**New Hampshire Homeland Security and Emergency Management (NHHSEM)
Emergency Management Performance Grant (EMPG) Guidance
FFY 2012**

(Grant Performance Period: October 1, 2011 through September 30, 2014)

The purpose of the FY 2012 Emergency Management Performance Grant (EMPG) Program is to assist State and Local Governments and other eligible agencies in preparing for all hazards. EMPG focuses on Planning, Organization/Administrative, Equipment, Training, Exercises, Mitigation and Maintenance/Sustainment to enhance and sustain all-hazards emergency management capabilities.

As part of the FY 2012 EMPG Program, DHS-FEMA identified an overarching **priority**:

Advancing “Whole Community” Security and Emergency Management: *“Whole Community” fosters a national emergency management approach and considers all aspects of a community to effectively prepare for, protect against, respond to, recover from, and mitigate against any terrorist attack or natural disaster. As the country experiences threats of terrorist attacks (foreign and domestic) and natural disasters, communities are challenged to develop collective, local abilities to withstand the potential impacts of these events, respond quickly, and recover in a way that sustains or improves the community’s overall well-being. Achieving this collective capacity calls for innovative approaches across the community, including emergency management to build up existing practices, institutions, and organizations that help make local communities successful, and that can leverage this infrastructure if and when an incident occurs.*

Effectiveness Measures – Quarterly Progress Reporting: As part of the EMPG Program administration, grantees are **required** to provide quarterly reports that provide sufficient detail for NH HSEM to measure progress of the funded project(s). The EMPG Quarterly Report form is available on NH HSEM’s website at: <http://www.nh.gov/safety/divisions/hsem/grants/documents/empg-quarterly-form.doc>

Cost Match: The EMPG Program has a 50 percent (50%) Federal and 50 percent (50%) Local cost match (cash or in-kind) requirement. Unless otherwise authorized by law, Federal funds cannot be matched with other Federal funds. To meet matching requirements, the grantee contributions must be *reasonable, allowable, allocable, and necessary* under the grant program and must comply with all Federal requirements and regulations.

Allowable Costs: EMPG funding is available for projects that fall into the categories of – ***Planning, Organization/Administrative, Equipment, Training, Exercises, Mitigation and Maintenance & Sustainment.*** The following list of possible projects and activities is meant to guide you in selecting projects for an EMPG grant submission. This list of suggested projects is not intended to be all-inclusive. Local communities or agencies may have other specific projects and activities that reflect specific local needs based on local capability assessments and local hazards.

Planning

FY 2012 EMPG Program funds may be used for a range of emergency management planning activities. Planning provides a methodical way to engage the whole community in thinking through the life cycle of potential crises, determining required capabilities, and establishing a framework for roles and responsibilities. Planning must include participation from all stakeholders in the community who are able to contribute critical perspectives and may have a role in executing the plan. Planning should be flexible enough to address incidents of varying types and magnitudes.

Planning activities may include, but are not limited to, the following:

- **Create/update your Local Emergency Operations Plan (LEOP) **** consistent with the Comprehensive Preparedness Guide (CPG) 101 v.2 November 2010 which serves as the foundation for State and local emergency planning. CPG 101 can be found at:
http://www.fema.gov/pdf/about/divisions/npd/CPG_101_V2.pdf.
- **Develop/Enhance an All-Hazards Mitigation Plan**** for your community, approvable by the Federal Emergency Management Agency (FEMA).
- Community-based planning to advance “whole community” security and emergency management.
- Modify existing incident management and emergency operations plans.
- Develop/enhance comprehensive emergency management plans.
- Develop/enhance large-scale and catastrophic event incident plans.

- Develop a local debris management plan.
- Develop/enhance a local shelter plan.
- Develop/enhance emergency management and operations plans to integrate citizen/volunteer and other non-governmental organization resources and participation.
- Develop/enhance other response and recovery plans, following the DHS program guidance.

**** A community must have the following two plans in place before NH HSEM will consider funding other projects: an updated LEOP and a FEMA approvable All-Hazards Mitigation Plan. Applicants may apply for funding for these plans in conjunction with other items.**

Organization/Administrative

EMPG Program funds may be used for all-hazards emergency management operations, staffing, and other day-to-day activities in support of emergency management. Proposed staffing activities should be linked to accomplishing emergency management-related projects and activities. This grant is project-driven.

- Maintain/upgrade an Emergency Operations Center and/or alternate EOC capable of accommodating staff to respond to local emergencies.
- Establish and maintain a call-down list for EOC staff.

- Develop/enhance systems to monitor training programs.

Equipment

Allowable equipment categories for the FY 2012 EMPG Program are listed on the web-based version of the Authorized Equipment List (AEL) on the Responder Knowledge Base (RKB), which is sponsored by FEMA at <http://www.rkb.us>. Unless otherwise stated, equipment must meet all mandatory regulatory and/or FEMA-adopted standards to be eligible for purchase using these funds. In addition, agencies will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

The **select allowable equipment** includes equipment from the following AEL Categories:

- [04] Information Technology
- [05] Cyber Security Enhancement Equipment
- [06] Interoperable Communications Equipment (see note below)
- [07] Detection Equipment
- [10] Power Equipment (i.e., generators)
- [11] CBRNE Reference Materials
- [12] CBRNE Incident Response Vehicles **
- [14] Physical Security Enhancement Equipment
- [19] CBRNE Logistical Support Equipment
- [21] Other Authorized Equipment (i.e., equipment to support an EOC)

** Incident Response Vehicles – Even though this equipment is eligible under the FEMA Authorized Equipment List (AEL), NH HSEM has a policy in place to provide criteria on how emergency response vehicles will be funded under the Emergency Management Performance Grant. All applications for this type of activity will be kept on file. Funding will be considered at the end of the grant performance period, and after all non-vehicle related Emergency Management project requests have been funded.

If you have questions concerning the eligibility of equipment not specifically addressed in the AEL, please contact the State EMPG Program Manager for clarification.

NOTE: Grantees that are using FY 2012 EMPG Program funds to support emergency communications activities should comply with the *FY 2012 SAFECOM Guidance on Emergency Communication Grants*. The guidance provides recommendations to grantees seeking funding for interoperable emergency communications projects, including allowable costs, items to consider when funding emergency communications projects, grants management best practices for emergency communications grants, and information on standards that ensure greater interoperability. The guidance is intended to ensure that Federally-funded investments are compatible and support national goals and objectives for improving interoperability nationwide. SAFECOM guidance can be found at <http://www.safecomprogram.gov/library/lists/library/DispForm.aspx?ID=334>.

The recipient shall also ensure projects support the Statewide Communication Interoperability Plan (SCIP).

Training

FY 2012 EMPG Program funds may be used for a range of emergency management-related training activities to enhance the capabilities of State and local emergency management personnel through the establishment, support, conduct, and attendance of training. Training should foster the development of a community oriented approach to emergency management that emphasizes engagement at the community level, strengthens best practices, and provides a path toward building sustainable resilience.

Training Activities may include, but are not limited to, the following:

- Attending training courses at the Emergency Management Institute.
- Attending a “field delivered” training course conducted by NH Fire Academy.
- Attending other local, state, or nationally sponsored training event that provides skills or knowledge relevant to emergency management.
- Completing FEMA Independent Study (IS) Courses.

In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.
- **Travel** - Travel costs (e.g., airfare, mileage, per diem, hotel) are allowable as expenses by employees who are on travel status for official business related to approved training.

Exercises

Exercises implemented with grant funds should evaluate performance of the capabilities required to respond to the exercise scenario. Exercise activities should follow HSEEP Guidance which can be found at <https://hseep.dhs.gov>. Grantees are encouraged to develop exercises that test their Local EOPs. *Before applying for EMPG funds for an exercise, please contact the State's Exercise/Training Officer on availability for HSEEP funding which is 100% compared to 50% under EMPG.*

Allowable exercise-related costs include:

- Conduct multi-agency EOC exercise (tabletop or functional) and forward report to include after action reports to NH HSEM (external evaluation of exercise is strongly encouraged). Exercises might involve any of the following scenarios:

- Overtime and Backfill - The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of time spent on the design, development and conduct of exercises are allowable expenses. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.

- Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs).
- Durable and non-durable goods purchased for installation and/or use beyond the scope of exercise conduct.

Mitigation Activities may include:

- Brick and mortar projects, such as, installing drainage ditches, enlarging culverts, or installing riprap. No annual maintenance activities allowed, such as brush removal, or drainage clearing.
- Communications activities, such as communications studies, compatibility studies, and/or purchasing of communications equipment for interoperability.

Maintenance and Sustainment

The use of FEMA preparedness grant funds for maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees are allowable under all active and future grant awards, unless otherwise noted. Grantees are reminded that **supplanting is not permitted under the EMPG Program**. Maintenance contracts and warranties, repair and replacement costs, upgrades, and/or user fees for equipment that was not originally purchased with preparedness grant funding may not be subsequently paid for with preparedness grant funding.

Maintenance and Sustainment may include:

- Maintenance Contracts and Warranties - To increase the useful life of the equipment, FEMA has determined that maintenance contracts and warranties may be purchased using grant funding from one FY to cover equipment purchased with funding from a different FY. The use of grant funding for the purchase of maintenance contracts and warranties must meet the following conditions:
 - Maintenance contracts and warranties may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing Congressional appropriations for specific programs, maintenance contracts and warranties must be purchased using funds from the same grant program used to purchase the original equipment
 - The term of the maintenance contract or warranty shall not exceed the period of performance of the grant to which the contract is being charged.

Maintenance and Sustainment

Maintenance and Sustainment may include (cont.):

- Repair and Replacement Costs - The cost of repair and replacement parts for equipment purchased using FEMA preparedness grant funding is an allowable expense
 - Repair and replacement parts may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing Congressional appropriations for specific programs, repair and replacement parts must be purchased using the same grant program used to purchase the original equipment
- Upgrades - FEMA preparedness grant funding may be used to upgrade previously purchased allowable equipment. For example, if the grantee purchased risk management software with EMPG Program funds in FY 2005 and would like to use FY 2012 grant funding to upgrade the software, this is allowable.
 - Upgrades may only be purchased for equipment that has been purchased using FEMA preparedness grant funding.
 - To avoid supplementing Congressional appropriations for specific programs, upgrades must be purchased using the same grant program used to purchase the original equipment.
- User fees - User fees are viewed as costs for specific services required to maintain and provide continued operation of equipment or systems. An example would be the recurring service fees associated with handheld radios or mobile data computers
 - User fees may only be paid for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing congressional appropriations for specific programs, user fees must be paid for using the same grant program used to purchase the original equipment.
 - The service time purchased shall not exceed the period of performance of the grant to which the user fee is being charged.

Metropolitan Medical Response System (MMRS) & Emergency Operations Center (EOC) Grant Programs

SELECTMEN'S MINUTES
January 13, 2014 Budget Public Hearing

MEMBERS PRESENT: Chairman Phil LoChiatto, Vice Chairman Kathleen DiFruscia, Roger Hohenberger and Al Letizio were present. Mr. McLeod was delayed and arrived at approximately 7:25 pm. David Sullivan, Town Administrator and Dana Call, Asst Town Administrator were also in attendance, along with several department heads. Mr. LoChiatto opened the meeting at approximately 7:00 pm and turned the meeting to Mr. Letizio. Mr. Letizio introduced several members of Boy Scout Troop 266: Willem Shattuck, Chandler Dreyfuss, Kyle Dreyfuss, Curtis Shattuck, Cole Kiersgard, Dylan Field, Rourke Curtin, Alex Lamon. The troop lead the Pledge of Allegiance, and they recited the scout law at the opening of the meeting.

ANNOUNCEMENTS/LIAISON REPORTS/CORRESPONDENCE / MINUTES: None.

NON-PUBLIC SESSION: Mr. Hohenberger motioned and Mr. Letizio seconded to enter into nonpublic session in accordance with RSA 91-A:3 II a. Roll call vote all "yes". The topic of discussion was personnel. The Board, Mr. Sullivan and Ms. Haas were in attendance. No decisions were made.

The public meeting resumed at approximately 7:10 pm.

BUDGET OVERVIEW PRESENTATION: Mr. Sullivan gave an overview presentation of the 2014 proposed operating budget and warrant articles. He noted that the departments, in conjunction with the Board of Selectmen, are presenting a budget with an overall increase of \$813,249, or 6.42%. Mr. Sullivan noted that we have made significant progress since the budget was first presented in November at an approximate 10% increase. Mr. Sullivan explained that some cuts to the operating budget were made and some CIP items are proposed to be financed, which will spread out the cost. The overall CIP portion of the budget reflects a minor decrease as compared to the capital portion of the budget in the prior year. The primary source of the overall Town budget increase is a result of the operating budget, an increase of \$497,010, and special articles, an increase of \$355,410, over the previous year. Mr. Sullivan noted that much of the special articles increase is due to three union contracts that were negotiated this year, which is good news because two of the unions have been without contract since 2011.

Mr. Sullivan presented the budget overview charts and provided a brief explanation for the increases and/or decreases in the departmental budgets, including any changes in salaries and benefits (including impacts of state retirement increases, a 53rd week of payroll and proposed cost of living increases for non-union employees). Mr. Sullivan noted there is one new employee proposed in the Police department for a Community Service Officer, as well as an increase from part-time to full-time for one employee in the Library. Mr. Sullivan also noted a

meeting. Mrs. Carpenter asked why it wouldn't be the Conservation Commission to oversee the forest. Mr. Hohenberger noted that there might be expertise beyond the Conservation Commission members that the Board might want to appoint. Further discussion ensued regarding the various laws pertaining to Town Forests and Forestry Committees. Mrs. DiFruscia motioned and Mr. McLeod seconded to recommend the article. Passed 5-0.

Article 26 – Operating Budget – Mr. LoChiatto explained the article, noting that the budget was presented earlier by Mr. Sullivan. Mr. Bob Coole, [REDACTED] asked if the term “service charges” could be added to the Retirement category to distinguish that it is only a service charge and not the cost of the retirement benefit, as the retirement benefit costs are built into the departmental budgets. The Board agreed to make this change for the Warrant. Mrs. Linda Farr, [REDACTED] asked about the Library position and why it would be proposed at 32 hours versus 40 hours if we are going to pay the benefits. Mr. Sullivan noted that it is ultimately up to the Library Trustees to propose staffing for the Library. After further discussion, it was noted that there was an incorrect notation in the article explanation, and that the request of the Trustees is to move the position to 40 hours. Ms. Betty Dunn asked about the Town van and what the plan is for future replacement. Mr. Sullivan noted that it is a 1998 van with approximately 90,000 miles. He noted that we have been maintaining the vehicle with approximately \$1,500 invested this year, and that it is not used every day due to the use of the Administrative cars, which many seniors prefer to use. He indicated it is likely the van will need to be replaced in 2016, and Ms. Dunn reiterated that the Board should review the need for replacing this vehicle.

Mr. Sullivan then noted a few areas of the budget for which Administration is proposing to make changes, due to additional information that has come to our attention since the budget wrap up in December. The Fire department was notified in early January that they have received the grant for an enclosed Emergency Management trailer/equipment. The total cost is estimated at \$14,220, with 50% matching available from the State for a net cost to the Town of \$7,110. Chief McPherson requested the appropriation be funded through the EM budget. Mr. Sullivan also noted that the Town has received additional notice from the LGC Healthtrust of surplus funds that will be returned to the Town in March 2014. An initial reduction to the overall health insurance budget of \$40,000 was taken, however, the department budgets can be reduced by an additional \$21,530. These funds represent net budget savings, after the employee and retiree portions are returned.

Mr. Hohenberger made a motion to move the start date for the proposed CSO position from July 1 to September 1, representing a \$10,000 reduction in the Police budget. In addition, Mr. Sullivan noted that with Animal Control duties transitioning to the CSO late in 2014, a further reduction of \$2,000 could be made in Animal Control budget. Mr. Letizio seconded the motion. Mr. LoChiatto noted that he finds it difficult to fund a position starting in September because there will be a

significant budgetary increase in the following year and it should be funded in total or not at all. Further discussion ensued regarding this change as well as the two other requested changes to the budget.

Mr. Hohenberger amended his motion to recommend the article as amended for all items, with a net reduction of \$19,310 and a new total of \$12,580,680, as well as the added notation in the Retirement section. Mr. McLeod seconded and the motion passed 5-0.

Mrs. DiFruscia motioned and Mr. McLeod seconded to recess the public hearing on the budget in order to open the public hearing on the bond issuance. Passed 5-0.

Mr. McLeod noted that due to his position on the Board of Windham Soccer Association, which will directly benefit from this article, he will recuse himself from the discussion and stepped down.

PUBLIC HEARING RECREATIONAL FIELD BOND: Mr. LoChiatto opened the bond public hearing and deferred to Mr. Sullivan to read the notice into the record.

*LEGAL NOTICE
TOWN OF WINDHAM, NH
PUBLIC HEARING NOTICE- RECREATIONAL FIELD (SPRUCE POND

*In accordance with RSA 33:8-A, the Board of Selectmen will hold a Public Hearing on a proposed bond issue in the amount of \$180,000 for the purpose of constructing a multi-use recreational field on town lot 3-B-601 (Spruce Pond) to accommodate such sports as soccer and lacrosse, to include but not limited to site work, field development, fencing, loaming and sodding, installation of a sprinkler system with an associated pump house and water storage tank, and an area for off-street parking, on **Monday, January 13, 2014 at 7:00 pm** at the Community Development Department. The total cost of the construction is estimated to be \$275,000.*

Dated December 31, 2013

Mr. Sullivan noted that it is the Town's intention to take out a two-year bond in 2014, with the first payment of principal and interest due in 2015.

Article 4 – \$275,000 for construction of recreational sportsfields (Spruce Pond) - Mr. Dennis Senibaldi, Recreation Committee, explained the article and the need for the funding noting the increased participation in all of the sports' leagues in town and the difficulty the Recreation Committee has in resting fields and keeping up with maintenance, due to the heavy use. He noted the project has been approved by the Planning Board and is ready to go, and has been approved as part of the CIP plan. Mrs. DiFruscia noted she recognizes the difficulty the Recreation Committee has had, and although the funding is difficult because of the budget proposal this year, she will
