The NH Turnpike System has twenty-one (21) hot water boiler and H.V.A.C. systems at the toll and maintenance facilities, Seabrook Welcome/Tourist Information Center, and the Administration Building that must be operational on a daily basis. This contract provides a fixed cost for the annual inspections, guaranteed emergency repairs and parts to ensure the boilers and H.V.A.C. systems will operate efficiently. Ten (10) of these facilities are occupied 24 hours a day to collect tolls and provide visitor services at the Seabrook Welcome/Tourist Information Center. Emergency response is necessary to ensure continuous operation.

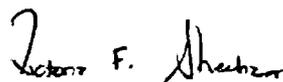

The Department advertised for bids in the Manchester Union Leader on February 8, 9 and 10, 2017 and on the Bureau of Turnpikes and Purchase and Property's websites from February 8, 2017 through the bid opening. Invitations to bid were also sent to four (4) bidders who submitted bids in prior years. Seven (7) sealed bids were received and publicly opened on March 2, 2017 (bid results attached). Pinnacle Rock Mechanical Services, LLC. was the low bidder.

The contract will begin subsequent to approval by the Governor and Council and end on June 30, 2017 (contract total \$65,580.00).

The Agreement has been approved by the Attorney General as to form and execution and the Department will verify the necessary funds are available pending enactment of the fiscal year 2018 and 2019 budget. Copies of the fully executed agreement are on file at the Secretary of State's Office and the Department of Administrative Services' Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.
