**THE STATE OF NEW HAMPSHIRE**  
**DEPARTMENT OF TRANSPORTATION**

*Victoria F. Sheehan*  
 Commissioner

*William Cass, P.E.*  
 Assistant Commissioner

His Excellency, Governor Christopher T. Sununu  
 and the Honorable Council  
 State House  
 Concord, New Hampshire 03301

Bureau of Construction  
 October 12, 2020

**REQUESTED ACTION**

1. Authorize the Department of Transportation to enter into a contract with S.U.R. Construction, Inc. (Vendor 156303) of Rochester, NH, on the basis of a low bid of \$763,421.00 for the signalization of the intersection of the US 4 westbound ramps with NH 108, from the date of Governor and Council approval through October 29, 2021, unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available in State Fiscal Year 2021, and is contingent upon the availability and continued appropriation of funds in Fiscal Year 2022 as follows, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Funding is available as follows:	<u>FY 2021</u>	<u>FY 2022</u>
04-96-96-963515-3054		
Consolidated Federal Aid		
400-500870 Highway Contract Payments	\$552,012.08	\$211,408.92

2. Further authorize that a contingency in the amount of \$38,171.05 to be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows:	<u>FY 2021</u>	<u>FY 2022</u>
04-96-96-963515-3054		
Consolidated Federal Aid		
400-500870 Highway Contract Payments		\$38,171.05

**EXPLANATION**

This project is part of the State's Ten Year Transportation Improvement Plan. The project includes the signalization of the intersection of the US 4 westbound ramps with NH 108, machine scaling a rock face along the existing US 4 westbound off ramp, and the installation of a Dynamic Message Sign approximately 1000 feet east of the US 4 WB off ramp. The project will also resurface NH 108 with a full width high strength wearing course overlay, beginning 250 feet south of the US 4 eastbound ramps intersection and ending 700 feet north of the westbound ramps intersection (approx. 0.25 miles).

The intersection of the US 4 westbound ramps with NH 108 is experiencing delays during peak hours, creating lower gap acceptance, and an intersection Level of Service F. The purpose of this project is to resolve traffic congestion and safety concerns. In addition, a Dynamic Message Sign is included in the contract to complement the Statewide Traffic Management System and provide US 4 westbound traffic with advanced warning of traffic, issues, emergencies, or statewide events.

The proposed contingency amount is 5% of the contract total. This is to account for potential adjustments required as a result of the NH 108 sidewalk being installed by the nearby Riverwoods Development and by the Town of Durham, coordination of paving limits between all active and previous contracts, and the uncertainty in the quantity of leveling course needed to shift the NH 108 crown line to accommodate the new pavement marking layout.

Although the bid costs exceeded the Department's estimate by 8.69% the low bid of 3 bids received is felt to be reasonable for the work involved. Two items of significance (maintenance of traffic and mobilization) contributed to 100% of the overage. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

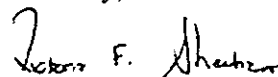

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 80% Federal (Program: Other Federal Aid), with anticipated utilization of Turnpike Toll Credits for the State's 20% match, effectively using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

Victoria F. Sheehan  
Commissioner

VFS/pcj

Department Estimate: \$702,355.00  
Contract Amount: \$763,421.00  
Over Estimate: \$ 61,066.00

## SUPPLEMENTAL PROJECT INFORMATION SHEET

**DESCRIPTION:** The project includes the signalization of the intersection of the US 4 westbound ramps with NH 108, machine scaling a rock face along the existing US 4 westbound off ramp, and the installation of a Dynamic Message Sign approximately 1000 feet east of the US 4 WB off ramp. The project will also resurface NH 108 with a full width high strength wearing course overlay, beginning 250 feet south of the US 4 eastbound ramps intersection and ending 700 feet north of the westbound ramps intersection (approx. 0.25 miles).

**FEDERAL FUNDING:** 80% (Program: Other Fed Aid) Federal with anticipated utilization of Turnpike Toll Credits for the State's 20% match.

**CONTINGENCY:** The proposed contingency amount is 5% of the contract amount. This is to account for potential adjustments required as a result of the NH 108 sidewalk being installed by the nearby Riverwoods Development and by the Town of Durham, coordination of paving limits between all active and previous contracts, the uncertainty in the quantity of leveling course needed to shift the NH 108 crown line to accommodate the new pavement marking layout, as well as the potential contract extension due to mast arm fabrication and delivery.

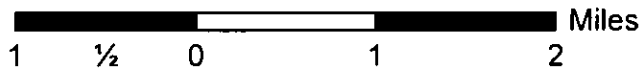

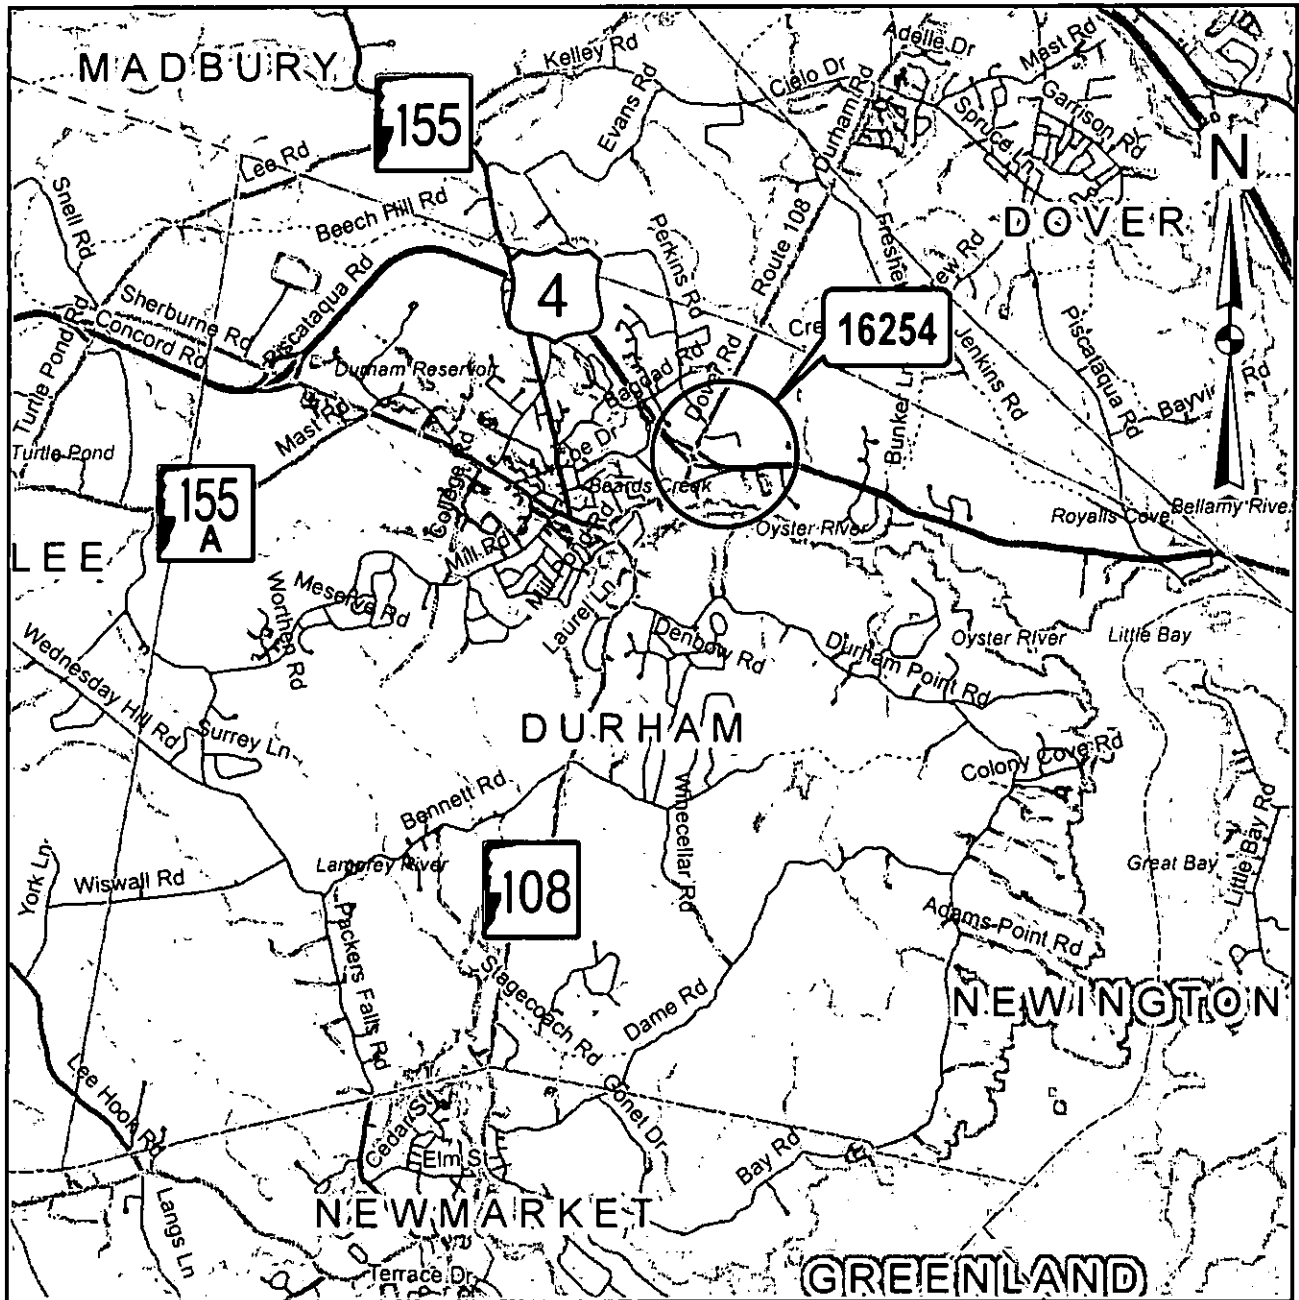

**PROJECT INITIATED:** State's Ten Year Plan.

**PROJECT EXPLANATION:** The intersection of the US 4 westbound ramps with NH 108 is experiencing delays during peak hours, creating lower gap acceptance, and an intersection Level of Service F. The purpose of this project is to resolve traffic congestion and safety concerns. In addition, a Dynamic Message Sign is included in the contract to complement the Statewide Traffic Management System and provide US 4 westbound traffic with advanced warning of traffic, issues, emergencies, or statewide events.

**TRAFFIC IMPLICATION:** Traffic control requirements for the signalization improvements requires short-term auxiliary lane and shoulder closures and daily lane shifts on NH 108. The US 4 westbound off-ramp will be closed during daytime off-peak hours (9 AM – 3 PM) for approximately 7-10 days to complete the rock scaling, loops, pavement inlay, and pavement markings. The detour for the westbound off-ramp closure directs US 4 westbound traffic to the NH 155A interchange approximately 3.5 miles west to reverse direction to the US 4 eastbound off ramp at the NH 108 interchange. Daily shoulder closures will be used on US 4 westbound to install the Dynamic Message Sign, foundations, conduit, pull boxes, connections, and testing of the sign.

**FINAL COMPLETION DATE:** October 29, 2021.
