EXPLANATION

This project is part of District Six's portion of the Betterment Secondary Roadway Rehabilitation Program. Old Dover Road is an unnumbered secondary highway. The project involves reclaiming approximately 1.75 miles of Old Dover Road and subsequent full depth paving. The highway was not designed or constructed to handle the traffic volume it currently is subjected to. Base course materials and wearing course asphalt is substandard and is prevalent with the frost heaving and delaminated pavement.

The contingency amount is proposed to be 10% of the contract amount. This project is a Betterment funded program. Quantities were determined from Straight Line Diagram and field measurements. Engineered plans were not produced for this project.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Christopher D. Clement, Sr.
Commissioner
