EXPLANATION

Action #1)

Requested Action #1 is **retroactive** because the Department and FIT/NHNNH, Inc. were continuing to work on the scope of work and therefore, the contract was not completed in time to place the item on the agenda for the June 20, 2018 Governor and Executive Council meeting. The contract with Greater Nashua Council on Alcoholism and Hope on Haven Hill are being submitted after the release of audit reports to allow for Council review prior to entering into an Agreement, and to add contract monitoring language to address the audit findings. If these actions were not taken retroactively, the result would have been a gap in critical substance use disorder treatment and recovery support services in the State's two largest cities.

The Department requests approval of three (3) agreements. Ten (10) agreements were previously approved by Governor and Executive Council on June 20, 2018 Late Item G. These agreements will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2018; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services may be having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the Vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

All thirteen (13) contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Requested Action #1, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Action #2)

Requested Action #2 seeks approval to amend ten (10) of the thirteen (13) agreements for the provision of substance use disorder treatment and recovery support services by modifying the scope to reduce the burden on the vendors in meeting contract requirements.

The changes to the contracts include removal of the requirement to continue providing services after the contract price limitation is reached, allowing for assistance to clients enrolling in insurance through the use of referrals to trained community providers, and an easing of supervision requirements that is not expected to negatively impact client care. Corrective action for compliance audits was also included. The changes were also made to the three (3) contracts being put forth in Action #1. These changes are being made as a part of the Department's response to provider's concerns over reimbursement rates with the goal of reducing the gap between the cost of providing services and the rate paid by the Department by reducing the administrative burden associated with service delivery without compromising client care.

These contracts were originally competitively bid.

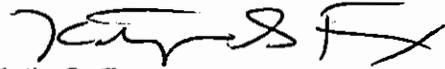

Should the Governor and Executive Council determine to not authorize this Request Action #2, the gap between the cost of care and reimbursement rates will remain the same, which vendors have indicated may result in having to limit services provided under this contract. In addition, there would not be a requirement of a corrective actions plan should there be an audit which does not allow for a system to assist with improvement in services provided.

Area served: Statewide.

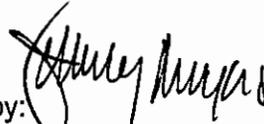

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

MINISTRY OBJECTIVE

I want to foster and participate in new possibilities for parish ministry where the congregation actively engages and responds to its community

THEOLOGY OF MINISTRY

My theology of ministry is based in St. Paul's letter to the Ephesians (4:11f). Christian ministry is not the sole task of the ordained, but extends to each and every baptized member. It is in the hands and hearts of the laity where Christ touches the world. The work of the ordained is to help equip the laity for the fulfillment of their baptismal vows and to share the work of ministry with them.

SUMMARY OF QUALIFICATIONS

- 18+ years of experience in parish ministry
- involved with community organizing and chaplain work
- helped grow and build St. Peter's from mission to parish status
- experience in helping to build confidence in leadership teams
- served six years on the Commission on Ministry for the Diocese of New Hampshire
- helped design Regional Discernment Committees for the Diocese of New Hampshire
- created Christian Education programs for adults and youth
- organized and led quiet days and retreats

PASTORAL SPECIALITIES

Pastoral Care

- Model pastoral presence as the heart-beat of parishes where I've served

Funds to support this request are available in State Fiscal Year 2019 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office without approval of the Governor and Executive Council, if needed and justified.

Please see attached financial details.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of \$3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2016; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Human Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

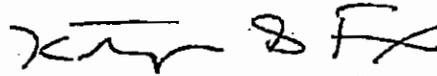

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

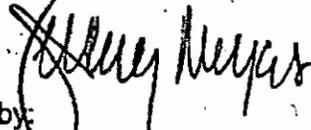

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

He/she is actively working toward the goals articulated in the individualized treatment plan. - achieved the maximum possible benefit from engagement in services at the current level of care. Treatment at another level of care (more or less intensive) in the same type of services, or discharge from treatment, is therefore indicated; or
- 2.8.5.3.3. Transfer/Discharge Criteria C: The patient has demonstrated a lack of capacity due to diagnostic or co-occurring conditions that limit his or her ability to resolve his or her problem(s). Treatment at a qualitatively different level of care or type of service, or discharge from treatment, is therefore indicated; or
- 2.8.5.3.4. Transfer/Discharge Criteria D: The patient has experienced an intensification of his or her problem(s), or has developed a new problem(s), and can be treated effectively at a more intensive level of care.
- 2.8.5.4. Include clear documentation that explains why continued services/transfer/ or discharge is necessary for Transitional Living.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

With Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Families in Transition, Inc. and Subsidiaries

We have audited the accompanying consolidated financial statements of Families in Transition, Inc. and Subsidiaries (the Organization), which comprise the consolidated statement of financial position as of December 31, 2017 and the related consolidated statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Organization as of December 31, 2017, and the consolidated changes in their net assets and their consolidated cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Report on Summarized Comparative Information

We have previously audited the Organization's 2016 consolidated financial statements and, in our report dated March 29, 2017, expressed an unmodified opinion on those audited consolidated financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2016 is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

Other Matter

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying supplementary information, which consists of the consolidating statement of financial position as of December 31, 2017, and the related consolidating statements of activities and functional expenses for the year then ended, is presented for purposes of additional analysis, rather than to present the financial position and changes in net assets of the individual entities, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

(With Comparative Totals for December 31, 2016)

Organization

Families in Transition, Inc. (FIT or the Organization) is a New Hampshire nonprofit, incorporated on May 13, 1994, to provide housing and comprehensive social services to individuals and families who are homeless or at risk of becoming homeless in certain areas of southern New Hampshire, including Manchester, Concord and Dover.

The Organization directly owns and operates housing programs in facilities located on Amherst Street, Spruce Street, Lake Avenue and Douglas Street in Manchester, New Hampshire. Additional housing facilities are owned and operated by several limited partnerships of which the Organization is the sole general partner. These limited partnerships include Bicentennial Families Concord Limited Partnership (Bicentennial), located at Bicentennial Square in Concord, New Hampshire; Family Bridge Limited Partnership (Family Bridge), located on Second Street in Manchester, New Hampshire; and Family Willows Limited Partnership (Family Willows), located on South Beech Street in Manchester, New Hampshire (collectively referred to as the Limited Partnerships).

In 2008, the Organization created a Community Development Housing Organization, Housing Benefits, Inc. (Housing Benefits). Housing Benefits identifies and develops new housing units and refurbishes existing units to meet the persistent need of combating homelessness. Completed housing units are located on School & Third Streets, Lowell Street, Belmont Street, Market Street (Millyard Families I), Spruce Street and Hayward Street, in Manchester, New Hampshire as well as an additional housing unit located on Central Avenue in Dover, New Hampshire (Dover).

During 2016, Millyard Families II, Limited Partnership (Millyard II) reached the end of its initial 15-year low-income housing tax credit compliance period. Effective of April 1, 2017, Community Capital 2000, L.P., the limited partner, and Brick Mill House Families II, Inc., the general partner wholly owned by FIT, withdrew from Millyard II. As a result, \$848,610 of Community Capital 2000, L.P. noncontrolling interest and \$692,233 of Brick Mill House Families II, Inc. controlling interest in Millyard II was assumed by Housing Benefits. Millyard II is a twenty-unit residential housing and commercial space complex located on Market Street in Manchester, New Hampshire.

In 2012, the Organization became the sole member of Manchester Emergency Housing, Inc. (MEH), a New Hampshire nonprofit corporation providing immediate shelter to homeless families in the Manchester, New Hampshire area. MEH is the only family shelter in Manchester, New Hampshire.

The Organization also owns 100% of Family OutFITters, LLC (OutFITters), a limited liability corporation. OutFITters operates independent thrift stores in Concord and Manchester, New Hampshire with the sole purpose of generating an alternate funding stream for the Organization.

The Organization has several wholly-owned corporations which include Bicentennial Families Concord, Inc. (Bicentennial Families), Second Street Family Mill, Inc. (Family Mill), and Big Shady Tree, Inc. (Big Shady Tree) (collectively referred to as the General Partners), all of which are New Hampshire corporations. These wholly-owned corporations represent the .01% sole general partners in the Limited Partnerships, whereby Bicentennial Families is a general partner of Bicentennial, Family Mill is a general partner of Family Bridge and Big Shady Tree is a general partner of Family Willows.

Notes to Consolidated Financial Statements

December 31, 2017

(With Comparative Totals for December 31, 2016)

In 2012, the Organization became the sole member of The New Hampshire Coalition to End Homelessness (NHCEH), a statewide entity, whose mission is to "eliminate the causes for homelessness through research, education and advocacy". Since 2012, the activity of NHCEH has not been deemed material and has not been included in the consolidated financial statements. During 2017, management assessed the operations of NHCEH and anticipates an increase in its activity and has determined NHCEH activity should be included in the consolidated financial statements. As a result, the 2016 beginning of year net assets has been restated by \$24,424 to reflect NHCEH net assets not previously included in the consolidated financial statements.

1. Summary of Significant Accounting Policies

Principles of Consolidation

Since the General Partners have control in the Limited Partnerships, in accordance with Financial Accounting Standards Board *Accounting Standards Codification* Topic 810-20-25, *Consolidation*, the financial statements of each of the Limited Partnerships' are required to be consolidated with the Organization's consolidated financial statements. The limited partners' ownership interest is reported in the consolidated statements of financial position as noncontrolling interest.

The consolidated financial statements include the net assets of the Organization, the Limited Partnerships, the General Partners, Housing Benefits, Millyard II, MEH, OutFITters and NHCEH. All significant inter-entity balances and transactions are eliminated in the accompanying consolidated financial statements.

Comparative Information

The consolidated financial statements include certain prior year summarized comparative information in total, but not by net asset classification. Such information does not include sufficient detail to constitute a presentation in conformity with U.S. generally accepted accounting principles (U.S. GAAP). Accordingly, such information should be read in conjunction with the Organization's December 31, 2016 consolidated financial statements, from which the summarized information was derived.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Presentation

Net assets and revenues, expenses, gains, and losses are classified as follows based on the existence or absence of donor imposed restrictions.

Unrestricted net assets - Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted net assets - Net assets subject to donor-imposed stipulations that may or will be met by actions of the Organization and/or the passage of time. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Permanently restricted net assets - Net assets subject to donor imposed stipulations that they be maintained permanently by the Organization. The donors of these assets permit the Organization to use all or part of the income earned on related contributions for general or specific purposes. The Organization had no permanently restricted net assets as of December 31, 2017 and 2016.

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support that increases those net asset classes. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. The Organization records donor-restricted contributions whose restrictions are met in the same reporting period as unrestricted support in the year of the gift.

The Organization reports contributions of land, buildings or equipment as unrestricted support, unless a donor places explicit restriction on its use. Contributions of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted support and reclassified to unrestricted net assets when the assets are acquired and placed in service.

Cash and Cash Equivalents

The Organization considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents. The Organization maintains its cash in bank deposit accounts which, at times, may exceed the federally insured limits. Management regularly monitors the financial institutions, together with their respective cash balances, and attempts to maintain the potential risk at a minimum. The Organization has not experienced any losses in such accounts and management believes it is not exposed to any significant risk on these accounts.

Restricted deposits are those deposits of cash and cash equivalents not generally available for operating costs, but restricted to particular uses including operating and replacement reserves for rental properties as well as certain other social services and programs.

(With Comparative Totals for December 31, 2016)

Property and Equipment

Property and equipment are recorded at cost or, if donated, at estimated fair market value at the date of donation less accumulated depreciation. The Organization's capitalization policy requires the capitalization of capital expenditures greater than \$1,000, while ordinary maintenance and repairs are charged to expense. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets, ranging from 5 to 30 years. Assets not in service are not depreciated.

Volunteer Services

A number of volunteers have donated their time to the Organization's various programs and administrative services. The value of these services has not been included in the accompanying consolidated financial statements since the volunteers' time does not meet criteria for recognition. The estimated value of donated time for the years ended December 31, 2017 and 2016 is approximately \$1,060,000 and \$990,000, respectively.

Functional Expense Allocation

The costs of providing various programs and activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Income Taxes

The Organization is a tax-exempt Section 170(b)(1)(A)(vi) public charity as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Accordingly, no provision for income taxes has been reflected in these financial statements.

The standards for accounting for uncertainty in income taxes require the Organization to report any uncertain tax positions and to adjust its financial statements for the impact thereof. As of December 31, 2017 and 2016, the Organization determined that it had no tax positions that did not meet the more-likely-than-not threshold of being sustained by the applicable tax authority. The Organization files an informational return in the United States. This return is generally subject to examination by the federal government for up to three years.

No provision for taxes on income is made in the Limited Partnerships' financial statements since, as a partnership, all taxable income and losses are allocated to the partners for inclusion in their respective tax returns.

On December 20, 2017, the Director of Charitable Trusts, under the supervision of the Attorney General for the State of New Hampshire, appointed FIT as Receiver of Serenity Place, a New Hampshire based nonprofit organization that was no longer, financially or organizationally, able to meet the demands placed upon its services. The Receivership afforded FIT the ability to provide Serenity Place with management to maintain its operations while planning for the future provision of its substance use services. As of January 31, 2018, Serenity Places' substance use services had either been terminated or moved to other substance use service providers with the exception of one program that is to remain under Serenity Place control until the second quarter of 2018 at which time the program is expected to be relocated to another substance use service provider. Two of the substance use programs were absorbed by FIT to continue to provide substance use services to those individuals in need. FIT's assigned Receivership is expected to end with the relocation of Serenity Place's final program and the filing of Chapter 7 bankruptcy protection.

INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners
County of Grafton, New Hampshire

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the County of Grafton, New Hampshire, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the County of Grafton, New Hampshire's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

The County's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the County of Grafton, New Hampshire, as of June 30, 2017, and the respective changes in financial position, and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the OPEB and Pension schedules appearing on pages 40 to 42 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 17, 2017 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the County of Grafton, New Hampshire (the County), we offer readers this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2017.

A. OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the basic financial statements. The basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to financial statements. This report also contains other required supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of our finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all assets, liabilities, and deferred outflows/inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position is improving or deteriorating.

The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation and sick leave).

The governmental activities include general government, public safety, corrections, county farm, human services, cooperative extension, economic development and nursing home.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. All of the funds can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available

at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

An annual appropriated budget is adopted for the General Fund. A budgetary comparison statement has been provided in order to demonstrate compliance with this budget.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support County programs.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information which is required to be disclosed by accounting principles generally accepted in the United States of America.

Net position - end of year	<u>\$ (8,976,798)</u>	<u>\$ (7,832,196)</u>

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. At the close of the most recent fiscal year, total net position was \$(8,976,798), a change of \$(1,144,602) from the prior year.

The largest portion of net position, \$20,266,951, reflects our investment in capital assets (e.g., land, land improvements, buildings and improvements, and equipment and vehicles), less any related debt used to acquire those assets that is still outstanding. These capital assets are used to provide services to citizens; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of net position, \$46,106, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position is in a deficit of \$(29,289,855), primarily resulting from the unfunded net OPEB obligation (see Note 13) and the unfunded net pension liability (see Note 14).

Governmental activities. Governmental activities for the year resulted in a change in net position of \$(1,144,602). Key elements of this change are as follows:

Governmental funds operating results	\$ 349,094
Purchase of capital assets	765,211
Loss on disposals of capital assets	(7,165)
Principal debt service in excess of depreciation expense	698,975
Change in accrued interest liability	(97,674)
Change in compensated absence liability	55,158
Change in net OPEB obligation	(1,623,379)
Change in net pension liability	(8,194,021)
Change in deferred outflows of resources	6,284,181
Change in deferred inflows of resources	625,018
Total	\$ (1,144,602)

D. FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources.

Such information is useful in assessing financing requirements. In particular, unassigned fund balance may serve as a useful measure of the County's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, governmental funds reported combined ending fund balances of \$3,639,835, a change of \$349,094 in comparison to the prior year. Key elements of this change are as follows:

General Fund operating results	\$ 419,340
Nonmajor Governmental Funds operating results	(70,246)
Total	\$ 349,094

The General Fund is the chief operating fund. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$1,919,257, while total fund balance was \$3,593,729. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total budgeted expenditures. Refer to the table below:

<u>General Fund</u>	<u>6/30/17</u>	<u>6/30/16</u>	<u>Change</u>	<u>Percentage of- Total Budgeted Expenditures</u>
Unassigned fund balance	\$ 1,619,257	\$ 999,047	\$ 620,210	4.0%
Total fund balance	\$ 3,593,729	\$ 3,174,389	\$ 419,340	8.9%

The total fund balance of all funds changed by \$349,094 during the current fiscal year. Key factors in this change are as follows:

Revenues in excess of budget	\$ 967,394
Expenditures less than appropriations	-787,831
Use of fund balance - reduce taxes	(1,030,000)
Use of fund balance - prior year reserves	(196,459)
Transfer to reserve funds	88,152
Nonmajor governmental funds operating results	(70,246)
Use of Deeds surcharge funds	(20,472)
Use of committed reserve funds	<u>(177,106)</u>
Total all funds	<u>\$ 349,094</u>

Included in the General Fund are the County's Delegation voted reserve funds with the following balances:

	<u>6/30/17</u>	<u>6/30/16</u>	<u>Change</u>
Nursing Home Reserve	\$ 110,581	\$ 236,026	\$ (125,445)
Dispatch Capital Reserve	<u>153,401</u>	<u>115,908</u>	<u>37,493</u>
Total	<u>\$ 263,982</u>	<u>\$ 351,934</u>	<u>\$ (87,952)</u>

E. BUDGETARY HIGHLIGHTS

Differences between the original budget and the final amended budget resulted in an overall change in appropriations of \$196,459. This change relates to a use of prior year reserves (fund balance) for various purposes.

F. CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. Total investment in capital assets for governmental activities at year-end amounted to \$48,941,905 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings and improvements, and equipment and vehicles.

Additional information on capital assets can be found in the notes to financial statements.

Long-term debt. At the end of the current fiscal year, total bonded debt outstanding was \$30,863,719, all of which was backed by the full faith and credit of the County.

Additional information on long-term debt can be found in the notes to financial statements.

COUNTY OF GRAFTON, NEW HAMPSHIRE

Notes to Financial Statements

1. Summary of Significant Accounting Policies

The accounting policies of the County of Grafton, New Hampshire (the County) conform to Generally Accepted Accounting principles (GAAP) as applicable to governmental units. The following is a summary of the more significant policies:

A. Reporting Entity

The County is a municipal corporation governed by an elected Board of Commissioners. As required by Generally Accepted Accounting Principles, these financial statements present the County (primary government) and applicable component units for which the County is considered to be financially accountable. In fiscal year 2017, it was determined that no entities met the required GASB 14 (as amended) criteria of component units.

B. Government-wide and Fund Financial Statements

Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund Financial Statements

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter is excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide Financial Statements

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Generally, all other revenue items are considered to be measurable and available only when cash is received by the County. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The County reports the following major governmental fund:

- The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the County, except those required to be accounted for in another fund.

The fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Under this method, revenues are recognized when earned and expenses are recorded when liabilities are incurred.

The County reports the following fiduciary funds:

- *Agency Funds* are used to account for funds held by the County on behalf of others (e.g., inmate funds and patient funds).

Cash balances from all funds, except those required to be segregated by law, are combined to form a consolidation of cash. Cash balances are invested to the extent available, and interest earnings are recognized in

the General Fund. Certain special revenue and fiduciary funds segregate cash, and investment earnings become a part of those funds.

Deposits with financial institutions consist primarily of demand deposits, certificates of deposits, and savings accounts. A cash and investment pool is maintained that is available for use by all funds. Each fund's portion of this pool is reflected on the combined financial statements under the caption "cash and short-term investments". The interest earnings attributable to each fund type are included under investment income.

E. Inventory

Inventory is valued at cost using the first-in/first-out (FIFO) method. Inventory includes dietary, housekeeping, and activity supplies for use at the nursing home, maintenance supplies, and corrections supplies.

F. Capital Assets

Capital assets, which include land, land improvements, buildings and improvements, and equipment and vehicles, are reported in the government-wide financial statements. Capital assets are defined by the County as assets with a grouped cost of more than \$500 for assets acquired for use in the Nursing Home, and \$5,000 for all other assets, and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	20
Buildings and improvements	20 - 40
Equipment and vehicles	3 - 20

G. Compensated Absences

It is the County's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vested sick and vacation pay is accrued when incurred in the government-wide and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

H. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position:

I. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as "net position".

Fund Balance - Generally, fund balance represents the difference between current assets and current liabilities. The County reserves those portions of fund balance that are legally segregated for a specific future use or which do not represent available, spendable resources and, therefore, are not available for appropriation or expenditure. Unassigned fund balance indicates that portion of fund balance that is available for appropriation in future periods.

When an expenditure is incurred that would qualify for payment from multiple fund balance types, the County uses the following order to liquidate liabilities: restricted, committed, assigned, and unassigned.

Net Position - Net position represents the difference between assets/deferred outflows and liabilities/deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The remaining net position is reported as unrestricted.

J. Fund Balance Policy

There is no rule or law in New Hampshire that governs the level of fund balance for counties. However, by looking at other guidelines that exist and by comparing the County to other counties in the state and in other states, the County arrived at a policy that fits the County's needs and standards:

- 1) The NH Department of Revenue Administration recommends that municipalities maintain a fund balance that represents between 5% and 10% of its total annual appropriations, including municipal, school, and county obligations.
- 2) The Government Finance Officer Association recommends as a best practice that "general-purpose governments, regardless of size, maintain unrestricted fund balance in their General Fund of no less than two months of regular General Fund operating revenues or regular General Fund operating expenditures. Furthermore, a government's particular situation often may require a level of unrestricted fund balance in the General Fund significantly in excess of this recommended minimum level. In any case, such measures should be applied within the context of long-term forecasting, thereby avoiding the risk of placing too much emphasis upon the level of unrestricted fund balance in the General Fund at any one time". Two months of operating revenues for operations funded by the General Fund for the County is approximately \$6 million, which is about 15% of the budgeted appropriations.

Through this fund balance policy, the County will endeavor to achieve and maintain an undesignated fund balance that is between 7% and 14% of its annual budgeted appropriations, which represents one to two months of operations.

K. Use of Estimates

The preparation of basic financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures for contingent assets and liabilities at the date of the basic financial statements and the reported amounts of the revenues and expenditures/expenses during the fiscal year. Actual results could vary from estimates that were used.

2. Stewardship, Compliance, and Accountability

A. Budgetary Information

The County follows the following procedures for establishing the budgetary data reflected in the basic financial statements:

- Prior to May 1st, the County departments submit to the County Commissioners a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
- Hearings are conducted by the County Commissioners prior to the County's budget meeting to discuss the proposed budget.
- The budget is legally enacted by the County Delegation prior to September 1st.
- Appropriations for certain projects and specific items not fully expended at the fiscal year-end are carried forward as continued appropriations to the new fiscal year in which they supplement the appropriations of that year.
- The budgets for all departments and operations of the County are prepared under the direction of the County Commissioners. Original appropriations are acted upon by the County Delegation vote.
- A copy of the budget is published in the Annual Report of the County of Grafton, New Hampshire.

B. Budgetary Basis

The final appropriation appearing on the "Budget and Actual" page of the fund financial statements represents the final amended budget after all reserve fund and line item transfers.

C. Budget/GAAP Reconciliation

The budgetary data for the General Fund is based upon accounting principles that differ from Generally Accepted Accounting Principles (GAAP). Therefore, in addition to the GAAP basis financial statements, the results of operations are presented in accordance with budgetary accounting principles to provide a meaningful comparison to budgetary data.

The following is a summary of adjustments made to the actual revenues and other sources, and expenditures and other uses, to conform to the budgetary basis of accounting.

<u>General Fund</u>	<u>Revenues and Other Financing Sources</u>	<u>Expenditures and Other Financing Uses</u>
Revenues/Expenditures - (GAAP Basis)	\$ 40,969,736	\$ 40,550,396

3. Cash and Short-Term Investments

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned to it. RSA 29:1 limits "deposit in any one bank shall not at any time exceed the sum of its paid-up capital and surplus." The County does not have a deposit policy for custodial credit risk.

As of June 30, 2017, none of the County's bank balance was exposed to custodial credit risk as uninsured or uncollateralized.

4. Restricted Cash

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. Within the General Fund, the restricted cash amount of \$446,374 is composed of amounts from the Nursing Home Capital Reserve, the Registry of Deeds Surcharge Fund, the Dispatch Capital Reserve, and the Pandemic Fund.

5. Allowance for Doubtful Accounts and Contractual Allowances

The allowance for doubtful accounts for Nursing Home receivables has been estimated at approximately \$83,000 at June 30, 2017. Nursing Home receivables are also reported net of contractual allowances.

7. Deferred Outflows of Resources

Deferred outflows of resources represent the consumption of net position by the County that is applicable to future reporting periods. Deferred outflows of resources have a positive effect on net position, similar to assets. Deferred outflows of resources related to pensions, in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*, are more fully discussed in Note 14.

Other deferred outflows of resources consist of loss on bond refunding (see Note 10).

D. Advance Refunding

On October 14, 2016, the County issued general obligation bonds in the amount of \$16,180,000 with a variable interest rate ranging from 2.50% to 5.00% to advance refund \$16,500,000 of term bonds with an interest rate of 3.00% to 4.75%. The term bonds mature on December 1, 2030 and January 1, 2032 and are callable on December 1, 2020 and January 1, 2022, respectively. The general obligation bonds were issued at 3.00% and, after paying issuance costs of \$200,706, the net proceeds were \$18,948,719. The net proceeds from the issuance of the general obligation bonds were used to purchase U.S. government securities and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the term bonds are called on December 1, 2020 and January 1, 2022, respectively. The advance refunding met the requirements of an in-substance debt defeasance and the term bonds were removed from the County's financial statements.

As a result of the advance refunding, the County decreased its total debt service cash flow requirements by \$875,596, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$638,904.

Defeased debt still outstanding at June 30, 2017 is \$16,500,000.

11. Deferred Inflows of Resources

Deferred inflows of resources are the acquisition of net position by the County that is applicable to future reporting periods. Deferred inflows of resources have a negative effect on net position, similar to liabilities. Deferred inflows of resources related to pension will be recognized in pension expense in future years and is more fully described in Note 14.

12. Fund Balances

The County's fund balance classification policies and procedures are as follows:

- 1) Nonspendable funds are either unspendable in the current form (i.e., inventory) or can never be spent.
- 2) Restricted funds are used solely for the purpose in which the fund was established. In the case of special revenue funds, these funds are created by statute or otherwise have external constraints on how the funds can be spent.
- 3) Committed funds are reported and expended as a result of motions passed by the highest decision-making authority in the County (i.e., County Delegation).

- 4) Assigned funds are used for specific purposes as established by management. These funds, which include encumbrances, have been assigned for specific goods and services ordered but not yet paid for. This account also includes fund balance voted to be used in the subsequent fiscal year.
- 5) Unassigned funds are available to be spent in future periods.

The following is a summary of fund balances at June 30, 2017:

13. Other Post-Employment Benefits -- OPEB (GASB 45)

GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*, requires governments to account for other post-employment benefits (OPEB) on an accrual basis, rather than on a pay as you go basis. The effect is the recognition of an actuarially required contribution as an expense on the Statement of Activities when a future retiree earns their post-employment benefits, rather than when they use their post-employment benefit. To the extent that an entity does not fund their actuarially required contribution, a post-employment benefit liability is recognized on the Statement of Net Position over time.

A. Plan Description

The County provides post-employment healthcare benefits for certain eligible retirees.

B. Benefits Provided

The County provides medical benefits to its eligible retirees. The benefits are provided through HealthTrust.

C. Funding Policy

The County pays 100% of the retiree's medical benefits. Eligible retirees of the County also receive a subsidy from the New Hampshire State Retirement System that is used to offset OPEB.

The County does not contribute towards the cost of retiree spouses' medical coverage. Spouses desiring to remain covered under the County plan pay 100%.

The spouse is required to pay 100% of the cost of benefits following the death of the retired employee.

D. Annual OPEB Costs and Net OPEB Obligation

The County's fiscal year 2017 annual OPEB expense is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost per year and amortize the unfunded actuarial liability over a period of thirty years. The following table shows the components of the County's annual OPEB cost for the year ending June 30, 2017, the amount actually contributed to the plan, and the change in the County's net OPEB obligation based on an actuarial valuation as of July 1, 2016.

Annual Required Contribution (ARC)	\$ 2,071,252
Interest on net OPEB obligation	362,509
Adjustment to ARC	<u>(513,921)</u>
Annual OPEB cost	1,919,840
Contributions made	<u>(296,461)</u>
Increase in net OPEB obligation	1,623,379
Net OPEB obligation - beginning of year	<u>9,062,727.</u>
Net OPEB obligation - end of year	<u>\$ 10,686,106</u>

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation were as follows:

<u>Fiscal year ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
2017	\$ 1,919,840	15%	\$ 10,686,106
2016	\$ 1,592,002	23%	\$ 9,062,727
2015	\$ 1,496,680	24%	\$ 7,841,459

E. Funded Status and Funding Progress

The funded status of the plan as of July 1, 2016, the date of the most recent actuarial valuation, was as follows:

Actuarial accrued liability (AAL)	\$ 18,405,319
Actuarial value of plan assets	<u>-</u>
Unfunded actuarial accrued liability (UAAL)	\$ <u>18,405,319</u>
Funded ratio (actuarial value of plan assets/AAL)	<u>0%</u>
Covered payroll (active plan members)	\$ <u>13,222,395</u>
UAAL as a percentage of covered payroll	<u>139.2%</u>

Actuarial valuations of an ongoing plan involve estimates of the value of reported amount and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision, as actual results are compared with past expectations and new estimates are made about the future. The Schedule of OPEB Funding Progress, presented as required supplementary information following the Notes to Financial Statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

F. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the plan as understood by the County and the plan members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the County and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued

liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2016 actuarial valuation, the projected unit credit cost method was used. The actuarial value of assets was not determined, as the County has not advance funded its obligation. The actuarial assumptions included a 4.0% investment rate of return and an initial annual healthcare cost trend rate of 9%, which decreases to a 5% long-term rate for all healthcare benefits after eight years. The amortization costs for the initial UAAL is a level percentage of payroll for a period of 29 years, on a closed basis.

14. New Hampshire Retirement System

The County follows the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, with respect to the State of New Hampshire Retirement System (NHRS).

A. Plan Description

Full-time employees participate in the State of New Hampshire Retirement System, a cost-sharing, multiple-employer defined benefit contributory pension plan and trust established in 1967 by RSA 100-A:2 and qualified as a tax-exempt organization under Section 401(a) and 501(a) of the Internal Revenue Code. The plan is a contributory, defined benefit plan providing service, disability, death, and vested retirement benefits to members and their beneficiaries. Substantially all full-time state employees, public school teachers and administrators, permanent firefighters, and permanent police officers within the State of New Hampshire are eligible and required to participate in the system. Full-time employees of political subdivisions, including counties, municipalities, and school districts are also eligible to participate as a group if the governing body of the political subdivision has elected participation.

The New Hampshire Retirement System, a Public Employees Retirement System (PERS), is divided into two membership groups. State or local employees and teachers belong to Group I. Police officers and firefighters belong to Group II. All assets are held in a single trust and are available to each group. Additional information is disclosed in the NHRS' annual report publicly available from the New Hampshire Retirement System located at 54 Regional Drive, Concord, New Hampshire, 03301-8507.

B. Benefits Provided

Group I members at age 60 or 65 (for members who commence service after July 1, 2011) qualify for a normal service retirement allowance based on years of creditable service and average final salary for the highest of

either three or five years, depending on when their service commenced. The yearly pension amount is $1/60$ or 1.667% of average final compensation (AFC), multiplied by years of creditable service. At age 65, the yearly pension amount is recalculated at $1/66$ or 1.515% of AFC multiplied by years of creditable service.

Group II members who are age 60, or members who are at least age 45 with at least 20 years of creditable service, can receive a retirement allowance at a rate of 2.5% of AFC for each year of creditable service, not to exceed 40 years. Members commencing service on or after July 1, 2011 or members who have a nonvested status as of January 1, 2012 can receive a retirement allowance at age 52.5 with 25 years of service or age 60. The benefit shall be equal to 2% of AFC times creditable service up to 42.5 years. However, a member who commenced service on or after July 1, 2011 shall not receive a retirement allowance until attaining the age of 52.5, but may receive a reduced allowance after age 50 if the member has at least 25 years of creditable service where the allowance shall be reduced, for each month by which the benefit commencement date precedes the month after which the member attains 52.5 years of age by $\frac{1}{4}$ of 1% or age 60.

Members of both groups may qualify for vested deferred allowances, disability allowances and death benefit allowances subject to meeting various eligibility requirements. Benefits are based on AFC or earned compensation and/or service.

C. Contributions

Plan members are required to contribute a percentage of their gross earnings to the pension plan, for which the contribution rates are 7% for employees and 11.55% for sheriff's deputies and correctional officers. The County makes annual contributions to the pension plan equal to the amount required by Revised Statutes Annotated 100-A:16, and range from 10.86% to 25.32% of covered compensation. The County's contribution to NHRS for the year ended June 30, 2017 was \$2,023,429, which was equal to its annual required contribution.

D. Summary of Significant Accounting Policies

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the NHRS and additions to/deductions from the net position have been determined on the same basis as they are reported by NHRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

E. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the County reported a liability of \$28,405,831 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2015, the County's proportion was .51020249 percent.

At June 30, 2016, the County's proportion was .53418565 percent, which was an increase of .02398316% from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the County recognized pension expense of \$3,410,466. In addition, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 78,939	\$ 358,695
Changes of assumptions	3,495,855	-
Net difference between projected and actual earnings on pension plan investments	1,777,215	-
Changes in proportion and differences between contributions and proportionate share of contributions	1,016,185	-
Contributions subsequent to the measurement date (fiscal year 2017)	<u>2,023,429</u>	<u>-</u>
Total	<u>\$ 8,391,623</u>	<u>\$ 358,695</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year ended June 30:</u>	
2018	\$ (3,280,524)
2019	(1,257,095)
2020	(1,869,706)
2021	(1,545,083)
2022	<u>(80,520)</u>
Total	\$ <u>(8,032,928)</u>

F. Actuarial Assumptions

The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5 percent per year
Salary increases	5.6 percent average, including inflation
Investment rate of return	7.25 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 Employee generational mortality table for males and females, adjusted for mortality improvements using Scale MP-2015, based on the last experience study.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2010 – June 30, 2015.

The long-term expected rate of return on pension plan investments was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return net of investment expenses by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation Percentage</u>	<u>Weighted Average Average Long- Term Expected Real Rate of Return</u>
Large Cap Equities	22.50 %	4.25%
Small/Mid Cap Equities	<u>7.50</u>	4.50%
Total domestic equities	30.00	
Int'l Equities (unhedged)	13.00	4.75%
Emerging Int'l Equities	<u>7.00</u>	6.25%
Total international equities	20.00	
Core Bonds	5.00	0.64%
Short Duration	2.00	-0.25%
Global Multi-Sector Fixed Income	11.00	1.71%
Absolute Return Fixed Income	<u>7.00</u>	1.08%
Total fixed income	25.00	
Private Equity	5.00	6.25%
Private Debt	5.00	4.75%
Opportunistic	<u>5.00</u>	3.68%
Total alternative investments	15.00	
Real Estate	<u>10.00</u>	3.25%
Total	<u><u>100.00</u></u> %	

G. Discount Rate

The discount rate used to measure the total pension liability was 7.25%. This is a decrease of .50% from the previous valuation and has contributed to the significant deferred outflow of resources balance for changes of assumptions. The projection of cash flows used to determine the discount rate assumed that the plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. For purposes of the projection, member contributions and employer service cost contributions are projected based on the expected payroll of current members only. Employer contributions are determined based on the pension plan's actuarial funding policy and as required by RSA 100-A 16. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

H. Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.25%) or one percentage-point higher (8.25%) than the current rate:

<u>Fiscal Year Ended</u>	<u>1% Decrease (6.25%)</u>	<u>Current Discount Rate (7.25%)</u>	<u>1% Increase (8.25%)</u>
June 30, 2017	\$ 36,499,558	\$ 28,405,831	\$ 21,693,367

I. Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued NHRS financial report.

15. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the County carries commercial insurance. There were no significant reductions in insurance coverage from the previous year and have been no material settlements in excess of coverage in any of the past three fiscal years.

16. Commitments and Contingencies

Outstanding Legal Issues – On an ongoing basis, there are typically pending legal issues in which the County is involved. The County's management is of the opinion that the potential future settlement of these issues would not materially affect its financial statements taken as a whole.

Grants - Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

17. Implementation of New GASB Standard

The Governmental Accounting Standards Board (GASB) has issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*, replacing requirements of Statements No. 45 and 57, effective for the County beginning with its year ending June 30, 2018. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. In addition, the Statement details the recognition and disclosure requirements for employers with payables to defined benefit OPEB plans that are administered through trusts that meet the specific criteria and for employers whose employees are provided with defined contribution OPEB.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of \$3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2016; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

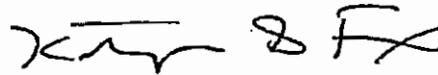

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number T1010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

3. EFFECTIVE DATE/COMPLETION OF SERVICES.

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.18, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.14 ("Effective Date").

The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/EQUAL EMPLOYMENT OPPORTUNITY:

6.1 In connection with the performance of the Services, the Contractor shall comply with all statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal opportunity laws. 6.3 If this Agreement is funded in any part by monies of the United States, the Contractor shall comply with all the provisions of Executive Order No. 11246 ("Equal Employment Opportunity"), as supplemented by the regulations of the United States Department of Labor (41 C.F.R. Part 60), and with any rules, regulations and guidelines as the State of New Hampshire or the United States issue to implement these regulations. The Contractor further agrees to permit the State or United States access to any of the Contractor's books, records and accounts for the purpose of ascertaining compliance with all rules, regulations and orders, and the covenants, terms and conditions of this Agreement.

7.2 Unless otherwise authorized in writing, during the term of this Agreement, and for a period of six (6) months after the Completion Date in block 1.7, the Contractor shall not hire, and shall not permit any subcontractor or other person, firm or corporation with whom it is engaged in a combined effort to perform the Services to hire, any person who is a State employee or official, who is materially involved in the procurement, administration or performance of this

Agreement. This provision shall survive termination of this Agreement.

7.3 The Contracting Officer specified in block 1.9, or his or her successor, shall be the State's representative. In the event of any dispute concerning the interpretation of this Agreement, the Contracting Officer's decision shall be final for the State.

8. EVENT OF DEFAULT/REMEDIES.

8.1 Any one or more of the following acts or omissions of the Contractor shall constitute an event of default hereunder ("Event of Default"):

8.1.1 failure to perform the Services satisfactorily or on schedule;

8.1.2 failure to submit any report required hereunder; and/or

8.1.3 failure to perform any other covenant, term or condition of this Agreement.

8.2 Upon the occurrence of any Event of Default, the State may take any one, or more, or all, of the following actions:

8.2.1 give the Contractor a written notice specifying the Event of Default and requiring it to be remedied within, in the absence of a greater or lesser specification of time, thirty (30) days from the date of the notice; and if the Event of Default is not timely remedied, terminate this Agreement, effective two (2) days after giving the Contractor notice of termination;

8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

8.2.3 set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or

8.2.4 treat the Agreement as breached and pursue any of its remedies at law or in equity, or both.

9. DATA/ACCESS/CONFIDENTIALITY/PRESERVATION.

9.1 As used in this Agreement, the word "data" shall mean all information and things developed or obtained during the performance of, or acquired or developed by reason of, this Agreement, including, but not limited to, all studies, reports, files, formulae, surveys, maps, charts, sound recordings, video recordings, pictorial reproductions, drawings, analyses, graphic representations, computer programs, computer printouts, notes, letters, memoranda, papers, and documents, all whether finished or unfinished.

9.2 All data and any property which has been received from the State or purchased with funds provided for that purpose under this Agreement, shall be the property of the State, and shall be returned to the State upon demand or upon termination of this Agreement for any reason.

9.3 Confidentiality of data shall be governed by N.H. RSA chapter 91-A or other existing law. Disclosure of data requires prior written approval of the State.

10. **TERMINATION.** In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. The form, subject matter, content, and number of copies of the Termination Report shall be identical to those of any Final Report described in the attached EXHIBIT A.

11. **CONTRACTOR'S RELATION TO THE STATE.** In the performance of this Agreement the Contractor is in all respects an independent contractor, and is neither an agent nor an employee of the State. Neither the Contractor nor any of its officers, employees, agents or members shall have authority to bind the State or receive any benefits, workers' compensation or other emoluments provided by the State to its employees.

12. **ASSIGNMENT/DELEGATION/SUBCONTRACTS.** The Contractor shall not assign, or otherwise transfer any interest in this Agreement without the prior written notice and consent of the State. None of the Services shall be subcontracted by the Contractor without the prior written notice and consent of the State.

13. **INDEMNIFICATION.** The Contractor shall defend, indemnify and hold harmless the State, its officers and employees, from and against any and all losses suffered by the State, its officers and employees, and any and all claims, liabilities or penalties asserted against the State, its officers and employees, by or on behalf of any person, on account of, based or resulting from, arising out of (or which may be claimed to arise out of) the acts or omissions of the Contractor. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant in paragraph 13 shall survive the termination of this Agreement.

14. INSURANCE.

14.1 The Contractor shall, at its sole expense, obtain and maintain in force, and shall require any subcontractor or assignee to obtain and maintain in force, the following insurance:

14.1.1 comprehensive general liability insurance against all claims of bodily injury, death or property damage, in amounts of not less than \$1,000,000 per occurrence and \$2,000,000 aggregate; and

14.1.2 special cause of loss coverage form covering all property subject to subparagraph 9.2 herein, in an amount not less than 80% of the whole replacement value of the property.

14.2 The policies described in subparagraph 14.1 herein shall be on policy forms and endorsements approved for use in the State of New Hampshire by the N.H. Department of Insurance, and issued by insurers licensed in the State of New Hampshire.

14.3 The Contractor shall furnish to the Contracting Officer identified in block 1.9, or his or her successor, a certificate(s) of insurance for all insurance required under this Agreement. Contractor shall also furnish to the Contracting Officer identified in block 1.9, or his or her successor, certificate(s) of insurance for all renewal(s) of insurance required under this Agreement no later than thirty (30) days prior to the expiration date of each of the insurance policies. The certificate(s) of insurance and any renewals thereof shall be attached and are incorporated herein by reference. Each certificate(s) of insurance shall contain a clause requiring the insurer to provide the Contracting Officer identified in block 1.9, or his or her successor, no less than thirty (30) days prior written notice of cancellation or modification of the policy.

However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
 - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (l)(b) of this certification; and
 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
 - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
 - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

- f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

- a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.
- b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

- f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

Greater Nashua Council on Alcoholism

Report on the Financial Statements

We have audited the accompanying financial statements of Greater Nashua Council on Alcoholism, which comprise the statement of financial position as of June 30, 2017, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and

fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Greater Nashua Council on Alcoholism, Inc. as of June 30, 2017, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited Greater Nashua Council on Alcoholism, Inc.'s fiscal year 2016 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated November 2, 2016. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2016 is consistent, in all material respects, with the audited financial statements from which it has been derived:

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 10, 2018 on our consideration of Greater Nashua Council on Alcoholism's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Greater Nashua Council on Alcoholism's internal control over financial reporting and compliance.

GREATER NASHUA COUNCIL ON ALCOHOLISM

Notes to the Financial Statements

1. **Organization:**

Greater Nashua Council on Alcoholism (the Organization) is a nonprofit organization providing recovery support services which are evidence-based, genderspecific, and culturally competent. The programs include residential, transitional housing, outpatient, intensive outpatient, family-based substance abuse services, pregnant and parenting women and children, and offender re-entry services initiative.

2. **Summary of Significant Accounting Policies:**

Comparative Financial Information

The accompanying financial statements include certain prior-year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with Accounting Principles Generally Accepted in the United States of America (GAAP). Accordingly, such information should be read in conjunction with the audited financial statements for the year ended June 30, 2016, from which the summarized information was derived.

Cash and Cash Equivalents

All cash and highly liquid financial instruments with original maturities of three months or less, and which are neither held for nor restricted by donors for long-term purposes, are considered to be cash and cash equivalents.

Receivables, Net

Receivables, net consist primarily of noninterest-bearing amounts due for services and programs. The allowance for uncollectable receivables is based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Receivables are written off when deemed uncollectable.

Property and Equipment

Property and equipment is reported in the Statement of Financial Position at cost, if purchased, and at fair value at the date of donation, if donated. Property and equipment is capitalized if it has a cost of \$2,500 or more and a

useful life when acquired of more than one year. Repairs and maintenance that do not significantly increase the useful life of the asset are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, as follows:

Land improvements	15 years
Building and improvements	30 years
Equipment	5 years
Furniture and fixtures	5 - 7 years
Software	3 years
Vehicles	5 years

Property and equipment is reviewed for impairment when a significant change in the asset's use or another indicator of possible impairment is present. No impairment losses were recognized in the financial statements in the current period.

Net Assets

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Unrestricted Net Assets – Net assets available for use in general operations.

Temporarily Restricted Net Assets – Net assets subject to donor restrictions that may or will be met by expenditures or actions and/or the passage of time. Contributions are reported as temporarily restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from restrictions.

Permanently Restricted Net Assets – Net assets whose use is limited by donor-imposed restrictions that neither expire by the passage of time nor can be fulfilled or otherwise removed.

The Organization has only unrestricted net assets.

Revenue and Revenue Recognition

Revenue is recognized when earned. Program service fees and payments under cost-reimbursable contracts received in advance are deferred to the applicable period in which the related services are performed or expenditures are incurred, respectively.

Accounting for Contributions

Contributions are recognized when received. All contributions are reported as increases in unrestricted net assets unless use of the contributed assets is specifically restricted by the donor. Amounts received that are restricted by the donor to use in future periods or for specific purposes are reported as increases in either temporarily restricted or permanently restricted net assets, consistent with the nature of the restriction. Unconditional promises with payments due in future years have an implied restriction to be used in the year the payment is due and, therefore, are reported as temporarily restricted until the payment is due unless the contribution is clearly intended to support activities of the current fiscal year or is received with permanent restrictions. Conditional promises, such as matching grants, are not recognized until they become unconditional, that is, until all conditions on which they depend are substantially met.

Gifts-in-Kind Contributions

The Organization periodically receives contributions in a form other than cash or investments. Contributed property and equipment is recognized as an asset at its estimated fair value at the date of gift, provided that the value of the asset and its estimated useful life meets the Organization's capitalization policy. Donated use of facilities is reported as contributions and as expenses at the estimated fair value of similar space for rent under similar conditions. If the use of the space is promised unconditionally for a period greater than one year, the contribution is reported as a contribution and an unconditional promise to give at the date of gift, and the expense is reported over the term of use. Donated supplies are recorded as contributions at the date of gift and as expenses when the donated items are placed into service or distributed.

The Organization benefits from personal services provided by a substantial number of volunteers. Those volunteers have donated significant amounts of time and services in the Organization's program operations and in its fundraising campaigns. However, the majority of the contributed services do not meet the criteria for recognition in financial statements. Generally Accepted Accounting Principles allow recognition of contributed services only if (a) the services create or enhance nonfinancial assets or (b) the services would have been purchased if not provided by contribution, require specialized skills, and are provided by individuals possessing those skills.

Grant Revenue

Grant revenue is recognized when the qualifying costs are incurred for cost-reimbursement grants or contracts or when a unit of service is provided for performance grants. Grant revenue from federal agencies is subject to independent audit under the Office of Management and Budget's, *Uniform Grant Guidance*, and review by grantor agencies. The review could result in the dis-

allowance of expenditures under the terms of the grant or reductions of future grant funds. Based on prior experience, the Organization's management believes that costs ultimately disallowed, if any, would not materially affect the financial position of the Organization.

Functional Allocation of Expenses

The costs of program and supporting services activities have been summarized on a functional basis in the Statement of Activities. The Statement of Functional Expenses present that natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Income Taxes

The Organization is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an Organization described in Section 501(c)(3). The Organization has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions.

The Organization is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. If the Organization has net income that is derived from business activities that are unrelated to its exempt purpose, it would need to file an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS.

Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates, and those differences could be material.

Financial Instruments and Credit Risk

Deposit concentration risk is managed by placing cash with financial institutions believed to be creditworthy. At times, amounts on deposit may exceed insured limits. To date, no losses have been experienced in any of these accounts. Credit risk associated with receivables is considered to be limited due to high historical collection rates.

Fair Value Measurements and Disclosures

Certain liabilities are reported at fair value in the financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.

Level 3 – Unobservable inputs for the asset or liability. In these situations, inputs are developed using the best information available in the circumstances.

When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. However, Level 1 inputs are not available for many of the assets and liabilities that the Organization is required to measure at fair value (for example, unconditional contributions receivable and in-kind contributions).

The primary uses of fair value measures in the Organization's financial statements are:

- Initial measurement of noncash gifts, including gifts of investment assets and unconditional contributions receivable.
- Recurring measurement of due to related organizations – Level 3.

- Recurring measurement of line of credit – Level 2.
- Recurring measurement of bonds and mortgages payable – Level 2.

The carrying amounts of cash, cash equivalents, and restricted cash, receivables, accounts payable, and accrued expenses and other liabilities approximate fair value due to the short-term nature of the items, and are considered to fall within Level 1 of the fair value hierarchy.

In 2017, the Organization adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2015-03, *Interest – Imputation of Interest (Subtopic 835-30)*. The effect of this change in fiscal year 2017 was to reclassify debt issuance expenses in the amount of \$72,026 from other assets to a reduction in long-term debt. The financial statements for 2016 have been retroactively restated for the change, which resulted in a decrease to other assets and a corresponding decrease to long-term debt of \$72,026. There is no effect on net income for either year.

10. Mortgages Payable, Deferred:

The Organization received special financing as partial funding for a new building. These notes are interest free for thirty years with principal payments calculated annually at the discretion of the lender. Certain covenants apply related to eligibility and use of the mortgaged property. The balance of these notes at June 30, 2017 is as follows:

Federal Home Loan Bank of Boston - Affordable Housing Program	\$ 385,000
New Hampshire Housing Finance Authority	<u>1,500,000</u>
Total	<u>\$ 1,885,000</u>

11. Net Assets Released from Restriction:

There were no restricted net assets during the year ended June 30, 2017 and, as a result, no net assets were released from restrictions.

12. Deferred Compensation Plan:

In fiscal year 2017, the Organization discontinued its 403(b) plan and deferred compensation plan for certain employees and directors, and it implemented a 401(k) retirement plan. Upon meeting the eligibility criteria, employees can contribute a portion of their wages to the 401(k) plan. The Organization will contribute as a matching contribution an amount equal to 100% of employees' contributions that is not in excess of 6% of their contribution. Total matching contributions paid by the Organization for the year ended June 30, 2017 were \$50,561.

13. Transactions with Related Parties:

The Organization offers counseling services to the clients of related organizations. These services are provided whenever requested.

The Organization is a corporate guarantor for Harbor Homes, Inc., related to the mortgage on their Northeastern Boulevard property. The guaranty consists of one mortgage in the amount of \$1,125,000.

The Organization receives janitorial and maintenance services performed by clients of Harbor Homes, Inc., a related organization. The Organization also receives payroll services from the related organization, billed at actual cost.

The Organization rents space from Harbor Homes, Inc., a related organization. Rent expense for the year under this agreement was \$41,250.

The Organization is considered a commonly controlled organization with several related entities by way of its common board of directors. However, management feels that the principal prerequisites for preparing combined financial statements are not met and, therefore, more meaningful separate statements have been prepared.

14. Concentration of Risk:

A material part of the Organization's revenue is dependent upon support from the State of New Hampshire and Medicaid, the loss of which would have a materially adverse effect on the Organization. During the year ended June 30, 2017, the State of New Hampshire accounted for 63% and Medicaid account for 25% of total revenues.

15. Supplemental Disclosure of Cash Flow Information:

In fiscal year 2017, the Organization early adopted Accounting Standard Update (ASU) No. 2016-18, *State of Cash Flows (Topic 203): Restricted Cash*. The amendments in this update require that a Statement of Cash Flows explain the change during the fiscal year of restricted cash as part of the total cash and cash equivalents.

The following table provides a reconciliation of cash and cash equivalents, and restricted cash reported in the State of Financial Position to the same such amounts reported in the Statement of Cash Flows.

	<u>2017</u>	<u>2016</u>
Cash and Cash Equivalents	\$ 252,981	\$ 42,392
Restricted Cash	<u>38,482</u>	<u>26,473</u>
Total Cash, Cash Equivalents, and Restricted Cash shown in the Statement of Cash Flows	<u>\$ 291,463</u>	<u>\$ 68,865</u>

16. Subsequent Events:

In accordance with the provisions set forth by FASB ASC, Subsequent Events, events and transactions from July 1, 2017 through January 10, 2018, the date the financial statements were available to be issued, have been evaluated by management for disclosure. Management has determined that there were no material events that would require disclosure in the Organization's financial statements through this date.

17. Change in Net Assets:

During fiscal year 2017, the Organization received \$400,000 in grant funding for infrastructure. This one-time grant contributed to the change in net assets (approximately \$148,000) for fiscal year 2017.

INDEPENDENT AUDITORS' REPORT ON FINANCIAL STATEMENTS

To the Board of Directors
Headrest, Inc.
Lebanon, New Hampshire 03766

We have audited the accompanying financial statements of Headrest, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2017 and 2016, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

-1-

Opinion

In our opinion, the financial statements referred to the above present fairly, in all material respects, the financial position of Headrest, Inc. as of June 30, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The schedule of functional expenses on page 11 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Depreciation and fixed assets – Property and equipment are stated at cost if purchased and at fair market value on the date of the donations if donated. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted or temporarily restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, Headrest reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. Headrest reclassifies temporarily restricted net assets to unrestricted net assets at that time. Depreciation is computed using straight-line and accelerated methods based on the estimated useful life of each asset. Estimated useful lives used for building and improvements are ten to thirty- nine years and for furniture and fixtures three to seven years.

Public support and revenue – All contributions are considered to be available or unrestricted use unless specifically restricted by the donor.

Funds to support this request are available in State Fiscal Year 2019 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office without approval of the Governor and Executive Council, if needed and justified.

Please see attached financial details.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of \$3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2016; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

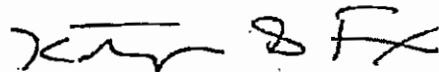

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

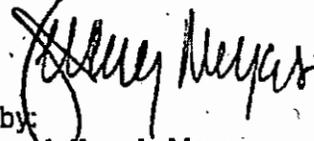

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

8.2.3 set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or

9.1 As used in this Agreement, the word "data" shall mean all information and things developed or obtained during the performance of, or acquired or developed by reason of, this Agreement, including, but not limited to, all studies, reports, files, formulae, surveys, maps, charts, sound recordings, video recordings, pictorial reproductions, drawings, analyses, graphic representations, computer programs, computer printouts, notes, letters, memoranda, papers, and documents, all whether finished or unfinished.

9.2 All data and any property which has been received from the State or purchased with funds provided for that purpose under this Agreement, shall be the property of the State, and shall be returned to the State upon demand or upon termination of this Agreement for any reason.

9.3 Confidentiality of data shall be governed by N.H. RSA chapter 91-A or other existing law. Disclosure of data requires prior written approval of the State.

10. **TERMINATION.** In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. The form, subject matter, content, and number of copies of the Termination Report shall be identical to those of any Final Report described in the attached EXHIBIT A.

11. **CONTRACTOR'S RELATION TO THE STATE.** In the performance of this Agreement the Contractor is in all respects an independent contractor, and is neither an agent nor an employee of the State. Neither the Contractor nor any of its officers, employees, agents or members shall have authority to bind the State or receive any benefits, workers' compensation or other emoluments provided by the State to its employees.

12. **ASSIGNMENT/DELEGATION/SUBCONTRACTS.** The Contractor shall not assign, or otherwise transfer any interest in this Agreement without the prior written notice and consent of the State. None of the Services shall be subcontracted by the Contractor without the prior written notice and consent of the State.

13. **INDEMNIFICATION.** The Contractor shall defend, indemnify and hold harmless the State, its officers and employees, from and against any and all losses suffered by the State, its officers and employees, and any and all claims, liabilities or penalties asserted against the State, its officers and employees, by or on behalf of any person, on account of, based or resulting from, arising out of (or which may be claimed to arise out of) the acts or omissions of the Contractor. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant in paragraph 13 shall survive the termination of this Agreement.

14. INSURANCE.

14.1 The Contractor shall, at its sole expense, obtain and maintain in force, and shall require any subcontractor or assignee to obtain and maintain in force, the following insurance:

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Order of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

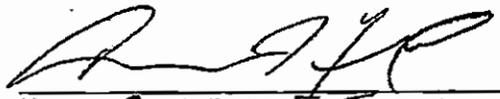

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
 - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (l)(b) of this certification; and
 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
 - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
 - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) **Obligations of Covered Entity**

- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) **Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

We have audited the accompanying consolidated financial statements of Easter Seals New Hampshire, Inc. and Subsidiaries (Easter Seals NH), which comprise the consolidated statements of financial position as of August 31, 2017 and 2016, and the related consolidated statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Easter Seals NH as of August 31, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying other financial information is presented for purposes of additional analysis rather than to present the financial position and results of operations of the individual companies and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

As discussed in note 1, effective August 31, 2016, Easter Seals NH transferred its sole member interest in Easter Seals Rhode Island, Inc. to Fedcap Rehabilitation Services, Inc. As a result, these consolidated financial statements do not include the financial position of Easter Seals Rhode Island, Inc. at August 31, 2016, while the results of operations of Easter Seals Rhode Island, Inc. are included for the year then ended.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 4, 2017, on our consideration of Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and compliance.

EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2017 and 2016

1. Corporate Organization and Purpose

Easter Seals New Hampshire, Inc. and Subsidiaries (Easter Seals NH) consists of various separate nonprofit entities: Easter Seals New Hampshire, Inc. (parent and service corporation); Easter Seals Maine, Inc. (Easter Seals ME); The Harbor Schools Incorporated (Harbor Schools); Manchester Alcoholism Rehabilitation Center; and Easter Seals Vermont, Inc. (Easter Seals VT). Easter Seals New Hampshire, Inc. is the sole member of each subsidiary. Easter Seals NH is affiliated with Easter Seals, Inc. (the national headquarters for the organization).

On August 31, 2016, Easter Seals NH entered into an agreement with Fedcap Rehabilitation Services, Inc. (Fedcap), an unrelated entity, whereby Easter Seals NH agreed to transfer its sole member interest in Easter Seals RI to Fedcap for no consideration. See note 14. The accompanying consolidated statements of activities include the results of operations of Easter Seals RI through the date Easter Seals NH's sole member interest was transferred.

Effective October 26, 2016, Agency Realty, Inc. was dissolved and all properties were transferred to Easter Seals New Hampshire, Inc.

Easter Seals NH's purpose is to provide (1) programs and services for people with disabilities and other special needs, (2) assistance to people with disabilities and their families, (3) assistance to communities in identifying and developing needed services for residents, and (4) a climate of acceptance for people with disabilities and other special needs which will enable them to contribute to the well-being of the community. Easter Seals NH operates programs throughout New Hampshire, Maine, Massachusetts (prior to the closure of Harbor Schools, see note 15), Rhode Island (prior to deconsolidation), and Vermont.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of Easter Seals New Hampshire, Inc. and the subsidiaries of which it is the sole member as described in note 1. Significant intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

Easter Seals NH considers all highly liquid securities purchased with an original maturity of 90 days or less to be cash equivalents. Cash equivalents consist of cash, overnight repurchase agreements and money market funds, excluding assets limited as to use.

The management of Easter Seals NH has implemented a practice to establish cash reserves on hand. As of August 31, 2017 and 2016, approximately \$1,705,000 and \$1,262,000, respectively, of cash and cash equivalents, and approximately \$2,816,000 and \$2,749,000, respectively, of investments were on-hand under this practice. Because such funds are available and may be used in current operations, they have been classified as current in the accompanying consolidated statements of financial position.

2. Summary of Significant Accounting Policies (Continued)

Assets Limited as to Use and Investments

Assets limited as to use consists of cash and cash equivalents, short-term certificates of deposit with original maturities greater than 90 days, but less than one year, and investments. Investments are stated at fair value. Realized gains and losses on investments are computed on a specific identification basis. The changes in net unrealized and realized gains and losses on investments are recorded in other non-operating expenses, gains and losses in the accompanying consolidated statements of activities and changes in net assets. Donated securities are stated at fair value determined at the date of donation.

Beneficial Interest in Trust

Easter Seals NH is the beneficiary of a trust held by others. Easter Seals NH has recorded as an asset the fair value of its interest in the trust and such amount is included in permanently restricted net assets, based on the underlying donor stipulations. The change in the interest due to fair value change is recorded within other non-operating expenses, gains and losses as permanently restricted activity.

Fixed Assets

Fixed assets are recorded at cost less accumulated depreciation and amortization. Expenditures for maintenance and repairs are charged to expense as incurred, and expenditures for major renovations are capitalized. Depreciation is computed on the straight-line method over the estimated useful lives of the underlying assets. Leasehold improvements and the carrying value of equipment financed by capital leases are amortized using the straight-line method over the shorter of the lease term or the estimated useful life of the asset.

Fixed assets obtained by Easter Seals NH as a result of acquisitions on or after September 1, 2011 are recorded at estimated fair value as of the date of the acquisition in accordance with generally accepted accounting principles guidance for acquisitions by a not-for-profit entity.

Donated property and equipment not subject to donor stipulated conditions is recorded at fair value at the date of donation. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support or, if significant uncertainties exist, as deferred revenue pending resolution of the uncertainties. In the absence of such stipulations, contributions of property and equipment are recorded as unrestricted support. See also note 7.

Property held for sale is recorded at the lower of net realizable value or carrying value. No impairment losses were recognized in 2017 or 2016.

Intangible Assets and Long-Lived Assets

Accounting rules require that intangible assets with estimable or determinable useful lives be amortized over their respective estimated useful lives to their estimated residual values, and be reviewed by management for impairment. Intangible assets at August 31, 2016 consisted of a patient list obtained in the acquisition of Webster Place in 2012 (in May 2013, Webster Place was merged with Manchester Alcoholism Rehabilitation Center).

EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2017 and 2016

2. Summary of Significant Accounting Policies (Continued)

Amortization expense recognized in 2017 and 2016 totaled \$33,131 and \$33,130, respectively.

When there is an indication of impairment, management considers whether long-lived assets are impaired by comparing gross future undiscounted cash flows expected to be generated from utilizing the assets to their carrying amounts. If cash flows are not sufficient to recover the carrying amount of the assets, impairment has occurred and the assets are written down to their fair value. Significant estimates and assumptions are required to be made by management in order to evaluate possible impairment.

Based on current facts, estimates and assumptions, management believed that the patient list was impaired in 2017 and recorded \$132,521 in impairment to write-off the remaining book value. Additionally, management believed that certain fixed assets were impaired in 2017 and recorded \$635,111 in impairment related to those long-term assets. No other long-lived assets were deemed impaired at August 31, 2017 and 2016.

Bond Issuance Costs

Bond issuance costs are being amortized to interest expense using the straight-line method over the repayment period of the related bonds, or the expected time until the next refinancing, whichever is shorter. Interest expense recognized on the amortization of bond issuance costs during 2017 and 2016 was \$5,069 and \$3,072 respectively. The bond issuance costs are presented as a component of long-term debt on the accompanying consolidated statement of financial position.

Revenue Recognition

Revenue generated from services provided to the public is reported at the estimated net realizable amounts from clients, third-party payors and others based upon approved rates as services are rendered. A significant portion of Easter Seals NH's revenues are derived through arrangements with third-party payors. As such, Easter Seals NH is dependent on these payors in order to carry out its operating activities. There is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in other fees and grants in the year that such amounts become known.

Revenues are recognized as earned, or attributable to the period in which specific terms of the funding agreement are satisfied, and to the extent that expenses have been incurred for the purposes specified by the funding source. Revenue balances in excess of the foregoing amounts are accounted for as deferred revenue until any restrictions are met or allowable expenditures are incurred.

The allowance for doubtful accounts is provided based on an analysis by management of the collectability of outstanding balances. Management considers the age of outstanding balances and past collection efforts in determining the allowance for doubtful accounts. Accounts are charged against the allowance for doubtful accounts when deemed uncollectible. The bad debt provision in 2017 and 2016 totaled \$2,284,863 and \$984,511 respectively, and is recorded against fees and grants from governmental agencies and others and contributions. The increase in bad debt provision in 2017 is due to growth in services provided by Manchester Alcoholism Rehabilitation Center. See also note 5.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies (Continued)

Easter Seals NH has agreements with third-party payors that provide for payment at amounts different from its established rates. Payment arrangements include discounted charges and prospectively determined payments. Contractual allowances for program and other accounts receivable at August 31, 2017 and 2016 were \$8,302,300 and \$7,372,700, respectively. The total contractual adjustments provided in 2017 and 2016 totaled \$42,812,400 and \$22,364,200, respectively, and are recorded against fees and grants from governmental agencies and others. The increase in contractual adjustments in 2017 is primarily due to growth in services provided by Manchester Alcoholism Rehabilitation Center and an increase in these services being covered by third-party payors.

Unconditional contributions are recognized when pledged.

Advertising

Easter Seals NH's policy is to expense advertising costs as incurred.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the accompanying consolidated statements of activities and changes in net assets. Accordingly, certain costs have been allocated among the programs and supporting services based mainly on time records and estimates made by Easter Seals NH's management.

Charity Care (Unaudited)

Easter Seals NH has a formal charity care policy under which program fees are subsidized as determined by the Board of Directors. Free and subsidized services are rendered in accordance with decisions made by the Board of Directors and, at established charges, amounted to approximately \$6,701,000 and \$5,611,000 for the years ended August 31, 2017 and 2016, respectively.

Income Taxes

Easter Seals New Hampshire, Inc., Easter Seals ME, Easter Seals VT, Harbor Schools and Manchester Alcoholism Rehabilitation Center are exempt from both federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code. Agency Realty, Inc., through to the date of its dissolution (see note 1) received a determination letter from the Internal Revenue Service stating that it qualifies for tax-exempt status under Section 501(c)(2) of the Internal Revenue Code.

Tax-exempt organizations could be required to record an obligation for income taxes as the result of a tax position historically taken on various tax exposure items including unrelated business income or tax status. In accordance with accounting principles generally accepted in the United States of America, assets and liabilities are established for uncertain tax positions taken or positions expected to be taken in income tax returns when such positions are judged to not meet the "more-likely-than-not" threshold, based upon the technical merits of the position.

EASTER SEALS NEW HAMPSHIRE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 2017 and 2016

2. Summary of Significant Accounting Policies (Continued)

Management has evaluated tax positions taken by Easter Seals New Hampshire, Inc. and its subsidiaries on their respective filed tax returns and concluded that the organizations have maintained their tax-exempt status, do not have any significant unrelated business income, and have taken no uncertain tax positions that require adjustment to or disclosure in the accompanying consolidated financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Estimates are used in accounting for the allowance for doubtful accounts, contractual allowances, workers' compensation liabilities and contingencies.

Derivatives and Hedging Activities

Accounting guidance requires that Easter Seals NH record as an asset or liability the fair value of the interest rate swap agreement described in note 10. Easter Seals NH is exposed to repayment loss equal to the net amounts receivable under the swap agreement (not the notional amount) in the event of nonperformance of the other party to the swap agreement. However, Easter Seals NH does not anticipate nonperformance and does not obtain collateral from the other party.

As of August 31, 2017 and 2016, Easter Seals NH had recognized a liability of \$2,641,673 and \$3,487,979, respectively, as a result of the interest rate swap agreements discussed in note 10. As a result of changes in the fair value of these derivative financial instruments, Easter Seals NH recognized an increase in net assets of \$846,306 and a decrease in net assets of \$668,012 for the years ended August 31, 2017 and 2016, respectively, in the accompanying consolidated statements of activity and changes in net assets.

Increase in Net Assets from Operations

For purposes of display, transactions deemed by management to be ongoing, major or central to the provision of services are reported as revenue and expenses that comprise the increase in net assets from operations. The primary transactions reported as other non-operating expenses, gains and losses include the adjustment to fair value of interest rate swaps, the change in the fair value of beneficial interest in trust held by others, gains and losses on sales and disposals of fixed assets, and net realized and unrealized gains and losses on investments.

2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements

Effective for the year ended August 31, 2017, Easter Seals NH retroactively adopted the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2015-03, *Interest – Imputation of Interest*, which changes the presentation of debt issuance costs by requiring that debt issuance costs related to a recognized debt liability be presented in the consolidated statement of financial position as a direct deduction from the carrying amount of that debt liability and amortized to interest expense, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs is not affected by the ASU. As a result of the adoption, Easter Seals NH has reclassified unamortized bond issuance costs in the amount of \$56,073 from bond issuance costs, net on the accompanying consolidated statement of financial position at August 31, 2016 and presented the amount as a reduction of long-term debt, as required by the ASU. The adoption has no effect on Easter Seals NH's net assets, consolidated statement of activities and changes in net assets or statement of cash flows for the year ended August 31, 2016.

In May 2014, the FASB issued No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which requires revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which Easter Seals NH expects to be entitled in exchange for those goods and services. ASU 2014-09 will replace most existing revenue recognition guidance when it becomes effective. ASU 2014-09 is effective for Easter Seals NH on September 1, 2019. ASU 2014-09 permits the use of either the retrospective or cumulative effect transition method. Management is currently evaluating the impact that ASU 2014-09 will have on Easter Seals NH's consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*, which requires that lease arrangements longer than twelve months result in an entity recognizing an asset and liability. The pronouncement is effective for Easter Seals NH beginning September 1, 2020, with early adoption permitted. The guidance may be adopted retrospectively. Management is currently evaluating the impact this guidance will have on Easter Seals NH's consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities* (ASU 2016-14). Under ASU 2016-14, there is a change in presentation and disclosure requirements for not-for-profit entities to provide more relevant information about their resources (and the changes in those resources) to donors, grantors, creditors, and other users. These include qualitative and quantitative requirements in net asset classes, investment return, expenses, liquidity and availability of resources and presentation of operating cash flows. ASU 2016-14 is effective for Easter Seals NH on September 1, 2018, with early adoption permitted. Management is currently evaluating the impact of the pending adoption of ASU 2016-14 on Easter Seals NH's consolidated financial statements.

Reclassifications

Certain reclassifications have been made to the 2016 consolidated financial statements to conform to the 2017 presentation.

Subsequent Events

Events occurring after the statement of financial position date are evaluated by management to determine whether such events should be recognized or disclosed in the consolidated financial statements. Management has evaluated events occurring between the end of Easter Seals NH's fiscal year end and December 4, 2017, the date these consolidated financial statements were available to be issued.

3. Classification of Net Assets

In accordance with the *Uniform Prudent Management of Institutional Funds Act* (UPMIFA), net assets are classified and reported based on the existence or absence of donor-imposed restrictions. Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets. Temporarily restricted net assets are those whose use by Easter Seals NH has been limited by donors to a specific time period or purpose. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of activities and changes in net assets as net assets released from restrictions. Permanently restricted net assets have been restricted by donors to be maintained by Easter Seals NH in perpetuity, the income from which is expendable to support all activities of the organization, or as stipulated by the donor.

Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

In accordance with UPMIFA, Easter Seals NH considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (a) the duration and preservation of the fund; (b) the purpose of the organization and the donor-restricted endowment fund; (c) general economic conditions; (d) the possible effect of inflation and deflation; (e) the expected total return from income and the appreciation of investments; (f) other resources of the organization; and (g) the investment policies of the organization.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires Easter Seals NH to retain as a fund of permanent duration. Deficiencies of this nature are reported in unrestricted net assets. There were no deficiencies between the fair value of the investments of the endowment funds and the level required by donor stipulation at August 31, 2017 or 2016.

Investment and Spending Policies

Easter Seals NH has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that Easter Seals NH must hold in perpetuity or for a donor-specified period. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of an appropriate market index while assuming a moderate level of investment risk. Easter Seals NH expects its endowment funds to provide an average rate of return over a five year period equal to the rate of 2% over the inflation rate. Actual returns in any given year may vary from this amount.

To satisfy its long-term rate-of-return objectives, Easter Seals NH relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Easter Seals NH targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

13. Fair Value of Financial Instruments

Fair value of a financial instrument is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at their measurement date. In determining fair value, Easter Seals NH uses various methods including market, income and cost approaches, and utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in factors used in the valuation. These factors may be readily observable, market corroborated, or generally unobservable. Easter Seals NH utilizes valuation techniques that maximize the use of observable factors and minimize the use of unobservable factors.

Certain of Easter Seals NH's financial instruments are reported at fair value, which include beneficial interest held in trust, investments and the interest rate swap, and are classified by levels that rank the quality and reliability of the information used to determine fair value:

Level 1 – Valuations for financial instruments traded in active exchange markets, such as the New York Stock Exchange. Valuations are obtained from readily available pricing sources for market transactions involving identical instruments.

Level 2 – Valuations for financial instruments traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar instruments.

Level 3 – Valuations for financial instruments derived from other methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining fair value.

The following describes the valuation methodologies used to measure financial assets and liabilities at fair value. The levels relate to valuation only and do not necessarily indicate a measure of investment risk. There have been no changes in the methodologies used by Easter Seals NH at August 31, 2017 and 2016.

Investments and Assets Limited as to Use

Cash and cash equivalents are deemed to be Level 1. The fair values of marketable equity securities, and mutual funds that are based upon quoted prices in active markets for identical assets are reflected as Level 1. Investments in certain government and agency securities and corporate and foreign bonds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2.

Beneficial Interest in Trust Held by Others

The beneficial interest in trust held by others has been assigned fair value levels based on the fair value levels of the underlying investments within the trust. The fair values of marketable equity securities, money market and mutual funds are based upon quoted prices in active markets for identical assets and are reflected as Level 1. Investments in marketable equity securities and mutual funds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2.

Interest Rate Swap Agreement

The fair value for the interest rate swap liability is included in Level 3 and is estimated by the counterparty using industry standard valuation models. These models project future cash flows and discount the future amounts to present value using market-based observable inputs, including interest rates.

At August 31, 2017 and 2016, Easter Seals NH's assets and liabilities measured at fair value on a recurring basis were classified as follows:

Funds to support this request are available in State Fiscal Year 2019 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office without approval of the Governor and Executive Council, if needed and justified.

Please see attached financial details.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of \$3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2016; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Human Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

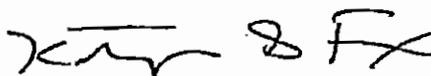

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

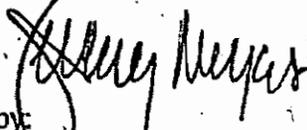

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.
