I. In this section:
(a) “Communication Technology” means an electronic device or process that:

II. A remotely located individual may comply with RSA 456-B:2-a, and any other requirement under the law of this state to appear before or be in the presence of a notary public at the time of a notarial act, by using communication technology to appear before a notary public.
III. A notary public located in this state may perform a notarial act using communication technology for a remotely located individual if:
(a) The notary public:
(1) Has personal knowledge under RSA 456-B:2-a, I, of the identity of the individual;

individual by using at least 2 different types of identity proofing;

visual recording of the performance of the notarial act; and
   (d) For a remotely located individual located outside the United States:

         (A) Is to be filed with or relates to a matter before a public official or
court, governmental entity, or other entity subject to the jurisdiction of the United States; or
         (B) Involves property located in the territorial jurisdiction of the United
States or involves a transaction substantially connected with the United States; and
      (2) The act of making the statement or signing the record is not prohibited by the
foreign state in which the remotely located individual is located.

IV. If a notarial act is performed under this section, the certificate of notarial act required by
RSA 456-B:7 and the short-form certificate provided in RSA 456-B:8 must indicate that the
notarial act was performed using communication technology.

V. A short-form certificate provided in RSA 456-B:8 for a notarial act subject to this section is
sufficient if it:
   (a) Complies with rules adopted under subparagraph VIII(a); or
   (b) Is in the form provided in RSA 456:B-8 and contains a statement substantially as
follows: “This notarial act involved the use of communication technology.”

VI. A notary public, a guardian, conservator, or agent of a notary public, or a personal
representative of a deceased notary public shall retain the audio-visual recording created under
subparagraph III(c) or cause the recording to be retained by a repository designated by or on
behalf of the person required to retain the recording. Unless a different period is required by rule
adopted under subparagraph VIII(d), the recording must be retained for a period of at least 10
years after the recording is made.

VII. Before a notary public performs the notary public’s initial notarial act under this section, the
notary public must notify the secretary of state that the notary public will be performing notarial
acts with respect to remotely located individuals and identify the technologies the notary public
intends to use. If the secretary of state has established standards under paragraph VIII and RSA
456-B:IV, for approval of communication technology or identity proofing, the communication
technology and identity proofing must conform to the standards.

VIII. In addition to adopting rules under RSA 456-B:8-b, IV, the secretary may adopt rules
under RSA 651-A regarding performance of a notarial act under this section. The rules may:
   (a) Prescribe the means of performing a notarial act involving a remotely located
individual using communication technology;
   (b) Establish standards for communication technology and identity proofing:
   (c) Establish requirements or procedures to approve providers of communication
technology and the process of identity proofing; and
   (d) Establish standards and a period for the retention of an audio-visual recording created
under subparagraph III(c).

IX. Before adopting, amending, or repealing a rule governing performance of a notarial act with
respect to a remotely located individual, the secretary of state must consider:
   (a) The most recent standards regarding the performance of a notarial act with respect to
a remotely located individual promulgated by national standard-setting organizations and the
recommendations of the National Association of Secretaries of State.
(b) Standards, practices, and customs of other jurisdictions that have laws substantially similar to this section; and
(c) The views of governmental officials and entities and other interested parties.

X. Unless the secretary of state has adopted a rule establishing standards for identity proofing under subparagraph VIII(b), a notary public shall comply with the credential analysis and authentication provisions of the Standards for Remote Online Notarization (Version 1) adopted by The Mortgage Industry Standards Maintenance Organization on August 28, 2019. Compliance with this paragraph satisfies the requirement of using at least 2 different types of identity proofing when performing a notarial act for a remotely located individual under this section.

**456-B:7 Certificate of Notarial Acts. —**

I. A notarial act must be evidenced by a certificate signed and dated by a notarial officer. The certificate must include identification of the jurisdiction in which the notarial act is performed and the title of the office of the notarial officer and may include the official stamp or seal of office. If the officer is a notary public, the certificate must also indicate the date of expiration, if any, of the commission of office, but omission of that information may subsequently be corrected. If the officer is a commissioned officer on active duty in the military service of the United States, it must also include the officer's rank.

II. A certificate of a notarial act is sufficient if it meets the requirements of paragraph I and it:
(a) Is in the short form set forth in RSA 456-B:8;
(b) Is in a form otherwise prescribed by the law of this state;
(c) Is in a form prescribed by the laws or regulations applicable in the place in which the notarial act was performed; or
(d) Sets forth the actions of the notarial officer and those are sufficient to meet the requirements of the designated notarial act.

On resignation from, or the revocation or expiration of, the notary public’s commission, or on the expiration of the date set forth in the stamping device, if any, the notary public shall disable the stamping device by destroying, defacing, damaging, erasing, or securing it against use in a manner that renders it unusable. On the death or adjudication of incompetency of a notary public, the notary public’s personal representative or guardian or any other person knowingly in possession of the stamping device shall render it unusable by destroying, defacing, damaging, erasing, or securing it against use in a manner that renders it unusable.

III. If a notary public’s stamping device is lost or stolen, the notary public or the notary public’s personal representative or guardian shall notify promptly the secretary of state on discovering that the device is lost or stolen.

456-B:8-b Notification Regarding Performance of Notarial Act on Electronic Record; Selection of Technology; Rules.

I. A notary public may select one or more tamper-evident technologies to perform notarial acts with respect to electronic records. A person may not require a notary public to perform a notarial act with respect to an electronic record with a technology that the notary public has not selected.

II. Before a notary public performs the notary public’s notarial act with respect to an electronic record, a notary public shall notify the secretary of state that the notary public will be performing notarial acts with respect to electronic records and identify the technology the notary public intends to use. If the secretary of state has established standards for approval of technology, the technology shall conform to the standards. If the technology conforms to the standards, the secretary of state shall approve the use of the technology.

III. The secretary of state may adopt rules under RSA 541-A to implement this chapter. Rules adopted regarding the performance of notarial acts with respect to electronic records may not require, or accord greater legal status or effect to, the implementation or application of a specific technology or technical specification.

IV. Unless the secretary of state has adopted a rule establishing standards for tamper-evident technology, a notary public shall attach or logically associate the notary public’s official stamp to an electronic record by use of a digital certificate complying with the X.509 standard adopted by the International Telecommunication Union or a similar industry-standard technology.

456-B:8-c Journal.

I. A notary public shall maintain a journal in which the notary public chronicles all notarial acts the notary public performs with respect to a remotely located individual under RSA 456-B:6-a. The notary public shall retain the journal for 10 years after the performance of the last notarial act chronicled in the journal.

II. A journal may be created on a tangible medium or in an electronic format. A notary public shall maintain only one journal at a time to chronicle all notarial acts performed regarding tangible records and one or more journals to chronicle all notarial acts performed regarding electronic records. If a journal is maintained on a tangible medium, it shall be a permanent, bound register, with numbered pages. If the journal is maintained in an electronic format, it shall be in a permanent tamper-evident electronic format complying with the rules of the secretary of state.

III. An entry in a journal shall be made contemporaneously with performance of the notarial act and contain the following information:

V. On resignation from, or the revocation or suspension of, the commission of a notary public, the notary public shall retain the journal in accordance with paragraph I and inform the secretary of state where the journal is located.

VI. Instead of retaining a journal as provided in paragraphs I and V, a current or former notary public may transmit the journal to a repository approved by the secretary of state.

VII. Upon the death or adjudication of incompetency of a current or former notary public, the personal representative or guardian of the notary public shall retain the journal as provided in paragraphs I or V or transmit the journal to a repository approved by the secretary of state.

456-B:8-d Validity of Notarial Acts. The failure of a notarial officer to perform a duty or meet a requirement specified in this chapter or RSA 455 does not invalidate a notarial act performed by the notarial officer. The validity of a notarial act under this chapter or RSA 455 does not prevent an aggrieved person from seeking to invalidate the record or transaction that is the subject of the notarial act or from seeking other remedies based on law of this state other than this chapter or law of the United States. This section does not validate a purported notarial act performed by an individual who does not have the authority to perform notarial acts.

456-B:8-e Relation to Electronic Signatures in Global and National Commerce Act. This chapter modifies, limits, and supersedes the Electronic Signatures in Global and National Commerce Act, 15 U.S.C. section 7001 et. seq., but does not modify, limit, or supersede section 101(c) of that act, 15 U.S.C. section 7001(c), or authorize electronic delivery of any of the notices described in section 103(b) of that act, 15 U.S.C. section 7003(b).

456-B:9 Notarial Acts Affected by This Act. – This chapter applies to notarial acts performed on or after its effective date.

456-B:10 Uniformity of Application and Construction. – This chapter shall be so interpreted to make uniform the law among those states enacting it.

456-B:11 Short Title. – This chapter may be cited as the Uniform Law on Notarial Acts.

RSA 551:2, III(b) Nothing in this paragraph shall be deemed to allow an electronic will or codicil. This paragraph shall apply only to wills executed on or after March 23, 2020.
