

The State of New Hampshire  
**DEPARTMENT OF ENVIRONMENTAL SERVICES**

**Thomas S. Burack, Commissioner**

October 15, 2014

Her Excellency, Governor Margaret Wood Hassan  
and The Honorable Council  
State House  
Concord, NH 03301

**REQUESTED ACTION**

Approve the name change to Lauren Olitski Poster and the request to perform the following work on Wentworth Lake, in Wolfeboro. File # 2014-00507. This project will not have significant impact on or adversely affect the values of Wentworth Lake.

Install a 4 ft. x 30 ft. seasonal wharf accessed by a 4 ft. x 10 ft. walkway within waters designated as prime wetlands, fill 395 sq. ft. of poorly drained soils, not within the prime wetland, and install an 8 inch culvert to provide access to a building lot having an average of 310 ft. of shoreline frontage along Lake Wentworth and Brewster Heath, in Wolfeboro. Compensatory mitigation includes a one-time payment of \$665.73 into the Aquatic Resource Mitigation Fund for impacts to the prime wetland.

The Department imposed the following conditions as part of this approval:

1. All work shall be in accordance with plans by Folsom Design Group dated May 28, 2014, as received by the NH Department of Environmental Services (DES) on July 07, 2014.
2. This approval is contingent on receipt by DES of a one-time payment of \$665.73 to the DES Aquatic Resource Mitigation (ARM) Fund. The payment shall be received by DES within 120 days of the date of the approval letter or the application will be denied.
3. This permit shall not be effective until it has been recorded with the Carroll County Registry of Deeds office by the Permittee. A copy of the recorded permit shall be submitted to the DES Wetlands Bureau by certified mail, return receipt requested, prior to installation.
4. The applicant shall notify in writing the DES Wetlands Bureau and the Conservation Commission of his/her intention to start construction no less than five (5) business days prior to the commencement of construction.
5. The boundaries of the prime wetland (as depicted by Town Prime Wetland maps) shall be permanently and clearly marked with signs every 75 ft. to indicate the location of and restrictions on the area.
6. Erosion controls shall be properly installed and maintained and the construction sequence shall be performed in accordance with the approved plans. It is the responsibility of the permittee to ensure that the erosion controls are adequate for the site.
7. Discharge from dewatering of work areas shall be to sediment basins that are: a) located in uplands; b) lined with hay bales or other acceptable sediment trapping liners; c) set back as far as possible from wetlands and surface waters, in all cases with a minimum of 20 ft. of undisturbed vegetated buffer.
8. Any additional human activities within the prime wetland without a permit may be considered in violation of RSA 482-A and may be subject to enforcement action by DES, including, but not limited to, the issuance of fines, administrative orders, or referral to the Department of Justice for the imposition of appropriate penalties.

DES Web site: [www.des.nh.gov](http://www.des.nh.gov)

P.O. Box 95, 29 Hazen Drive, Concord, New Hampshire 03302-0095

Telephone: (603) 271-3503 • Fax: (603) 271-6588 • TDD Access: Relay NH 1-800-735-2964

9. A land resource professional shall inspect the project to insure compliance with approved plans and permit conditions prior to completion of the project. A post-construction report documenting the status of the completed project with photographs shall be submitted to the Wetlands Bureau within 60 days of the completion of construction.
10. This shall be the only structure on this water frontage and all portions of the dock shall be at least 20 ft. from abutting property lines or the imaginary extension of those lines into the water.
11. The seasonal pier shall be removed from the lake for the non-boating season.
12. No portion of the pier shall extend more than 14 ft. from the shoreline at full lake elevation.
13. This permit does not allow any modification of the bank for the installation of the docking structure.
14. All activities shall be in accordance with the Shoreland Water Quality Protection Act, RSA 483-B. The owner is responsible for obtaining any Shoreland Permit that may be required per RSA 483-B, for construction, excavation or fill that will occur within the Protected Shoreland.

#### EXPLANATION

The DES Wetlands Bureau approved this project on August 04, 2014. DES supported its decision with the following findings:

1. This is a major impact project per Administrative Rule Env-Wt 303.02(f), projects located in or adjacent to prime wetlands designated under RSA 482-A:15.
2. The need for the proposed impacts has been demonstrated by the Applicant per Env-Wt 302.01.
3. The Applicant has provided evidence which demonstrates that this proposal is the alternative with the least adverse impact to areas and environments under the Department's jurisdiction per Env-Wt 302.03.
4. The Applicant has demonstrated by plan and example that each factor listed in Env-Wt 302.04(a), Requirements for Application Evaluation, has been considered in the design of the project.
5. In accordance with RSA 482-A:8, DES finds that the requirements for a public hearing do not apply as the permitted project is not of substantial public interest, and will not have a significant impact on or adversely affect the values of the lacustrine resource, as identified under RSA 482-A:1.
6. The Applicant has an average of 310 ft. of shoreline frontage along Lake Wentworth and Brewster Heath.
7. A maximum of 5 slips may be permitted on this frontage per Rule Env-Wt 402.13, Frontage Over 75'.
8. The proposed docking facility will provide 1 slip as defined per RSA 482-A:2, VIII and, therefore, meets Rule Env-Wt 402.13.
9. The proposed seasonal docking structure is within an open water section of a previously mapped prime wetland, Wolfeboro Heath Bog prime wetland.
10. There are no proposed impacts to the lake bank or vegetated wetlands for construction or use of the seasonal docking structure.
11. A seasonal docking structure was previously approved (1994-01448) on the property but not constructed.
12. Proper erosion controls are proposed for construction and to assure no negative impacts to adjacent wetlands or prime wetlands.
13. The approval is conditioned on monitoring and follow-up report by a qualified professional.
14. The Department has not received any abutter or public comments in objection to the proposed project.
15. Based on findings #1 through #14 above, there is clear and convincing evidence that this proposal will result in no significant loss of values to the prime wetlands as set forth in RSA 482-A:1, and the project meets the criteria set forth in Rule Env-Wt 703.01 Criteria for Approval.
16. Effective September 11, 2009, RSA 482-A:11 IV.(a) was amended to require a public hearing only if deemed necessary by the Department per RSA 482-A:8.

Her Excellency, Governor Margaret Wood Hassan  
and The Honorable Council  
Page 3

17. The Department has determined that a hearing is not necessary based on findings #1 through #15.
18. The Applicant has reviewed on-site options for mitigation and the Department has determined that this project is acceptable for payment to the Aquatic Resource Mitigation (ARM) Fund.
19. The payment calculated for the proposed prime wetland loss equals \$665.73.
20. The Department decision is issued in letter form and upon receipt of the ARM fund payment, the Department shall issue a posting permit in accordance with Env-Wt 803.08(f).
21. The payment into the ARM fund shall be deposited in the DES fund for the Pemigewasset-Winnipesaukee River watershed per RSA 482-A:29.

Application file documents are being forwarded to the Governor and Executive Council in connection with their consideration of this matter pursuant to RSA 482-A:3,II.(a) as it is a major project in public waters of the state.

We respectfully submit this request for your consideration.

  
\_\_\_\_\_  
Thomas S. Burack  
Commissioner

Department of Environmental Services- Wetlands Bureau  
 PO Box 95 - Hazen Drive  
 Concord, NH 03302-0095

RE: File # 2014-00507, Harven & Rita Betournay, Tetherly Road, Wolfeboro, NH

Mr. Keirstead,

This is the project that you, Bill Thomas(DES), Lauren Poster(Owner) and I met at the Department to discuss on May 30<sup>th</sup> to get clear information on what was needed to proceed.

Ms. Lauren Poster is now the owner of said property and I have attached a copy of the recorded deed. I ask that the application now be changed to her name. I am including a new application form with her shown as the owner. I have also received your request for more information dated May 9<sup>th</sup>, 2014 which I have addressed below.

1. *Review of the proposed dock and driveway culvert indicates the project is located in or adjacent to the Heath Bog Prime Wetland. Submit plans clearly indicating the limits of the prime wetland in relation to the proposed impact areas and docking structure located in the prime wetland. I am providing a revised plan noting the prime wetland boundary as shown on the Town of Wolfeboro Prime Wetland maps. The maps seem to indicate the shoreline as the edge of the prime wetland. I have shown the edge of the navigable channel and the edge of the palustrine shrub scrub wetland as located on May 28<sup>th</sup>. We however are following Mr. Bill Thomas' suggestion and not aguring the location of the prime wetland with the town maps. Mr. Bill Thomas informed us this would be a lengthy procedure with the Town of Wolfeboro to have the location of the prime wetland modified.*
2. *Impacts in or contiguous to a prime wetland must address part Env-Wt 703 indicating the existing functions and values of the wetland area, the impact to/loss of those functions and values, and explanation of how this determination was made, and any mitigation required for the proposed potential loss of the functions and values. Please provide information how the proposed project is consistent with the purpose specified in RSA 482-A:1. RSA 482-A:1 Finding of Public Purpose is to protect the public's good and welfare and preserve the submerged lands under tidal and fresh waters and its wetlands. We do not believe this will diminish the public's value and use of the prime wetland. We have discussed the project with the NH Fish and Game and have this response from Kim Tuttle. "The NHFG Nongame and Endangered Wildlife Program concurs with the comments of John Cooley, LPC Biologist, below. If the applicant wishes to consider ideas for mitigation that may be required for the proposed potential loss of functions and value for impacts in or contiguous to a prime wetland, we recommend minimizing the size of the dock, if permissible, (e.g. a single slip parallel to the shoreline rather than a U-shaped dock ) and*

## MUNICIPAL SIGNATURES

### 10. CONSERVATION COMMISSION SIGNATURE

The signature below certifies that the municipal conservation commission has reviewed this application, and:

1. Waives its right to intervene per RSA 482-A:11;
2. Believes that the application and submitted plans accurately represent the proposed project; and
3. Has no objection to permitting the proposed work.

Authorized Commission Signature	Print name legibly	Date
---------------------------------	--------------------	------

#### DIRECTIONS FOR CONSERVATION COMMISSION

1. Expedited review **ONLY** requires that the conservation commission's signature is obtained in the space above.
2. The Conservation Commission signature should be obtained prior to the submittal of the original application and four copies to the town/city clerk for mailing to the DES.
3. The Conservation Commission may refuse to sign. If the Conservation Commission does not sign this statement for any reason, the application is not eligible for expedited review and the application will reviewed in the standard review time frame.

### 11. TOWN / CITY CLERK SIGNATURE

As required by Chapter 482-A:3 (amended 1991), I hereby certify that the applicant has filed five application forms, five detailed plans, and five USGS location maps with the town/city indicated below and I have received and retained certified postal receipts (or copies) for all abutters identified by the applicant.

Town/City Clerk Signature	Patricia M. Waterman Print name legibly	Wolfeboro Town/City	2/25/14 Date
---------------------------	--	------------------------	-----------------

#### DIRECTIONS FOR TOWN/CITY CLERK:

Per RSA 482-A:3,1(d):

1. For applications where "Expedited Review" is checked on page 1, accept the application for mailing only if the Conservation Commission signature has been sought;
2. Collect the postal receipts demonstrating that all abutters and the Local Advisory Committee were sent proper notice;
3. Collect any administrative fees, not to exceed \$10 plus the cost of postage by certified mail (RSA 482-A:3,1).
4. **IMMEDIATELY** sign the original application and four copies in the signature space provided above;
5. Retain one copy of the application form, one complete set of attachments and the postal receipts demonstrating that all abutters and the Local River Advisory Committee were notified and make them reasonably accessible to the public;
6. **IMMEDIATELY** distribute a copy of the application with one complete set of attachments to each of the following bodies: the municipal Conservation Commission, the local governing body (Board of Selectmen or Town/City Council), and the Planning Board in accordance with RSA 482-A:3, 1; and
7. **IMMEDIATELY** send the ORIGINAL application form, one complete set of attachments and filing fee, by **CERTIFIED MAIL** to the NHDES Wetlands Bureau at the address indicated on page 1 of this application. (DO NOT HOLD FOR CONSERVATION COMMISSION SIGNATURE).

**12. IMPACT AREA:**

For each jurisdictional area that will be/has been impacted, provide square feet and, if applicable, linear feet of impact

Permanent: impacts that will remain after the project is complete.

Temporary: impacts not intended to remain (and will be restored to pre-construction conditions) after the project is complete.

After-the-fact (ATF): work completed prior to receipt of this application by DES. Check box to indicate ATF.

JURISDICTIONAL AREA	PERMANENT Sq. Ft. / Lin. Ft.		TEMPORARY Sq. Ft. / Lin. Ft.

Docking - Tidal Water		<input type="checkbox"/> ATF		<input type="checkbox"/> ATF
<b>TOTAL</b>	<b>/</b>		<b>/</b>	

**13. APPLICATION FEE:** See the Instructions & Required Attachments document for further instruction

Minimum Impact Fee: Flat fee of \$ 200

Minor or Major Impact Fee: Calculate using the below table below

Permanent and Temporary (non-docking) 488 sq. ft. X \$0.20 = \$ 97.60

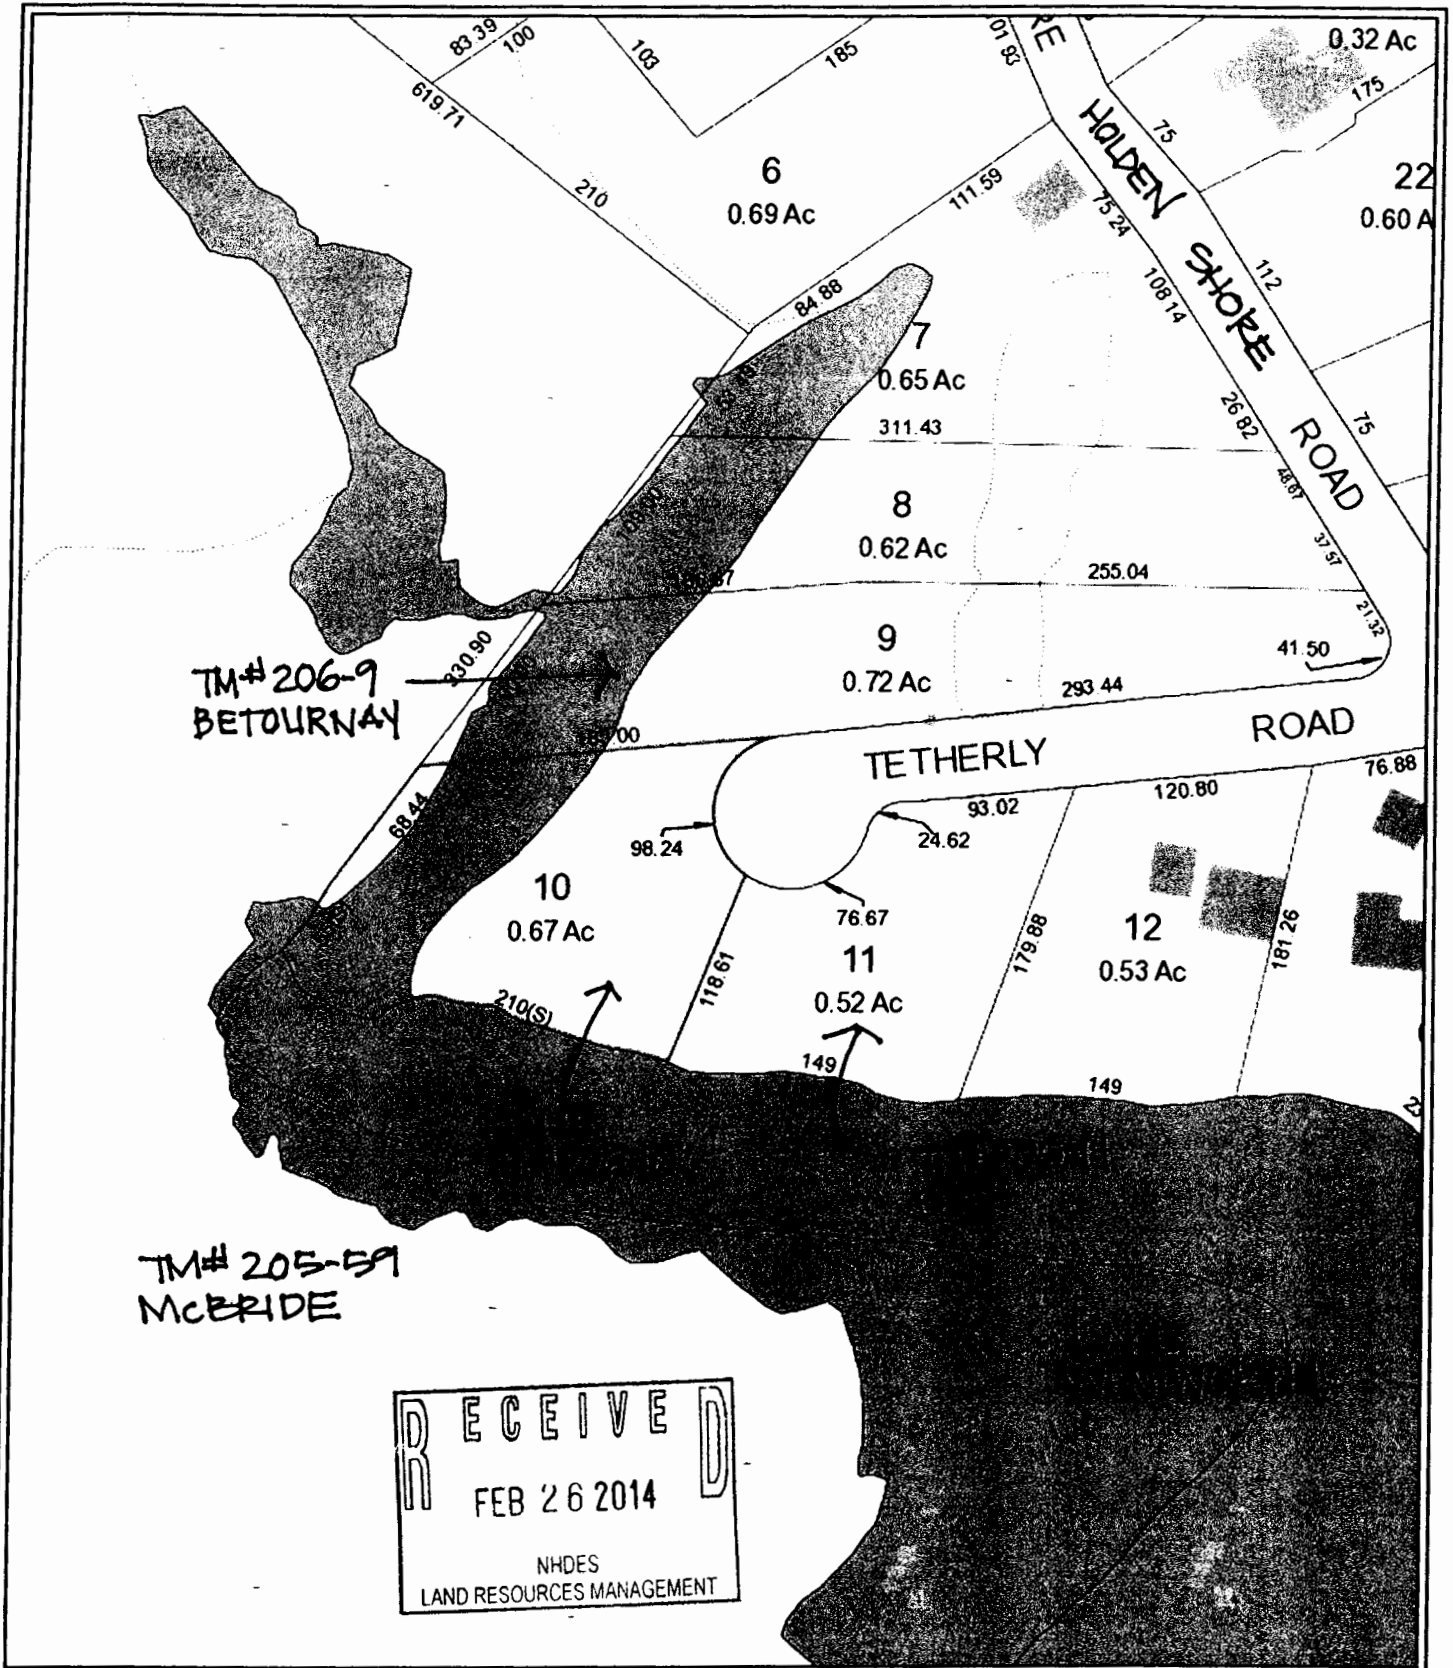

Temporary (seasonal) docking structure: 160 sq. ft. X \$1.00 = \$ 160.00

Permanent docking structure: sq. ft. X \$2.00 = \$

Projects proposing shoreline structures (including docks) add \$200 = \$ 200

Total = \$ 457.60

The Application Fee is the above calculated Total or \$200, whichever is greater = \$ 457.60

Date: 2/10/2014 (valid for one year from this date)  
Re: Review by NH Natural Heritage Bureau

NHB File ID: NHB14-0490 Town: Wolfeboro  
Description: Provide a driveway to access residential house site. The driveway will impact 395 sq. ft. of poorly drained soils. Also provide a 4' x 30' seasonal dock with a 4' x 10' seasonal access for homeowner's boats along 321' of frontage.  
Location: Tax Maps: 206-10  
cc: Kim Tuttle

As requested, I have searched our database for records of rare species and exemplary natural communities, with the following results.

Vertebrate species	State <sup>1</sup>	Federal	Notes
Common Loon ( <i>Gavia immer</i> )	T	--	Contact the NH Fish & Game Dept (see below).

<sup>1</sup>Codes: "E" = Endangered, "T" = Threatened, "SC" = Special Concern, "-", "-" = an exemplary natural community, or a rare species tracked by NH Natural Heritage that has not yet been added to the official state list. An asterisk (\*) indicates that the most recent report for that occurrence was more than 20 years ago.  
Contact for all animal reviews: Kim Tuttle, NH F&G, (603) 271-6544.

A negative result (no record in our database) does not mean that a sensitive species is not present. Our data can only tell you of known occurrences, based on information gathered by qualified biologists and reported to our office. However, many areas have never been surveyed, or have only been surveyed for certain species. An on-site survey would provide better information on what species and communities are indeed present.
