EXPLANATION

The purpose of this request is to continue operation of a transitional housing program for adults who have severe mental illness or severe and persistent mental illness; are eligible for community mental health services at a Community Mental Health Center, as defined in New Hampshire Administrative Rule He-M 401; and who no longer meet the level of care provided by New Hampshire Hospital or Designated Receiving Facilities. With successful transitions of these individuals to transitional housing, beds at New Hampshire Hospital and Designated Receiving Facilities continue to be available for individuals in need of and waiting for the level of care provided at those facilities. This request also includes the addition of dedicated housing specialists within the transitional housing program who will assist individuals ready to transition to independent living by creating plans and applying for permanent housing options.

Approximately 100 individuals will be served each State Fiscal Year.

Individuals, aged 18 years and older, who participate in the transitional housing program, will continue to receive the necessary services to support and promote rehabilitation that facilitates a transition to independent living in the community. Program services include psychiatric services, medication management, clinical services, medical service, targeted case management, specialized and co-occurring treatment services, vocational and day treatment services, and support for community connectedness and family involvement.

The Department will continue to monitor contracted services using the following performance measures:

- Quarterly meetings to review submitted reports that outline the number of beds occupied programmatic services provided to each individual, each individual's progress towards independent living, length of stay for each individual served, and incoming cases.
- Annual review of the effectiveness of services measured using the Adult Needs and Strengths Assessment, or other approved evidence-based assessment.
- Evaluation of individual service encounter data submitted through the Department's Phoenix reporting system.
- Review of monthly Balance Sheet and Profit and Loss statements for ongoing evaluation of fiscal integrity.
- Engagement in financial and programmatic audits to ensure fiscal integrity is maintained and programming is meeting the needs of the individuals served.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, of the original agreement, the parties have the option to extend the agreement for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) of the four (4) years available.

Should the Governor and Council not authorize this request 76 Transitional Housing Program beds will no longer be available to individuals in need of transitional residential treatment services who are transitioning from New Hampshire Hospital or a designated receiving facility to the community which, in turn, limits the availability of beds for individuals awaiting inpatient hospital services across the State.

Independent Auditors' Report

The Board of Directors
NFI North, Inc.:

Report on the Financial Statements

We have audited the accompanying financial statements of NFI North, Inc. (NFIN), which comprise the statement of financial position as of June 30, 2021, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of NFIN as of June 30, 2021, and the changes in its net assets and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of Matter

As discussed in note 1 to the financial statements, in 2021, NFIN adopted Accounting Standards Update No. 2016-02, *Leases (Topic 842)*, as amended. Our opinion is not modified with respect to this matter.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 13, 2021 on our consideration of NFIN's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of NFIN's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering NFIN's internal control over financial reporting and compliance.

Notes to Financial Statements

June 30, 2021

(1) Summary of Significant Accounting Policies

NFI North, Inc. (NFIN) is a not-for-profit organization whose purpose is to provide community-based social services to individuals and their families. NFIN is a subsidiary of North American Family Institute, Inc. (NAFI), which is the sole member of NFIN's board of directors. Substantially all of NFIN's revenues are derived from services contracted with the States of Maine and New Hampshire Departments of Human Services, Children, Youth and Families, Medicaid, private insurers, and local public school districts.

(a) Basis of Presentation

The accompanying financial statements, which are presented on the accrual basis of accounting, have been prepared to focus on NFIN as a whole and to present balances and transactions according to the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified as follows:

With donor restrictions – Net assets subject to donor-imposed stipulations that may or will be met by actions of NFIN and/or the passage of time.

Without donor restrictions – Net assets not subject to donor-imposed stipulations.

Revenues are reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions and/or time restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulations or law. Expirations of restrictions on net assets with donor restrictions are reported as reclassifications between the applicable classes of net assets. Expirations of restrictions with donor restrictions occur when donor-imposed stipulated purposes have been accomplished and/or the stipulated time period has elapsed. If an expense is incurred for a purpose for which both net assets with and without donor restrictions are available, a donor-imposed restriction is fulfilled to the extent of the expense incurred unless the expense is for a purpose that is directly attributable to another specified external source of revenue.

(b) Revenue from Contracts with Customers

Under Accounting Standards Codification Topic 606, *Revenue from Contracts with Customers*, (ASC Topic 606), revenue from contracts with customers is recognized when control of the promised goods or services is transferred in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services (i.e., the transaction price).

Revenues from contracts are primarily derived from cost reimbursement, per diem and fee-for service contracts. Cost reimbursement contracts are recognized with expenses being reimbursed for services delivered over the course of client enrollment period which is generally as expenses are incurred. Rate based contracts are recognized with expenses being reimbursed for services delivered over the course of client stay based on an established rate with the related funding source which is generally when services are provided. Revenues from contracts consisted of 16% for cost reimbursement contracts and 84% for rate-based contracts for the year ended June 30, 2021.

NFI NORTH, INC.

Notes to Financial Statements

June 30, 2021

(c) Income Taxes

NFIN is an organization described under Section 501(c)(3) of the Internal Revenue Code (IRC) and is generally exempt from income taxes under IRC Section 501(a). NFIN has taken no significant uncertain tax positions.

(d) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(e) Concentration of Risk

NFIN receives the majority of its funding from state contracts that are renewable annually. Legislative budgets could significantly impact NFIN's ability to start new programs and to continue existing programs.

(f) Cash and Equivalents

All short-term investments with an original maturity at purchase of three months or less are considered cash equivalents for purposes of the statement of cash flows. Cash and equivalents within investment accounts are considered to be investments for purposes of the statement of cash flows.

(g) Property and Equipment

Property and equipment are recorded at cost or, in the case of donated property, at fair value at the date of gift. Depreciation is provided using the straight-line method over the following estimated useful lives:

Buildings and improvements	15–33.3 years
Equipment and furnishings	2–10 years
Motor vehicles	3–5 years

Leasehold improvements are depreciated or amortized according to the organization's normal depreciation policy except that the time period shall be the shorter of: 1) the useful life of the leasehold improvements, or 2) the remaining years of the lease. The remaining years of the lease include the years in the lease renewals that are reasonably assured.

(h) Self-Insurance

NFIN is self-insured for employee medical healthcare costs. As of June 30, 2021, the estimated liability for healthcare claims incurred but not yet reported or paid was \$128,172 and is included in accrued payroll and related liabilities in the accompanying statement of financial position.

NFI NORTH, INC.

Notes to Financial Statements

June 30, 2021

(i) In-Kind Contributions

In-kind contributions are generally recognized at fair value on the date received. During fiscal 2021, NFIN received in-kind contributions of rent, equipment and furnishings, and consumables amounting to \$949,252.

(j) Fair Value of Financial Instruments

Fair value represents the price that NFIN would receive upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants as of the measurement date. NAFI uses a three-tier hierarchy to categorize those assets and liabilities based on those valuation methodologies employed. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

- Level 1 – quoted prices in active markets for identical financial instruments.
- Level 2 – other significant observable inputs (including quoted prices for similar financial instruments, interest rates, credit risk, etc.).
- Level 3 – significant unobservable inputs (including NFIN's own assumptions in determining the fair value of financial instruments).

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. NFIN utilizes valuation techniques that maximize the use of observable inputs and minimizes the use of unobservable inputs to the extent possible.

(k) Leasing

NFIN determines if an arrangement is a lease at inception. NFIN has leases under which it is obligated as a lessee. Operating leases as a lessee are included in right-of-use assets and lease liabilities in the statement of financial position.

Right-of-use assets represent NFIN's right to use an underlying asset for the lease term. Lease liabilities represent NFIN's liability to make lease payments arising from the lease. Operating right-of-use assets and related obligations are recognized at commencement date based on the present value of lease payments over the lease term discounted using an appropriate incremental borrowing rate. The incremental borrowing rate is based on the information available at commencement date in determining the present value of lease payments. The value of an option to extend or terminate a lease is reflected to the extent it is reasonably certain management will exercise that option.

(l) Recently Issued Accounting Standards

In February 2016, the FASB issued ASU 2016-02, *Leases* (Topic 842), as amended, that requires, among other things, a lessee to recognize a right-of-use asset representing an entity's right to use the underlying asset for the lease term and a liability for lease payments on the balance sheet, regardless of classification of a lease as an operating or finance lease.

Notes to Financial Statements
June 30, 2021

NAFI adopted the following practical expedients and elected the following accounting policies related to this standard:

- Elected not to reassess prior conclusions related to the identification, classification, and accounting for indirect costs for leases that commenced prior to July 1, 2020;
- Elected to utilize a risk-free rate (e.g. U.S. Treasury bill rate) to discount the lease payments;
- Elected the short-term lease accounting policy allowing lessees not to recognize right-of-use assets and lease liabilities with a term of twelve months or less; and
- Elected not to separate lease and non-lease components for certain equipment lease asset categories.

NFIN adopted ASU 2016-02 in fiscal year 2021 using the modified retrospective approach. Right-of-use assets and related lease obligations of \$93,228 and \$93,228 were recognized as of July 1, 2020 and are included in the statement of financial position. The guidance did not materially impact NFIN's results of operations.

(m) COVID-19 Pandemic

In March 2020, the World Health Organization declared the novel coronavirus (COVID-19) a pandemic. NFIN continues to receive funding from state and federal contracts, and is able to continue its operations in providing community-based social services to individuals and their families. NFIN received emergency funding from the States of Maine and New Hampshire, to assist potential additional costs associated with the COVID-19 pandemic.

(n) Subsequent Events

NFIN has evaluated events subsequent to June 30, 2021 and through October 13, 2021, which is the date that the financial statements were available to be issued. NFIN has determined there are no material events that would require recognition or disclosure in this report through this date.

In addition, for the year ended June 30, 2021, NAFI has entered into Letter of Credit agreements with TD Bank for the year ended June 30, 2021 for a total of \$1,045,893. **Independent Auditors' Report on Internal Control Over Financial Reporting and
on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance With *Government Auditing Standards***

The Board of Directors
NFI North, Inc.:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of NFI North, Inc. (NFIN), which comprise the statement of financial position as of June 30, 2021, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated October 13, 2021. This report included an emphasis of matter paragraph referring to NFIN's adoption of Accounting Standards Update No. 2016-02, *Leases* (Topic 842), as amended, in 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered NFIN's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of NFIN's internal control. Accordingly, we do not express an opinion on the effectiveness of NFIN's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether NFIN's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the NFIN's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the NFIN's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

EXPLANATION

This request is **Sole Source** because the Department did not receive any responses to the Request for Application, posted April 24, 2020 and closed May 15, 2020, to operate these sixteen (16) transitional housing program beds. In the interest of maintaining Transitional Housing capacity statewide, and the public's health and safety, the Department has identified this vendor as having the capacity and expertise to quickly respond to the Transitional Housing Program needs for these sixteen (16) beds.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 3

The purpose of this request is expand the existing contract to include eight (8) additional transitional housing program beds in the Greater Manchester Region and eight (8) additional beds in another area in the state, as approved by the Department, for adults who have severe mental illness or severe and persistent mental illness and are eligible for community mental health services, and no longer meet the level of care provided by New Hampshire Hospital or designated receiving facilities. With successful transitions for these patients, it is anticipated that this will enable beds to open at New Hampshire Hospital and the designated receiving facilities thus having a positive impact on individuals waiting in emergency departments for a bed. Individuals participating in the transitional housing program will receive the necessary services to support and promote rehabilitation that will facilitate a transition to independent living in the community.

The population served are individuals who are at least eighteen (18) years of age and older, have been diagnosed with a severe mental illness or severe and persistent mental illness, and meet eligibility criteria for community mental health services at a community mental health center as defined in New Hampshire Administrative Rule He-M 401. Approximately sixteen (16) individuals will be served from October 1, 2020 to June 30, 2022.

The program serves the clinical, medical, vocational, and residential needs of adult men and women with mental illness. The program services include: psychiatric services, medication management, clinical services, medical services, targeted case management, specialized and co-occurring treatment services, vocational and day treatment services, and support for community connectedness and family involvement.

The Department will monitor contracted services using the following performance measures:

- Quarterly meetings to review submitted quarterly reports that outline the number of beds occupied, programmatic services provided to each individual, each individual's progress towards independent living, and incoming cases.
- Annual review of the effectiveness of services will be measured using the Adult Needs and Strengths Assessment, or other approved evidence based assessment.
- Evaluation of individual service encounter data that is submitted through the Department's Phoenix reporting system will inform care monitoring and ongoing agency wide quality service monitoring.
- Submission of monthly Balance Sheet and Profit and Loss Statements to the Department for ongoing evaluation of the programs fiscal integrity.
- Engagement in financial and programmatic audits to ensure fiscal integrity is maintained and programming is meeting the needs of individuals served.

As referenced in Exhibit A, Revisions to Standard Contract Language, Paragraph 1.2 of the original contract, the parties have the option to extend the agreement for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is not exercising its option to renew at this time.

Should the Governor and Council not authorize this request sixteen (16) Transitional Housing Program beds will no longer be available to individuals in need of transitional residential treatment services who are transitioning from New Hampshire Hospital or a designated receiving facility to the community which, in turn, limits the availability of beds for individuals awaiting inpatient hospital services across the State.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

EXPLANATION

This request is **Sole Source** because in the interest of the public's health and safety, the Department has identified this vendor as having the capacity to quickly respond to the Transitional Housing Program needs for sixty (60) beds. This request is **Retroactive** because this abrupt change in the Department's strategic approach led to additional negotiations, which delayed the execution of the contract.

The purpose of this request is to operate transitional housing program(s) for adults who have severe mental illness (SMI) or severe and persistent mental illness (SMPI) and are eligible for community mental health services and no longer meet the level of care provided by New Hampshire Hospital (NHH) or Designated Receiving Facilities (DRF). With successful transitions of these difficult to place patients, it is anticipated that beds will open at NHH and the DRF(s)), thus having a positive

and the Honorable Council

Impact on individuals waiting in emergency departments for a bed. Patients participating in the transitional housing program will receive the necessary services to support and promote rehabilitation that will facilitate a transition to independent living in the community.

The population served are individuals who are at least eighteen (18) years of age and older and have been diagnosed with a SMI or SPMI and meet eligibility criteria for community mental health services at a community mental health center (CMHC) as defined in He-M 401. Approximately 60 individuals will be served from July 1, 2020 to June 30, 2022.

The program serves the clinical, medical, vocational, and residential needs of adult men and women with mental illness. The program services include: psychiatric services, medication management, clinical services, medical services, targeted case management, specialized and co-occurring treatment services, vocational and day treatment services, and support for community connectedness and family involvement.

The Department will monitor contracted services using the following performance measures:

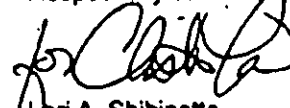

- Quarterly meetings to review submitted quarterly reports that outline the number of beds occupied, programmatic services provided to each individual, each individual's progress towards independent living, and incoming cases.
- Annual review of the effectiveness of services will be measured using the Adult Needs and Strengths Assessment, or other approved Evidence Based assessment.
- Evaluation of individual service encounter data that is submitted through the Department's Phoenix reporting system will inform care monitoring and ongoing agency wide quality service monitoring.
- Submission of monthly Balance Sheet and Profit and Loss Statements to the Department for ongoing evaluation of the programs fiscal integrity.
- Engagement in financial and programmatic audits to ensure fiscal integrity is maintained and programming is meeting the needs of individuals served.

As referenced in Exhibit C-1, Revisions to Standard Contract Language, Paragraph 2 of the attached contract, the parties have the option to extend the agreement for up four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval.

Should the Governor and Council not authorize this request the sixty (60) bed Transitional Housing Programs may not be available to individuals in need of transitional residential treatment services who are transitioning from NHH or a DRF to the community which, in turn, limits the availability of beds for individuals awaiting inpatient hospital services across the State.

Area served: Statewide

Respectfully submitted,

Lori A. Shabinette
