400-500870 Highway Contract Payments	\$1,913,922.50

2. Further authorize that a contingency in the amount of \$95,696.13 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows:	<u>FY 2015</u>
04-96-96-963015-8910	
SB 367 Capital Investment	
400-500870 Highway Contract Payments	\$95,696.13

**EXPLANATION**

This project is part of the additional funding through SB 367, Proposed Road Toll Increase. This project involves pavement rehabilitation of approximately 4.7 miles along 3 roadway sections in Maintenance District III. The work will involve sandwich and reclaimed pavement treatments along sections of NH 25 in Center Harbor, Cushing Corner road in Freedom, and Clark Road/Colby Street in Tilton. These sections are in fair to poor conditions. The rehabilitation will extend the life of the highway riding surface and protect the subsurface base course materials. All of the proposed work will remain within the right-of-way.

The contingency amount is proposed to be 5% of the contract amount for: a large quantity of paving to be performed during a time of unpredictable fuel and asphalt prices, and the fact that the project may extend over two construction seasons.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Handwritten signature of Christopher D. Clement, Sr. in black ink.

**SUPPLEMENTAL PROJECT INFORMATION SHEET**

**DESCRIPTION:** This project includes construction in three locations within District 3:

- 
- **Center Harbor:** Two segments will be addressed along NH 25B, totaling approximately 1.1 miles in length.
    1. Starting at the intersection of US 3 and NH 25 continuing east approximately 4225 feet (12" Sandwich – 12" Reclaim Section), and,
    2. Starting 650 feet west of the intersection of Center Harbor Neck Road continuing approximately 1700 feet east to an overhead transmission line crossing (12" Sandwich Section).
  
  - **Freedom:** Cushing Corner Road. This roadway segment is 2.1 miles in length, beginning at the intersection of NH 153 and continuing east to the intersection of Moulton Road/Elm Street (12" Sandwich Section w/minor drainage work).
  
  - **Tilton:** Clark Road/Colby Street - This roadway segment is 1.5 miles in length beginning at the pavement joint 650 feet east of intersection of US 3 & NH 11 continuing east to the intersection of School Street (12" Reclaim Section w/ minor guardrail work).

**FEDERAL FUNDING:** Construction funding for all three locations are 100% funded through the SB367-4-CENT funding source.

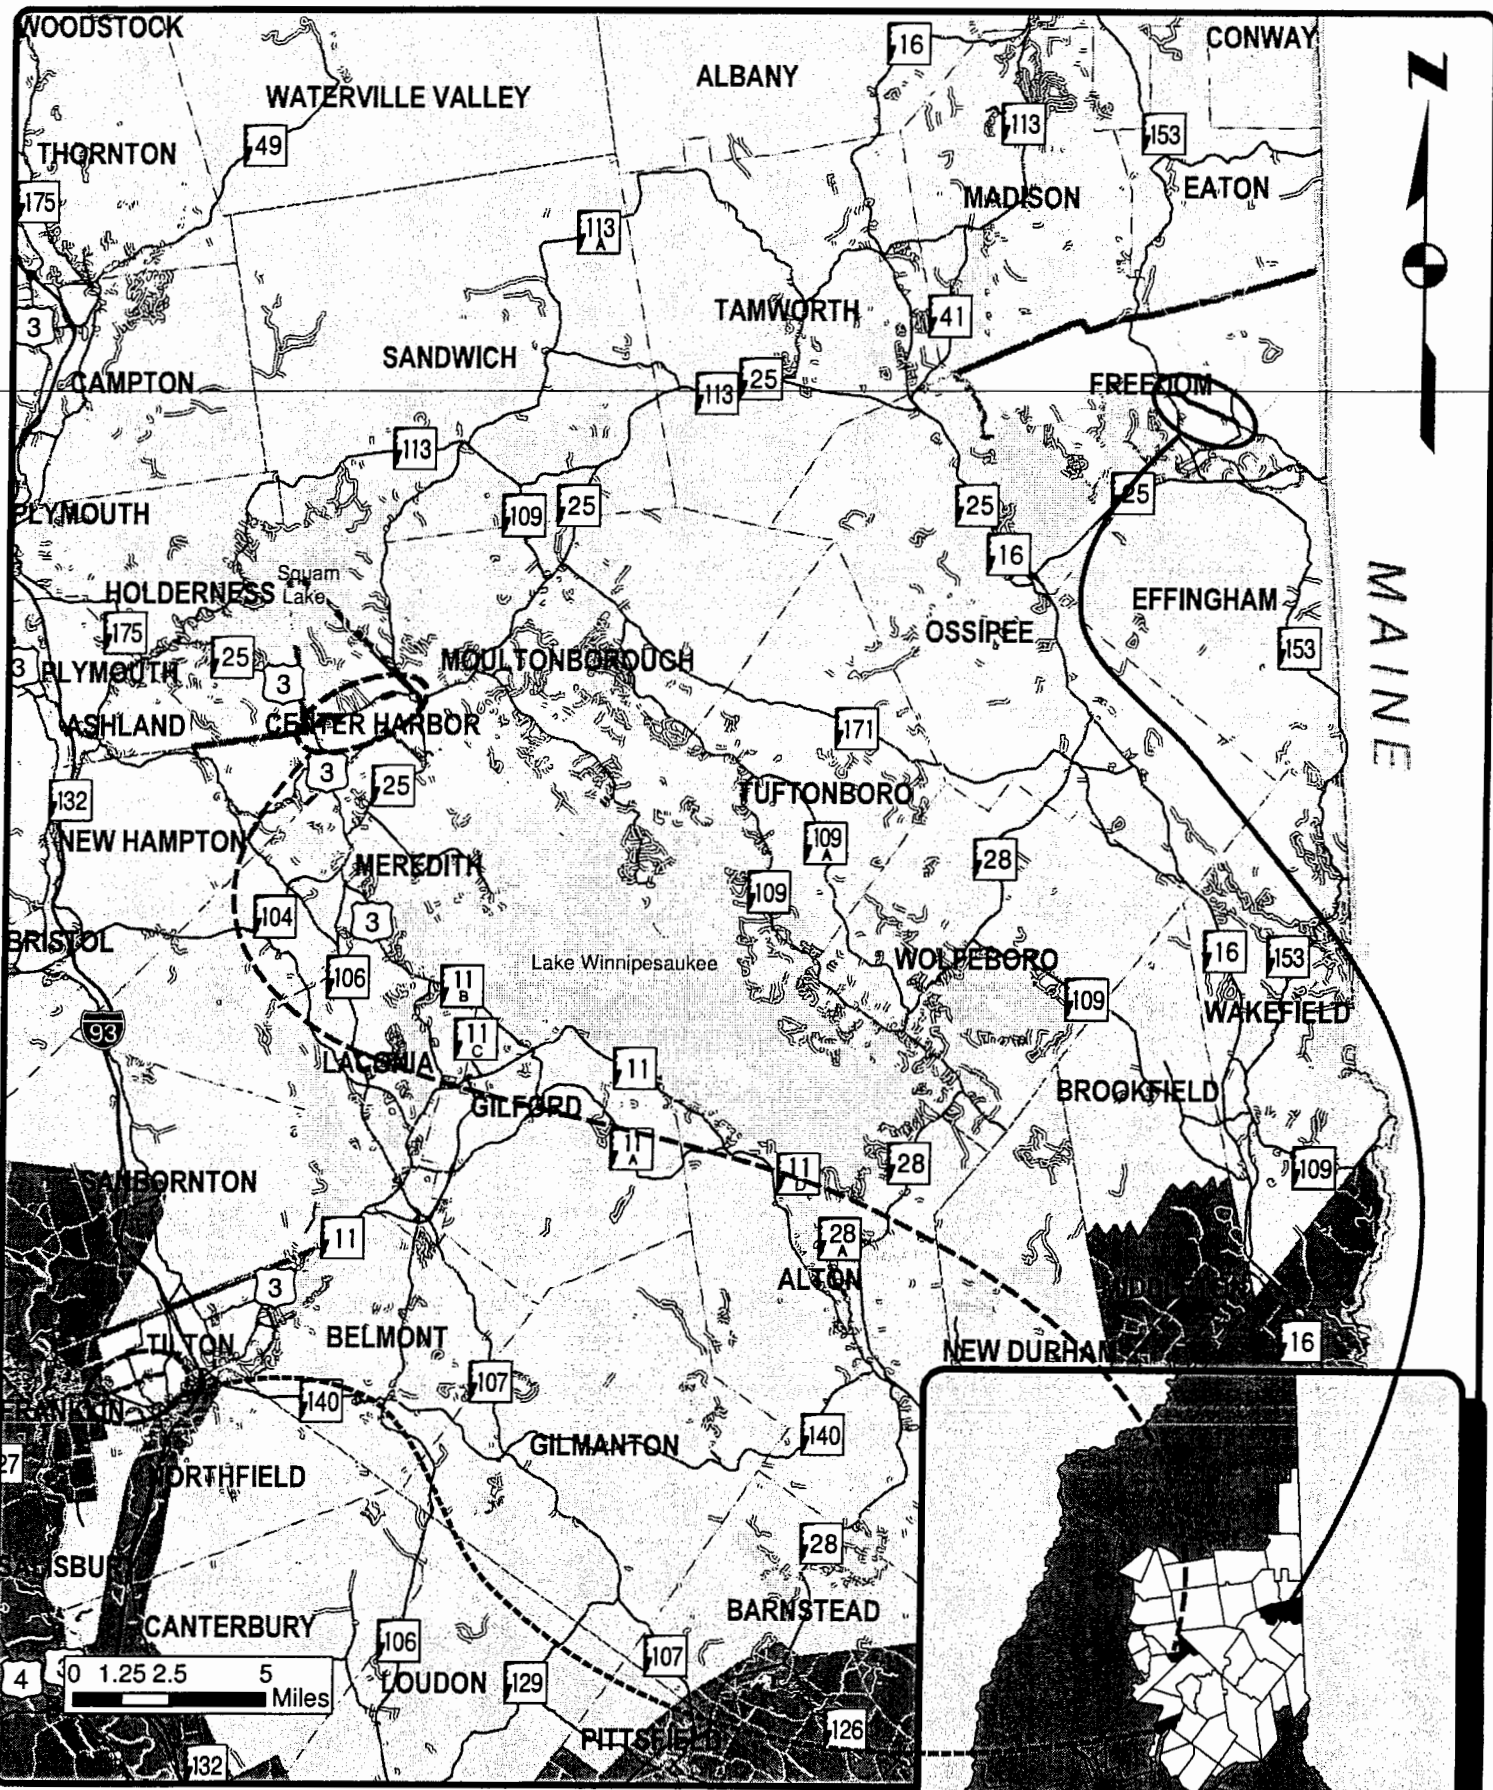

**CONTINGENCY:** A contingency amount of 5% of the contract amount is proposed to account for: a large quantity of paving to be performed during a time of unpredictable fuel and asphalt prices, and the fact that the project may extend over two construction seasons.

**PROJECT INITIATED:** Senate Bill 367.

**PROJECT EXPLANATION:** These roadways are located throughout District 3 and serve various functions. These pavements are in fair to poor condition. The intent of this project is to rehabilitate these roads and extend the service life. Work on these locations will include a combination of reclaim and sandwich pavement treatments along with minimal slope and ditch work. All of the proposed work will remain within the right-of-way.

**TRAFFIC IMPLICATIONS:** Minimal traffic implications are anticipated. One-lane, alternating two-way traffic will be utilized during work hours with traffic being restored to two lanes during non-work hours. Traffic will utilize an 11' minimum width with the use of flaggers when restricted to one lane. If this work cannot be handled without excessive backup, the work will be discontinued and normal traffic patterns will be restored.

**COMPLETION DATE:** Friday, June 26, 2015.
