EXPLANATION

The New Hampshire Coastal Program (NHCP) issued a Request for Proposals (RFP) on May 9, 2019 for municipal projects that plan for resilience to coastal hazards and build sustained capacity to implement resilience plans. The projects that were eligible to receive funding from NHCP's competitive Coastal Resilience Municipal Grant funding opportunity included either the development of a municipal master plan chapter which was focused on coastal hazards and adaptation, or they included the creation of a sustained municipal initiative to implement an existing coastal hazards and adaptation master plan chapter. Five eligible proposals were received and ranked according to selection criteria and selection committee discussion. All five proposals were selected to receive funding, including the proposal submitted by SRPC to develop a coastal hazards and master plan chapter for the Town of Durham. Attachment B includes the scoring matrix and a list of the staff who participated in proposal review, along with their titles and levels of experience.

The goal of this project is to strengthen Durham's resilience to climate change by developing a master plan chapter that offers innovative solutions and implementable actions to inform future land use decisions in order to reduce public and private risk and vulnerability.

Total project costs are budgeted at \$26,310. NHDES will provide \$17,540 of the project costs through this federal grant. SRPC will provide \$8,770 in matching funds. A budget breakdown is provided in Attachment A. In the event that Federal funds become no longer available, General funds will not be requested to support the project.

The agreement has been approved by the Office of the Attorney General as to form, execution, and content.

We respectfully request your approval of this item.

Scope of Services

Project title: Coastal Resilience: Durham Coastal Hazards and Adaptation Master Plan Chapter

Project goal: The project goal is to strengthen Durham's resilience to climate change by developing a master plan chapter that offers innovative solutions and implementable actions to inform future land use decisions in order to reduce public and private risk and vulnerability.

Project work: The Strafford Regional Planning Commission in partnership with the Town of Durham will complete the following tasks as outlined in their Coastal Resilience proposal, entitled "Durham_Revised_Proposal_082119," which is incorporated herein by reference:

Task 1: Review Existing Data, Resources, and Plans (January – April 2020) SRPC, with assistance from Town staff, will prepare a summary of existing climate science data, adaptation guidance and resources, and local planning reports and vulnerability studies. This will also include any other relevant local or regional research and case studies to ensure project team members have a shared understanding of current climate science and prior local efforts. This exercise will also identify information gaps that need to be addressed through community outreach or future research.

Task 2: Determine Climate Topics and Chapter Framework (March – May 2020) Upon completion of Task 1A, SRPC, with Town staff, UNH Extension, and NH Sea Grant, will host at least two stakeholder input sessions to brainstorm a range of climate-related impacts and coastal hazards that should be included and addressed in the chapter. Input session results will create the chapter framework and determine any additional research or data collection needs.

Task 3: Draft Master Plan Chapter (May – October 2020) SRPC and Town staff, will draft the master plan chapter. During this process, project staff will meet with the Durham Leadership Team to provide progress reports and solicit feedback and general guidance for the chapter. The Town Planner will provide regular progress reports to the Planning Board and communicate their input to SRPC. Members of the Agriculture Commission, Conservation Commission, and Energy Committee will also be invited to provide comments and input during the process.

Task 4: Public Input Sessions (September – December 2020) Once there is a working draft of the chapter, SRPC, Town staff, UNH Extension, and NH Sea Grant will host up to two public input sessions designed to seek input from community members using an engaged and focused approach. This will also include development and implementation of a survey, released after the public input sessions, to include feedback from Durham residents who could not attend the input sessions (as well as any additional feedback attendees want to provide). The project team will develop participant materials, and will organize, promote, and facilitate the sessions, with input from Town staff. The team will also compile all the public feedback into a summary to inform the final chapter recommendations and implementation plan.

Task 5: Final Master Plan Chapter Revisions and Preparation for Adoption (January – May 2021) Based on the public input results, SRPC and Town staff will incorporate appropriate revisions and develop the final recommendations and implementation plan. Meetings with the

Planning Board will be scheduled as needed to solicit comments and schedule a public hearing for potential adoption. When adopted, SRPC will work with the Town to publicize this through multiple channels (Durham Friday Updates, Facebook, Twitter, etc.) and ensure the chapter is posted to the Town's website in a timely manner.

Task 4. Project Semi-Annual Progress Reports and Final Report

The project team will submit semi-annual progress reports on June 30, 2020 and December 31, 2020. The final report deliverable will detail the methodology used to complete the previous Tasks and will be a compilation of the previous Tasks' deliverables and all associated information developed as part of the project. The final report will address comments from the town, NHDES, and other stakeholders.

Project deliverables and expected completion dates include:

- Summary document of climate science data, resources, and local plans (March 2020)
- Chapter framework (May 2020)
- Outreach and engagement packet and other materials for public input sessions (September 2020)
- Public input summary (December 2020)
- Master Plan Chapter (June 2021)
- 2 Semi-annual reports (June 30, 2020; December 31, 2020)

CERTIFICATE OF COVERAGE

The New Hampshire Public Risk Management Exchange (Primex³) is organized under the New Hampshire Revised Statutes Annotated, Chapter 5-B, Pooled Risk Management Programs. In accordance with those statutes, its Trust Agreement and bylaws, Primex³ is authorized to provide pooled risk management programs established for the benefit of political subdivisions in the State of New Hampshire.

Each member of Primex³ is entitled to the categories of coverage set forth below. In addition, Primex³ may extend the same coverage to non-members. However, any coverage extended to a non-member is subject to all of the terms, conditions, exclusions, amendments, rules, policies and procedures that are applicable to the members of Primex³, including but not limited to the final and binding resolution of all claims and coverage disputes before the Primex³ Board of Trustees. The Additional Covered Party's per occurrence limit shall be deemed included in the Member's per occurrence limit, and therefore reduce the Member's limit of liability as set forth by the Coverage Documents and Declarations. The limit shown may have been reduced by claims paid on behalf of the member. General Liability coverage is limited to Coverage A (Personal Injury Liability) and Coverage B (Property Damage Liability) only, Coverage's C (Public Officials Errors and Omissions), D (Unfair Employment Practices), E (Employee Benefit Liability) and F (Educator's Legal Liability Claims-Made Coverage) are excluded from this provision of coverage.

The below named entity is a member in good standing of the New Hampshire Public Risk Management Exchange. The coverage provided may, however, be revised at any time by the actions of Primex³. As of the date this certificate is issued, the information set out below accurately reflects the categories of coverage established for the current coverage year.

This Certificate is issued as a matter of information only and confers no rights upon the certificate holder. This certificate does not amend, extend, or alter the coverage afforded by the coverage categories listed below.
