

PUBLIC NOTICE PRE-PROCESSING ABSENTEE BALLOTS

Exeter

Pre-processing of absentee ballots (opening the outer envelope ONLY) will occur on **Friday, October 30th in the Nowak Room of the Town Office Building.**

The partial processing will consist of opening the outer envelope of the absentee envelope and examining the inner envelope for a signature on the affidavit. The inner envelope will not be opened until voting day at the polls.

When it is determined that the absentee ballot inner envelope has a valid signature, the Moderator will read the voters name and address and the voter's checkbox will be highlighted on the checklist, unless there is a challenge to the voter's qualification(s) to vote.

The pre-processing date is the only opportunity to challenge an absentee voter's qualifications to vote in the Primary.

NOTE: Face coverings or masks and social distancing is required in the Town Office Building
