIALITY/PRESERVATION.

9.1 As used in this Agreement, the word "data" shall mean all information and things developed or obtained during the performance of, or acquired or developed by reason of, this Agreement, including, but not limited to, all studies, reports, files, formulae, surveys, maps, charts, sound recordings, video recordings, pictorial reproductions, drawings, analyses, graphic representations, computer programs, computer printouts, notes, letters, memoranda, papers, and documents, all whether finished or unfinished.

9.2 All data and any property which has been received from the State or purchased with funds provided for that purpose under this Agreement, shall be the property of the State, and shall be returned to the State upon demand or upon termination of this Agreement for any reason.

9.3 Confidentiality of data shall be governed by N.H. RSA chapter 91-A or other existing law. Disclosure of data requires prior written approval of the State.

10. **TERMINATION.** In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. The form, subject matter, content, and number of copies of the Termination Report shall be identical to those of any Final Report described in the attached EXHIBIT A.

11. **CONTRACTOR'S RELATION TO THE STATE.** In the performance of this Agreement the Contractor is in all respects an independent contractor, and is neither an agent nor an employee of the State. Neither the Contractor nor any of its officers, employees, agents or members shall have authority to bind the State or receive any benefits, workers' compensation or other emoluments provided by the State to its employees.

12. **ASSIGNMENT/DELEGATION/SUBCONTRACTS.** The Contractor shall not assign, or otherwise transfer any interest in this Agreement without the prior written notice and consent of the State. None of the Services shall be subcontracted by the Contractor without the prior written notice and consent of the State.

13. **INDEMNIFICATION.** The Contractor shall defend, indemnify and hold harmless the State, its officers and employees, from and against any and all losses suffered by the State, its officers and employees, and any and all claims, liabilities or penalties asserted against the State, its officers and employees, by or on behalf of any person, on account of, based or resulting from, arising out of (or which may be claimed to arise out of) the acts or omissions of the Contractor. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant in paragraph 13 shall survive the termination of this Agreement.

14. INSURANCE.

14.1 The Contractor shall, at its sole expense, obtain and maintain in force, and shall require any subcontractor or assignee to obtain and maintain in force, the following insurance:

Treatment at another level of care (more or less intensive) in the same type of services,

JD

- or discharge from treatment, is therefore indicated; or
- 2.8.5.3.3. Transfer/Discharge Criteria C: The patient has demonstrated a lack of capacity due to diagnostic or co-occurring conditions that limit his or her ability to resolve his or her problem(s). Treatment at a qualitatively different level of care or type of service, or discharge from treatment, is therefore indicated; or
- 2.8.5.3.4. Transfer/Discharge Criteria D: The patient has experienced an intensification of his or her problem(s), or has developed a new problem(s), and can be treated effectively at a more intensive level of care.
- 2.8.5.4. Include clear documentation that explains why continued services/transfer/ or discharge is necessary for Recovery Support Services and Transitional Living.

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors of
Phoenix Houses of New England, Inc.

We have audited the accompanying financial statements of Phoenix Houses of New England, Inc. ("PH New England"), which comprise the statements of financial position as of June 30, 2017 and 2016, and the related statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform our audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to PH New England's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of PH New England's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of PH New England as of June 30, 2017 and 2016, and the results of its operations and changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

Our audits were conducted for the purposes of forming an opinion on the financial statements of PH New England as of and for the years ended June 30, 2017 and 2016, taken as a whole. The supplementary information included on pages 18 and 19 is presented for purposes of additional analysis and is not a required part of the financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). Accordingly, the net assets of PH New England and changes therein are classified and reported based upon the existence or absence of donor-imposed restrictions as follows:

- Unrestricted net assets represent expendable resources that are used to carry out PH New England's operations and are not subject to donor-imposed stipulations.

PHOENIX HOUSES OF NEW ENGLAND, INC.

Notes to Financial Statements

June 30, 2017 and 2016

- Temporarily restricted net assets represent resources that contain donor-imposed restrictions that permit PH New England to use or expend such resources only as or when specified. Restrictions are satisfied either by the passage of time or by actions of PH New England.
- Permanently restricted net assets contain donor-imposed restrictions that stipulate that such resources be maintained permanently. PH New England had no permanently restricted net assets at June 30, 2017 and 2016.

Cash and Cash Equivalents

PH New England considers all highly liquid financial instruments, which principally consist of money market funds, with original maturities of three months or less from the date of purchase to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The allowance for doubtful accounts on receivables, the useful lives assigned to fixed assets and the fair value of donated goods and services represent significant accounting estimates reflected in the accompanying financial statements. Actual results could differ from those estimates.

Donated Goods and Services

Donated goods are recorded as revenues and assets (at fair value when received) and expenses (when used) on the statement of operations and changes in net assets. Food stamps are recorded at face amount, which is the same as fair value, as revenues and assets and are charged to resident sustenance when expended. Donated goods received during the years ended June 30, 2017 and 2016 totaled approximately \$189,000 and \$261,000, respectively.

PH New England receives contributed legal services that meet the criteria established by US GAAP for recognition as contributions. Such services are recorded as part of donated goods and services on the accompanying statements of operations and changes in net assets at fair value, which for the year ended June 30, 2017 approximated \$17,000. There were no contributed services received for the year ended June 30, 2016.

Property and Equipment

Property and equipment are stated at cost, if purchased, or if donated, at fair value at the date of gift, less accumulated depreciation and amortization. PH New England capitalizes assets acquired for greater than \$1,000 and with useful lives greater than three years. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

Buildings and improvements	4 - 40 years
Furniture, fixtures and equipment	3 - 7 years
Computer equipment and vehicles	3 - 5 years

PHOENIX HOUSES OF NEW ENGLAND, INC.

Notes to Financial Statements

June 30, 2017 and 2016

Furniture, fixtures and equipment acquired under capital lease arrangements are amortized using the straight-line method over the shorter of the lease term or the estimated useful life of the asset.

Statement of Operations and Changes in Net Assets

PH New England's operating income includes all unrestricted revenues and expenses. Other items include depreciation on capital assets funded with government grants and losses on disposals of capital assets. The statement of operations and changes in net assets also includes the caption "(deficiency in) excess of revenues and support over expenses and other items," which is the performance indicator. Other changes in net assets, which are excluded from the performance indicator, consistent with industry practice, include capital contributions (including assets acquired using contributions which by donor restriction are to be used for the purposes of acquiring such assets).

Revenue and Support

Contributions (including unconditional promises to give) are recorded at fair value when received. Revenues relative to special events are recognized upon occurrence of the respective event. Contributions received with donor stipulations that limit the use of the donated assets are reported as either temporarily or permanently restricted support. Unconditional promises to give, with payments due in future years, are reported as either temporarily restricted or permanently restricted support and discounted to present value. When a donor restriction expires, that is, when a time restriction ends or purpose restriction is fulfilled, temporarily restricted net assets are reclassified to unrestricted net assets and reported on the statement of operations and changes in net assets as net assets released from restrictions. Contributions restricted by donors for the acquisition of property and equipment are released from their restrictions when the respective assets are acquired or constructed and placed into service. Such contributions and related releases are reported below the performance indicator.

Special Events Revenue

Special events revenue consists of proceeds from fundraising events, reported net of direct donor benefits, if any. Revenue and related expenses are recognized upon occurrence of the respective event to which they pertain. For the years ended June 30, 2017 and 2016, direct benefits to donors totaled approximately \$23,000 and \$6,000, respectively.

Government Contract Revenue

PH New England's contracts and other program funding arrangements with government agencies are classified as part of operating activities within the unrestricted net asset category and revenue is recognized when earned. PH New England operates under various contracts with government agencies which generally cover a one-year period, subject to annual renewal. The terms of these contracts allow the grantors the right to audit the costs incurred thereunder and adjust contract funding based upon, among other things, the amount of program income received. Any costs disallowed by the grantor would be absorbed by PH New England and any adjustments by grantors would be recorded when amounts are known; however, it is the opinion of management that disallowances, if any, would not be material to the accompanying financial statements.

PHOENIX HOUSES OF NEW ENGLAND, INC.
Notes to Financial Statements
June 30, 2017 and 2016

Client and Third-Party Revenue

Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed based on pre-determined rates. Medicaid and managed Medicaid approximated 73% and 62% of total client and third-party revenue for the years ended June 30, 2017 and 2016, respectively. Contracts have been entered into with commercial insurance carriers and reimbursement is based on contracted rates.

Laws and regulations governing healthcare programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near-term. Noncompliance with such laws and regulations could result in fines, penalties, and exclusion from such programs. The federal government and many states have aggressively increased enforcement under Medicaid antifraud and abuse legislation. PH New England believes that it is in compliance, in all material respects, with all applicable laws and regulations and, is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation.

Noncompliance with such laws and regulations could result in repayments of amounts improperly reimbursed, substantial monetary fines, civil and criminal penalties and exclusion from the Medicaid program.

Concentration of Credit Risk

Financial instruments that potentially subject PH New England to concentrations of credit risk consist principally of cash and cash equivalents. PH New England maintains its cash and cash equivalents in various bank deposit accounts that, at times, may exceed federally insured limits. PH New England's cash and cash equivalents have been placed with high credit quality financial institutions at June 30, 2017 and 2016, and PH New England believes the risk of nonperformance by these financial institutions to be remote.

PH New England provides drug and alcohol rehabilitation services through its inpatient and outpatient care facilities. PH New England grants credit without collateral to clients, however, it routinely obtains assignment of (or is otherwise entitled to receive) clients' benefits payable under their respective health insurance programs, plans, or policies (e.g., Medicaid and commercial insurance providers).

Amounts due from government agencies and other receivables by financial class as a percentage of total accounts receivable at June 30, 2017 and 2016, are as follows:

	<u>2017</u>	<u>2016</u>
Medicaid/Managed Medicaid	27 %	36 %
Commercial insurance	43	31
Other third-party payors	30	33
	<u>100 %</u>	<u>100 %</u>

Notes to Financial Statements

June 30, 2017 and 2016

Income Taxes

PH New England follows guidance that clarifies the accounting for uncertainty in tax positions taken or expected to be taken in a tax return, including issues relating to financial statement recognition and measurement. This guidance provides that the tax effects from an uncertain tax position can only be recognized in the financial statements if the position is "more-likely-than-not" to be sustained if the position were to be challenged by a taxing authority. The assessment of the tax position is based solely on the technical merits of the position, without regard to the likelihood that the tax position may be challenged.

PH New England is exempt from federal income tax under IRC section 501(c)(3), though it is subject to tax on income unrelated to its exempt purpose, unless that income is otherwise excluded by the Code. PH New England has processes presently in place to ensure the maintenance of its tax-exempt status; to identify and report unrelated income; to determine its filing and tax obligations in jurisdictions for which it was nexus; and to identify and evaluate other matters that may be considered tax positions. PH New England has determined that there are no material uncertain tax positions that require recognition or disclosure in the financial statements.

Subsequent Events

PH New England evaluated its subsequent events through March 9, 2018, the date these financial statements were available to be issued.

3. RELATED PARTY TRANSACTIONS

PH New England is charged for administrative services provided by its Parent based upon a cost allocation plan. The administrative expenses charged by the Parent approximate the federally approved indirect cost rate for the Parent and its affiliates on a consolidated basis, adjusted to reflect PH New England's own administrative expenses. For the years ended June 30, 2017 and 2016, such allocated charges totaled approximately \$1,117,000 and \$519,000, respectively, and are included as part of administrative charges from Parent on the accompanying statements of operations and changes in net assets.

The Parent has adopted a cash management strategy with the principal goal of pooling its cash balances with those of its affiliates to maximize returns and reduce short-term borrowings and to pay for certain costs on behalf of the respective affiliates on a reimbursable basis. As a result of this strategy, certain affiliates participating in the cash management program will have corresponding amounts due to/(from) the Parent as of the reporting date. Amounts reflected as due to Parent on the accompanying statements of financial position of approximately \$3,228,000 and \$3,633,000 as of June 30, 2017 and 2016, respectively, relate to costs incurred by PH New England, but paid for by the Parent. The Parent has represented to PH New England that it will defer collection of this debt and continue to support the operations of PH New England, as needed, until at least April 2019.

4. CONTRIBUTIONS RECEIVABLE

At June 30, 2017 and 2016, contributions receivable consist of unconditional promises to give of approximately \$47,000 and \$23,000, respectively, which are expected to be collected within one year.

PHOENIX HOUSES OF NEW ENGLAND, INC.

Notes to Financial Statements

June 30, 2017 and 2016

Multi-year pledges received are recorded at the present value of their expected future cash flows using a credit adjusted discount rate which articulates with the collection period of the respective pledge. Discount rates assigned to multi-year pledges in the year of origination are not subsequently revised.

5. NOTES RECEIVABLE

During May 2012, PH New England entered into a lease, with no stated rental payments due, and a promissory agreement with Central Vermont Community Land Trust ("CVCLT"), a non-profit corporation existing under the laws of the State of Vermont. In conjunction with a new program, PH New England agreed to lease a facility from CVCLT for twenty years. As part of the lease agreement, PH New England entered into a non-interest bearing note of \$100,000 payable by CVCLT and secured by a mortgage of and security interest in the property in Barre, Vermont. The principal of this note does not bear interest nor will any principal be due at any time during which the lease between PH New England and CVCLT is in effect and for a period beginning on the date of termination of the lease and ending on the last day of the twelfth calendar month after such date. The principal due shall be reduced by \$5,000 each year for the initial twenty year term of the lease, beginning with the commencement of the new program, beginning July 1, 2013. In the event the lease is in effect throughout the entire initial 20 year term, the note shall be deemed paid in full upon the conclusion of such term. In the event the lease terminates prior to the conclusion of the initial lease term, then the remaining principal shall be due and payable on the last day of the twelfth full calendar month following termination of the lease. Interest shall begin to accrue on such remaining principal balance beginning on the first day of the first month following the due date at a rate equal to the U.S. Department of the Treasury One Year Treasury Bill Rate in effect on the due date. At June 30, 2017 and 2016, the balance of this note receivable was \$80,000 and \$85,000, respectively. Use of this facility is received free of charge, however, is cancellable by any party to the lease agreement. Given the immaterial amount of the free rent received, the fair value for the right to use this space has not been quantified and recognized in the accompanying financial statements.

During July 2010, PH New England entered into a lease and promissory agreement with Burlington Housing Authority ("BHA"), a housing authority existing under the laws of the State of Vermont and the City of Burlington. In conjunction with a new program, PH New England agreed to lease a facility from BHA for twenty-five years. As part of the lease agreement, PH New England entered into a non-interest bearing note of \$75,000 due and payable by BHA on the last day of the twelfth full calendar month immediately following the termination of the lease. Interest accrues on the principal balance of this note, beginning on the first day of the first month following the due date, at a rate equal to the One Year Treasury Bill rate in effect on that date. At June 30, 2017 and 2016, the balance of this note receivable was \$75,000. Total rent expense associated with the lease for this space totaled approximately \$52,000 for each of the years ended June 30, 2017 and 2016.

REQUESTED ACTION

Authorize the Department of Health and Human Services, Bureau of Drug and Alcohol Services, to enter into Agreements with multiple Vendors, listed below, to provide substance use disorder treatment and recovery support services statewide, in an amount not to exceed \$3,157,927 effective July 1, 2018 or upon Governor and Executive Council approval whichever is later through June 30, 2019. 55.87% Federal, 13.97% General, and 30.16% Other Funds.

Funds to support this request are available in State Fiscal Year 2019 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office without approval of the Governor and Executive Council, if needed and justified.

Please see attached financial details.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of \$3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2016; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Human Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

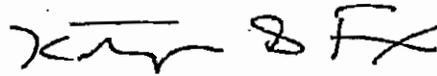

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable

program, and participation must be voluntary for the program beneficiaries.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. 6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of \$3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2016; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Human Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

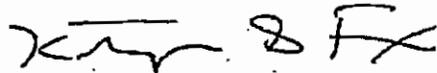

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

- 10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Southeastern New Hampshire Alcohol & Drug Abuse Services as of June 30, 2017, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Notes to the Financial Statements

June 30, 2017

Nature of Organization & Activities:

Southeastern New Hampshire Alcohol & Drug Abuse Services (the "Organization"), is a non-profit organization formed under the laws of the State of New Hampshire in 1979, dedicated to helping people recover from addictive disorders thru programs that focus on substance use disorders as chronic, progressive, biological, psychological and social in nature.

Note 1 - Summary of Significant Accounting Principles:

A. Method of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

B. Basis of Presentation

The Organization presents its financial statements following the Not-For-Profit Entities topic of the FASB Accounting Standards Codification with respect to financial statement presentation. Under this topic, the Organization is required to report information regarding its financial position and activities according to the three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. In addition, the Organization is required to present a statement of cash flows. The financial statements are presented using the three classes of net assets and are as follows:

Unrestricted Net Assets:

The portion of net assets of a not-for-profit Organization that is neither permanently restricted nor temporarily-restricted by donor-imposed stipulations.

Temporarily Restricted Net Assets:

The portion of net assets of a not-for-profit Organization resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Organization pursuant to those stipulations, (b) from other asset enhancements and diminishments subject to the same kinds of stipulations, and (c) for reclassifications to or from other classes of net assets as a consequence of donor-imposed stipulations, their expiration by passage of time, or their fulfillments and removal by actions of the Organization pursuant to those stipulations. There are no Temporarily Restricted Net Assets at June 30, 2017.

B. Basis of Presentation - Continued

Permanently Restricted Net Assets:

The portion of net assets of a not-for-profit Organization resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that neither expire by the passage of time nor can be fulfilled or otherwise removed by actions of the Organizations, (b) from other asset enhancements and diminishments subject to the same kinds of stipulations, and (c) from reclassifications from or to other classes of net assets as a consequence of donor-imposed stipulations. There are no Permanently Restricted Net Assets at June 30, 2017.

C. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Organization considers all highly liquid deposits with maturity of three months or less to be cash and/or cash equivalents.

D. Use of Estimates in the Preparation of Financial Statements

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

E. Income Taxes

The Organization is exempt from Federal Income Tax under Section 501(c)(3) of the Internal Revenue Code. There are no state income taxes due to the fact that the State of New Hampshire recognizes Section 501(c)(3) for exemption of organizations that are organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes. The Organization's evaluation on June 30, 2017 revealed no uncertain tax positions that would have a material impact of the financial statements.

The Organization's information returns are subject to possible examination by the taxing authorities. For federal purposes the returns essentially remain open for possible examination for a period of three years after the respective filing deadlines of those returns.

Notes to the Financial Statements
June 30, 2017

Note 1 - Summary of Significant Accounting Principles - Continued:

F. Fixed Assets

Property and equipment are carried at cost and donations of property and equipment are recorded as support at fair value at the time of the gift. Acquisitions of property and equipment in excess of \$1,500 that meet the capitalization requirements are capitalized. Depreciation is computed using the straight-line method based on the assets' estimated useful lives. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized. The cost of maintenance and repairs is charged to operations as incurred; significant renewals and betterments are capitalized. The breakdown of assets relevant to useful life is as follows:

<u>Description</u>	<u>Method</u>	<u>Life</u>
Furniture and Fixtures	Straight-Line	5-7 years
Equipment	Straight-Line	3-5 years
Buildings and Improvements	Straight-Line	5-39 years

G. Accounts Receivable

Accounts receivable are reported at net realizable value. Net realizable value is equal to the gross amount of receivables less an estimated allowance for uncollectible accounts. The Organization determines an allowance for doubtful accounts based on historical experience and assessment and review of subsequent collections. The balance for allowance for doubtful accounts at June 30, 2017 is \$29,000.

H. Donor-Restricted Contributions

The Organization's policy is to report donor-restricted contributions whose restrictions are met in the same reporting period, as unrestricted support, as there is no effect to reported restricted net assets.

I. Advertising

The Organization follows the policy of charging the costs of advertising to expense as they are incurred. Advertising expenses were \$4,172 for the year ended June 30, 2017.

Note 1 - Summary of Significant Accounting Principles - Continued:

J. Functional Allocation of Expenses

Expenses are charged to each program based on direct expenses incurred. Any program expenses not directly chargeable to a program are allocated based on prescribed indirect cost allocation.

Note 2 - Capital Lease:

Note 4 – Concentration of Credit Risk – Cash in Bank:

The Organization maintains its bank accounts with commercial banks, which could at times exceed federally insured limits. Management considers this risk minimal.

Note 5 – Concentration of Revenues and Support Sources:

The Organization's primary sources of revenues are grants for prevention and treatment of substance abuse. Revenue is recognized as earned under the terms of the grant contract. Other support originates from charges for private services performed for citizens of New Hampshire and miscellaneous income and grants.

Note 6 – Contributions:

Donated materials, equipment and essential services are reflected as contributions in the accompanying financial statements at fair market value, at the date of the donation. The Organization also adopted a policy to record an in-kind donation for food procured at a below market rate from another non-profit organization. These transactions have been recorded as follows:

	<u>2017</u>
Donated rent, materials, equipment and food	\$ <u>11,333</u>

Note 7 – Deferred Revenue:

Revenues received in advance are recorded as deferred revenue and recognized as revenue in the period in which the related services are provided or costs are incurred. The balance at June 30, 2017 is \$55,250.

Note 8 – Line of Credit:

The Organization has a revolving line of credit with a bank in the amount of \$50,000. The line requires monthly interest payments on the unpaid principal balance at the rate of 1.5% over the bank's stated rate. The line of credit is secured by a security interest in all business assets. At June 30, 2017, there was no outstanding balance on the line.

Note 9 – Compensated Absences:

Vacation is granted based on a vesting schedule of time of employment and employment status. The amount at June 30, 2017 totaled \$48,491.

Funds to support this request are available in State Fiscal Year 2019 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office without approval of the Governor and Executive Council, if needed and justified.

Please see attached financial details.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of \$3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2016; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Human Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

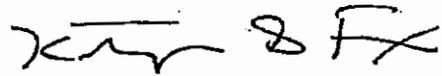

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

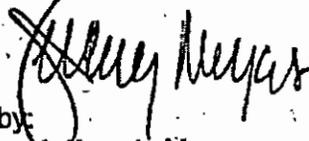

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION
AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

Exhibit F

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
- 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. (5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

Our audit of the financial statements does not relieve you or management of your responsibilities.

As part of the audit, we considered the internal control of the Organization. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Organization are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended June 30, 2017.

We noted no transactions entered into by the Organization during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were:

- Note 2 – Program service fees and concentrations of credit risk
- Note 6 – Endowment
- Note 8 – Commitments and contingencies

The financial statement disclosures are neutral, consistent and clear.

Management Judgments and Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

- Management's estimate of the allowance for uncollectible accounts based on historical collectability by major payer source;
- Management's estimate of depreciation expense on property and equipment based on the estimated useful lives of assets;
- Management's estimate of the cost allocations based on time spent between location and function;
- Management's estimate of accrued revenues based on budgeted client services approved by Medicaid but unbilled at year-end.

We have evaluated the key factors and assumptions used to develop these estimates to satisfy ourselves of their reasonableness in relation to the financial statements as a whole.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the consolidated financial statements taken as a whole.

The attached schedule identifies uncorrected misstatements of the financial statements. Management has determined the effects of the uncorrected misstatements to be immaterial, individually and in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 25, 2017.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Organization's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Organization's auditor. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

INTERNAL CONTROL MATTERS

In planning and performing our audit of the financial statements of the Organization as of and for the year ended June 30, 2017, in accordance with U.S. generally accepted auditing standards, we considered the Organization's internal control as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we considered to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Organization's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiency in the Organization's internal control to be significant deficiency:

Endowment Funds Spending Policy

As a result of our testing surrounding endowment funds, we noted the Organization does not properly accumulate earnings on permanently restricted funds and appropriate those funds on an annual basis through a spending policy. The State of New Hampshire has adopted the Uniform Prudent Management of Institutional Funds Act, known as UPMIFA. New Hampshire UPMIFA states the appropriation for expenditure in any year of any amount greater than 7 percent of the fair market value of an endowment fund, calculated on the basis of fair market value determined at least quarterly and averaged over a period of not less than 3 years immediately preceding the year in which the appropriation for expenditure was made creates a rebuttable presumption of imprudence. We recommend the Organization establish a formalized spending policy pertaining to endowment funds at a percentage the Board determines to be prudent.

Management's Response

While GNMHC has in place a comprehensive investment policy, we agree that no formal spending policy exists within the current investment policy. The agency will bring this suggestion forward to both the Board of Trustees and the Trustees for our endowment for consideration.

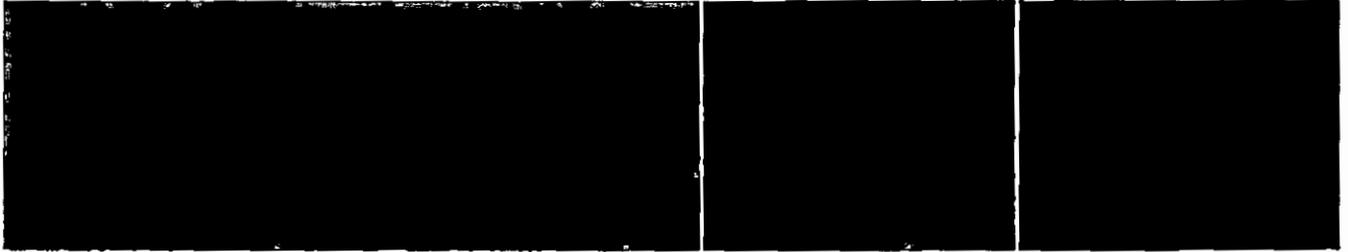

Management's written response above has not been subjected to the audit procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

We sincerely appreciate the cooperation, courtesy, and working environment provided our personnel by management and the employees of the Organization during the engagement. We have previously discussed the comments and suggestions contained herein with management, and we will be pleased to discuss them further at your request.

This communication is intended solely for the information and use of the Board of Directors and management of the Organization and is not intended to be, and should not be, used by anyone other than these specified parties.

FINANCIAL STATEMENTS

June 30, 2017 and 2016

With Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

Board of Directors

The Community Council of Nashua, NH d/b/a Greater Nashua Mental Health Center

We have audited the accompanying financial statements of The Community Council of Nashua, NH d/b/a Greater Nashua Mental Health Center (the Organization), which comprise the statement of financial position as of June 30, 2017, and the related statements of activities and changes in net assets, functional revenue and expenses and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Organization, as of June 30, 2017, and the changes in its net assets and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Organization

The Community Council of Nashua, NH, d/b/a Greater Nashua Mental Health Center (the Organization) is a comprehensive community health center located in Nashua, New Hampshire. The Organization's mission is to work with the community to meet the mental health needs of its residents by offering evaluation, treatment, resource development, education and research. The Organization is dedicated to clinical excellence and advocacy with their Community Support Services, Child and Adolescent Programs, Clinical Research and Integrated HealthCare Programs, Adult Outpatient Services, and specialty services such as Housing, Deaf Services, Substance Abuse Program, Vocational Services and Individual and Group Therapy.

1. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Presentation

Net assets and revenues, expenses, gains and losses are classified as follows:

Unrestricted net assets - Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted net assets - Net assets subject to donor-imposed stipulations that may be or will be met by actions of the Organization and/or the passage of time. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statement of activities as net assets released from restrictions.

Permanently restricted net assets - Net assets subject to donor-imposed stipulations that they be maintained permanently by the Organization.

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support that increases those net asset classes. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. The Organization records donor-restricted contributions whose restrictions are met in the same reporting period as unrestricted support in the year of the gift.

D/B/A GREATER NASHUA MENTAL HEALTH CENTER**

Notes to Financial Statements

June 30, 2017

(With Comparative Totals for June 30, 2016)

The Organization reports contributions of land, buildings or equipment as unrestricted support, unless a donor places explicit restriction on their use. Contributions of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted support and reclassified to unrestricted net assets when the assets are acquired and placed in service.

The financial statements include certain prior year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with GAAP. Accordingly, such information should be read in conjunction with the Organization's June 30, 2016 financial statements, from which the summarized information was derived.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with an original maturity of three months or less, excluding assets limited as to use.

The Organization has cash deposits in major financial institutions which may exceed federal depository insurance limits. The Organization has not experienced any losses in such accounts. Management believes it is not exposed to any significant risk with respect to these accounts.

Accounts Receivable

Accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectibility of accounts receivable, the Organization monitors the amount of actual cash collected during each month against the Organization's outstanding patient accounts receivable balances, as well as the aging of balances. The Organization analyzes its past history and identifies trends for each of its major payer sources of revenue to estimate the appropriate allowance for uncollectible accounts and provision for bad debts. Management, as well as the Finance Committee of the Organization, regularly reviews the aging and collection rate of major payer sources.

Investments

Investments in marketable securities and debt instruments with readily determined market values are carried at fair value. Fair values are based on quoted market prices, if available, or estimated using quoted market prices for similar securities.

Dividends, interest, net realized and unrealized gains (losses) arising from investments are reported as follows:

- Increases (decreases) in permanently restricted net assets if the terms of the gift require that they be maintained with the corpus of a permanent endowment fund;

**THE COMMUNITY COUNCIL OF NASHUA, NH
D/B/A GREATER NASHUA MENTAL HEALTH CENTER**

Notes to Financial Statements

June 30, 2017

(With Comparative Totals for June 30, 2016)

- Increases (decreases) in temporarily restricted net assets if the terms of the gift or state law impose restrictions on the use of the allocated investment income (loss); and
- Increases (decreases) in unrestricted net assets in all other cases.

Property and Equipment

Property and equipment are carried at cost, if purchased, or at estimated fair value at date of donation in the case of gifts, less accumulated depreciation. The Organization's policy is to capitalize assets greater than \$5,000, while minor maintenance and repairs are charged to expense as incurred. Depreciation is recorded using the straight-line method over the following estimated lives as follows:

Furniture & Equipment	3-10 years
Buildings and improvements	15-50 years
Computer equipment and software	3-10 years
Vehicles	5 years

Functional Allocation of Expenses

The costs of providing various programs and other activities have been summarized on a functional basis in the statements of functional expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Income Taxes

The Organization is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. There was no unrelated business income tax incurred by the Organization for the years ended June 30, 2017 and 2016. Management has evaluated the Organization's tax positions and concluded the Organization has maintained its tax-exempt status, does not have any significant unrelated business income and has taken no uncertain tax positions that require adjustment to, or disclosure within, the accompanying financial statements.

Reclassifications

Certain amounts in the 2016 financial statements have been reclassified to conform to the current year's presentation.

Subsequent Events

For purposes of the preparation of these consolidated financial statements in conformity with U.S. GAAP, management has considered transactions or events occurring through October 25, 2017, which is the date that the financial statements were available to be issued.

2. Program Service Fees and Concentrations of Credit Risk

Program service fees are charged at established rates and recognized as services are rendered. The State of New Hampshire has implemented payment reform in which certain patients covered under Medicaid were transitioned to coverage under a managed care system. Discounts, allowances and other arrangements for services provided at other than established rates are recorded as an offset to program service fees. Net revenues from managed care represented approximately 74% and 65% of the Organization's net program service fees for 2017 and 2016, respectively. Net revenues from the Medicaid program accounted for approximately 17% and 20% of the Organization's net program service fees for 2017 and 2016, respectively.

An estimated breakdown of program service fees, net of the provision for bad debt, capitation adjustments and contractual allowances, recognized in 2017 and 2016 from those major sources is as follows:

	<u>2017</u>	<u>2016</u>
Private pay	\$ 1,070,603	\$ 874,132
Commercial insurance	322,958	290,898
Medicaid	2,546,817	2,781,132
Medicare	1,301,991	1,408,343
Other payers	438,909	393,704
Managed Care	<u>12,886,961</u>	<u>9,705,698</u>
	<u>18,568,239</u>	<u>15,453,907</u>
Less: Contractual allowances	(3,092,460)	(3,437,775)
Capitation adjustments	(3,452,269)	(1,289,796)
Provision for bad debt	<u>(1,106,441)</u>	<u>(601,695)</u>

Program service fees, net	<u>\$ 10,917,069</u>	<u>\$ 10,124,641</u>

The increase in bad debt expense in 2017 as compared to 2016 is primarily due to collection trends.

Notes to Financial Statements

June 30, 2017

(With Comparative Totals for June 30, 2016)

	<u>2017</u>	<u>2016</u>
Private pay	61 %	77 %

3. Investments

Investments, which are reported at fair value, consist of the following at June 30:

	<u>2017</u>	<u>2016</u>
Common stocks	\$ 558,516	\$ 488,444
Mutual funds	718,546	704,816

	<u>\$ 1,732,916</u>	<u>\$ 1,668,831</u>

The Organization's investments are subject to various risks, such as interest rate, credit and overall market volatility, which may substantially impact the values of investments at any given time.

4. Fair Value of Financial Instruments

Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, defines fair value as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants and also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

**THE COMMUNITY COUNCIL OF NASHUA, NH
D/B/A GREATER NASHUA MENTAL HEALTH CENTER**

Notes to Financial Statements

**June 30, 2017
(With Comparative Totals for June 30, 2016)**

The fair value hierarchy within ASC Topic 820 distinguishes three levels of inputs that may be utilized when measuring fair value:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following table sets forth by level, within the fair value hierarchy, the Organization's assets measured at fair value on a recurring basis as of June 30:

	<u>2017</u>		
	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>
<u>Investments</u>			
Common stock	\$ 558,516	\$ -	\$ 558,516

	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>

	<u>\$ 1,610,709</u>	<u>\$ 58,122</u>	<u>\$ 1,668,831</u>

The fair value for Level 2 assets is primarily based on market prices of comparable or underlying securities, interest rates, and credit risk, using the market approach for the Organization's investments.

Property and equipment, net	<u>\$ 2,830,369</u>	<u>\$ 2,945,707</u>

6. Endowment

The Organization's endowment primarily consists of funds established for certain programs provided by the Organization. Its endowment includes both donor-restricted endowment funds and funds designated by the Board of Directors to function as endowments. As required by U.S. GAAP, net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Organization has interpreted the State of New Hampshire Uniform Prudent Management of Institutional Funds Act (the Act), which became effective July 1, 2008, as requiring the preservation of the contributed value of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (1) the original value of gifts donated to the permanent endowment, (2) the original value of subsequent gifts to the permanent endowment, and (3) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. If the donor-restricted endowment assets earn investment returns beyond the amount necessary to maintain the endowment assets' real value, that excess is available for appropriation and, therefore, classified as temporarily restricted net assets until appropriated by the Board of Trustees for expenditure. Funds designated by the Board of Directors to function as endowments are classified as unrestricted net assets.

**THE COMMUNITY COUNCIL OF NASHUA, NH
D/B/A GREATER NASHUA MENTAL HEALTH CENTER**

Notes to Financial Statements

June 30, 2017

(With Comparative Totals for June 30, 2016)

In accordance with the Act, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund;
- (2) The purposes of the organization and the donor-restricted endowment fund;
- (3) General economic conditions;
- (4) The possible effect of inflation and deflation;
- (5) The expected total return from income and the appreciation of investments;
- (6) Other resources of the organization; and
- (7) The investment policies of the organization.

Return Objectives and Risk Parameters

The Organization has adopted investment policies, approved by the Board of Directors, for endowment assets that attempt to maintain the purchasing power of those endowment assets over the long term. Accordingly, the investment process seeks to achieve an after-cost total real rate of return, including investment income as well as capital appreciation, which exceeds the annual distribution with acceptable levels of risk. Endowment assets are invested in a well-diversified asset mix, which includes equity and debt securities, that is intended to result in a consistent inflation-protected rate of return that has sufficient liquidity to make an annual distribution of accumulated interest and dividend income to be reinvested or used as needed, while growing the funds if possible. Actual returns in any given year may vary from this amount. Investment risk is measured in terms of the total endowment fund; investment assets and allocation between asset classes and strategies are managed to reduce the exposure of the fund to unacceptable levels of risk.

Spending Policy

Currently, the Organization does not have a written spending policy approved by its Board of Directors. Historically, the Organization has appropriated for distribution the accumulated interest and dividend income on the investment funds. The Organization considers the long-term expected return on its investment assets, the nature and duration of the individual endowment funds, many of which must be maintained in perpetuity because of donor restrictions, and the possible effects of inflation.

The agency has a staff of approximately 180, with an annual budget of over 10 million; serving approximately 8,000 individuals each year through 24 programs across three rural counties.

Results: Led the Board and Staff through a comprehensive strategic planning process in response to a rapidly changing healthcare environment—including the transition to Medicaid managed care and integrated health. New initiatives include: same day client access, maximizing technology to enhance efficiency and effectiveness, a performance management program and other human capital enhancements, significant expansion of new low income housing, bringing primary care into the behavioral health clinic, a new community-based crisis stabilization program, enhancing client access to best practices; along with an expansion of development, marketing and community relations activities. Named to the Steering Committee for the northern New York healthcare delivery system reform initiative: a program initiated by the Governor to promote integrated care, reduce unnecessary hospitalizations, increase best practices, and make recommendations for a successful transition to Medicaid managed care.

Consultant & Interim Director of Development and Community Relations

Visiting Nurse & Hospice of VT and NH
West Lebanon, NH

Dates of employment: Jan.-Sept. 2012

Duties: Brought in to assist the organization with Fund Raising / Development, Marketing and Community Relations initiatives. The agency provides home health care and hospice services to a large, rural population in western New Hampshire and eastern Vermont; with over 200 staff and an annual operating budget of 20 million. The agency had been experiencing declines in referrals as a result of new competition, as well as declines in revenue from development activities (annual appeals, grants, etc.).

Results: Serving as both consultant and interim Director of Development and Community Relations, I worked with the senior leadership and the Board Development Committee to define the problems and formulate solutions. Delivered new marketing and development strategies and plans that were designed to address the issues identified and effectively utilize available resources to accomplish the goals. Achieved the best Spring appeal campaign in five years, more than doubling the income from the previous year's effort. This was a limited term engagement.

CEO Range Mental Health Center
Virginia, MN

Dates of employment: June '10-Nov. '11

Duties: Responsible for the overall operations of this comprehensive community behavioral health organization that employs 250 staff, with an annual budget of 13 million. The organization offers comprehensive programming for youth through seniors, has both in-patient and outpatient chemical dependency services (including detox), supported housing, community crisis facilities, adult foster homes, partial hospitalization programs, community-based support services for the seriously mentally ill, and family / youth support services in every school district in the area.

Results: Led board and senior management through a strategic planning effort to prepare the agency to thrive in a rapidly changing, healthcare reformed marketplace. Developed new partnerships with primary care and launched an integrated care pilot program that holds the promise of both enhanced client outcomes and improved profit margins. Initiated several business process restructuring efforts to dramatically reduce client wait times, reduce days in A/R, reduce documentation time, and increase service capacity without adding additional staff. Launched several new service lines and opened a community-based crisis facility to meet the acute behavioral health needs of area residents—at roughly a third of the cost of hospital-based services. Left the agency to return to New Hampshire and reunite with family after efforts to sell NH home proved to be unsuccessful in a difficult market.

Executive Director: Familystrength
Concord, NH

Dates of employment: Jan.'06-May '10

Duties: Responsible for the overall operations of this state-wide private, nonprofit agency that provides intensive home / community-based services for at-risk youth and their families; the agency had a staff of 45 and a budget of 2.5 million. Strong focus on strategic planning, board and middle management development, and restructuring of organizational processes and personnel for optimal agency performance.

Results: The agency went from a deficit of \$197,000 in 2005 (prior to my arrival), to a surplus of \$228,000 (and additional clients served) at the close of my first year. The agency saw similar increases in 2007 and was on track for another record year in 2008—until the state / national economy took a downturn and referrals were adversely affected. Re-engineered the organization to be more cost effective, competitive in '09; State funding continued to be cut so sought out strategic partnerships and merged the organization with another nonprofit agency that was closely aligned and less dependent upon State funding for future growth and sustainability.

Owner: The Wellness Center
Powell, Wyoming

Dates of employment: 2004 - 2005

Duties: Private practice providing consulting services to area businesses, schools, hospitals, and other human services related organizations; in addition to conducting individual, couples and family therapy on an outpatient basis.

Executive Director: Park County Mental Health Center
Cody, Wyoming

Dates of employment: 1996 – 2004

Duties: Responsible for the overall operations of this private, nonprofit community mental health agency with a staff of 30 and a budget of 2 million. When I arrived, the agency was heavily in debt, attempting to recover from lawsuits, had multiple staffing and recruitment concerns and was facing the very real prospect of having to close its doors. The agency's reputation in the community was poor at best and its ability to accomplish its mission was severely compromised.

Led the organization through a comprehensive strategic planning process and within a relatively short period, the organization more than quadrupled in size, expanded its operating budget / income by almost 500%, established a healthy reserve and best of all—significantly enhanced the mental health of the communities it serves by providing healthcare in a rural environment that is second to none. The agency maintained multiple sites for ease of access, operated a drop-in center for SPMI clients and provided on-site community-based services in area hospitals, schools, nursing homes / senior centers, correctional facilities, etc. Created a community-based acute care option to prevent unnecessary hospitalizations and implemented a mobile crisis program to respond to acute/emergency needs on a county-wide basis.

Results: Development of a comprehensive system of mental health care that encompassed youth through the elderly—utilizing evidenced based models where appropriate.

- Quadrupled the size of organization and the associated revenue
- Oversaw the design and building of multiple facilities
- Oversaw the design and implementation of an integrated computerized client database, clinical records, and accounting/billing system
- Facilitated the integration of mental health care with primary health care systems, educational systems, law enforcement / correctional systems and other community-based social / human service systems.
- Achieved national accreditation (CARF), youth/adult behavioral health care
- Significantly enhanced the agency's community reputation and fiscal viability
- Effectively managed significant growth and change

Funds to support this request are available in State Fiscal Year 2019 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office without approval of the Governor and Executive Council, if needed and justified.

Please see attached financial details.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of \$3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2016; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

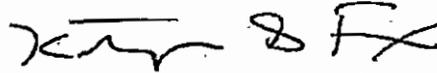

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

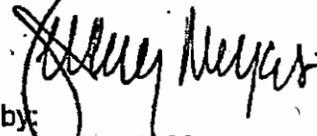

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of West Central Services, Inc. d/b/a West Central Behavioral Health as of June 30, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information on pages 14-17 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

West Central Services, Inc.
d/b/a West Central Behavioral Health
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

West Central Services, Inc. d/b/a West Central Behavioral Health (the Center) is a not-for-profit corporation, organized under New Hampshire law to provide services in the areas of mental health and related non-mental health programs; it is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code (Code). In addition, the Center qualifies for the charitable contribution deduction under Section 170(b)(1)(a) and has been classified as an organization that is not a private foundation under Section 509(a)(2).

Income Taxes

The Center is exempt from federal income tax under Internal Revenue Code Section 501(c)(3) and is not a private foundation. Therefore no provision for income tax expense has been reflected in these financial statements.

Consideration has been given to uncertain tax positions. The federal income tax returns for the years ended after June 30, 2014 remain open for potential examination by major tax jurisdictions generally for three years after they were filed.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents

The Center considers cash on hand, cash in banks and all highly liquid debt instruments purchased with a maturity of three months or less to be cash and cash equivalents.

Accounts Receivable

Accounts receivable are recorded based on the amount billed for services provided, net of respective allowances.

Policy for Evaluating Collectability of Accounts Receivable

In evaluating the collectability of accounts receivable, the Center analyzes past results and identifies trends for each major payer source of revenue for the purpose of estimating the appropriate amounts of the allowance for doubtful accounts. Data in each major payer source is regularly reviewed to evaluate the adequacy of the allowance for doubtful accounts. Specifically, for receivables relating to services provided to clients having third-party coverage, an allowance for doubtful accounts and a corresponding provision for bad debts are established for amounts outstanding for an extended period of time and for third-party payers experiencing financial difficulties; for receivables relating to self-pay clients, a provision for bad debts is made in the period services are rendered based on experience indicating the inability or unwillingness of clients to pay amounts for which they are financially responsible.

West Central Services, Inc.
d/b/a West Central Behavioral Health
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Based on management's assessment, the Center provides for estimated uncollectible amounts through a charge to earnings and a credit to a valuation allowance. Balances that remain outstanding after the Center has used reasonable collection efforts are written off through a change to the valuation allowance and a credit to accounts receivable.

Policy for Evaluating Collectability of Accounts Receivable (continued)

During 2017, the Center increased its estimated percentage in the allowance for doubtful accounts from 19% to 36% of the total patient receivables. The allowance for doubtful accounts increased to \$265,219 as of June 30, 2017 from \$155,441 as of June 30, 2016.

Property and Equipment

All property and equipment is recorded at cost, or estimated fair value at date of acquisition. The Center follows the policy of charging to costs and expenses annual amounts of depreciation, which allocates the cost of property and equipment over estimated useful lives. The Center has a policy of capitalizing assets with a cost in excess of \$1,000 and a life greater than one year. The Center uses the straight-line method for determining the annual charge for depreciation. Asset lives range from 2-40 years.

Expenditures for repairs and maintenance are expensed when incurred and betterments are capitalized.

The Center reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, as well as the effects of obsolescence, demand, competition and other economic factors.

Client Service Revenue

The Center recognizes client service revenue relating to services rendered to clients that have third-party payer coverage and are self-pay. The Center receives payment from Medicare, Medicaid and Insurance Companies at defined rates for services to clients covered by such third-party payer programs. The difference between the established billing rates and the actual rate of reimbursement is recorded as allowances when received. For services rendered to uninsured clients (i.e., self-pay clients), revenue is recognized on the basis of standard or negotiated discounted rates. At the time services are rendered to self-pay clients, a provision for bad debts is recorded based on experience and the effects of newly identified circumstances and trends in pay rates. Client service revenue (net of contractual allowances and discounts but before taking account of the provision for bad debts) recognized during the year ended June 30, 2017 totaled \$8,360,698, of which \$8,059,355 was revenue from third-party payers and \$301,341 was revenue from self-pay clients.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Third-Party Contractual Arrangements

A significant portion of patient revenue is derived from services to patients insured by third-party payers. The Center receives payment from Medicare, Medicaid, Blue Cross and other third-party payers at defined rates for services rendered to patients covered by these programs. The difference between the established billing rates and the actual rate of payment is recorded as allowances when received and/or billed. A provision for estimated contractual allowances is provided on outstanding patient receivables at the balance sheet date.

State Grants

The Center receives a number of grants from and has entered into various contracts with the State of New Hampshire related to the delivery of mental health services.

Functional Allocation of Expenses

The costs of providing the various programs and other activities has been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Vacation Pay and Fringe Benefits

Annual vacation allotments are granted in full to employees at the beginning of the fiscal year and are to be utilized by June 30th; unused time is forfeited. Fringe benefits are allocated to the appropriate program expense based on the percentage of actual time spent on the program.

Advertising

Advertising costs are expensed to operating expenses as incurred. Advertising expense for the years ended June 30, 2017 and 2016 was \$11,556 and \$9,704, respectively.

Concentration of Credit Risk

The Center maintains cash balances at several financial institutions. Accounts at financial institutions are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times throughout the year, cash balances with these institutions exceed that amount. The Center has not incurred any losses related to uninsured cash.

NOTE 2 CLIENT SERVICE REVENUES FROM THIRD PARTY PAYORS

The Center has agreements with third-party payors that provide payments to the Center at established rates. These payments include:

New Hampshire and Managed Medicaid

The Center is reimbursed for services from the State of New Hampshire and Managed Care Organizations for services rendered to Medicaid clients on the basis of fixed fee for service rates.

NOTE 6 FAIR VALUE MEASUREMENTS

Professional accounting standards established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.
- Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

All investments are categorized as Level 1 and recorded at fair value, as of June 30, 2017. As required by professional accounting standards, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.

Funds to support this request are available in State Fiscal Year 2019 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office without approval of the Governor and Executive Council, if needed and justified.

Please see attached financial details.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of \$3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2016; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

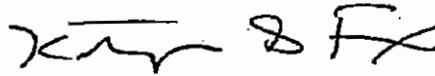

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

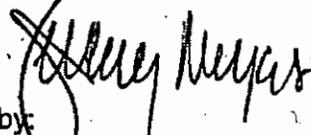

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

2. EMPLOYMENT OF CONTRACTOR/SERVICES TO BE PERFORMED. The State of New Hampshire, acting through the agency identified in block 1.1 ("State"), engages contractor identified in block 1.3 ("Contractor") to perform, and the Contractor shall perform, the work or sale of goods, or both, identified and more particularly described in the attached EXHIBIT A which is incorporated herein by reference ("Services").

3. EFFECTIVE DATE/COMPLETION OF SERVICES.

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.18, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.14 ("Effective Date").

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.

6.1 In connection with the performance of the Services, the Contractor shall comply with all statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal opportunity laws. 6.3 If this Agreement is funded in any part by monies of the United States, the Contractor shall comply with all the provisions of Executive Order No. 11246 ("Equal Employment Opportunity"), as supplemented by the regulations of the United States Department of Labor (41 C.F.R. Part 60), and with any rules, regulations and guidelines as the State of New Hampshire or the United States issue to implement these regulations. The Contractor further agrees to permit the State or United States access to any of the Contractor's books, records and accounts for the purpose of ascertaining compliance with all rules, regulations and orders, and the covenants, terms and conditions of this Agreement.

7.2 Unless otherwise authorized in writing, during the term of this Agreement, and for a period of six (6) months after the Completion Date in block 1.7, the Contractor shall not hire, and shall not permit any subcontractor or other person, firm or corporation with whom it is engaged in a combined effort to perform the Services to hire, any person who is a State employee or official, who is materially involved in the procurement, administration or performance of this

Agreement. This provision shall survive termination of this Agreement.

7.3 The Contracting Officer specified in block 1.9, or his or her successor, shall be the State's representative. In the event of any dispute concerning the interpretation of this Agreement, the Contracting Officer's decision shall be final for the State.

8. EVENT OF DEFAULT/REMEDIES.

8.1 Any one or more of the following acts or omissions of the Contractor shall constitute an event of default hereunder ("Event of Default"):

8.1.1 failure to perform the Services satisfactorily or on schedule;

8.1.2 failure to submit any report required hereunder; and/or

8.1.3 failure to perform any other covenant, term or condition of this Agreement.

8.2 Upon the occurrence of any Event of Default, the State may take any one, or more, or all, of the following actions:

8.2.1 give the Contractor a written notice specifying the Event of Default and requiring it to be remedied within, in the absence of a greater or lesser specification of time, thirty (30) days from the date of the notice; and if the Event of Default is not timely remedied, terminate this Agreement, effective two (2) days after giving the Contractor notice of termination;

8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

8.2.3 set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or

8.2.4 treat the Agreement as breached and pursue any of its remedies at law or in equity, or both.

9. DATA/ACCESS/CONFIDENTIALITY/PRESERVATION.

9.1 As used in this Agreement, the word "data" shall mean all information and things developed or obtained during the performance of, or acquired or developed by reason of, this Agreement, including, but not limited to, all studies, reports, files, formulae, surveys, maps, charts, sound recordings, video recordings, pictorial reproductions, drawings, analyses, graphic representations, computer programs, computer printouts, notes, letters, memoranda, papers, and documents, all whether finished or unfinished.

9.2 All data and any property which has been received from the State or purchased with funds provided for that purpose under this Agreement, shall be the property of the State, and shall be returned to the State upon demand or upon termination of this Agreement for any reason.

9.3 Confidentiality of data shall be governed by N.H. RSA chapter 91-A or other existing law. Disclosure of data requires prior written approval of the State.

10. **TERMINATION.** In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. The form, subject matter, content, and number of copies of the Termination Report shall be identical to those of any Final Report described in the attached EXHIBIT A.

11. **CONTRACTOR'S RELATION TO THE STATE.** In the performance of this Agreement the Contractor is in all respects an independent contractor, and is neither an agent nor an employee of the State. Neither the Contractor nor any of its officers, employees, agents or members shall have authority to bind the State or receive any benefits, workers' compensation or other emoluments provided by the State to its employees.

12. ASSIGNMENT/DELEGATION/SUBCONTRACTS.

The Contractor shall not assign, or otherwise transfer any interest in this Agreement without the prior written notice and consent of the State. None of the Services shall be subcontracted by the Contractor without the prior written notice and consent of the State.

13. **INDEMNIFICATION.** The Contractor shall defend, indemnify and hold harmless the State, its officers and employees, from and against any and all losses suffered by the State, its officers and employees, and any and all claims, liabilities or penalties asserted against the State, its officers and employees, by or on behalf of any person, on account of, based or resulting from, arising out of (or which may be claimed to arise out of) the acts or omissions of the Contractor. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant in paragraph 13 shall survive the termination of this Agreement.

14. INSURANCE.

14.1 The Contractor shall, at its sole expense, obtain and maintain in force, and shall require any subcontractor or assignee to obtain and maintain in force, the following insurance:

14.1.1 comprehensive general liability insurance against all claims of bodily injury, death or property damage, in amounts of not less than \$1,000,000 per occurrence and \$2,000,000 aggregate; and

14.1.2 special cause of loss coverage form covering all property subject to subparagraph 9.2 herein, in an amount not less than 80% of the whole replacement value of the property.

14.2 The policies described in subparagraph 14.1 herein shall be on policy forms and endorsements approved for use in the State of New Hampshire by the N.H. Department of Insurance, and issued by insurers licensed in the State of New Hampshire.

14.3 The Contractor shall furnish to the Contracting Officer identified in block 1.9, or his or her successor, a certificate(s) of insurance for all insurance required under this Agreement. Contractor shall also furnish to the Contracting Officer identified in block 1.9, or his or her successor, certificate(s) of insurance for all renewal(s) of insurance required under this Agreement no later than thirty (30) days prior to the expiration date of each of the insurance policies. The certificate(s) of insurance and any renewals thereof shall be attached and are incorporated herein by reference. Each certificate(s) of insurance shall contain a clause requiring the insurer to provide the Contracting Officer identified in block 1.9, or his or her successor, no less than thirty (30) days prior written notice of cancellation or modification of the policy.

15. WORKERS' COMPENSATION.

15.1 By signing this agreement, the Contractor agrees, certifies and warrants that the Contractor is in compliance with or exempt from, the requirements of N.H. RSA chapter 281-A ("*Workers' Compensation*").

15.2 To the extent the Contractor is subject to the requirements of N.H. RSA chapter 281-A, Contractor shall maintain, and require any subcontractor or assignee to secure and maintain, payment of Workers' Compensation in connection with activities which the person proposes to undertake pursuant to this Agreement. Contractor shall furnish the Contracting Officer identified in block 1.9, or his or her successor, proof of Workers' Compensation in the manner described in N.H. RSA chapter 281-A and any applicable renewal(s) thereof, which shall be attached and are incorporated herein by reference. The State shall not be responsible for payment of any Workers' Compensation premiums or for any other claim or benefit for Contractor, or any subcontractor or employee of Contractor, which might arise under applicable State of New Hampshire Workers' Compensation laws in connection with the performance of the Services under this Agreement.

16. WAIVER OF BREACH.  - 13.3. The Contractor agrees to the Charitable Choice federal statutory provisions as follows:

Exhibit B

Federal Charitable Choice statutory provisions ensure that religious organizations are able to equally compete for Federal substance abuse funding administered by SAMHSA, without impairing the religious character of such organizations and without diminishing the religious freedom of SAMHSA beneficiaries (see 42 USC 300x-65 and 42 CFR Part 54 and Part 54a, 45 CFR Part 96, Charitable Choice Provisions and Regulations). Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
 - 7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

- 7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

11. **Reports: Fiscal and Statistical:** The Contractor agrees to submit the following reports at the following times if requested by the Department.
 - 11.1. **Interim Financial Reports:** Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. 12. **Completion of Services: Disallowance of Costs:** Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.
15. **Operation of Facilities: Compliance with Laws and Regulations:** In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

17. **Limited English Proficiency (LEP):** As clarified by Executive Order 13166, Improving Access to Services for persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination on the basis of limited English proficiency (LEP). Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
