### Tuesday, Dec. 3

- 1 – 6 p.m. **CSG Registration & Information Desk Open**  
Prefunction Area – Level 2
  
- 2 – 4 p.m. **CSG 21st Century Foundation**  
*(invitation only)*  
201 – Level 2

### Wednesday, Dec. 4

- 7 a.m. – 5 p.m. **CSG Registration/Information Desk Open**  
Prefunction Area – Level 2
  
- 7 – 8 a.m. **Buffet Breakfast**  
102 – Level 1
  
- 8 a.m. – 12 p.m. **Work Matters: A Disability Employment Policy Primer**  
*(open to all registered conference attendees)*  
Disability Employment Policy 101 will provide a disability employment primer including disability etiquette training, information on how states can act as model employers and successful state policies and programs.
  
- 8 a.m. – 5 p.m. **CSG Policy Academy: The Energy Landscape**  
*(open to all registered conference attendees)*  
In partnership with the National Association of Regulatory Utility Commissioners (NARUC), this policy academy will explore the myriad of public policy energy challenges and opportunities facing the states. This policy academy will provide legislators and commissioners a better understanding of their respective roles and how their decisions and

rules impact the other as they seek to best serve in their capacities.

8 a.m. – 5 p.m.

### **CSG Policy Academy: Privacy and Cybersecurity**

*(open to all registered conference attendees)*

202 A/B – Level 2

State governments handle billions of pieces of personal data every day; securing that information is both increasingly important and difficult. Security breaches can result from something as simple as a lost laptop or as complex as a sophisticated, intentional attack from cybercriminals. Cyberattacks can lead to personal identity theft and create major disruptions in the ability of states to deliver crucial services to residents. While cybersecurity is an issue of increasing importance, states are often unprepared. This policy academy will explore state solutions to cybersecurity and privacy concerns.

8 a.m. – 5 p.m.

### **CSG Policy Academy: Growing Green – Marijuana Policy in the States**

*(open to all registered conference attendees)*

201 – Level 2

More than half of the states have legalized marijuana for recreational or medicinal use. That's a massive shift in public policy from just a decade ago. With this shift comes a slew of legislative, regulatory and fiscal questions for state policymakers to tackle. This policy academy will provide an overview of the landscape for state regulations, economic development and job creation, and increased tax revenues as well as the impacts on state budgets.

9:30 – 10 a.m.

### **Coffee Service**

Prefunction Areas – Levels 1 & 2

Complimentary coffee will be available.

Noon – 1 p.m.

### **Buffet Lunch**

102 – Level 1

CSG Policy Academy attendees will pick up lunch and take it to their session rooms.

1 – 5 p.m.

### **CSG Shared State Legislation: Part 1**

209 – Level 2

1 – 5 p.m.

### **The Future of the Workforce: Innovations in Employment and Disability**

204 – Level 2

This session, based on the work of the State Exchange on Employment and Disability (SEED) and a partnership between CSG and the National Conference of State Legislatures (NCSL), will cover a variety of topics including how policy makers can create policies with Universal Design principles, the effects of autonomous vehicles on employment for people with disabilities, how the gig economy effects employment and how states can engage in better workforce training.

2 – 2:30 p.m.

### **Coffee & Soda Service**

Prefunction Areas – Levels 1 & 2

Complimentary coffee and soda will be available.

5 – 6 p.m.

**CSG Registration/Information Desk Open**

Prefunction Area – Level 2

7 – 8 a.m.

**Buffet Breakfast**

Ballroom A – Level 3

**Healthy States: Step 1 – Bringing Data into the Conversation**

CSG Innovation Classroom presented by Esri

207 – Level 2

It goes without saying, the aspirations to build a healthy state are complex and must assimilate a confounding level of details. Any meaningful policy discussion that tries to address these details, to push the measures in the right direction, must start with actionable data and information. Much of the time, these details and the effort needed to gather and consider the information to support policy action are often out of the reach of most legislatures.

8 – 9 a.m.

This Innovation Classroom will discuss how Geographic Information Systems (GIS) technology is used to help gather, analyze and present the needed data and information to move policy thinking forward with the help of location analysis.

This classroom focuses on the determinants of health and will cover:

- » Ideas and the role of location in helping us understand.
- » What makes a map a Policy Map?
- » Resources, tools and data that are already available to legislatures to communicate meaningful policy aspirations.

8 a.m. – Noon

**CSG Leadership Council**

*(invitation only)*

204 – Level 2

**CSG Future of Work Task Force**

*(open to all registered conference attendees)*

8 a.m. – Noon

The CSG Future of Work National Task Force brings together a diverse cross section of state officials to explore how states can best navigate the challenges and opportunities of the new economy. The work of the task force will take place across a two-year timeline with key findings and recommendations shared during task force meetings.

9 – 10 a.m.

**Ending the HIV epidemic in the U.S.: Building on 30 Years of Innovation in HIV**

CSG Innovation Classroom presented by Gilead Sciences, Inc.

207 – Level 2

One of the largest research efforts in history has transformed HIV/AIDS from a death sentence to a manageable chronic condition. Jurisdictions are developing plans to end their

HIV epidemics, and President Trump recently announced a 10-year initiative to end HIV in America by 2030. During this session, Dr. Trevor Hawkins will discuss Gilead's 30-year commitment to advancing innovation in HIV treatment and prevention and how state officials can support efforts to end the HIV epidemic.

### **Coffee Service**

9:30 – 10:00 a.m.

Prefunction Area – Levels 1 & 2  
Complimentary coffee will be available.

### **Risk and Decisions: A Simulation of the R&D Investment Process**

CSG Innovation Classroom presented by Celgene  
207 – Level 2

10 – 11:30 a.m.

The clinical development process, R&D investment, and pricing are fundamental elements of the biopharmaceutical business model, but also incredibly complex and frequently misunderstood. To demystify these topics, this session uses a web-based simulation that allows participants to sit behind the desk of a CEO as they make important decisions for a fictitious biopharmaceutical company. These decisions include assessing the disease burden, the clinical and potential economic benefit of fictitious drug products, setting prices for the products and making go/no-go decisions based on the outcomes of clinical studies and policy developments. As participants follow their investments along the lengthy and inherently risky road to commercial success, they will encounter many of the hot-button issues that characterize today's biopharma landscape.

### **Opening Session and Luncheon Keynote – Politics and Policy: How Will History Judge Today's Headlines? Mark Shields, political analyst, PBS NewsHour and syndicated columnist**

Ballroom A – Level 3

Noon – 2 p.m.

After years of managing campaigns from the courthouse to the White House, Mark Shields is one of the most widely recognized commentators in the U.S. Syndicated columnist and lifelong journalist—considered by many to be the gold standard—Shields shares firsthand accounts and impressions of the current state of Washington politics and presents them against the backdrop of American history. With special emphasis on the Trump Administration and Congress, his insightful, perceptive and often humorous analysis of today's political headlines—and the impact they will have on Americans in the years to come—will entertain and inform audiences.

### **Coffee & Soda Service**

2 – 2:30 p.m.

Prefunction Area — Levels 1 & 2  
Complimentary coffee and soda will be available.

### **Closing the Loop: Emerging Recycling Technologies**

Innovation Classroom presented by the American Chemistry Council  
207 – Level 2

2 – 3 p.m.

America's Plastic Makers® are committed to helping end plastic waste in the environment. Learn more about how we are working and partnering with scientists, conservation groups and policy makers to advance recycling and recovery solutions across the U.S. Plastic makers envision a future in which all plastics are recovered and repurposed to benefit people and our planet. Investments in emerging technologies will help divert additional materials from landfills and create new feedstocks for domestic manufacturing. Increasing recycling is fundamental for circularity and could add 38,500 jobs, according to a recent report from the

## **International Uncertainty: Tools and Resources for States to Grow Their Economy Through Trade and Investment**

Presented by the CSG International Committee

2 – 4 p.m.

204 – Level 2

The ongoing international trade war continues to dominate the news and markets. Businesses are closely watching the Trump Administration's actions and are preparing their business models to navigate any changes. This session will look at the current state of international affairs and explain how states can be prepared to grow their economies through trade and investment.

## **What's in a Pill? See How They are Made**

*(Advanced registration required, and space is limited; Please sign-up at the CSG Registration & Information Desk by 5 p.m. on Wednesday, Dec. 4)*

Bus will depart at 2 p.m. from the Convention Center.

2 – 4 p.m.

Pfizer's Vega Baja Site is a solid dose manufacturing facility employing more than 800 people to supply some of the company's iconic brands. The facility produces close to 7.3 billion single dose units and stands in a 99-acre property that houses services, utilities and manufacturing operations. Upon arrival, visitors will receive a brief orientation that includes a site overview and quality and safety precautions. After gowning, visitors are led through the manufacturing area to view the process of mixing ingredients in the production of tablets and capsules. This is followed by a visit where the medicines are packaged in bottles or blisters and final packaging for shipment to the U.S. and more than 130 global markets.

## **CSG Future of Work Task Force**

*(open to all registered conference attendees)*

2 – 5 p.m.

The CSG Future of Work National Task Force brings together a diverse cross section of state officials to explore how states can best navigate the challenges and opportunities of the new economy. The work of the task force will take place across a two-year timeline with key findings and recommendations shared during task force meetings.

## **5G: The Future is Now**

CSG Innovation Classroom presented by AT&T

207 – Level 2

3 – 4 p.m.

5G is the next generation of wireless technology enabling the industries of the future, from smart cities to the Internet of Things, transforming the way we live, work and play. From new smartphone applications to driverless cars, remote healthcare, connected education and more, the future is being built on 5G. 5G has already started rolling out in communities across the country. Come hear an overview and what is needed to realize all that 5G offers.

### **CSG National Center for Interstate Compacts 2019 Summit of the States**

*(open to all registered conference attendees)*

204 – Level 2

Hosted by the National Center for Interstate Compacts (NCIC), this year's Summit of the States will focus on occupational licensure and ways to enhance licensure mobility. NCIC is a policy program developed by CSG to assist states in developing interstate compacts. It serves as an information clearinghouse, a provider of training and technical assistance, and a primary facilitator in assisting states in the review, revision and creation of new interstate compacts to solve multistate problems. Panels for this session will include Compacts 101, Stages of Compact Development, The State Board Perspective and a Compact Legal Update. The 2019 Summit of the States will offer a unique opportunity for attendees to network with other state policymakers who are working to enhance occupational licensure mobility.

### **The Future of Work: Step 1 – Bringing Data into the Conversation**

CSG Innovation Classroom presented by Esri

207 – Level 2

State and local economies and the mental health of their citizens is dependent on the country's ability to move citizens towards this next phase of workforce innovation while maintaining meaningful life opportunities. Any significant policy discussion that tries to address these details in order to push these measures in the right direction, must start with actionable data and information. Much of the time, these details and any effort needed to gather and consider the information to support policy action are often out of the reach of most legislatures.
