EXPLANATION

The purpose of this agreement is to continue providing preventative maintenance, repairs and software improvement services for the building automation system associated with the heating, ventilation and air conditioning system located at the New Hampshire Hospital Acute Psychiatric Services facility.

The building automation system equipment is vital for proper heating, ventilation and air conditioning for approximately 198,000 square feet of space within the New Hampshire Hospital Acute Psychiatric Services facility. This equipment is critical to maintaining habitability standards for the resident psychiatric patient population as well as treatment staff and support personnel. The system in place is comprised of complex pieces of equipment and software requiring highly trained and specially licensed technicians. Due to the amount of equipment involved, the high replacement cost, and the critical population served, it is vital that the equipment be maintained through contracted services.

The Department will monitor contracted services through on-the-job observations and written summaries of the work performed, which must be provided by the Contractor after each scheduled or emergency service visit.

As referenced in Exhibit C-1, Revisions to General Provisions, Section 4 of the original contract, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) of the two (2) years available.

Should Governor and Council not approve this request, the building automation system at the New Hampshire Hospital Acute Psychiatric Services facility may not receive proper maintenance in a timely manner, which may result in poor habitability standards within the hospital, endangering the health and well-being of patients and staff.

Area served: New Hampshire Hospital, Concord, New Hampshire.

In the event that the Other Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette

EXPLANATION

This request is **retroactive** because the Department was unable to negotiate and finalize terms for a new agreement in time to present it to the Governor and Executive Council before the previous service agreement expired December 31, 2018. Because maintenance for the BAS at NHH-APS is critical to maintaining a habitable environment for patients and employees, maintenance services must be available at all times in the event of an equipment failure that cannot be repaired by on-duty staff.

On February 2, 2015, the Attorney General's Office approved a contract with Granite State Automation LLC for building automation and repair services at New Hampshire Hospital. A renewal option to extend the completion date of the contract from December 31, 2016 to December 31, 2018 was exercised with approval from the Governor and Executive Council on December 21, 2016 (Item #25).

On September 5, 2018, the Governor and Executive Council approved a **sole source** amendment to the contract with Granite State Automation for building automation and repair services at New Hampshire Hospital to provide improvements to the building automation system by replacing the outdated JCI Metasys platform with a Facility Explorer (FX) platform and providing server programming to collect data and track trends for all aspects of the BAS system, including restoring notifications and alarms.

The purpose of this agreement is to provide preventative maintenance, repairs and software improvement services for the BAS associated with the heating, ventilation and air conditioning system located at NHH-APS.

The BAS equipment is vital for proper heating, ventilation and air conditioning to approximately 198,000 square feet of space within the NHH-APS facility. This equipment is critical in maintaining habitability standards for the resident psychiatric patient population as well as treatment staff and support personnel. The system in place is comprised of complex pieces of equipment and software requiring highly trained and specially licensed technicians. Due to the amount of equipment involved, the high replacement cost, and the critical population served, it is vital that the equipment be maintained through contracted services.

This contract was competitively bid. On October 4, 2018, the Department issued a Request for Bids to solicit bids for the provision of preventative maintenance, repairs, and emergency services for the BAS located at NHH-APS facility and six (6) transitional housing buildings located within the Hugh J. Gallen State Office Complex. The request for bids was available on the Department of Health and Human Services website from October 4, 2018 through October 25, 2018. There were two bids submitted.

The bids were evaluated by a team of Department of Health and Human Services employees with knowledge of the BAS and the services needed at New Hampshire Hospital. The team also included staff with significant business and management expertise.

The bids were evaluated based on the criteria published in the Request for Bids. Granite State Automation LLC was selected. The bid summary sheet is attached.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 3 of 3

The attached contract calls for the provision of these services for two years. As referenced in the Request for Bids and in Exhibit C-1 of this contract, this Agreement has the option to extend for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Council.

Notwithstanding any other provision of the contract to the contrary, no services shall continue after June 30, 2019, and the Department shall not be liable for any payments for services provided after June 30, 2019, unless and until an appropriation for these services has been received from the State Legislature and funds encumbered for the SFY 2020-2021 biennium.

Should Governor and Executive Council not approve this request, the BAS at NHH-APS may not receive proper maintenance in a timely manner, which may result in poor habitability standards within the hospital, endangering the health and well-being of both patients and staff.

Area served: New Hampshire Hospital, Concord, NH.

Source of funds: Federal Funds: 26% from the U.S. Department of Health and Human Services, Centers for Medicare and Medicaid Services, Medical Assistance Program, Code of Federal Domestic Assistance Number (CFDA) 93.778, Federal Award Identification Number (FAIN) NH 20161, 70% General Funds, 4% Other Funds (provider fees).

In the event that Federal Funds become no longer available, no additional General Funds will be requested to support this contract.

Respectfully submitted,
