(NCIEA), Dover, NH (vendor code 158509), by increasing the price limitation by \$245,700.00 from \$245,700.00 to \$491,400.00, to serve the department as a technical advisor for the PACE innovative assessment and accountability system, effective upon Governor and Council approval, through June 30, 2020. This contract was originally approved by Governor and Council on December 19, 2018 (Item #58). 100% Federal Funds

Funds to support this request are anticipated to be available in the account titled Assessment-Federal in FY 20 upon the availability and continued appropriation of funds in the future operating budget:

EXPLANATION

In April 2018, the Department submitted an application to the U.S. Department of Education under Section 1204 Innovative Assessment Demonstration Authority of the Every Student Succeeds Act (ESSA) to waive certain federal student assessment regulations so that it could implement the Performance Assessment for Competency Education (PACE) system. The Department received approval on September 28, 2018. The original contract was approved by Governor and Council as **sole source** due to the fact that the NCIEA was specifically included in the approved application as being a lead technical and policy partner under the Innovative Assessment Demonstration Authority and designed the model approved in the application.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

The NCIEA, a NH-based national non-profit consulting firm, has been the lead technical and policy partner since the inception of PACE. PACE has been a pilot program in New Hampshire schools for the last three (3) years. NCIEA has been responsible for ensuring the quality and rigor of PACE common performance assessments and designing methods for evaluating the comparability of student results across districts. NCIEA has also produced the PACE technical documentation each year since 2015, along with other aspects of the annual report, to the U.S. Department of Education (USED). With the approval of this contract, NCIEA will be able to continue to play this critical role.

In the event Federal Funds no longer become available, General Funds will not be requested to support this program.

Respectfully submitted,

Frank Edelblut
Commissioner of Education

SCOTT F. MARION
President

Scott F. Marion is the President of the non-profit The National Center for the Improvement of Educational Assessment, Inc. Previously, he served as the Vice President of the Center since 2005 and as a senior associate from 2003-2005. The mission of the Center is to help states and districts foster higher student achievement through improved practices in educational assessment and accountability. The Center does this by:

- Providing customized support to states and districts in designing, implementing, and improving fair, effective, and legally defensible assessment and accountability programs. The Center's staff provides the full range of support, including technical analyses, policy support, documentation and communication, and training from designing an accountability system to meet a legislative mandate through designing effective programs in support of low-performing schools.
- Coordinating Technical Advisory Committees that help ensure a state's evolving assessment and accountability programs receive the best on-going technical advice possible, focused on the specific issues and decision-making needs of the individual state or district.
- Developing and disseminating practical standards for assessment and accountability programs that include specific information about what states and districts should do *today* to have technically sound programs.

As President, Dr. Marion consults with numerous states on such issues as optimal design of assessment and accountability systems, creating or documenting legally defensible approaches to accountability and educator evaluation, gathering validation evidence for accountability programs, and designing comprehensive assessment systems to serve both instructional and accountability purposes. In addition to his management role at the Center for Assessment, Dr. Marion assists in active leadership in the Center's efforts to develop practical professional standards through the Center's annual lecture series and as a regular contributor to professional publications and the annual conferences of AERA, NCME, and CCSSO.

As Wyoming's assessment director (1999-2003), Dr. Marion managed the K-12 testing program, the Wyoming Comprehensive Assessment System, overseeing the state's Uniform Reporting System, and generally overseeing all assessment-related activities at the Wyoming Department of Education. Wyoming's innovative high school competency assessment system—The Body of Evidence System—was the most ambitious project of his administration. Scott Marion worked through the entire cycle of development of the assessment system from initial design through incorporation into legislation, administrative rule, and into actual implementation. From 1997 Dr. Marion worked with department of education staff and educators in the field, the state board of education, advisory panels, and the governor's and legislative offices to design Wyoming's first statewide, standards-based assessment system.

Dr. Marion earned his Ph.D. at the University of Colorado at Boulder under mentorship of Professors Lorrie Shepard and Robert Linn. Dr. Marion started his career as a field biologist prior to earning his Master's of Science in Science and Environmental Education from the University of Maine.

The Center for Assessment

Charles A. DePascale is a Senior Associate at the non-profit The National Center for the Improvement of Educational Assessment, Inc. The mission of the Center is to help states and districts foster higher student achievement through improved practices in educational assessment and accountability.

Since joining the Center in 2002, Charlie has provided technical guidance and support in the design and use of assessment systems that support student, educator and school accountability systems through direct work with individual states and through participation in multi-state research projects, conference presentations, workshops, and publication of papers. He works with clients to uncover problems and solutions in complex assessment environments, promoting the understanding of the appropriate use and interpretation of assessment and assessment results to support educational policy. A career-long pursuit continues to be fostering understanding of the role of large-scale assessment within a comprehensive assessment system and the role of comprehensive assessment systems within PK-12 education systems.

As a Senior Associate, Charlie supported Maine, New Hampshire, Rhode Island, and Vermont in the design, implementation, and ongoing operations of the New England Common Assessment Program (NECAP) from 2003 through 2014. From 2005 – 2010, he supported Achieve, Pearson, and member states in the design and operations of the ADP Assessment Consortium, which at the time was the largest multi-state assessment effort to date, to create common end-of-course exams in Algebra 1 and Algebra 2.

He has also worked extensively and closely with the Rhode Island Department of Education since 2004 on their assessment and accountability initiatives; and has served as a member of the Massachusetts Technical Advisory Committee since 2002. Recently, he has been involved in several projects related to the comparability of assessment results for CCSSO, the Louisiana Department of Education, and Parcc Inc.

Charlie is an active participant in the New England Educational Research Organization (NEERO), where he has been a member of the Board of Directors since 1997 and served as President from 2000 to 2002. He also joined the Northeastern Educational Research Association (NERA) Board of Directors in 2011 and was elected President for 2015-2016.

REQUESTED ACTION

Authorize the Department of Education, Division of Learner Support to enter into a **sole source** contract with The National Center for the Improvement of Educational Assessment, Inc. (NCIEA), Dover, NH (vendor code 158509), in an amount not to exceed \$245,700.00 to serve the department as a technical advisor for the PACE innovative assessment and accountability system, effective upon Governor and Council approval, through June 30, 2019, with an option to renew for four (4) additional fiscal years. 100% Federal Funds

Funding is available in the account titled Federal Assessment as follows:

	<u>FY 19</u>
06-56-56-562010-25340000-102-500731 Contracts for Program Services	\$245,700.00

EXPLANATION

In April 2018, the Department submitted an application to the U.S. Department of Education under Section 1204 Innovative Assessment Demonstration Authority of the Every Student Succeeds Act (ESSA) to waive certain federal student assessment regulations so that it can implement the Performance Assessment for Competency Education (PACE) system. The Department received approval on September 28, 2018. The Department is requesting that this contract be approved as **sole source** due to the fact that the NCIEA is specifically included in the approved application as being a lead technical and policy partner under the Innovative Assessment Demonstration Authority and designed the model approved in the application.

The NCIEA, a NH-based national non-profit consulting firm, has been the lead technical and policy partner since the inception of PACE. PACE has been a pilot program in New Hampshire schools for the last three (3) years. NCIEA has been responsible for ensuring the quality and rigor of PACE common performance assessments and designing methods for evaluating the

comparability of student results across districts. NCIEA has also produced the PACE technical documentation each year since 2015, along with other aspects of the annual report, to the U.S. Department of Education (USED). With the approval of this contract, NCIEA will be able to continue to play this critical role.

In the event Federal Funds no longer become available, General Funds will not be requested to support this program.

Respectfully submitted,

Frank Edelblut
Commissioner of Education

9.3 Confidentiality of data shall be governed by N.H. RSA chapter 91-A or other existing law. Disclosure of data requires prior written approval of the State.

10. **TERMINATION.** In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. SCOTT F. MARION
President

Scott F. Marion is the President of the non-profit The National Center for the Improvement of Educational Assessment, Inc. Previously, he served as the Vice President of the Center since 2005 and as a senior associate from 2003-2005. The mission of the Center is to help states and districts foster higher student achievement through improved practices in educational assessment and accountability. The Center does this by:

- Providing customized support to states and districts in designing, implementing, and improving fair, effective, and legally defensible assessment and accountability programs. The Center's staff provides the full range of support, including technical analyses, policy support, documentation and communication, and training from designing an accountability system to meet a legislative mandate through designing effective programs in support of low-performing schools.
- Coordinating Technical Advisory Committees that help ensure a state's evolving assessment and accountability programs receive the best on-going technical advice possible, focused on the specific issues and decision-making needs of the individual state or district.
- Developing and disseminating practical standards for assessment and accountability programs that include specific information about what states and districts should do *today* to have technically sound programs.

As President, Dr. Marion consults with numerous states on such issues as optimal design of assessment and accountability systems, creating or documenting legally defensible approaches to accountability and educator evaluation, gathering validation evidence for accountability programs, and designing comprehensive assessment systems to serve both instructional and accountability purposes. In addition to his management role at the Center for Assessment, Dr. Marion assists in active leadership in the Center's efforts to develop practical professional standards through the Center's annual lecture series and as a regular contributor to professional publications and the annual conferences of AERA, NCME, and CCSSO.

As Wyoming's assessment director (1999-2003), Dr. Marion managed the K-12 testing program, the Wyoming Comprehensive Assessment System, overseeing the state's Uniform Reporting System, and generally overseeing all assessment-related activities at the Wyoming Department of Education. Wyoming's innovative high school competency assessment system—The Body of Evidence System—was the most ambitious project of his administration. Scott Marion worked through the entire cycle of development of the assessment system from initial design through incorporation into legislation, administrative rule, and into actual implementation. From 1997 Dr. Marion worked with department of education staff and educators in the field, the state board of education, advisory panels, and the governor's and legislative offices to design Wyoming's first statewide, standards-based assessment system.

Dr. Marion earned his Ph.D. at the University of Colorado at Boulder under mentorship of Professors Lorrie Shepard and Robert Linn. Dr. Marion started his career as a field biologist prior to earning his Master's of Science in Science and Environmental Education from the University of Maine.

PROFESSIONAL EXPERIENCE

Center for Assessment, Dover, NH 2014 – Present
Associate

Provide technical expertise and support related to the design and implementation of assessment and accountability systems. Notable projects include the New Hampshire Performance Assessment for Competency Education (PACE) project where I lead much of the design and analysis to support the technical quality of the innovative assessment system—including working with educators to build performance assessment capacity. Additionally, I am working to support states as they transition their assessment and accountability systems under the Every Student Succeeds Act through work with the Georgia Educator Effectiveness and Accountability Technical Advisory Committee, the New Hampshire Accountability Task Force, and partnerships with organizations such as the Hewlett Foundation, Council for Chief State School Officers, and KnowledgeWorks.

Boston College, Chestnut Hill, MA 2015 – 2017
Part-time Faculty

Design and taught graduate-level statistics courses for beginning through advanced doctoral students in the Lynch School of Education. Statistical theory is emphasized along with computer software applications. Served as the supervisor for graduate teaching assistants.

The Center for Assessment

Charles A. DePascale is a Senior Associate at the non-profit The National Center for the Improvement of Educational Assessment, Inc. The mission of the Center is to help states and districts foster higher student achievement through improved practices in educational assessment and accountability.

Since joining the Center in 2002, Charlie has provided technical guidance and support in the design and use of assessment systems that support student, educator and school accountability systems through direct work with individual states and through participation in multi-state research projects, conference presentations, workshops, and publication of papers. He works with clients to uncover problems and solutions in complex assessment environments, promoting the understanding of the appropriate use and interpretation of assessment and assessment results to support educational policy. A career-long pursuit continues to be fostering understanding of the role of large-scale assessment within a comprehensive assessment system and the role of comprehensive assessment systems within PK-12 education systems.

As a Senior Associate, Charlie supported Maine, New Hampshire, Rhode Island, and Vermont in the design, implementation, and ongoing operations of the New England Common Assessment Program (NECAP) from 2003 through 2014. From 2005 – 2010, he supported Achieve, Pearson, and member states in the design and operations of the ADP Assessment Consortium, which at the time was the largest multi-state assessment effort to date, to create common end-of-course exams in Algebra 1 and Algebra 2.

He has also worked extensively and closely with the Rhode Island Department of Education since 2004 on their assessment and accountability initiatives; and has served as a member of the Massachusetts Technical Advisory Committee since 2002. Recently, he has been involved in several projects related to the comparability of assessment results for CCSSO, the Louisiana Department of Education, and Parcc Inc.

Charlie is an active participant in the New England Educational Research Organization (NEERO), where he has been a member of the Board of Directors since 1997 and served as President from 2000 to 2002. He also joined the Northeastern Educational Research Association (NERA) Board of Directors in 2011 and was elected President for 2015-2016.
