EXPLANATION

The purpose of this request is to ensure continued compliance by the Public Health Laboratories with federal statutes that regulate clinical laboratories, as revised by the Clinical Laboratory Improvement Amendments of 1988 (CLIA), Part 493, subpart M. The Centers for Medicare & Medicaid Services' federal regulatory standard, Federal Register 42 CFR Part 493, Clinical Laboratory Amendments of 1988 (CLIA) applies to all clinical laboratory testing performed on humans in the United States, except clinical trials and basic research.

The laboratory must have a director who meets the qualification requirements of Federal Register 42 CFR Part §493.1443 and provide overall management and direction. The Laboratory Director must possess a current license issued in the State of New Hampshire. A pathologist, Board Certified in Anatomic and/or Clinical Pathology meets the qualifications for "CLIA Laboratory Director" in New Hampshire's Public Health Laboratories.

Laboratory services will continue to be provided, which will satisfy the Clinical Laboratory Improvement Amendments of 1988 (CLIA) requirement for a Laboratory Director for high complexity testing. Although the Laboratory Director has the option to delegate some of their responsibilities, they remain ultimately accountable and must ensure that all laboratory activities and testing are properly performed, and applicable CLIA regulations are met. It is the Laboratory Director's responsibility to ensure that the Public Health Laboratories develops and uses a quality system approach to laboratory testing that provides accurate and reliable test results.

The Department employs no individual, who meets the CLIA qualifications. Contracting for these services is the most cost-effective means to comply with the federal mandate. Daniel F. Jones, MD, a New Hampshire Board certified physician, NH License #14842, was selected for this project through a competitive bid process.

As referenced in the Request for Bids and in Exhibit C-1 of this contract, Department has the option to extend contract services for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council. The Department is exercising the option to renew contract services for two (2) of the four (4) years available.

The Contractor successfully fulfilled and achieved the performance measures in the original contract. The Department has elected to extend this contract to continue to meet the CLIA, Part 493, subpart M requirements for the public health lab.

The following performance measures will be used to measure the effectiveness of the amendment agreement.

- The CLIA Laboratory Director must attend at least one (1) meeting, per contract year, with the Public Health Lab Management Team with attendance at the meeting documented in the meeting minutes;
- The CLIA Laboratory Director must meet with the Quality Manager and/or other Laboratory staff designated by the Bureau Chief, Bureau of Laboratory Services on-site on a quarterly basis per contract year;
- One hundred percent (100%) of Corrective Action/Incident reports must be reviewed by the CLIA Laboratory Director, and documented, within one (1) month of the event.

- One hundred percent (100%) of Clinical Procedure Manuals and Method Validation plans, must be reviewed by the CLIA Laboratory Director, and documented, within one (1) month, prior to patient testing with the methods begin.

Should the Governor and Executive Council not approve this request, the New Hampshire Public Health Laboratories would be out of compliance with the Centers for Medicare and Medicaid Services' federal regulations. Noncompliance with the federal regulations may result in suspension, limitation, or revocation of its license to operate the Public Health Laboratories.

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division of Public Health Services, Public Health Laboratories to enter into a **retroactive** agreement with Daniel F. Jones, MD (Vendor #TBD), 32 Elm Street, Norwich, VT 05055, to provide pathologist services to satisfy the Clinical Laboratory Improvement Amendments (CLIA) requirement for a Laboratory Director for laboratories that perform high complexity testing, in an amount not to exceed \$106,500 effective upon Governor and Executive Council approval through June 30, 2019. 100% General Funds.

Funds to support this request are available in the following account in State Fiscal Year 2016 and State Fiscal Year 2017 and anticipated to be available in State Fiscal Year 2018 and State Fiscal Year 2019 upon the availability and continued appropriation of funds in the future operating budgets, with the authority to adjust encumbrances between state fiscal years if needed and justified without further approval from the Governor and Executive Council.

Fiscal Year	Class/Object	Title	Activity Code	Amount

2017	102-500731	Contracts for Program Services	90059000	\$30,000
2018	102-500731	Contracts for Program Services	90059000	\$30,500
2019	102-500731	Contracts for Program Services	90059000	\$31,000
			Total:	\$106,500

EXPLANATION

The purpose of this request is to ensure continued compliance by the Public Health Laboratories with federal statutes that regulate clinical laboratories as revised by the Clinical Laboratory Improvement Amendments (CLIA) Part 493, subpart M. A pathologist, Board Certified in Anatomic and/or Clinical Pathology or other individual qualified under the CLIA regulations is needed to meet the qualifications for "Laboratory Director." No individual who meets the CLIA qualification is employed by the Department. Contracting for these services is the most cost-effective means to comply with the federal mandate.

This is a **retroactive** agreement because there was a delay in receiving the executed documents from the vendor. The Public Health Laboratories cannot be without a CLIA Laboratory Director per federal requirements. Dr. Jones agreed to assume the responsibility of the New Hampshire CLIA Laboratory Director prior to the contract approval of Governor and Executive Council in order for the Public Health Laboratories to remain in compliance.

This contract was competitively bid. On October 15, 2015 the Department issued a Request for Proposals to solicit proposals to provide pathologist services to satisfy the Clinical Laboratory Improvement Amendments (CLIA) requirement for a Laboratory Director for laboratories that perform high complexity testing. The request for proposals was available on the Department of Health and Human Services website from October 15, 2015 through December 4, 2015. There were two proposals submitted.

These proposals were evaluated based on the criteria published in the Request for Proposals by a team of individuals with the necessary expertise. Daniel F. Jones, MD was selected.

This contract contains renewal language that allows for up to four (4) additional years, subject to the continued availability of funds, satisfactory performance of services and approval by the Governor and Executive Council.

Should the Governor and Executive Council not approve this request the New Hampshire Public Health Laboratories would not be in compliance with the Center for Medicaid and Medicare Services' federal regulations which may result in suspension, limitation, or revocation of its license to operate.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I.
