REQUESTED ACTION

Authorize the Department of Environmental Services (DES) to enter into an agreement with Setronics Corp. (VC #267232 B001), Billerica, Massachusetts in the amount of \$33,318.00 for fire alarm systems inspections and service, effective upon Governor and Council approval through June 30, 2019. 100% WRBP Funds.

Funding is available in the account as follows, with the authority to adjust encumbrances in each of the state fiscal years through the Budget Office if needed and justified. Funding for fiscal years 2018-2019 is contingent upon continuing appropriation and availability of funds.

Dept. of Environmental Services, Winnepesaukee River Basin, Contract Repairs			

EXPLANATION

Approval of this request will provide for annual inspections, maintenance and testing and unscheduled or emergency repair services of the fire alarm systems at fourteen Winnepesaukee River Basin Program (WRBP) facilities. The Department of Environmental Services (DES) under the Winnepesaukee River Basin Program (WRBP) owns and operates the regional wastewater collection and treatment system on behalf of the 10 Lakes Region communities that are served by the system.

The services provided under this contract include annual inspections, maintenance and testing of the fire alarm systems, and repair or replacement of any defective main control panel components installed at the WRBP Franklin Wastewater Treatment Plant, the maintenance shop in Laconia, and twelve Pump Stations located in Belmont, Franklin, Gilford, and Laconia in order to maintain the systems in proper operating condition. The less complex peripheral units and detection devices installed outside the main control panels will be inspected and tested under this agreement. Typically, WRBP staff electricians are able to repair or replace such peripheral equipment, as necessary. However, any repairs which the WRBP is unable to perform or that may be more cost-effective for the contractor to address while performing work under the contract are included in the contingency provisions for labor and material costs. The services are more fully described in Exhibit A.

A Request for Quotations (RFQ) was prepared and sent to five firms known to provide these types of services. The RFQ was also advertised on the NH Department of Administrative Services Purchase and Property website and in a local newspaper, The Concord Monitor. The results are as follows:

<u>Company</u>	<u>Response</u>
1) Setronics Corp., Billerica, MA	\$33,318.00
2) Tri-State Fire Protection, Nashua, NH	\$46,324.00
3) Active Fire Alarm, LLC., Brentwood, NH	No response
4) Capital Alarms, Penacook, NH	No response
5) Interstate Electrical Services, Bedford, NH	No response
6) Total Security, Laconia, NH	No response

The responses were reviewed and the low bidder selected based upon the menu of services delineated in Exhibit B including the annual fire alarm inspection, testing and maintenance, and the contingent amount each year for unscheduled or emergency services and repair or replacement of peripheral equipment. Based upon the results and due diligence inquiries, we wish to award the contract to the low, responsive bidder: Setronics Corp. Since the need for unscheduled or emergency repair services cannot be definitively forecast, the contract price limitation of \$33,318 is based upon the sum of the required annual inspections plus the calculated annual contingency amounts.

All of the WRBP's operating expenses are paid by the users of the wastewater treatment and collection system; there is no General Fund contribution to the system's operating budget.

The contract has been approved by the Department of Justice as to form, substance and execution.

We respectfully request your approval.

Thomas S. Burack, Commissioner

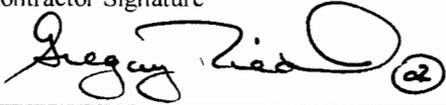

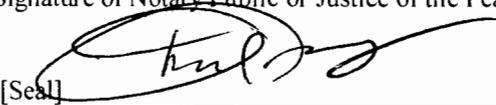

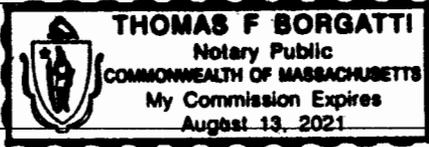

Notice: This agreement and all of its attachments shall become public upon submission to Governor and Executive Council for approval. Any information that is private, confidential or proprietary must be clearly identified to the agency and agreed to in writing prior to signing the contract.

The contract price limitation for each fiscal year may be used for any services or parts, as required. No additional charges or fees shall be paid except those specifically delineated in Exhibit B.

4. Contractor to be paid within thirty (30) days of submission of invoice and satisfactory completion of work. Approval of this contract does not authorize any expenditure over the price limitation.
