EXPLANATION

The purpose of this request is for Dental Benefit Administration and Consulting Services to assist the Medicaid Program with operation of the New Hampshire Medicaid Program and Children's Health Insurance Program (CHIP) dental benefits programs.

With the implementation of the Medicaid Management Information System on April 1, 2013, New Hampshire Medicaid Dental Benefit Administration continues to require highly specialized knowledge of dental coding, billing and data-capture systems, including expertise in requirements for edits, audits, exceptions and system integration with complex requirements of the Medicaid Dental Benefit. The role of the Dental Consultant continues to encompass support and management of the dental provider network relative to the new system, as well as, the requirement to work directly with Conduent to develop systems that are consistent with effective

operations of the Medicaid Management Information System in order to deliver dental services as required by Title XIX, and avoid overpayment as well as wrongful denial of payment. The highly specialized expertise required to maintain functionality of the Medicaid Management information System relative to the dental benefit is critical to the Department's ability to provide uninterrupted dental access to children and adults enrolled in Medicaid. These duties are in addition to the key responsibilities of the contract for the Medicaid Dental Consultant.

Funds in this agreement will support the above activities and responsibilities, in addition to the key responsibilities of the contract for the Medicaid Dental Consultant, which include: completing prior authorizations for extractions and other treatment; completing claims adjudication; preparing cases and representing the Department at administrative hearings; working directly with dentists for children needing dental treatment when Client Services is unable to find a dentist; providing on-call back up for clinical emergencies when the Dental Director is unavailable; performing research and analysis for rule revision, policy and program development; and high level rate and utilization analysis to support cost containment.

The services required in claims review and correction alone has grown proportionally as only 18,500 children received dental care in 2002. Following a plateau in the number of children receiving dental care from 2012 to 2014, greater than 50,000 children received dental care in 2020. In addition, there is an increased complexity to the cases that need to be reviewed by Dr. Gruette, who has the greater clinical expertise required to accomplish this. Increased network support is also needed to accommodate for increased turnover within the provider network.

These services provide for essential dental consulting services, which will assist the Medicaid Program in operations of the New Hampshire Medicaid and Children's Health Insurance Program dental benefits programs. Efforts will continue to be directed toward recruiting and retaining a sufficient network of dentists to provide access to dental care for Medicaid eligible recipients assuring compliance with Titles XIX, V, Early Periodic Screening, Diagnosis, and Treatment, and other requirements for providing dental care, supporting operations of the Dental Prior Authorization Unit by assessing medical necessity of requests for prior authorization, pricing, correction, and review of dental claims, supporting Medicaid Client Services in assuring access to dental care, consulting with Conduent to assure continuity of services, and responding to provider calls regarding Medicaid's dental policies, practices, enrollment, and protocols.

The payment rate is \$115 per hour for these services for State Fiscal Year 2023 and 2024. Dr. Gruette will provide services 24 hours per week, 52 weeks each year for a yearly amount of \$143,520. The total agreement price is \$287,040. This rate is based on historical schedules pursuant to the Division of Personnel guidelines and is below prevailing rates for dentists in the marketplace. This rate is lower than rates of equivalent positions in the private sector, and does not exceed public sector salaries and fringe benefits. The \$115.00 per hour rate is less than the current rate for Medicaid consultants who provide a narrower scope of services than those required of the dental consultant.

The Department will monitor services by ensuring the Contractor:

- Maintains greater than ninety-five percent (95%) rate of support of consultant's determination of benefits at fair hearings;
- Completes reviews and corrections of eighty-five percent (85%) of claims within forty-five (45) days; and
- Completes eighty-five percent (85%) of prior authorization requests within forty-five (45) days.

The Department selected the Contractor through a competitive bid process using a Request for Applications (RFA) that was posted on the Department's website from December 3, 2021 through January 7, 2022. The Department received one (1) response that was reviewed and scored by a team of qualified individuals. The Scoring Sheet is attached.

As referenced in Exhibit A, of the attached agreement, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval.

Should the Governor and Council not authorize this request, the Department will be unable to provide uninterrupted dental access to children and adults enrolled in Medicaid or maintain the dental benefit functionality within the Medicaid Management Information System.

Area served: Statewide

If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and
